WASTE OF WATER.

MAYOR'S OFFICE.

BOSTON 9, May 2, 1921.

To Department Heads:

GENTLEMEN,—It is the opinion of the Commissioner of Public Works that there is now a large waste of the water furnished the various city departments by the Public Works Department, a large proportion of this waste being due to improper fixtures.

I have therefore requested the Commissioner of Public Works to detail a plumbing inspector from his department to visit the various city building and to indicate what repairs or readjustments should be made to prevent waste in the water supply.

You are hereby directed to allow the plumbing inspector from the Public Works Department to make such repairs as he believes are essential, and these repairs should be paid for by your department out of your appropriation.

Very truly yours,

ANDREW J. PETERS, Mayor.

MARKET LEASE.

On May 11 the Mayor approved a lease to Lord & Spencer, Inc., of cellar No. 21, north side of Quiney Market, for a term of ten years from October 1, 1919, at quarterly rental of \$258.58. This lease has been held up pending the settlement of the estate of Edwin R. Lord, former lessee.

STREET COMMISSIONERS.

BOSTON, May 10, 1921.

Brigham D. James, Trustee, has agreed to accept the sum of \$50 as full payment for all land taken from, all rights acquired in, and all damages occasioned to his estate on Temple street by the extension of said street under the Street Commissioners order of October 15, 1914.

May 9, 1921.

Ordered, That this Board deeming it necessary does hereby order that the sewerage works hereinafter described be constructed, and does hereby take for said city for its sewerage works, the lands, rights and easements hereinafter described. Said lands are shown on a plan marked "City of Boston, Plan No. 393, Sewerage Seminole Street, Dorchester-Hyde Park, April 22, 1921, F. O. Whitney, Chief Engineer Street Laying Out Department," deposited in the office of the Public Works Department, Sewer Service, of said city, and said lands, rights and easements, and said works to be constructed are as follows:

The right and easement is taken to lay and maintain sewerage works in the following described lands, exclusive of any interest in trees, buildings or other structures standing thereon, reserving to the owners thereof the right to use the lands for any purpose except such as may injure or obstruct said works, and except for placing or maintaining any structure on said lands not authorized in writing by the Mayor of said city; trees, buildings or other structures standing upon or affixed to the land in which an easement is hereby taken are to be removed therefrom within thirty days following a notice of the city's intention to enter upon said taking for the purpose of constructing said sewerage works. Said lands are in that part of Boston formerly Dorchester-Hyde Park and are bounded as follows:

A parcel of land, owners unknown, being part of the private way known as Seminole street, bounded:

West by Wood avenue, eight and 63/100 feet; northwest by another part of Seminole street, nine hundred sixty-nine and 7/100 feet; northeast by Oakland street, six and 38/100 feet; and southeast by another part of Seminole street, nine hundred seventy-three and 12/100 feet: containing fifty-eight hundred twenty-seven square feet more or less.

The sewerage works to be constructed are as follows: A 12-inch pipe sanitary sewer about 900 feet in length.

Betterments are to be assessed for the making of the improvement ordered herein.

This Board determines that no person sustains damages in his estate by the taking of said easement and construction of said sewer and awards no damages therefor.

Ordered, That this Board estimates that the lots abutting the northwesterly side of said street within a maximum depth of approximately 100 feet and the abutting lots on the southeasterly side of said street within a maximum depth of 85 feet, will receive benefit or advantage, other than the general advantage to the community, from the improvement herein ordered, each of the particular lots within said limits, to the amount respectively set against it herein;

said lots and the supposed owners thereof being shown on a plan marked "City of Boston Plan No. 393, Sewerage Works Seminole Street, Dorchester-Hyde Park, April 22, 1921, F. O. Whitney, Chief Engineer Street Laying-Out Department," and on file in the office of said department.

BOSTON NOTES.

PORT OF BOSTON.

Best of natural harbors, sheltered, spacious for anchorage, main ship channel 35 feet in depth at low tide, near open sea, area about 6,300 acres; waterfront (*i. e.*, lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water. A 45-foot channel from entrance of harbor to President Roads, and 40-foot from there to wharves will be dredged in the near future. New Commonwealth Pier No. 5, South Boston, 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space; total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. New Commonwealth Pier No. 1, East Boston, 900 feet long, costing State \$764,000 for site and about \$300,000 for construction. New dry dock at South Boston (probably the largest in world), completed in 1919, 1,200 feet long and 120 wide, costing over \$3,000,000 and taken by U. S. Government at total cost of same to State. Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 146, of which 8 are owned by the City. There are 22 foreign steamship lines with regular sailings to and from Boston and 10 coastwise lines. In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, East Boston, will be filled in and used for extensive commercial development under State control.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the State, the price being \$1,317,510, quickly followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space, of over 1,650,000 square feet. The total outlay for the plant was about \$26,000,000.

Total Federal expenditure for improvement of Boston Harbor from 1790 to June 30, 1918, \$12,487,842; total expended and provided for by State, \$15,986,832 since 1870.

PUBLIC RECREATION IN BOSTON.

Number of large parks, 24; separate playgrounds, 42, with total of 327 acres, also 14 playgrounds in parks, with area of 155 acres; small parks and squares, 75; total areas, 2,688.5 acres. Cost of Main Park System, *i. e.*, 1,386 acres, land and construction (since 1877 when begun), \$11,788,065; of Marine Park System, *i. e.*, 457.9 acres (since 1883), \$4,436,697; of all other parks and public grounds, \$2,357,009 of separate playgrounds, \$4,416,315. Total cost, \$22,998,086.

The leading attraction of the Main Park System is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1920

being \$4,408,244. There are also within the city limits 958 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; 9 beach baths and 7 floating baths open during summer; indoor gymnasias, 11; total number of indoor baths taken in year 1919, 1,549,480, of which 75 per cent were by men and boys.

Park and Recreation Department maintenance for 1919-20, \$1,075,287 or 121,179 more than in 1918. Outlay for playground improvements, \$105,342; for park improvements, \$257,081, of which \$79,067 was from Parkman Fund income. Gross debt for parks outstanding February 1, 1920, \$10,896,550; for playgrounds, \$2,397,300; total, \$13,293,850 or \$960,311 less than in 1919.

Including the State assessments of \$886,211 for Metropolitan parks, boulevards, etc. and \$232,968 for Charles River Basin improvements, the total expended for public recreation purposes in 1919 was \$2,556,889 or \$14,757 less than in 1918.

Total valuation of city properties devoted to recreation, \$69,072,400 (including \$55,112,400 for Boston Common and Public Garden), which far exceeds that of any other American city except New York. The L Street seaside bath, opened in 1866, was the first municipal bath established in the United States, so far as known.

BOSTON BANK STATISTICS, 1919-20.

Bank clearings or exchanges in year 1919 show the largest total on record in Boston, *viz.*, \$17,902,682,762, an increase over 1918 of \$2,401,597,454 or 15.49 per cent, and over 1917 of 41.36 per cent. Highest single day's clearings on record, \$112,803,738, *i. e.*, on December 16, 1919. Highest on record for a single month, \$1,927,686,674, *viz.*, December, 1919. Total clearings for first three months of 1920, \$4,814,181,761 or 24.55 per cent more than in 1919. On February 28, 1920, the 15 national banks showed aggregate capital of \$28,950,000; surplus and undivided profits, \$48,655,103; deposits, \$439,142,341; loans and discounts, \$359,501,955. On same date, the 30 trust companies showed aggregate capital of \$26,901,100; surplus and undivided profits, \$34,440,284; deposits, \$371,395,851; loans and discounts, \$326,767,150; 26 trust companies each have a savings department with total deposits of \$69,380,933. Total resources of the national banks, \$601,284,213 or \$37,511,275 more than in March, 1919; of the trust companies, \$513,939,691; grand total of the 45 banks, \$1,115,223,904 or \$106,070,844 more than in 1919. Savings banks, 24 with \$341,215,952 deposits (as of October 31, 1919); cooperative banks, 39, with total assets of \$36,369,400 (as of October 31).

Among the twelve Federal Reserve Banks, that of Boston on April 9, 1920, ranked fourth in these respects, *viz.*, total resources, total reserves, gross deposits and F. R. notes in circulation; fifth as to capital paid in and surplus, while as to total earning assets and total discounts (bills on hand) it stood sixth.

On September 12, 1919, the resources of the 7,785 national banks, which are all members of the Federal Reserve System, established in 1914, amounted to \$21,615,000,000; total deposits, \$15,924,-

865,000. The number of State banks and trust companies belonging to the Federal Reserve System increased from 250 to 936 during the year 1918. All the trust companies in Boston are now members.

The First National Bank of Boston has next to the largest foreign business among the national banks in the United States, having a branch bank in Buenos Aires, Argentina, and active bank accounts in the principal foreign cities.

The Boston Clearing House, established in 1856, ranks second to that of New York in number of checks cleared, *viz.*, 35,300 daily average.

FOREIGN TRADE OF UNITED STATES, CALENDAR YEAR, 1919, WITH RANK OF TEN LEADING PORTS.

Exports \$7,922,150,592 or \$1,773,063,047 more than in 1918 and the highest total on record.

Imports, \$3,904,406,327 or \$873,193,617 more than in 1918 and the highest for imports. Total foreign commerce in 1919, \$11,826,556,919 or \$2,646,256,664 (*i. e.*, 28.82 per cent) more than in 1918. Excess of exports over imports, \$4,017,744,265.

New York, ranking first among United States ports, handled 46.69 per cent of total commerce, or 4.69 per cent more than in 1918; New Orleans (2nd) 6.26 per cent; Philadelphia (3rd) 5.72 per cent; Boston (4th) 5.36 per cent; Seattle (5th) 4.13 per cent; Galveston (6th) 4.10 per cent; San Francisco (7th) 4.04 per cent; Baltimore (8th) 3.32 per cent; Detroit (9th) 3.14 per cent; Buffalo (10th) 2.50 per cent. Of value of all imports, 69.14 per cent free of duty. Total duties collected, \$249,774,758 or 44.62 per cent more than in 1918. Of total export value, 70.30 per cent applied to manufactured and partly manufactured materials, 20.78 per cent to crude materials for use in manufacturing and 8.75 per cent to foodstuffs (crude) and food animals.

Boston's rank for many years as the second importing port changed to fourth place in 1917, Seattle taking second place and San Francisco third, probably due to war conditions. In 1918 Boston advanced to third place and was but slightly behind Seattle. In 1919 it regained its former rank of second.

McKendry to the position of storekeeper, to take effect Apr. 22, 1921, and recommending that his salary be established at the rate of twenty-four dollars (\$24) per week.

Placed on file.

On motion, it was

ORDERED, That the salary of George A. McKendry, storekeeper, be established at the rate of twenty-four dollars (\$24) per week, to take effect Apr. 22, 1921, and to continue until otherwise ordered.

AMENDMENT TO SCHEDULE OF EXTRA COMPENSATION FOR JANITOR SERVICE.

On motion, it was

ORDERED, That the Schedule of Extra Compensation for Janitor Service is hereby amended as follows, to take effect May 1, 1921:

Section 1, paragraphs 1, 2 and 3. Strike out the paragraphs and substitute the following:

1. The janitor shall be paid for his attendance, supervision of the building, and operation of the heating and ventilating plant at the following rates:

For occupancy up to 9:30

p. m. \$3.00

For occupancy from 9:30

to 10:30 p. m. at the

rate of \$1.00 per hour

For occupancy from 10:30

to 11:30 p. m. at the

rate of \$2.00 per hour

2. The janitor of each building where one or more assistants is authorized, as set forth in paragraph 10 of this section shall be allowed and paid for each such assistant so authorized and actually employed at the following rates:

For occupancy up to 9:30

p. m. \$2.00

For occupancy from 9:30

to 10:30 p. m. at the

rate of \$1.00 per hour

For occupancy from 10:30

to 11:30 p. m., at the

rate of \$2.00 per hour

3. It is to be understood that the above compensation is for the services rendered for occupancy of the accommodations used up to the time set forth above, but that fifteen minutes are allowed for vacating the premises after the close of such activities, and that such time is not to be taken into consideration in the above compensation, and that neither the janitor nor his assistant is to receive any additional compensation for such time. Compensation for the janitor and his assistants at the above rates will be allowed for the actual time the accommodations are used (exclusive of the fifteen minutes allowed for vacating the premises), but no fraction of an hour smaller than one-quarter shall be reported or paid for.

CERTIFICATION OF AREAS, DEARBORN SCHOOL.

A communication was received from the Schoolhouse Custodian, under date of May 2, 1921, submitting a certification of the areas of the new addition to the Dearborn School to be added to the areas already certified for that building, upon which the salary of the janitor is based, to take effect Apr. 29, 1921.

Passed under a suspension of the rule.

CHARLES FRANKLIN BRIGGS SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Walk Hill and Wenham streets, Forest Hills, be named Charles Franklin Briggs square, in memory of Private Briggs of the 30th Infantry, who fell in action at the second battle of the Marne while serving his country, and that said space be suitably designated with signs.

Passed under a suspension of the rule.

MATHEW LEARY SQUARE.

Coun. BRICKLEY offered an order—That the open space at the junction of Meridian, Havre, Decatur and Gove streets, East Boston, be named Mathew Leary square, in honor of Private Mathew Leary of Company F, 101st Infantry, who died while in the service of the United States, and that said location be marked with signs.

Passed under a suspension of the rule.

LEAVE OF ABSENCE FOR SERVICE MEN.

Coun. BRICKLEY offered an order—That until otherwise ordered the heads of departments be authorized to allow each year leave of absence, without loss of pay, to members of all branches of the Army Reserve Corps, Naval Reserve Force, National Guard and United States Citizens Training Camps to attend the annual tour of duty and service school.

Referred to the Executive Committee.

Coun. BRICKLEY offered an order—That until otherwise ordered the heads of departments be authorized to allow each year leave of absence, without loss of pay, to members of the Grand Army of the Republic, Spanish-American War Veterans, the American Legion and the Veterans of Foreign Wars to attend their annual encampments or conventions.

Referred to the Executive Committee.

SALARY INCREASE, DORCHESTER COURT OFFICER.

Coun. COLLINS offered an order—That chapter 321 of the Acts of 1921, entitled "An Act Increasing the Salary of the Court Officer of the Municipal Court of the Dorchester District of the City of Boston," be and the same is hereby accepted.

Referred to the Executive Committee.

RAYMOND EARL BENISON SQUARE.

Coun. WATSON offered an order—That the space at the junction of Bartlett and Dudley streets, Roxbury, be named Raymond Earl Benison square, in memory of R. E. Benison, M. D., who lost his life during the World War while serving as surgeon on the ship "Malta," and that said space be suitably marked by signs.

Coun. WATSON—Mr. President, I would say in connection with this order I have introduced that I have two letters that were given to me today by the boy's mother. She came to me today, a nervous wreck, with tears in her eyes, and told me that yesterday in front of her home, at the junction of Kenilworth and Dudley streets, where she has resided for over thirty years, a square was dedicated to

the memory of John H. Dickey, another boy who made the supreme sacrifice, and it upset her so that she not rest until she came to City Hall to see someone, to see whether an arrangement could not be made to change the name of that square to a square in some other location, naming that square for her boy, in front of the home where he was born. She went to the Adjutant-General's office, and he sent her to me, knowing that I came from Roxbury. As I said a moment ago, she was in a pitiful condition, and I did what I could to allay her worries and send her home feeling as comfortable as possible under the circumstances, with the understanding that I would introduce this order today. This is just a short half-block from the boy's home, and the locality is unnamed. This is merely another example of the rather haphazard way in which we have started out—and I have been a party to it—to name squares and parks after boys who made the supreme sacrifice in the late World War. I am as much to blame for it as anyone, because I think I was one of the first, if not perhaps the first, who started to recognize the deeds of valor of these boys by honoring their memory through naming a locality in their vicinity in their honor. It has now reached a point where the squares are all gone and practically all the parks that we may name after those who died for you and me, Mr. President, have been named. The limit has been reached, and thousands of boys whose mothers, fathers, sisters and brothers were without influence or acquaintance with members of this body are going to be forgotten in the matter of keeping their memory green in this way. At the last meeting I offered an order, at the suggestion of another gentleman, to change the name of Wood Island Park to World's War Memorial Park, in honor of all the East Boston boys who died in the service of our country. Evidently my good intention has stirred up a hornet's nest in East Boston. It was not my intention to say a word today on the floor of this Council, as I realize that I have taken up so much of the time of the members by talking for the last ten or twelve weeks, sometimes by choice and at least once by necessity; but I felt when I read an article in the East Boston *Argus-Advocate* that I could not in justice to myself and my colleague, Coun. Brickley, who is also named in the article, avoid making reference to it at this time. I seem to have the effrontery to dare to do something for East Boston without consulting with or securing the approval of the newspapers therein published. I am always willing to listen to suggestions from any quarter, provided they come clean and without prejudice, bias or bigotry, and when they have a constructive purpose; but it so happens that I received no advice or request from East Boston whatsoever through the press. Everything that I have heard, particularly through the so-called press in East Boston, has condemned either myself or my colleagues for something we have tried to do that would, from our point of view, be for the benefit of East Boston. The East Boston *Argus-Advocate* is published and controlled by one J. B. Maccabe, M-a-c-c-a-b-e, all one word, who was an athletic director during the late war, to keep the soldiers across in good shape in an athletic way, not to fight but to play. He is the owner and proprietor of this eight-page advertising handbill. One, two, three, four, five, six pages of it are what they call patent boiler plate matter, that is, handed to them by the non-union shop in which they print the paper free gratis, in order to give them eight pages and make the people of East Boston believe that they have a real newspaper, a local paper, in East Boston. Mr. Maccabe and I have nothing in common. I assumed that he was rather broad, but unfortunately I did not know the facts, and I erred again. He is broad physically but not mentally or otherwise. Mr. Maccabe has an article in the East Boston *Argus-Advocate* of May 7, 1921, with great heavy headlines, "Island's Headache. City Council Passes Order Requesting New Name for Wood Island Park. Mayorality Vetoes. Disapproves Orders Relating to Monmouth, Putnam and Prescott Squares, on Ground of Public Policy." The article starts out as follows:

"Led by Councilors Watson and Brickley, the City Council is busy legislating for East Boston, in a manner not altogether popular with local residents. At last Monday's session, the irrepressible Jerry introduced an order changing the name of Wood Island Park to World War Memorial Park, which was unanimously passed, as were orders naming several public squares for World War veterans. These latter were offered last week, Monday, by Mr. Brickley and provided that the space, junction of Saratoga and Chelsea streets, be named Jeffrey A. O'Connell square, in honor of O'Connell, who died in the service."

Then it continues in regard to Mr. Brickley's other orders and the Mayor's veto. Then

it continues on under a sub-heading, "City Council's action gives East Boston a headache." I don't know about other individuals in East Boston getting a headache easily, but I didn't know that Mr. Maccabe could get a headache under any circumstances, because I never considered that he had a head. (Laughter in the gallery.) I am not speaking for the benefit of the gallery, but so that Mr. Maccabe may read in cold type what I think concerning him, as I am able to read here what he says concerning me. I know nothing about his personal character, and if I did that is his own business. But I never heard of Joseph B. Maccabe doing anything monumental, for East Boston or elsewhere. They tell me that he used to keep his automobile in the Paris Street Gymnasium, and I think that is true. They also tell me a few other things. It is for him to tell the public about some of the monumentally great things he has done for East Boston. The article continues on about my action in regard to David Hoffman Park. I introduced the order to have the name of Eagle Hill Park changed to "David Hoffman Park," because the boy's brother came to me and requested it. I did it, as I would do it again under such circumstances. David Hoffman, the son of a Hebrew immigrant, was washed off a mine sweeper and lost his life, and Admiral Dunn told me that he met a hero's death but because his name was Hoffman, because he was a son of one of the later immigrants to this country, it was distasteful to Joseph B. M-a-c-c-a-b-e, all one word, because Hoffman was the son of a Hebrew immigrant. I am inclined to believe that his opposition to the proposed O'Connell and other squares is a similar opposition, because they represent names of the Celtic race, that fact rendering the names distasteful to Mr. M-a-c-c-a-b-e, all one word. I am going to leave Mr. Maccabe to the tender mercies of those who fought, that he might remain a free man, to the members of the American Legion, who did their work across the water, to the relatives of those who died in the service and whose parents and loved ones mourned their loss. They will take good care of Mr. Maccabe, because I am satisfied that the people of East Boston have no more regard for the name "Wood Island Park" than they would have if it were called "Pine Island Park" or "Hemlock Island Park." As a matter of fact, "Wood Island," so called, is not an island. It is connected with the main land. He speaks of the name "Wood Island" and its historic value. It is historic, perhaps, from the point of view of some of the interests who hope to secure a part of Wood Island for development purposes for the East Boston Land Company, or a similar company. That is his interest altogether, with his narrow bigotry. If the square were called after some good old Yankee name he might not enter his objection, but because we try to name places for O'Connells and O'Callaghans, because we name them after the black and the white, the Jew and the Gentile, the noncitizen who served in our forces and died across the water, as well as the citizen, he objects. If we had used some other name there would be no objection from Joseph B. Maccabe, the man who acquires a headache when he has not got a head to have a headache in. I will discontinue reading this article, and will simply make this one remark. The article makes a very kindly reference to Captain Brickley, referring to him as one "for whom East Boston entertains really a kindly feeling." Captain Brickley has a grand record for service overseas, and my friend knows that "irrepressible Jerry" Watson did not go across, although a lot of them wished that I had and that I stayed there. Undoubtedly Joseph B. Maccabe is one of them. Poor Joe Maccabe! Poor Joe! I think we ought to add "ker" to the name, so that he might properly be named "Joker." The reference to Coun. Brickley is a left-handed compliment, while mine is a right-handed one. I will quote what he says about Coun. Brickley, if I can find what I want. This paper is printed in a scab shop and the print is so rotten that I cannot at the moment locate it. Oh, yes, here it is:

"Coun. Brickley, for whom East Boston entertains really a kindly feeling."

I will stop there. It is perfectly apparent and positive that there is no friendly or kindly feeling for me. Well, I wish I could talk this matter over on the corner with Mr. Maccabe. I think what I would say would not be fit to print and what he would say about me likewise. I would simply say in conclusion that the other advertising handbill, called "The East Boston Free Press," is, if you take its word for it, "the voice of 70,000 people." Think of that—70,000 people, fellow members. It is the voice of Esau, as much as the voice of 70,000 people. They have a circulation of about 400, and the only people who read it, outside of the 400 who have to take it, are those who pick it out of the street. The publisher, Mr. James E.

Maguire, changed his political coat after he ran for Congress and got so few votes that they didn't tabulate them. He then, in order to help out the spite of a leader in East Boston, changed his coat over and became a Republican. I shall not pay as much attention to him as to Maccabe, and the two of them together are not worth discussing on the floor of this honorable body. In conclusion I am going to ask the stenographer to have printed in full the article that I have referred to on the first page of the *Argus-Advocate* and also the little squib which appears in the East Boston *Free Press*, "The Voice of 70,000 People." All that Mr. Maguire says there is:

"The only interest some members of the City Council seem to have in East Boston is to change the old names of our parks and squares."

And there his pencil broke off, and he stopped. East Boston will have an opportunity to express itself on my order for the changing of the name of Wood Island Park, because I have requested Mr. Shea, the chairman of the Park Commission, to arrange, before taking any definite action on the order, that the people of East Boston may be given an opportunity to be heard. There will be an opportunity for Maccabe to be heard and for Maguire to be heard, and I venture this assertion, that if the people are as red-blooded as I believe they are, Mr. Maccabe won't appear at the hearing representing either himself, the East Boston Land Company or the other company that wants the water rights of Wood Island Park. I move a suspension of the rule that my order may go on its passage.

The rule was suspended and the order was passed.

Following are the extracts referred to by Coun. Watson in his remarks:

[From the East Boston *Argus-Advocate* of May 7, 1921.]

ISLAND'S HEADACHE.

CITY COUNCIL PASSES ORDER REQUESTING NEW NAME FOR WOOD ISLAND PARK.

MAYORALTY VETOES.

DISAPPROVES ORDERS RELATING TO MONMOUTH, PUTNAM AND PRESCOTT SQUARES ON GROUND OF PUBLIC POLICY.

Led by Councilors Watson and Brickley, the City Council is busy legislating for East Boston, in a manner not altogether popular with local residents. At last Monday's session, the irrepressible Jerry introduced an order, changing the name of Wood Island Park to World War Memorial Park, which was unanimously passed, as were orders naming several public squares for World War veterans. The latter were offered last week Monday by Mr. Brickley and provided that the space, junction of Saratoga and Chelsea streets, be named Jeffrey A. O'Connell square, in honor of O'Connell, who died in service.

That the open space, junction of Bennington, Ashley and Blackinton streets, be named James J. Cunningham square, in honor of Cunningham, who died from disease contracted in service.

That the open space, junction of Prescott, Trenton and East Eagle streets, be named William A. Tryder square, in honor of Tryder, who fell in action.

That the space, junction of Putnam, Trenton and White streets, be named James Joseph Flynn square, in honor of Flynn, who died at sea.

MAYOR VETOES BRICKLEY'S QUEENAN SQUARE ORDER.

The City Council's attempt to honor the memory of Miss Agnes Queenan, an East Boston nurse, by naming for her the area at the junction of Monmouth and White streets, was vetoed Saturday by Mayor Peters. Residents in that section know this area already by the name of Monmouth square. Long ago in these matters the Mayor laid down the principle that no squares already familiarly named should be renamed for World War heroes. Miss Queenan served with the Army Nursing Corps and died of pneumonia at home as the result of weakness brought on by her war service. Councilor David J. Brickley, who introduced the order which the Mayor vetoed, undoubtedly will propose another square on Noddle Island to be named for her.

MAYOR ALSO VETOES FLYNN AND TRYDER SQUARE ORDERS.

Mayor Peters has also vetoed the orders of Coun. Brickley relating to the renaming of Putnam square to that of Flynn square, and Prescott square to that of Tryder square. Secretary Parks said that this was done in

accordance with the policy of Mayor Peters, as set forth in the Queenan veto. Both these squares are already familiarly designated, and to rename them would not be in accord with public sentiment or time-honored tradition.

CITY COUNCIL'S ACTION GIVES EAST BOSTON A HEADACHE.

Following last Monday's session of the City Council, one of the City Fathers sentimentiously observed that the proceedings gave him a headache. And that's precisely what the City Council is giving the people of East Boston, by its action in the matter of trying to rename parks and squares without our knowledge or consent. For example: Coun. Watson introduced the order which sought to rename Eagle Hill Park, David Hoffman Park and now he is duplicating that effort in another order to name Wood Island Park, "World War Veteran Memorial Park." Coun. Brickley, for whom East Boston entertains really a kindly feeling, has also been active in the matter of renaming our old squares after veterans of the late war. Recurring to Mr. Watson's orders, it might be said his Eagle Hill order brought forth a vigorous protest at a public hearing before the Park Commission, who gave the petitioners leave to withdraw. This same spirit will oppose changing the name of Wood Island, or Central Park, to that of any other title, however worthy. This is not done with any disrespect, but is simply put forth for the protection of our historic names and traditions. Wood Island has been thus designated since before 1623, and as such has been borne on all the maps of the colony. It will be found thus inscribed on French and English maps, drawings and blueprints prior to the Revolution, and on American maps following the Revolution. Moreover, it stands as a landmark in the military history of the American Revolution. For that reason, if none other, the name Wood Island should not be eliminated. Like Eagle Hill, or Central square, it would make an admirable site for a memorial to not only the soldiers of the Revolution but the heroes of '61, as well as all other sailors and soldiers who fought for Old Glory. It will be recalled that the friends of Ensign Hoffman, after the Mayor's refusal to change the name of Central square to that of Hoffman square, planned to change the name of Wood Island to Hoffman Park. It will also be remembered by our older residents that at least one other decided effort was made to name the park after a distinguished East Bostonian, but the family and friends of the citizen in question registered their protest against any such action. In their judgment, Wood Island Park was a historic landmark that should not be disturbed, but continue to bear the name originally applied to it in the good old colony days. It would be interesting to know just who inspired Mr. Watson to this action, for East Bostonians cannot believe it was done by and with the consent of the two local American Legion posts.

[From the East Boston Free Press of May 7, 1921.]

The only interest some members of the City Council seem to have in East Boston is to change the old names of our parks and squares.

RETIREMENT OF LAURA F. TILTON.

Coun. DONOGHUE offered an order—That chapter 339 of the Acts of 1921, entitled "An Act Authorizing the City of Boston to Pension Laura F. Tilton," be and the same hereby is accepted.

Referred to the Executive Committee.

Coun. DONOGHUE offered an order—That under the provisions of chapter 339 of the Acts of 1921, Laura F. Tilton, an employee of the City Clerk Department, be and hereby is retired at an annual pension of \$600.

Referred to the Executive Committee.

JOHN T. CONNORS SQUARE.

Coun. DONOGHUE offered an order—That the name of King square, Dorchester, be changed to John T. Connors square, in memory of Sergeant Connors who fell in action near Fleville in the department of the Ardennes during the World War, and that said place be suitably marked with signs.

In connection with the order Coun. DONOGHUE submitted the following letter, viz.: Subject: Copy of letter sent to the mother of Mr. John T. Connors, for service rendered in the United States Army, in France.

Headquarters Second Battalion,
27 Infantry, Champlittle, France,
January 26, 1919.

Mrs. Mary Connors,
25 Leedsville Street, Dorchester, Mass.:
Dear Mrs. Connors,—Your letter addressed to the commanding officer of this regiment

in regard to your son Sergt. John T. Connors has been turned over to me and I am glad to get hold of your address for I have been wanting to write to some of his family. He was a member of F Company of this regiment and I was in command of the platoon of which he was sergeant. He was killed on the morning of October 7, in action, near the town of Fleville in the department of the Ardennes, on the right bank of the Aire river and on the right of the Argonne forest. The first platoon of F Company, of which he was sergeant and I was lieutenant, had been ordered to push forward and connect up with the First Division which was on the right of the road leading into Fleville. Because of the heavy fire of the Boche it was difficult to go forward. Mr. Connors and I had crossed the road and were lying in a ditch to try and get some protection from the rain of machine gun bullets. While there he was struck and instantly killed. We were ahead of the line, having gone out to reconnoiter, and at that time it was impossible to remove his body. Later he was buried near the spot, but what became of his personal possessions I do not know, for a few days later I was sent to the hospital as the result of being gassed. I do not think that he had any personal possessions at the time of his death, on his person, but I will make inquiry and if there are any I will send them to you. As you understand all this occurred during the thick of battle, and men were killed and wounded all around us and the living had to always go ahead, fighting as they went. The wounded were always carried back and the dead were buried as soon as possible but in the case of Sergeant Connors, when he was killed we were right in among the Boche, and it was possibly two or three days later when they were driven back before it was possible to bury him.

Sergt. John T. Connors was a fine soldier, brave, courageous, and never complaining, no matter what task was ahead of him. He was in my platoon for months before his death and was a model for the others. It was shortly after we first landed in France that he was made corporal and when my platoon sergeant was wounded in front of Baulny on the 1st of October Connors was immediately promoted and made platoon sergeant, and as such was second in command. He never followed, he always lead. He was one I always counted on and he never failed. He was one of the most popular men in his company and was respected alike by officers and men. He was in every respect a fine young man and was a power for good in the platoon and the company. I was very fond of him and it was my intention to recommend him for the next officers' training camp, and I am certain that he would have received a commission. He died as he had lived, a manly, ideal soldier and his death was not in vain for like the other thousands of our comrades who gave their lives in the conflict, he died that others may live. I mourn with you in his death and yet I am proud of his memory, proud that he was in my company, and proud that I knew him as I did. His was an enviable record and I am sure that he would not have had it otherwise.

W. F. CALDWELL,
First Lieutenant 27th Infantry, Adjutant.

REST ROOM, COURTHOUSE.

Coun. MORIARTY offered an order—That the Superintendent of Public Buildings be requested, through his Honor the Mayor, to submit to the City Council an estimate of the cost of providing and equipping a rest room for women in the courthouse at Pemberton square for the attaches of the building.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted at 2.58 p. m., on motion of Coun. DONOGHUE, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 3.50 p. m.

BOSTON'S TRUST FUNDS AND BEQUESTS.

Number of permanent funds and bequests held by the City, Feb. 1, 1920, for various purposes, 127, representing a total value of \$9,686,171. The earliest dates back to 1674, viz., Gibson School Fund. The largest fund is the bequest

of the late George F. Parkman, consisting of various parcels of real estate (now mostly sold) valued at \$5,000,000 to \$6,000,000 the income from which (about \$197,500 annually) is used for the upkeep and improvement of the older parks. Total amount of Parkman Fund in custody of City Treasurer, \$5,214,277; next in amount, \$898,502, made up of 17 funds in charge of the Overseers of the Poor; (3) the Franklin and Franklin Union, amounting to \$758,917; (4) Public Schools Teachers' Retirement \$617,135; (5) 41 Public Library Funds, \$673,749; (6) 8 Cemetery funds, \$536,381; (7) Permanent School Pension, \$355,898; (8) Police Charitable, \$207,550; (9) 19 School funds, \$170,860; (10) 19 Hospital funds, \$92,750; 17 others, \$160,152. Average annual income from all invested funds, nearly 4 per cent.

Another fund, viz., Firemen's Relief Fund, amounting in 1919 to \$248,238, is not held by the City but by an incorporated body of 13 members of the Fire Dept.

The Thorndike Memorial Building Fund, viz., \$200,000 (bequest of George L. Thorndike) received by City Treasurer in 1919, is to be used for a ward building for clinical research purposes by the City Hospital Trustees as soon as a sufficient addition thereto can be raised.

TAX RATES, 1919, IN MASSACHUSETTS CITIES.

Of the 38 cities in the State, 21 had a higher tax rate than Boston's, those situated in the Metropolitan District being also subjected to increased rates because of assessment for Elevated Railway deficit. The highest of these was Malden's (*i. e.*, \$30.50 or \$6.10 more than in 1918); (2) Medford's (\$29.40 or \$6.80 more); (3) Cambridge's (\$28.30 or \$3.30 more); (4) Quincy's (\$28 or \$3.80 more); Everett's (\$27.60 or \$5 more); (6) Melrose's (\$26.20 or \$2.80 more); (7) Somerville's (\$25.80 or \$2.60 more); (8) Chelsea's (\$25.60 or \$1.80 more) and Revere's the same or \$1.20 less than in 1918; (9) Woburn's (\$24.30 or \$3.50 more); The lowest rate of any city was Peabody's (\$18.70 or \$2.70 increase). Only two cities besides Revere had a decrease rate. Net average increase for all the cities, \$2.23.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure
of such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COM-
MISSIONERS, Room 401, City Hall Annex,
for information relative to the laying
out, relocation, widening and the discon-
tinuance of highways; the taking of real
property for municipal purposes; the
assessments of betterments for streets
and sewers; the plotting of undeveloped
areas for streets and the opening of
private ways; the granting of licenses
for the storage or sale of merchandise
in public streets; the regulation of street
traffic; the making of specific repairs
in public streets, the naming of public
streets, the planting and removal of
trees in public ways, the issuing of
licenses for the storage of gasoline, oil
and other inflammable substances or ex-
plosive compounds, the use of the pub-
lic ways for any permanent or tem-

porary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marquees,
bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC
WORKS, Room 511, City Hall Annex, for
information as to the watering, cleaning,
lighting and repairing of streets, the con-
struction and care of sewers and catch-
basins, the operation of the ferries, the
maintenance of bridges and drawbridges
and the removal of ashes and offal.

To Room 604, City Hall Annex, for in-
formation relative to the supplying or
metering of water and the water charges
of the city.

TO THE HEALTH DEPARTMENT, Room
1107, City Hall Annex, for information
relative to the inspection of milk, vin-
egar, meat, fish and vegetables, the issu-
ance of permits for stables, slaughter
houses, etc., smoke nuisances, the exist-
ence of contagious diseases or public
health nuisances.

TO THE BOARD OF PARK COM-
MISSIONERS, 33 Beacon street, for infor-
mation as to the care of the Common,
Public Garden, Franklin Park, Franklin
Field, Commonwealth avenue, Back Bay
Fens, Marine Park and the small parks
and playgrounds in general throughout
the city, and as to the extermination
of gypsy moths and the charges made
for such service. Application may be
made to this department for infor-
mation regarding the public baths and
gymnasiums maintained by the city,
and with regard to municipal indoor
concerts and band concerts; also infor-
mation relative to Mount Hope, Ever-
green, Fairview and other public cem-
eteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 26 Mason
street, for information relative to the
operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS,
Room 1007, City Hall Annex, for infor-
mation as to the construction and re-
pair of school buildings.

TO THE BOARD OF EXAMINERS, Room
1001, City Hall Annex, for information
regarding the licensing of persons having
charge or control of the work of con-
struction, alteration, removal or tearing
down of buildings.

TO THE WIRE DIVISION OF THE FIRE
DEPARTMENT, Room 905, City Hall
Annex, for all information relative to
the erection of poles, the building of
conduits, the installation of wires and
electrical apparatus. Also to the same
office for permits for the installing of
wires and electrical apparatus within
buildings in the City of Boston, and
for the payment of fees incident to the
granting of the privileges above named,
and which must invariably be paid in
advance.

CIRCULAR FROM THE MAYOR.

MAYOR'S OFFICE,
BOSTON 9, May 17, 1921.

To the Heads of City and County Departments:

GENTLEMEN,—Section 1 of chapter 168 of the Special Acts of the Massachusetts Legislature of 1919, provides that every officer and board in charge of a department of the city or of the county shall on or before the sixth day of June in each year prepare and furnish to the City Auditor a list of the officials and employees under said officer or board and paid by the city or county on the first day of June, preceding, giving the name, residence by street and ward,

designation, compensation and date of election or appointment of each of said officials and employees, and the date when each first entered the employ of the city or county.

In order to facilitate compliance with the provisions of this law the City Auditor has prepared uniform blanks to be used by every department making a return, and you are directed to obtain these forms and to use them in making the return required.

The preparation of these lists is a matter of considerable importance and should command your personal attention.

Respectfully,
ANDREW J. PETERS, Mayor.

BONDING CERTAIN EMPLOYEES.

PARK DEPARTMENT,

BOSTON, May 16, 1921.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR.—By vote of this Board, your approval is respectfully asked for the placing under bonds of the following employees of this department, who handle money as part of their duties, the premiums for said bonds to be paid for by the City of Boston as part compensation for their services.

John E. Mulrey, laborer, Cemetery Division, \$500. Mr. Mulrey receives money at Mount Hope Cemetery for Sunday funerals, which is turned over to the office the next day, amounting to between \$35 and \$75; total about \$2,000 in a year.

J. Frank Keating, stenographer, Cemetery Division, \$1,500. Mr. Keating handles the money turned into the Cemetery Division office, which is finally given to the secretary each day, amounting to about \$100 to \$800; total about \$55,000 in a year.

Eva L. Connor, stenographer, Park Division, \$1,000. Miss Connor handles the moneys of the baths and playgrounds, amounting to about \$30 to \$60 a day, which is given to the secretary each day; total about \$28,000 in a year. All moneys are deposited with the City Collector the day after it is received at this office.

The bonds for John E. Mulrey and Miss Eva L. Connor have already been approved by your Honor, and Mr. Keating's bond of \$1,500 has been accepted by the City Auditor's office as a reduction from his former bond of \$5,000, but the City Auditor asks for a formal letter of approval permitting the city to pay for these bonds as part compensation for their services, as these employees are not indicated in the requirements of the city ordinances stating what city employees should be placed under bonds.

Yours very truly,

DANIEL J. BYRNE,
Secretary.

Approved May 17, 1921.

ANDREW J. PETERS, *Mayor.*

REPORT OF DIRECTOR FRANKLIN UNION.

BOSTON, May 9, 1921.

THE FRANKLIN FOUNDATION,
BOSTON, MASS.:

GENTLEMEN,—In accordance with Article III. of the by-laws, I beg leave to submit the following report:

WHAT FRANKLIN UNION DOES.

Franklin Union continues to occupy a place of its own in the educational world. Classification questionnaires sent out by state and nation have not yet provided a column into which the school will fit. It is not surprising, therefore, that fond mothers persist in sending their small boys to be taught trades, that the fire underwriters classify the building as a manual training school, and that people from the rural districts continue to write for board and rooms.

The Franklin Union building, equipment and staff have been provided for the sole purpose of giving the man at work supplementary evening instruction

in industrial and engineering subjects. The man or woman who registers for its courses is already engaged in some business or profession which involves the use of brains and intelligence. He whose work is largely routine, such as the shoe-worker, the bricklayer or the motorman, will not be attracted by the courses offered, unless he aspires to a more advanced job. The efficiency of the shoe-worker, the speed and accuracy of the bricklayer and the skill of the experienced motorman are already well provided by industry itself, and it is only as the man at work reaches out for a job which involves some of the fundamentals of engineering that Franklin Union can help. The maintainer of shoe machinery, the contracting mason or the repairer of railway motor equipment may pick courses which will offer material help.

PRACTICAL EXPERIENCE ESSENTIAL.

Practical industrial experience must always remain the basis for success. Franklin Union offers the opportunity for the ambitious spirit, with sufficient native capacity, to receive the needed lift over the underlying theory of his chosen calling, to learn the "reason why," and to obtain the explanation which will permit of shortened process or lessened waste. Ambition alone will do much, but ability and mental capacity are also essential. In spite of the general notion prevalent in legislative halls and social uplift circles that the more years a boy spends at school the better for him and for society in general, it is no secret with those most familiar with both school and industry that many lack the mental ability to do other than routine mechanical work; that they early reach the limit of their capacity to enter occupations which require original thinking; that much of the time spent in day and evening schools is wasted, and that hard work in industry itself is not only the most economical solution, but in many cases the best education possible. Franklin Union has always recognized these human limitations and attempts to carry each individual only as far up the ladder as he can go. It is particularly fortunate that the present organization of industry has prepared many important positions on the lower half of the ladder which require specific training and which may be filled by one and two talent men.

TYPE OF TRAINING.

The present evening courses offer a choice of more than fifty subjects, some of which are not taught elsewhere. No attempt is made to include the strictly commercial and business school subjects, art courses or college preparatory classes; nor is there any desire to teach shop routine or mechanical processes which are better handled in manufacturing and operating plants. An unsurpassed equipment makes it possible to base all courses on laboratory methods, although lack of space makes it necessary to strictly limit the number in each course. While such limitation results in most careful selection of pupils, many good men are continuously turned away because of the lack of needed endowment.

ENROLLMENT.

The enrollment for the year is twenty-five hundred and sixty-five (2,565) dif-

ferent individuals, exceeded only by the post-war record of last year. The average age is 25.4 years. A tabulation of the evening enrollment shows that 63 per cent of the students are natives of Massachusetts, another 7½ per cent of the other New England States, and a total of 82 per cent of United States and Canada. The remaining 18 per cent is divided among twenty-five foreign countries, England leading with 3½ per cent.

DAY COURSES.

Day courses are now in operation in technical and trade subjects open to a limited number of adults. Classes meet five days a week throughout the year. Admission may be had at any time. The length of the courses is flexible and may be extended from six months to a year or more. As no endowment is available for this work, the charge made is the actual cost of instruction.

The establishment of such day courses of sufficient flexibility to meet the needs of adults is a genuine innovation in Massachusetts, and it is to be hoped that endowment will be provided to bring this opportunity within the reach of a large number of students.

THE BLESSINGS OF POVERTY.

Poverty in invested funds may perhaps benefit the new school just starting, by imposing a limit in unwise expenditures in unblazed paths. Franklin Union has long since reached a point where its activities are cramped by the limitations of an income from endowment of less than twenty-three thousand dollars (\$23,000) a year. The school has made good. Since 1908 over seventeen thousand men (and women) have made use of its regular courses. Many worthy causes are perhaps more familiar to prospective donors and produce results which are more apparent to the public view, but no cause is more entitled to both public and private support than the quiet, effective training of men and women, at the right time and in the right things, to increase their earning power, to make them more efficient workers, as well as more intelligent citizens.

Respectfully submitted,

WALTER B. RUSSELL,
Director.

REJECTED CLAIMS.

On May 17 the Law Department disapproved twelve claims against the city, in five of which no amounts were specified, and the other seven aggregated \$781.50, and are classified as follows:

Against the Building Department, one, amounting to \$175; against the Fire Department, one, in which no amount was specified; against the Park and Recreation Department, one, in which no amount was specified; against the Police Department, one, in which no amount was specified; against the Public Works Department, eight, in two of which no amounts were specified, and the other six amounted to \$606.50.

All these claims have been disapproved for the reason that there appeared to be no legal liability on the part of the city.

PROPOSALS FOR FURNISHING AND INSTALLING BARRIERS AND GATES ON FERRYBOAT "HUGH O'BRIEN."

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for furnishing and installing roadway barriers and sidewalk gates on the ferryboat "Hugh O'Brien," and giving bond therefor of a surety company approved by the Commissioner in the sum of one thousand (1,000) dollars, to secure the due performance of the contract and the full protection of the city. Specifications and forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked, "Proposal for Barriers and Gates, Ferryboat 'Hugh O'Brien,'" and left at Room 508, City Hall Annex, before 12 m. Thursday, May 26, 1921, with a certified check for four hundred (400) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

The Supply Department of the City of Boston invites proposals for furnishing the Consumptives' Hospital, Mattapan; Boston City Hospital; Infirmary Division, Long Island, and Penal Division, Deer Island, of the Institutions Department; and Franklin Park Zoo, meats for the month of June, 1921, as per specifications, a copy of which may be obtained at the office of the Superintendent of Supplies, Room 801, City Hall Annex. The bidder must use the form of proposal to be obtained at the above office and furnish a bond for one quarter of the amount of the contract with a surety company authorized to do business in Massachusetts, as surety for the faithful performance of the contract. Proposals, with a certified check for \$200 will be received at the above office until 12 m., Friday, May 27, 1921, at which time and place they will be publicly opened and read. A duplicate bid, without check, must be filed with the City Auditor prior to the time named for opening bids. The Superintendent reserves the right to accept or reject any or all proposals, or any part of a proposal, and to award the contract as he deems for the best interests of the city. All contracts made subject to appropriations to meet payments thereunder.

GEORGE J. CRONIN,
(May 21.) *Superintendent of Supplies.*

CITY OF BOSTON.
PARK DEPARTMENT.

PROPOSALS FOR WIRE FENCE ON EAGLE HILL
PLAYGROUND.

Proposals on blank forms obtained at the office of the Park Department, 33 Beacon street, Boston, for wire fence on Eagle Hill Playground, East Boston, signed by the bidder and left before 12 o'clock noon on Tuesday, May 31, 1921, at the said office with a certified check for \$300, payable to and to be the property of the City of Boston if the proposal is not carried out, will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work of a surety company approved by the Commissioners in the sum of \$2,000, to secure the due performance of the contract and the full protection of the city. The Commissioners reserve the right to reject any or all bids.

JAMES B. SHEA, *Chairman,*
CHARLES A. COOLIDGE,
JAMES E. MCCONNELL,
(May 21-28.) *Commissioners.*

Severally laid over under the law.

TRANSFER FROM RESERVE FUND.

The following was received:

Office of the Mayor,
Boston 9, May 14, 1921.

To the City Council:

Gentlemen,—I am transmitting herewith a request for a transfer from the Reserve Fund to the Budget Department, and respectfully recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That under authority of chapter 261 of the Acts of 1893 the City Auditor be and hereby is authorized to transfer:

From the appropriation for Reserve Fund, \$658.33, to the appropriation for Budget Department, A-1, Permanent Employees, Budget Commissioner, 1 at \$5,000 per year (\$6,000), \$658.33.

Referred to the Executive Committee.

VETO—JOHN T. CONNORS, SQUARE.

The following was received:

City of Boston,
Office of the Mayor, May 12, 1921.
To the City Council:

Gentlemen,—I am herewith returning without my signature, the order passed by the City Council on May 9 to change the name of King square, Dorchester, to John T. Connors square.

I have several times indicated to the City Council that I would not approve orders changing the names of squares. I still feel that it is unwise to change the names of squares, and for that reason I am vetoing this order.

If the City Council desires to give the name of John T. Connors square to some junction of streets which now has no name, I shall be glad to approve the order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

VETO—RAYMOND EARL BENISON SQUARE.

The following was received:

Office of the Mayor,
Boston 9, May 11, 1921.
To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the City Council on May 9 giving the name Raymond Earl Benison square to the junction of Bartlett and Dudley streets, Roxbury.

I am returning the order at the request of Coun. Watson, who introduced it.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

VETO—LEAVE OF ABSENCE FOR VETERANS.

The following was received:

City of Boston,
Office of the Mayor, May 12, 1921.
To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the City Council on May 9 to authorize leave of absence without loss of pay to members of the Grand Army of the Republic, the United Spanish War Veterans, the Veterans of Foreign Wars and the American Legion, to attend their annual encampment or convention.

It is customary for the city to permit employees who are regularly elected delegates to attend the conventions of organizations similar to the American Legion. Further than this, however, it would be unwise for the city to go.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

PETITIONS REFERRED.

The following petitions were received and referred to the committees named, viz.:

Claims.

Richard W. Breck, for compensation for damage to clothing by oil on street at 164 Strathmore road.

Referred to the Executive Committee.

QUESTIONS OF PRIVILEGE.

Coun. BRICKLEY—Mr. President, I rise to a question of personal privilege. On Wednesday, May 11, Mr. President, you spoke before the Boston Women's Voters League in this chamber, and you are reported in the press as having made some very strong and uncompromising references to the members of this body in its entirety. I refer particularly to the story in the Boston Post of Thursday, May 12, and I will read from it:

"He (Mr. Hagan) told them of the 'political gang,' of the mismanagement of funds, of 'grafting,' favoritism, waste, extravagance, inefficiency, all of which, he charged, are bringing the government of Boston to rack and ruin."

And then it continues:

"A good many of the members of the Boston City Council," declared Mr. Hagan, "are not qualified by any training, education or natural equipment to handle the financial affairs of the city. Members of the City Council should be more than platform speak-

ers, mere demagogues,' he added, 'they should have training in business and finance.' 'Some of the men who appropriate the city's money care as much about \$15,000 as you care about \$15,' he declared. 'Money by the bushel is wasted. There is no conscience in city spending. Sums as large as \$30,000 to \$50,000 are spent without a minute's hesitation.'

I now ask you to inform the members of this body generally, and myself particularly, if your reference to inefficiency and neglect and graft were directed to Messrs. Collins, Lane and Ford, as well as to the other members of this body. If you desire to qualify your remarks, this is the place and time to do so officially, as I consider them to be without basis in fact and totally uncalled for.

Coun. COLLINS in the chair.

Coun. HAGAN—Mr. Chairman, in reply to the question which has been asked me by my esteemed colleague, I feel as if he is in every way justly entitled to a reply, and I take no offence whatever at the request as made. I was asked to speak here in this chamber before the Boston League of Women Voters on the general subject of municipal activities. That was rather a large order, and I concluded that I would talk upon that subject in which I am intensely interested and with which I am more or less familiar, the segregated budget system in use in the city government. It so happened that the Budget Commissioner was likewise asked to speak, and he covered the technical matters pertaining to the budget very well. In giving my talk to the ladies I expressed my opinions, and it is within my rights and within my province to express my individual opinion here or anywhere else, and I hope there will never be any denial of the right to express an individual opinion. That does not necessarily make my opinions right, but what I said was my opinion, and I was honest in my conviction. I picked up the *Boston Post* the next morning and read a version of the statement that I was supposed to have made. I think I was the most astonished fellow in Boston at what I read therein. It was nothing that I said, at all. Charges that I was alleged to have made and words which I was supposed to have uttered were never uttered by me. The report of that meeting that appeared in the *Boston Herald* was more to the point and stated the thing quite clearly. I was surprised, because I found that I was alleged to have referred to a "political gang," to "the mismanagement of funds," of "grafting," a word I never use, "favoritism, waste, extravagance, inefficiency." Waste, extravagance and inefficiency was, in a measure, referred to; graft and absolute dishonesty of management never were thought of. As a matter of fact, I made no criticism whatsoever of any of the men in the employ of the city as heads of departments or as subordinates. My attack, if attack it could be called, or my comments, as I prefer to call them, were upon the lack of efficiency that we are obtaining from the present segregated budget system in comparison with the possibilities, that could be obtained from that system. That is nothing but what I have stated here hundreds of times before, privately and publicly, in this council chamber. Now, I have a type-written copy of what I said before that body. Under the circumstances, I presume that I will have to ask your indulgence so that it may be read and you may hear it. It is unfortunate, of course, that there was not a stenographer present at this particular hearing, so that this matter might have been taken down officially. It shows the unwisdom of talking before any body, leaving one's self subject to the mercy of some newspaper reporter who does not seem to grasp the situation or, who, perhaps, with malice aforethought, may have given the public the false impression that they did obtain, and naturally would obtain, from the reading of the *Post* article. My words were as follows, for I had given some thought prior to making this talk to the ladies' committee. The accuracy of the statements made herein can, of course, be proven by the lady who presided at the meeting and by the forty or fifty or more who were present: "When I received an invitation to come here I was told I was to talk on municipal matters, and this, you must understand, was a very large order for it would take some hours for detailed consideration, and unfortunately I have not that time at my disposal. I therefore concluded that I would give some thought and consideration and take up with you the question of the most important work that the City Council has to perform, and that is the appropriation of money, and the consideration of the annual segregated budget. The Budget Commissioner has talked with you on this matter today, and explained in detail the technical features of the budget system, and I am very glad of that, for he is best qualified to give you this instruction, and you can have

the utmost confidence in what he has said to you for he is a man thoroughly well qualified in his profession, and absolutely honest and reliable. I differ, however, regarding the most efficient result to be obtained from this budget system, as I feel Mr. Carven has the general ideas of the department head and is, therefore, and quite naturally, inclined to be sympathetic to other department heads. I look at the budget from the standpoint of business, absolutely and entirely, and I realize fully how difficult it is for any man located permanently at City Hall to avoid the atmosphere and environment that seems to predominate the building and prevents a clear understanding of any business situation from the real broad viewpoint. I think perhaps a little history of the earlier consideration of this budget system might be interesting, and would say that the segregated budget was born in the Chamber of Commerce, where a very able and competent committee did study it for a period of two years, under the guidance of Prof. W. B. Munro, and the best expert advice obtainable was brought to bear during the progress of the work of this budget, and then it was sent to City Hall to have it installed if possible. No results were obtained for a year or more, and then I decided I would be a candidate for office so that I might do my utmost to install this segregated budget in the Boston business system. The desire to do this is my only excuse for being in politics, for this is what drove me into politics. I was elected and undertook to install the segregated budget in one little division of the Public Works Department, namely the Sewer Division. We met with bitter opposition with certain members of the City Council, and the then Mayor was hostile to the thought. The fight waxed warm and furious over a period of months, and the majority of the members of the City Council of that year refused to pass any appropriation to the Sewer Division of the Public Works Department, and finally Mayor Curley conceived the idea of having a committee or commission to investigate and report back to the Mayor and City Council, with the understanding that all parties would abide by the decision of that commission. Ex-Mayor Matthews was appointed to represent Mayor Curley and because of the fact that he was opposed to the segregated budget system, Mr. T. J. Kenney was appointed to represent the City Council, and Prof. W. B. Munro represented the Chamber of Commerce, and the Boston Real Estate Exchange, and the Massachusetts Real Estate Exchange had a representative on this commission, and to the surprise of everybody the commission reported back in favor of the segregated budget system, and not in one little department, where the majority members of the City Council were trying to get it installed, but to cover every department of the city, and following the agreement as made by Mayor Curley, the system was installed. At that time it was understood with the Chamber of Commerce that we would install the system, and put on the perfected or finishing touches at some later period for the whole perfected system would be too big a dose for City Hall to swallow at one time. This matter was brought to the attention of Mayor-elect Peters before his inauguration and a reference to his inauguration speech will show you that 50 per cent to 60 per cent of same refers to this segregated budget, and the opportunities for improvement, and manifests on his part a disposition to get this segregated system into the best possible working order so that we could receive somewhere near 100 per cent of good from the system. Unfortunately, however, nothing of this sort has been done, and conditions remain now as they were three years ago for the Mayor has been ill-advised for instead of getting somewhere near 100 per cent of good from the segregated budget system, we are now receiving not much more than 25 per cent of what is possible. In the annual consideration of this budget, the Committee on Appropriations of the City Council, which is the City Council sitting as a whole, it is very clear that we have certain members in the Council who by training and education are not qualified to give proper, serious and just consideration of this budget system, and without reference to the present members, it is my firm conclusion that the City Council as it always will be will have members who are not at all qualified to give proper thought and consideration to financial and accounting methods. I think it can be safely said that this would be in every other city as well as Boston, where an elective body are to consider this serious problem. There are other members in the City Council who by training and education are qualified to give some thought and consideration to the budget, but who believe because of political expediency that it is better to pass the Mayor's budget just as the Mayor sends it in, and there are other members of the City Council who are in agreement with me as to the way the budget should be properly handled. I have tried my

best over various years to have an intelligent consideration of this budget, but being of the minority group in City Hall our policy has not prevailed, and of the entire budget last year there was \$100 or \$200 that was cut out, I think, from the Mayor's budget, and this was done I think to save the face of the Council, and this year the Mayor's budget was passed without a nickel cut out. This budget was passed and the money appropriated by the City Council, of something near \$30,000,000, with no more thought and consideration than you and I would give to the consideration of 30 cents. Under the law it was always intended that the City Council should be a check upon the Mayor, whether he be a gang mayor, or a reform mayor, or a good mayor or a bad mayor the City Council should be a check, and has complete power to reduce appropriations, but this has not been done. We have as per typed report a long survey of the situation as submitted by the Finance Commission for your consideration, and this report is submitted after being inspected by the inspecting force of the Finance Commission, and they make various recommendations, all in the line of economy to reduce the appropriations as listed in the budget as submitted by the Mayor. I believe the Finance Commission last year recommended reductions somewhere near seven or eight hundred thousand, and as I say, only \$200 was reduced from the Mayor's budget, and this year they must have recommended reductions that were approximately \$400,000, or perhaps one-half a million, and not a cent was reduced from the Mayor's budget. It is, therefore, clear that the majority group at City Hall consider the Finance Report as 100 per cent wrong, and they absolutely refuse to give any serious thought and consideration to the recommendations made therein. I do not consider the Finance Commission 100 per cent right, but I think they are 85 per cent right, and we ought to give serious thought and consideration to their recommendations, and this will never be in the present personnel of the present City Council. We receive requests from various sections of the city and invariably are met with the statement that we have no money, and yet money has been appropriated in this annual budget, and being appropriated is not available for other use except in that particular department to which it has been appropriated. Every department head wants to make good, and wants to get all the money he can in his department so that he can extend the work of his department, or perhaps return an unexpended balance at the end of the year to show that he is a capable man, and lives within his appropriation. This to my mind should not be, for I believe the money that comes into the City Treasury each year should be used in that fiscal year to make the necessary improvements to promote the health, happiness and prosperity of our citizens. I do not blame any department head for getting all the money he can appropriated for his department, for these department heads are very human fellows just as you and I, and if I was a department head I would do exactly what they do, and that is to get all the money I could appropriate to my department. This is quite possible, for under the general heading of one of the items in the budget called 'General Plant, Item 39,' it permits of the appropriation of money for various things which is contemplated being done in the next fiscal year, but which in a great many cases is not done, and therefore a nest egg is safely tucked away under Item 39, under the heading 'General Plant' and this can and is drawn on to supply other department needs in the budget, for under the law, the department head is permitted to make a transfer from one item to another in his department. This transfer system has been abused, and is one of the great evils that is making people criticize this segregated budget system, and in a few years may be thrown into the discard, and return perhaps to the old way of making lump sum appropriations to each department head. I do not think the department head should be blamed, for as I say I would do exactly the same thing, and I realize in this atmosphere and environment of City Hall that after awhile all men think alike regarding public funds. In this expression of my opinion as to how matters should be handled is altogether from the business view point, and I am sure that a great deal that is now wasted, and a great many of the inefficient methods that are now in vogue could be positively improved were this segregated budget put into better working condition. For one thing, just to mention an example, I think a better spirit of co-ordination should exist between city departments, and I have known of cases where they were selling horses in one department, and buying horses in another, and where they were selling second-hand automobiles in one department, and in another department they were in need of automobiles, and in the market to purchase." I fail to

perceive, Mr. Chairman, wherein I have said anything about graft, wherein I have accused any department head of being other than intensely human, where I have said that if I were a department head I would probably do the same thing; where I have said that certain members of this Council are not qualified by education and training to properly handle matters involving finance and accounting. In saying that I meant no disrespect. We cannot all be certified public accountants, and never will. We cannot all be financial people in the City Council and never will be; and it should not be so, for the City Council should be properly constituted to reflect the different elements in this community, and never should be a body of men with any one sole thought. It is no disrespect to say to a member of this Council that he is a good lawyer and to say in the same breath that he is a bad business man. That is quite a common condition. It is no disrespect to say to a member of this body, if there were such a one, that he is a very fine and excellent mechanic, but a mad man on finance, and that he does not understand accounting methods. Why should he? His life training has been in other directions. It is the handling of this budget by this City Council or any city council that I am commenting on and am opposed to. The handling of this segregated system should be by trained experts, who can go over the estimates submitted by the department heads prior to the Mayor's consideration of those items, pass intelligently on them and report intelligently to the Mayor. That, I think, would give the protecting touches to this system. So while I stated what I did about this body in that respect, as it lay in my mind at the time, it was simply because they were not qualified to give proper attention to such matters because their life work has been in other directions, and it was not a fair thing to expect them to be. I did not mean it in a disrespectful sense. I would say to my esteemed colleagues, as it appeared in the *Boston Post*. Let me say what I said in starting, Mr. Chairman, that I probably was more surprised to read the article in the *Boston Post* than was my esteemed colleague; and the explanation I am giving you is the true story of what took place on that day.

Coun. WATSON—Mr. President—Chairman COLLINS—For what purpose does the gentleman rise? To a question of personal privilege?

Coun. WATSON—For the same reason that the gentleman who preceded me rose. He left the chair and you took the chair and gave him permission to speak, and I trust that I will be accorded the same permission.

Chairman COLLINS—The Chair would say that the gentleman took the floor to answer a query propounded by Coun. Brickley, and I assumed that unanimous consent was given for him to do so.

Coun. WATSON—Thank you. I ask the same privilege.

Chairman COLLINS—I understand that the gentleman rises to a question of personal privilege?

Coun. WATSON—A question of personal privilege.

Chairman COLLINS—Proceed.

Coun. WATSON—Mr. Chairman, it was not my intention to say anything concerning the question of the remarks of the gentleman opposite, Coun. Hagan, printed in the *Boston Post* of Thursday, May 12, until I heard him speak in answer to Coun. Brickley's request that he qualify his remarks as per that statement. I think Coun. Brickley deserves much credit for being the one to take the floor and compel the gentleman to qualify his remarks concerning his attack on some members of this body, if not all. I want to say to Coun. Brickley that he has gained much in my estimation, because he has taken the initiative in this matter. It was not my intention to touch it, because I did not consider it worthy of consideration, but as long as the gentleman opposite has seen fit to read what are presumed to be remarks made before the Boston Women Voters' League, which, in my opinion, he probably printed and carried in his mind, or had them typewritten and carried them in his mind, and brought them down in his mind and forgot to state them when he addressed the ladies, I wish to say just a word at this time. It so happens that he and I were invited last Wednesday, the 11th, by the Boston League of Women Voters, to address them. Their calendar for May, 1921, as printed by the League of Women Voters under the head of general meetings, says "Wednesday, May 11, 2 to 4, an afternoon at City Hall; short discussion of the City Council's activities by Councilors Henry E. Hagan and James A. Watson." I was informed to be here at half past three, that Coun. Hagan and I were going to discuss matters pertaining to the city government; and later, because of something that occurred before or just after the invitation was sent, I received an invitation from Mary Kenny Healy asking me if I would not come at two

o'clock, instead of half past three, and I agreed to do so. I came and talked half an hour on public ownership and left, and it was not my privilege to hear the distinguished gentleman opposite when he discussed our shortcomings of the whole and those of a few of us in particular, referring to our lack of intelligence and of standing in the community and of other things that happened to drift into his mind and drift out again. He forgets that Commissioner of Public Works Thomas F. Sullivan was present here during his remarks; and, while he does not want to take the *Boston Post* story as being correct and refers to the *Herald* as being pretty nearly right, I desire to read what was said by Commissioner of Public Works Thomas F. Sullivan after having heard the remarks of the distinguished gentleman opposite, as printed on pages 21 and 22 of the *Boston Herald* of Thursday, May 12:

"Defends Peters against Hagan. Public Works Commissioner Thomas F. Sullivan warmly defended Mayor Peters' administration and the present system of city government from indictment by Councilman Henry E. Hagan, at the meeting of the League of Women Voters in the council chamber yesterday afternoon."

Then comes a quotation from Mr. Sullivan, and this is from the *Herald*, and I understand that the gentleman does not take any exception to what the *Herald* says. So I am going to quote what Commissioner Sullivan said in reply to what you have said:

"From the remarks of Mr. Hagan," said Mr. Sullivan, "it would appear that the city government is a joke; that there is a terrific waste of money; everything is shot to pieces, and the only hope lies in getting the women voters to do something. But I have seen nothing of that sort, although I came into the service of the city after twenty years with a public service corporation."

Is it possible, fellow members—and you, Coun. Hagan in particular—that Mr. Sullivan would make those statements after hearing your very moderate printed speech that you have read to us, which I doubt your delivering at that meeting? Then the *Boston Herald* goes on and quotes you:

"Attempt at economy, therefore, was restricted to supplies and materials, the improvements that everybody wanted. A year ago the Council had cut the budget perhaps \$200, to save their faces, but this year not a nickel."

That is a quotation, and I did not hear it in your remarks, as you have quoted them here, and I listened very attentively. Furthermore, you, Mr. Coun. Hagan, have been a member of this body for over six years. In my opinion, even though you are an extremely able business man in big things, the only business man in the Board, nevertheless I say—and I think I am correct—that you cannot find without a guide over five department offices under the head of the city government, and you know less than 2 per cent of the actual functions of all the departments of the city. You have been here over six years, and you cannot draw an order properly. I can refer to the minutes of the Council, examining every order you have drawn, showing that it is contrary to the usual course, which, to my mind, shows a lack of knowledge of parliamentary procedure and, in particular, as to the conduct of the city departments or the duties of this body which, under the charter, you so sacredly watch over and refer to from time to time. Why not name the members who are demagogues, the members who are off color, in your opinion, who are inefficient? Why not name them? You might kindly name one, but if you did it would be because of the old narrow bigotry exhibited towards that member since you have been here. I would probably be one member at least whom you would refer to. But why not name these, if you wish to do so? Do you refer to Coun. Collins, to Coun. Lane, to Coun. Ford? Do you refer to them as being inefficient, as lacking knowledge of city affairs and of financial matters, concerning the budget and otherwise? If you do, why not name the ones who are included, not indicting the entire membership? You have read a speech that you have delivered. You criticize the newspapers for misquoting you, as naturally they will at times.

Chairman COLLINS—Coun. Watson—

Coun. WATSON—Mr. President, I cannot call the gentleman by name, but I am referring to Coun. Hagan, Mr. President.

Chairman COLLINS—You can talk through the chair.

Coun. WATSON—And I shall be glad to do so, Mr. President. I shall be pleased to. Mr. President, it is your duty to defend this body from the attacks of the gentleman opposite, rather than leave it to the so-called gang members. He read, Mr. President, from a presumed address of his before the Boston Women Voters' League, and criticized the *Post* for failing to report him properly. To use his own words, in substance, he was "amazed to read." I haven't seen anything in the *Post*

over his signature criticising the *Boston Post* for their misquotation of him. They would gladly print such an article from him, as they did a long article when he claimed that I misquoted him some years ago. That led to a law suit. But he has made no effort to correct what he says was a mis-report in the *Boston Post*, if they did err in reporting him, and I don't think that they did err, Mr. President, a particle. I am informed that a lady came in here and took his speech down, not the regular reporter, but a lady reporter, making a report of what took place in the chamber. I am willing to take her word that the statement in the *Boston Post* concerning what he said was pretty nearly correct. I am glad that there are some of our new voters present here in the persons of the ladies, and that they will be able to judge of the calibre of this member and other members of the City Council, of the other member as well as of those who claim to be representatives of the Good Government Association. I want them to see that we are human, that we have average intelligence, and that we are willing to defend our rights against attack by members in and out of the body. The gentleman opposite has done more in his time in the Council to bring on the city's fair name a blot than all the gang members of the body since the charter came into effect. It is tear down, tear down, tear down, all the time, with them. There is no thought of construction. He attempts to violate the charter at practically every meeting. He talks about the segregated budget failing. Yes, it has failed, and we so-called gang members have said so. It was born in the Chamber of Commerce, fathered by Nathan Matthews and other men who never did anything for anybody but themselves. And he now comes in and says that the budget has fallen down. His criticism before the Women's League of Voters was a direct criticism of the Budget Commissioner, whom you laud as being able to conduct the affairs of the city under the budget. Now that you have read your speech let me ask you why you did not wait before introducing your order for publicity concerning my statement before the Street Commissioners, until you read what I had said. I told the body that I made a speech there concerning the so-called Stuart street proposition, that there was a stenographer who took it down. But the gentleman, without looking into the matter at all, offered an order calling on the District Attorney to investigate my statement as made there. There was an attempt afterwards to get the minutes of my remarks, and they couldn't find them. But I found them. The remarks were taken down by a young lady for Mr. Robert Homans, of the firm of Hill, Barlow & Homans. Mr. Arthur D. Hill of the Law Department is a member of the firm, and I have in my office a copy of the speech. There is not one word there that can be considered as a reflection on the members of the City Council; and the same cannot be said of your remarks, as set forth in the *Boston Herald* or the *Boston Post*. Demagogues, business men? Permit me, Mr. President, through you to tell the gentleman opposite, Mr. Hagan, that I don't know about his affairs thoroughly, but I can say without fear of contradiction that none of his colleagues here—Coun. Lane, Collins, Moriarty, Brickley, Donoghue, Ford or Watson—have ever failed in business at any time in their career. Can you say as much? He speaks about the Finance Commission, Mr. President, and he talks about their work being 85 per cent correct. I don't think so, and my guess is as good as his. I believe it is 85 per cent wrong. Every paper in Boston recently printed a serious mistake of theirs concerning the hallots on the side of the ledger in favor of the present Mayor. Will you tell us about their thorough inspecting force? Why, the man who makes up all the reports is a gentleman named Dowling, and in order to evade the civil service Mr. Dowling has been called assistant or junior counsel, although he is the secretary of the commission. It has been done in order to avoid civil service; and Mr. Dowling is more active on real estate business in his own behalf than he is on business of the Finance Commission. He is a lawyer, and in his business he attempts to collect bad debts over the telephone in the Finance Commission's office. That is the kind of men who give what the gentleman calls supervision. I wish to make no reflection or suggestion of reflection upon Mr. Sullivan, the chairman. I think he is an able man and as soon as he finds out the failings of the department he may remedy the evils there existing. The gentleman told the ladies that we had just been acting on a budget involving \$30,000,000 to which he said we paid as much attention as we would to 30 cents. But I have here the minutes of the Council of April 11, when the budget was reported by the Appropriations Committee of the Council, and not one single amendment was offered by the gentleman either on the floor of this body or in any of the executive sessions of the

Committee on Appropriations, to the budget. Not one single amendment did he offer. He did not vote for it because, according to a statement that was made by Coun. Collins, Coun. Hagan had to go to New York, and he wanted the reason for his absence and for his not voting noted. But I assume that if Coun. Hagan desired to be registered against the budget, Coun. Collins, the acting chairman, would have so announced. Therefore, you, Coun. Hagan, are in the position of acquiescing in the \$30,000,000 budget, and, therefore, if the other eight members of the Council paid as little attention to it as people would usually pay to 30 cents, you are equally guilty. And you are the wonderful big business man. There were two amendments offered by Coun. Moriarty and Coun. Donoghue. They were attempts to save a few thousand dollars, one in the Penal Institutions Department, and the other on the Health Board, and the gentleman opposite voted "no" on saving the money. He voted with me, and he couldn't claim that he was with the minority. He was with the majority. I think I have said about all I care to, except this. This body—and, by chance, you are a member of it, and I am talking to the gentleman opposite through the president—saved the City of Boston \$200,000 in the matter of the attempt by the Edison Electric Illuminating Company to take \$200,000 from the treasury. The gang here did that. We haven't had your help on these lighting propositions, and I am speaking through you, Mr. President. We have not had the assistance of the gentleman opposite on those matters, matters which are likely to call for the expenditure or the investment of several million dollars by the City of Boston at some time in the near future. If the City Council, with the approval of the Mayor, votes two consecutive years in favor of the city entering into the public ownership of gas and electric lighting plants, and the voters after two years' vote by this body give their approval to it, it will mean the investment of a considerable amount of money to carry on that work; and yet the gentleman has been absent each time when we were considering that momentous question. You complain of being in a minority. I would say, Mr. President, that it shows that the members making up the so-called respectable element here, members of the better type, according to themselves, representing the Good Government Association, have not always been in a minority here. You have had majorities, but, mind you, when there has been money saved in this body in the eight years I have been here the so-called bad members have voted in favor of that saving as well as the learned gentleman opposite, the successful business man. Of course, we fellows who are not actively engaged in business for ourselves, who work for somebody else for a living, who have to measure our work by the yard stick provided by our employers, are not in a position to cater to the big financial interests for loans to tide us over, and when you are close to the Good Government Association those loans are always forthcoming. Of course, I am making no reference to the gentleman opposite, but, of course, all good business men are pinched sometimes. We have had two hearings before the committee which is considering municipal ownership, and the gentleman has not been present at a meeting. We had a meeting here last Friday afternoon, when we heard from the former minister to Greece, appointed by President Wilson, a former congressman, a man learned in the law and in public ownership questions, and he had to sit here and address himself to five members. There were only five members present, and those five members were not the so-called business men. Of course, they have alibis. One of the lawyers was in court, another man was tied up somewhere else, and the other gentleman was probably trying to figure out a way to get out of the hole that he is in here today. One more word, and I am going to conclude. This body is without a president, Mr. President, I mean a real president. Of course, we have a make-believe president who is an accident and does not represent a choice of the body. The three members who have come here bearing the Good Government label, tag and chain, have been voting, one for himself and the other two for him. We have been accused of failing to select a president of this body. Those men will not vote for me, because the Edison Electric Illuminating Company will not let them do so. This is not any red herring across the trail. The gentleman opposite smiles for the first time today. When I want to make believe that a thing isn't so I smile, too. They can elect a president any time they want to do so. They can cast two of their three votes for Brickley or for myself. They will not do it, because they don't want to dirty their hands and be responsible for the selection of a so-called undesirable as president of this body. They cannot get together. I am assured that they

have a practical agreement to vote for one of the three until the close of the year, in order to keep a make-believe president in the chair if they cannot elect one of their own number. Furthermore, I will say this, that a friend of mine who has been close to the Good Government Association, who has been a member of this body, called up the secretary of the Good Government Association and said to him this, in substance, and I was in the room when he telephoned. He said, "I think you folks ought to elect Jerry Watson president of the Council. I admit that perhaps he is a little erratic at times, and has been, but he is honest and it belongs to him. He is a different man today." Then there was a conversation from the other end, which I didn't hear, of course, and then more conversation, and then I heard the man I am speaking about say this, "You don't mean to tell me you would do that?" Then there was more conversation, and he said, "Why, that is the way the other side does business." Then they talked a little while longer and the conversation was concluded, and that man told me that the Good Government Association expected to get two votes, no matter how they got them, and that was when this man answered back, "You don't mean to say you are going to do things in that way?"—the way things are always done on Beacon Hill when they want something. You can only get three votes for any one of your candidates, and I will suffer with you the balance of the year, and I am talking through you, Mr. President—even though you profess to be a business man and above the rest of us. You have got two votes besides your own. Those votes do not belong to you. There are three all told, but two of them don't belong to you. You have to stand where you are. You don't dare elect a president. You cannot elect a president, because you are bound body and soul not to vote for me, and I doubt if you will ever vote for Coun. Brickley. But I will receive one vote until the end of the year, if I receive no more. Now, I have taken a lot of time, but it called for it. The gentleman who follows me, I presume, will attempt to pour hot shot into me, and, although I would like to spare the Council's time and worry, and do not care to bore the officials and the newspaper men, I promise that if you come back at me I will go back at him. He cannot get away today, because he is in a hole. He called the members of this body demagogues and grafters, and that is what he believes we are, either as an entity or as individuals; and I make this prophecy, that when he answer me, if he makes a statement as to the ones he considers undesirables, demagogues, and grafters, one of such will be the gentleman who now takes his seat.

Coun. MORIARTY.—Mr. President, I rise to a question of personal privilege. I am going to take only a few moments. I wish to say that I do not think I would be doing justice to myself, after the newspaper notoriety of last week, if I did not stand here in defence of my colleagues, along with myself. I might say that I did not think much of the statement that appeared in the papers. I would have thought less of the statement if my brother councillor, after saying that he was the most surprised man in Boston, had sat down and written a simple letter to the newspapers, denying the assertions there made, and until he does send such a notice to the papers I must take the statements for what they are worth. I think that the man who has just taken his seat should at least have named the parties. I realize that my name would have been one of the names he would mention as not being fit by education or by experience to act as a member of this body. I suppose that my name might top the list. But, after serving with the councillor in the consideration of four budgets, the councillor who is supposed to have made that statement, I would say that I have yet to hear him at any one of these meetings make an amendment to cut out any item in the budget. That applies not only to this last budget, but to my experience in my four years serving here as a member. He does not like to see such members as myself elected to this body. Let me simply say that with every newspaper in Boston during the last election, both editorially and in their news columns, against me, the people of Boston saw fit to return me to membership in this body for three more years of service. When he talks about a minority, it was not always so. The same Good Government members were in the majority a few years ago, and the budget was no better under the majority rule of the Good Government Association than it is today. I am surprised when he talks of transfers. The budget was passed only a month or six weeks ago, and this same councillor has voted on more than one occasion this year to transfer money in a new budget. If he was honest in his address before the women he would have told them that there was never one transfer in four years that

he has gone on record as voting against. If he believes in the segregated budget, he should at least have protested in the meetings of this Council, but he has not done so by voice or by vote. I can well say that, in my opinion, this same man is not a fit man to sit here as a representative of all the people, because he is owned and controlled absolutely in his votes here by the Good Government Association. I am not blind and other members of the committee are not blind. When we leave this chamber to go into executive session and when many things of great importance are to be voted on, the so-called Good Government members go to the telephone to get word as to how they are going to vote. They are not under their own control; they are absolutely under the control and whip of the Good Government Association. I will say that perhaps I have voted wrong many times, but it was not at the dictation of the Good Government Association or of any other organization or individual in this city. If I have voted wrong, it has been my fault, and not because I have been told or asked to place myself in that position. I have stood absolutely upon my own feet. The member of the Council who has gone broadcast with this attack cannot come here and get away with this statement. I feel that during the last election some of the editorials that were given great space in the Boston *Herald-Traveler* were written with the consent of the Good Government members of this Council, that they acquiesced to those editorials before they were put in the paper. Talk about squandering money, about having men who are trained by education and experience, we have seen a certain situation in City Hall within the last month, where auditors, public accountants, if you may call them so, Mr. President, have been going through the books of the treasurer of the City of Boston. For twenty-five years there has been a shortage, and so-called educated men have been unable to find the shortage. It was only found out through an absolute mistake. Talk about men with education; we hired some men here a month or two ago and voted them \$18,000 for a report on the gas and electric light situation. It was just the same as taking \$18,000 and dumping it down one of Boston's sewers. But we paid them that amount because they were educated. In the last budget, in order to increase the compensation of some people in the Law Department, they allowed one place to remain vacant, and they have distributed the salary connected with it among the other members of the Law Department. And the Corporation Counsel told us in executive session last week that he had hired his law partner to defend the city in the gas hearings! And we do not have a gang mayor, but one representing the highbrows of the city. Again, when the Library Trustees were here we found that they were getting more money in the budget for books than was ever handed to them in any other year, and after a little quizzing we found that the Chamber of Commerce, the body where this infant of the so-called segregated budget was born, were trying to make a deal with the Trustees of the Library, with the Mayor and everybody else, to steal a library for their new building down town, at the expense of every taxpayer of the city of Boston, Mr. President. I did not then hear this eloquent and brainy business man who knows the budget from A to Z get up and defend the citizens of the City of Boston. But it is coming along to about the political time, gentlemen. In December of this year the citizens of this city are going to elect a mayor. Everybody is chasing the balloon, and it was a political speech pure and simple that was made in this chamber, so that the Good Government Association might tag the balloon on the member who made the attack, so that he might go up, high and dry, and land in the Mayor's chair. Of course, he is going to deny it. I would deny it if I were in his position. He and I have not always voted the same way, I do not think, personally, the way the Boston City Council is made up, that it needs half as much intelligence, half as much a business education, as this man has tried to state to the public. I believe that any citizen of Boston, any man or woman with an ounce of intelligence, is capable of sitting here and going through that budget. But the situation, as far as the budget is concerned, in my estimation, is that the people who were responsible for it did not know half as much when they got through with it as they did when they started, and I think they have been less informed since. The Chamber of Commerce! Why, what I think about them personally would not sound good in print. And the Finance Commission have been referred to, here. Everything that they ever got from this body since I have been a member they have come here and got under a subterfuge, because they are so used to doing crooked business that they don't know how to do it straight. Just imagine

this, Mr. President. Last year I had the honor of being president of the Boston City Council. I appointed one of my brother members chairman of the Committee on Appropriations, Coun. Donoghue, and I will say this, that in my four years of service, Coun. Donoghue—and I am saying this to you through the President—you did the best job as chairman of the Committee on Appropriations of any chairman during my term of office; and you took up more time quizzing the heads of departments than any member of the Council, and I would almost say more time than all the rest of the members of the Council put together. And then they say that we did not go into the budget. We did not go into it as they would like to have us go into it, and, in my estimation, it is not all a matter of dollars and cents, Mr. President. There is a humane side to the budget, when we are considering how money is going to be spent. Intelligence! Well, I have seen some of the candidates who, after a quizzing by the Good Government Association, have been given their label as efficient. It is my opinion that the efficiency of the men who have been designated as the gang element of this Council so far outshines in efficiency the so-called Good Government element that there is no comparison. I suppose tomorrow morning they will have on the front page of all the Boston newspapers the fact that we have had a fight. Only two weeks ago the same councilor who is supposed to have uttered the statements that have brought about so much discussion here today introduced an order on hearsay, or on the reading of certain Boston newspapers, and he wanted an investigation. He wanted an investigation by the Finance Commission, in the first place. To my mind, he is the only one here who has ever stuck up for the Finance Commission, and he wanted this matter to go to a friendly body. The Finance Commission came in here some time ago to make an investigation of the pension system of Boston, and what do we find? That they have not made a half investigation before they are up to the Legislature with bills. They did not tell the Council, when they asked for \$10,000, that it was their purpose to go to the Legislature. We haven't found out a thing about the subject, in so far as the \$10,000 that the Finance Commission asked for and has sent is concerned, with reference to the pensions of the men and women who worked for the city. No, but they have taken it upon their own shoulders to go to the Legislature. Mr. President, last year during the budget hearings we had some discussion here as to the Printing Department. We knew that the Finance Commission had just had an investigator working in the Printing Department. The clerk was requested, with the consent of the Council to ask, for the enlightenment of the members of the Council, that the results of the investigation be forwarded, the results of the investigation that the citizens of Boston had paid for, but the Finance Commission told the Clerk of Committees that the investigation was not made for the City Council but was made for the Mayor of Boston. We are an appropriating body, and after we appropriate we have got no further rights, we are told. Of course, if you don't fall in with the understanding laid down by the members of the Chamber of Commerce, you don't know anything about the budget, in their estimation. As far as the Boston budget is concerned, I am glad to have heard from the member who has made the attack, if I understood his statements correctly, that the segregated budget, born under and controlled by the Chamber of Commerce, the Good Government Association, ex-Mayor Matthews and a few other selfish men, for themselves, is a failure. I am glad to find out after a number of years that the segregated budget as now controlled has not been a success. If that is so, if the gentleman feels that that is so, he, as a member of the Boston government, ought to start something which will make it possible for us to get away from the so-called Boston segregated budget. I will say that I don't know who gave it that name, but it is a child unduly named, because Boston has not got a segregated budget, and never did have, and, under the system that is now being used, never will have. I want simply to make this statement, in conclusion. If I got the statement by the councilor right, he did practically name the members of the Council who are not capable of doing business here. He said that he was in the minority, and he said that the only ones who agreed with him were in the minority. So I am going to take it from his statement that the six other members besides Coun. Hagan, Coun. Collins and Coun. Lane, in his estimation are not capable as a result of education or experience of serving the City of Boston. In conclusion I want to say this to the citizens of Boston, that every act of mine since I have been a member of this body has been an honest one—to give to them 100 cents upon the dollar; and I will say, as long as he has singled me out as one

of the majority, that the other members of the so-called majority can stand on this floor and make these assertions as honestly as I have made them.

Coun. HAGAN—Mr. President —

Chairman COLLINS—For what purpose does the gentleman rise?

Coun. HAGAN—To answer the remarks of the gentleman opposite with reference to myself and my standing as a member of this body.

Chairman COLLINS—The gentleman rises to a question of personal privilege. Coun. Hagan.

Coun. HAGAN—Mr. Chairman, it was my purpose when on my feet before to mention the fact that Commissioner Sullivan had taken some exception to my remarks before the women's meeting the other day. That slipped my mind, or I would have spoken of it. I don't understand where he got his impression from. He was in the room during a part of the time that I talked. He heard what I had to say about the Mayor being ill-advised, which was the harshest term I used, and that, I think, is a true statement of fact; and it is quite likely that he thought need existed for him to rise to the defence of his chief. I am sorry that he so thought, but he has a right to express his individual personal opinion, as I have a right to express mine. The gentleman has seen fit to question my sincerity because I took no exception to the passing of this budget before the City Council some few weeks ago. Of course, the gentleman, in pleading his case, will never play within the rules of the game. He is a man who has never been known to play within the rules of any game fairly and squarely with his fellow-men, so we would not expect him ever to do so. I don't think it is a part and parcel of his being. He knows that on that day, Mr. Chairman, there were many amendments that were offered here. There was a great deal of speech making, there was a great deal of time consumed and, unfortunately, because of an urgent and very pressing engagement, I had to take the five o'clock train for New York. It was my purpose at that time, as known to some of my colleagues to whom I had made the statement, to offer an amendment to the budget, the amendment as offered embodying various suggestions and recommendations as made by the Finance Commission. I had no opportunity to do so because of the lengthy remarks that were made and the time consumed by my colleagues. Knowing fully in advance that my ideas would not prevail, that the votes were against me, I realized that it would mean an utter waste of time and energy on my part, any way, besides consuming your time and trying your patience. So perhaps it was just as well that I did not have the opportunity to propose these various amendments, which unquestionably would have been voted down; because that body, as constituted in the majority, have gone on record and shown conclusively that in their judgment the investigating body of the city government, the Finance Commission, are 100 per cent wrong. By that very act they prove their own insincerity of purpose, because nothing in this world is 100 per cent wrong. Had I waited for a vote on that segregated budget, Mr. President, I would have voted "no." I voted "no" the year before. I have voted "no" consistently since the budget has ceased to receive that proper and intelligent consideration that I think it deserves and that some day I hope it will again have. So much for his innuendo and his insidious suggestion that I was insincere, when he knew when he made the remark the real reason which I have now offered to you, because of which there was no need of my offering amendments. But he has worked it into the record as a reflection upon my honesty of purpose. Much has been said because I have not seen fit to enter a public denial in the newspapers of the article that appeared in the Boston Post. As all of us know, when a denial reaches a newspaper office it never catches up with the original article. It is never headlined in the sensational way that the original article was. It is printed down in a little corner, on an inside page of the paper, where only those who are close observers will ever see it. We all know the folly of trying to make a denial in the public press of something that took place, and every editor in Boston would advise you not to do it. I thought that the place to make my statement was here. I don't like to rush into the public press on every slight provocation. The gentleman would publicly charge that in the statement which I have read here —

Coun. WATSON—To whom do you refer? Let us have the record clear.

Coun. HAGAN—The gentleman opposite (Coun. Watson).

Coun. WATSON—Why not name the member, so as to make the record clear?

Chairman COLLINS—Does Coun. Hagan yield for a question?

Coun. HAGAN—I do not, Mr. Chairman.

Coun. WATSON—He has already yielded.

Coun. HAGAN—I refer to the gentleman opposite. Following the rules of the City Council, I am not supposed to mention names.

Coun. WATSON—Well, there are two of us opposite here.

Coun. HAGAN—The gentleman opposite, Mr. Chairman, has seen fit to state and to reiterate that he does not believe that what I have read to my colleagues here are the remarks I made before the women's organization. In other words, he is accusing me of more than insincerity, of absolute untruthfulness. He still insists that the article in the Post was a correct one, and he takes exception to the fact that I a few weeks ago brought up a matter of some remarks that he had made before the Street Commissioners. But before doing so I verified the fact that he had made those remarks. I will reiterate here that what I have quoted to you gentlemen here today is substantially, word for word, what I said to the women's organization, and that no charge I made, directly or indirectly, was any more severe than what has appeared in what I have read; that the attack was on the segregated budget system and the lack of proper consideration of the same and not upon the men in the employ of the city and not upon my colleagues in a disrespectful sense; for I can even make a broader statement here now—that in this Council, in the one to follow and in all the years to come, there will be no one man, I think, elected, who can properly consider the segregated budget system in all honesty of purpose and who can get 100 per cent out of it, unless he is a certified public accountant by profession.

Coun. WATSON—Mr. President —

Coun. HAGAN—I do not yield, Mr. Chairman. I referred to this matter in that sense, claiming that the budget should receive proper consideration at the hands of people of education and training in that direction, and it is no reflection upon members of this body, whose education and whose life work has been in other lines, to say that they are not as well qualified in regard to this budget matter as they are in their own line. And in saying that I place myself in the same category as the others. Perhaps in my business career I have had occasion to have more understanding of matters of accounting than some, as it has been more a part and parcel of my daily work than it has of the work of some other members of the body. But that would only mean a partial qualification for really serious work in connection with this budget, and I think I can safely say that I would place myself in the same general category of not being thoroughly qualified to pass on this budget, as other members. The gentleman will follow and again in his own insidious way will work in something, as he did on this last occasion, against me, because when evil exists in the mind it will come out. If evil is in the heart it is bound to be uttered by the lips, and where the evil permeates and controls, the evil disposition will manifest itself through a man's life, as this gentleman has through life been casting evil reflections upon everybody with whom he has come in contact. He has a destructive mind, a chaotic mind, a mind that sees nothing and is bent upon nothing but a policy of tearing down. And so he works in something that happened thirty-five years ago, in which he attempts to besmirch my good name in business, a thing which happened through the misfortune of another, which was what brought it to pass. But he has worked it in here, as he worked it on the stump. It was that that brought a suit earlier against the Boston Post. At that time I gave utterance to my public opinion, above my own signature. What I said then has been proven to all humanity to be the truth, and everybody is pretty much in accord with the conclusions arrived at by a jury of his peers in the Municipal Court. At that time, in order to win the applause of the jury, he attempted to exert that same evil influence, working in this same little business trouble of thirty-five years ago. It came out then, as he has brought it out today. That was the result of the destruction which is ever foremost in his mind, an impulse of destruction that prompted him to endeavor to influence that jury, to testify against his own parent, his own father, to carry out his own purpose. The dead past should bury its dead, but the gentleman will bring these things up, and when he does he has to take it back from me. On the budget transfers I did vote as I have been charged, because there is nothing else to do if department heads make mistakes and want items transferred in the budget, and in such a case I am going to vote to grant the request. There is no other system that we have in vogue. To the charge made by the gentleman on my right (Coun. Moriarty) that I said that the segregated budget was not a success, I want to repeat what I did say, that I thought the segregated budget was not receiving the attention it properly deserved from the Mayor

and the City Council, the entire city government, that it required more serious, scientific and accurate study and discussion before the money was appropriated. Then there is the charge uttered so often in this body by certain members, who see in the Good Government Association something that simply makes their minds run riot, and who charge us constantly and persistently with being controlled, I will simply say now, as I have always said, that since I have been a member of this body I have yet to receive once any suggestion or any controlling influence from that organization as regards my vote in this body. I have never gone to the telephone to get their views and to find their wishes, as has been publicly charged. There is no man or group of men in this city that has ever controlled or ever will control me. I am going to vote here as a free lance and a free agent for what I conceive to be the best interests of the citizens of Boston as a whole, without regard to any factions of so-called "gang" or Good Government members; and when the hour arrives that I have to be controlled by anybody, my resignation will come at that moment. To the insidious suggestion that the talk I made before the ladies the other day was political in nature and that I was going around trying to have a balloon tagged on me, the thought being that perhaps the Good Government Association might tag the so-called balloon onto me after I talked in all sincerity to the ladies, as I did, I want to say to the gentleman that I think there is just as much chance of the Good Government Association tagging that balloon onto me as there is of the same association tagging it onto my colleague on the right (Coun. Moriarty). There is just as much chance, and no more. I mention that simply to show that he is mistaken, as he quite often is mistaken, in his conclusions. His heart and his mind, I think, are sincere. His seeming powers to understand what is being discussed—or, at least, what I discuss—seems at times limited, perhaps because I am unable to make myself understood. It is truly unfortunate, because the gentleman does seem to persist in a misunderstanding which I trust does not result from a desire to misunderstand me.

Coun. WATSON—Mr. President, I rise to a question of personal privilege. The gentleman in his opening referred to fighting fairly. (Coun. Hagan here started to leave the room.) I thank the gentleman for his absence. I listened attentively to his remarks concerning me, and I presume that when I am through and he reads my remarks he will accuse me of fighting unfairly. I therefore request Coun. Hagan to be present when I am addressing the Council in reply to his attack on me, which to say the least, was a little far fetched and a good deal more of a gang type of procedure than anything I have ever resorted to either here or elsewhere in my political career. The gentleman has referred to his failure in business thirty-five years ago. I made no reference on this floor to his failure in business. I merely said that the eight other members of this body, I knew, had never had a failure in business, and asked if he could say as much, and he came back, very nicely supplying the balance of the story, which was omitted before a jury, not of the Municipal Court, but of the Superior Court, Civil Session, for Suffolk County, where I had the audacity to bare my whole past life history, political and personal, to the shafts, the arrows from the bow of Edmund M. Whitman, considered the leading member of the Suffolk County Bar. I went all through a cross examination without limit, and after a searching inquiry all through the United States from those with whom I had been in business and in political and personal contact, even to the extent of sending to Pittsburgh, Penn., to inquire of the now Secretary of Labor in the cabinet of President Harding, nothing was discovered against me. As I say, they even went into my dealings with James J. Davis, the now Secretary of Labor in the Harding cabinet, trying to find whether they could learn anything to my discredit, and they got a reply from the Secretary of Labor Davis, who is in Boston today and who may visit this chamber later, to the effect that his dealings with me satisfied him that I was a man of honor and standing in the community. Coun. Hagan has referred to the fact that he did fail thirty-five years ago. Then if he did, he either has told a falsehood or he perjured himself before a jury in the Suffolk County Courthouse when I sued the Boston Post. I believe he told the truth here and perjured himself before a civil jury in Suffolk County. They look into my character from A to Z, Mr. President, and they did not find one act of mine in my whole life history that could be considered by the average man as showing other than proper conduct on the part of a man who realized his duties as a public official, as a good father and as a dutiful son. The gentleman has referred to my aged father. God bless my father and my mother. I have them both

with me now, and I am proud of it. My mother is eight-six years of age and my father eighty-four, and my salary in this body is used to a great extent to supporting them in comfort, as I should do, and as every dutiful son should do. It is no credit to me. I never besmirched the character of my dad, and I wouldn't permit anybody else to do so, and when the councilor opposite insinuates that I have uttered one word that could be considered as against my good father, he tells what he knows is an absolute false, damnable lie, which is in line with all his conduct towards me. I bear no animosity towards him. I do dislike his conduct here—his vilification of the Mayor, his ridiculing in the executive sessions, before the members, the chief executive of this city, with whom I have nothing in common, but he is the first citizen of our community. He ridicules him day in and day out, and then he poses as a man who fights fair. He doesn't fight fair. He thinks the press tomorrow will give him the best of it and give me the worst of it. Whatever the press does tomorrow I will accept as good naturedly as possible, realizing that they can do much for good and much for evil, when they are so inclined. They are a very necessary evil, and they are a very necessary good in the community. They do things that help and things that hurt. I am willing to let the press exercise their own good judgment concerning this discussion. But I will not permit the gentleman opposite to go to work and attack me and then duck behind the door, to use the vernacular of the street and show himself to be less of a gentleman than I considered he was, and I never had a very high opinion of him, so far as his being a gentleman is concerned. He talks about ridicule, about tagging a balloon onto him. A balloon for what? Oh, no. But the gentleman can always be trusted to furnish that which goes into the balloon, and which when pricked comes out into the atmosphere and fades away, a lot of cheap gas that amounts to nothing. He speaks about being a business man. Why, anybody would think the gentleman opposite, Coun. Hagan, calling him by name with your permission, Mr. President, was a big business man. Why, he runs a two by four shoe store on Washington street and sublets an alleyway in the rear to a little stand where they sell peanut shells and indulge in other kinds of shell games, perhaps. Talk about being a business man, he doesn't, in my opinion, know any more about the segregated budget than James T. Moriarty, the metal worker, or James A. Watson, the salesman, or David J. Brickley, the chemist, or John J. Donoghue, the business agent of the Telephone Union, or the learned counsel, the attorney at my left, Coun. Ford, or you, Mr. President. I say to you, sir, that with your excellent knowledge of the law, you know more about the segregated budget than fifteen or twenty Hagans, if there are that many in the community. Segregated budget! He came in here with fourteen or fifteen pencils all sharpened, and never used the point of one. He said he was never able to vote on the budget because he had to go to New York. Mr. President, his duty was to the citizens of Boston, and when the budget was finally passed, calling for the expenditure of \$30,000,000 of the taxpayers' money, he should have stayed on the job here and done his duty by those who misplaced their confidence and sent him here. He should have stayed here. He said he knew it was a losing fight. Well, it is only the great cowards who simply make a fight when they can win. It takes a man of courage to make a losing fight, believing that he is right and still making his losing fight. Where was he when the \$8,000,000 was considered in this body? That was the appropriation for the Public Works Department, and the Commissioner of Public Works came here before us in regard to it. The gentleman was not in New York that day, but was somewhere in Boston. That was the day when we considered the \$3,000,000, representing more than a quarter and almost a third of the entire appropriating power of this body, \$8,000,000 of the taxpayers' money. Where was he when the Public Works Department was considered? Absent, absent, absent! Where was he when we considered the gigantic proposition of having the city enter into municipal ownership of gas or electric light-gestations. Well, I will leave that again, not making any suggestions. Perhaps his lack of interest in public ownership of municipal electric lighting plants is because of his getting a special rate from the Edison Illuminating Company. Again I ask him to make good his promise to me to produce his Edison lighting bills for the past seven months, and also those for two years ago, for comparison. I now believe he is getting special rates. That is not an insidious suggestion; it is a frank statement of a frank proposition, frankly put, and a statement that I believe to be true. The only way he can prove otherwise

is to produce his bills for my consideration, as he promised, and then if I am in error I will rise on this floor, Mr. President and fellow members, and publicly apologize to the gentleman, Mr. Hagan, for having made the statement, humiliating as it may be to me to do so. When he went to New York, President Collins, you rose in your place and made a statement to the Council. The question was on the amendment offered by Coun. Moriarty to strike out from the appropriation bill the entire appropriation for the Health Department. The vote on that was, yeas, Coun. Brickley and Moriarty, 2; nays, Coun. Collins, Donoghue, Ford, Hagan, Lane, McLaughlin, Watson, 7. There were then one or two short speeches and then came the vote on the budget. We adjourned that day about four o'clock, I think, or thereabouts. We adjourned, after about twelve pages of other business, at 4:28 p. m., and his train went at five o'clock. We finished the budget by four o'clock, early, and next to the final vote was a vote on an amendment of Coun. Donoghue's in connection with the Soldiers' Relief Department, which was rejected by a vote of one to seven, Coun. Donoghue voting yes, and Coun. Brickley, Collins, Ford, Lane, McLaughlin, Moriarty and Watson, no—a total of eight votes, Coun. Hagan not being there. The question then came on the acceptance of the report and the adoption of the budget, and Coun. McLaughlin called for the yeas and nays. Before the result was announced Coun. Collins said:

"Mr. President, I would like with unanimous consent to make a statement. Coun. Hagan had to leave to go to New York. He had to leave a few moments ago, thinking that the debate was going to be more protracted."

"When Coun. Moriarty's name was called, he said:

"Mr. President, I desire to be recorded as voting yes, but with reservations."

"The report was accepted, and the budget was adopted, yeas, 8, nays, 0."

Mr. President (Coun. Collins), you must have talked with Coun. Hagan before he left, or else you made an unauthorized statement. Why didn't you announce to the Council that Coun. Hagan intended to offer some amendments, some changes, as long as you were anxious to protect his interests in his absence? Did you have authority to make that statement, I ask you, or did you do it voluntarily? Did Coun. Hagan make any statement to you concerning an amendment he wished to make to the budget? If he did, did you agree to his views? If you did, why didn't you offer the amendment, as a representative of the so-called minority? Everything shows, Mr. President, that the bubble blown up by the gentleman opposite has burst, very much to his dissatisfaction and discredit. He has not cleared his skirts by his insidious attack on some or all the members. To my mind it is an insult to the rest of us to be compelled to sit beneath the gavel of the gentleman for the balance of the year. If it were not my intention to stand by the party I believe in, I would gladly vote for any other one of my seven colleagues, in order that I might be properly represented in that chair where you sit, sir, because if a man was ever entitled to be relegated to the rear for his conduct toward his associates, it is the man who is acting president of this body, who, by his insidious, round-the-corner talk and his ego as to his ability and his ego as to our lack of ability, stands before us and before the community in the position that he stands today. I say it is an insult to each one of us. Would that I were free from my feeling of conscientious duty, so that I might gladly put my name with those of seven other members of this body, minus Coun. Hagan's name, in a hat, drawing from that hat the name of the one who should be president of the body. I would surely be willing to do that if it were not a question of principle. Let the other seven members go into session, minus Hagan, let the seven names go in the ballot box, and let the six other men vote for the man whose name is drawn, and the man whose name is drawn can vote for himself if he so desires, and I will have no quarrel, but will vote for myself, because it will be an honest way of settling the bad condition here, made so by the attacks of the so-called business man, Henry E. Hagan, who stands, in my opinion, indicted by his associates as being one who uses words loosely, regardless of the insinuations carried with them and regardless of the damage that is done. Boston is now under close scrutiny by the rest of Massachusetts and, in fact, by the rest of the United States, because of certain unfortunate happenings in this building, reflecting upon the honesty of certain of her officials. Men have fallen before, and will fall again. Any man who falls will have my heartfelt sympathy, provided he regrets his action sincerely, provided he pays the penalty for his misdeeds, either through being ostracized by his associates or suffering the penalties imposed by law. If he thoroughly

repents he is entitled to forgiveness, and from me he will receive a helping hand. I say, on top of the unfortunate incident that has occurred in the treasurer's office, and on top of the unfortunate passing away by his own hand of another former good public official, with another on trial to retain his position, and with the names of those men named that would indicate that they are sons of immigrants and followers of a particular creed, this is not time for Henry Hagan or any other member of this body to place any further stain upon the name of this city which gives him a living, which is my birthplace and the place where I intend to die, God willing. Shame upon him! Charity compels me to say no more. Shame upon him! Boston was Boston, with all her glories, before Hagan ever was; Boston, entirely independent of the monumental egotism and conceit of Henry Hagan, accompanied by his monumental lack of ordinary intelligence, will always look at Bunker Hill as being a more historic and creditable institution than Henry E. Hagan and his business ability. But shame upon him, shame upon him! He is beneath my dignity, as low as I am. His insinuations and his cunning have turned me from him to such an extent that I cannot believe that at any time, excepting when it is for his own personal gain, he is sincere with his fellow men or even with himself. More I will not say at this time, because I want to be charitable. But he owes this body an apology, and he should make it; and if he will make it, I will accept it as being an apology to the Council with me only omitted, in order that he may do the proper thing by you, sir (Coun. Collins), who have served here honorably and well for nigh on to thirteen years, if not more; to you, sir (Coun. Ford), who have served here well and ably, and have been clean, fair and honest; to you, sir (Coun. Lane), who have been here for several years; and to the other members of the body. If he is manly, as I hope he will be on this occasion, he will stand up opposite there and fairly apologize to the seven members of the Council, and I respectfully ask him to omit my name, because an apology made to me and to friends of his when he is not sincere, any more than his promise made to me and to friends of his when he said that he would vote for me for president as a complimentary vote on the first ballot—which he did not have the manhood, nerve or courage to do. Oh, Henry! Henry! May your Maker take from you some of the ego or conceit. May He add a trifle to your manhood, if you have sufficient wisdom to drink it in; and, believe me, you can take wisdom to advantage, even if it comes from the lips of an enemy, or even from "Jerry" Watson, so called by you and those who believe in your methods. I am through, Mr. President, and I respectfully ask the distinguished-looking gentleman—the distinguished-looking gentleman, at least—to do his duty by you and your six colleagues, Mr. President, to yourself (Coun. Collins) and Couns. Donoghue, Ford, Lane, Moriarty and Brickley; apologizing even for the insinuation in your read article that you are not as competent as he. But, believe me, in the minds of serious-minded people and men of intelligence it is the public belief that you are just as able as he, although I know it will take a piledriver to drive it into his head and make him believe it.

EDWARD JOSEPH REILLY SQUARE.

Coun. MORIARTY offered an order—That the open space at the junction of K street and Broadway, South Boston, be named Edward Joseph Reilly square, in memory of said Reilly, who died in the service of the United States during the World War, and that signs be placed to designate the same.

Passed under a suspension of the rule.

MAURICE F. BURNS SQUARE.

Coun. HAGAN offered an order—That the open space at the junction of White and Eutaw streets, East Boston, be named Maurice F. Burns square, instead of "Burns square" as named by an order of the City Council, approved by the Mayor April 28, 1920.

Passed under a suspension of the rule.

GEORGE D. EMERY SQUARE.

Coun. FORD offered an order—That the space at the junction of Fifth and H streets, South Boston, be named and known as George D. Emery square, in honor of the memory of said George D. Emery, who lost his life in the World War, and that suitable signs be placed thereon to designate the same.

Passed under a suspension of the rule.

JAMES W. TOLMAN SQUARE.

Coun. FORD offered an order—That the space at the junction of Talbot avenue and Wickford street, Dorchester, be named and known as James W. Tolman square, in honor of the memory of said James W. Tolman, who lost his life in the World War, and that suitable signs be placed thereon to designate the same.

Passed under a suspension of the rule.

CATHEDRAL SQUARE.

Coun. DONOGHUE offered an order—That the space at the junction of Union Park and Washington streets, South End, be named and known as Cathedral square, and that signs be placed to designate the same.

Passed under a suspension of the rule.

CONCESSION PRIVILEGES FOR VETERANS.

Coun. DONOGHUE offered the following: Resolved, That it is the opinion of the Boston City Council that if any concession privileges are to be given away that the same be given to disabled war veterans of the United States.

Coun. DONOGHUE—Mr. President, I simply want to say that this matter has been called to my attention owing to the fact that the privilege out in the Refectory Building, Franklin Park, has been granted to some Women's Aid Educational Association for a six months' term for nothing. I want to read into the records these facts. The Refectory Building, Franklin Park, was rented to A. L. Deutchmann for five years to July 15, 1920, at \$4,100 per year. The amount was paid in full to July 15, 1920. Since then no rental has been received from the building. The Head House, Marine Park, was rented to Henry W. Wansker for five years from January 1, 1916, at \$5,200 per year. The amount was paid in full to August, 1919, when it was discontinued because of a fire. I want to say that if these privileges, which have produced in revenue to the city \$4,100 per year from the Refectory Building at Franklin Park, and \$5,200 per year from the Head House at Marine Park, are to be given away, I think we owe it to the disabled war veterans who have made sacrifices for us to give them those privileges rather than giving them to so-called societies or other institutions. If they are to be let out to bid, I feel that the disabled war veterans should be given the preference on all bids. That is all I have to say in the matter.

The order was passed.

PRIVILEGE AT REFECTORY, FRANKLIN PARK.

Coun. DONOGHUE offered an order—That the Board of Park Commissioners be requested to furnish, through his Honor the Mayor, to the Boston City Council all information relative to the granting of the privilege at the Refectory Building at Franklin Park, and also what the policy of said Board is with relation to the granting of like privileges.

Passed.

CARE OF BOSTON SOLDIERS' GRAVES IN EUROPE.

Coun. DONOGHUE offered an order—That his Honor the Mayor be requested to recommend to the City Council a transfer of \$1,000 from the Reserve Fund, to be used by the proper authorities of the American Legion for the care of the graves of Boston soldiers who are buried in France or other European countries.

Referred to the Executive Committee.

RAYMOND EARL BENISON SQUARE.

Coun. WATSON offered an order—That the space at the junction of Dudley and Kenilworth streets easterly be named Raymond Earl Benison square, in memory of R. E. Benison, M. D., who lost his life during the World War while serving as surgeon on the ship "Malta," and that said space be suitably marked by signs.

Coun. WATSON—Mr. President, I desire to say just a word in explanation. At the last meeting I offered an order suggesting the naming of a square at Bartlett and Dudley streets after the same young man, and at the request of his mother, who never goes by that particular spot, I have changed the location to Kenilworth street easterly, in view of the fact that the Mayor at my suggestion has vetoed the other order. I ask that the rule

be suspended and that this order be put upon its passage.

The order was passed under suspension of the rule.

EXTENSION OF DORCHESTER PARK.

Coun. WATSON offered an order—That the Park Department be requested, through his Honor the Mayor, to consider the extension of Dorchester Park by taking that portion of the property owned by the City of Boston and used in connection with the Convalescent Home which abuts on said park, and grade and place in condition to permit of the laying out of diamonds for baseball.

Passed under a suspension of the rule.

BASEBALL GROUNDS, DORCHESTER PARK.

Coun. WATSON offered an order—That the Park Department be requested, through his Honor the Mayor, to fill in and grade that portion of Dorchester Park abutting on Adams street, now used for baseball grounds, in order that the same may be made suitable for baseball and other recreational purposes for the people of the Dorchester Lower Mills locality.

Passed under a suspension of the rule.

LIEUT. PARKER BRADFORD JONES SQUARE.

Coun. WATSON offered an order—That the Park Commissioners be requested, through his Honor the Mayor, to name the open space at the junction of Highland street and Milton avenue, Hyde Park, Lieut. Parker Bradford Jones square, in honor of Lieutenant Jones, who was killed in action during the World War, and that said space be suitably marked by signs.

Coun. WATSON—Mr. President, I want to say that that location is unnamed. I have consulted the Park Department and there is no conflict on changing the name. I think the Mayor will sign it.

The order was passed under a suspension of the rule.

ENFORCEMENT OF GAS LIGHTING AGREEMENT.

Coun. WATSON offered an order—That his Honor the Mayor be requested to direct the proper department to enforce Article 7 of the contract of agreement between the Boston Consolidated Gas Company and the City of Boston for the lighting of the streets and public ways of the city by gaslight, said article of Document 74, 1914, being as follows:

7. Candle Power.—The lamps shall be maintained when in service at not less than sixty (60) horizontal candle power for single-burner lamps and one hundred (100) horizontal candle power for double-burner lamps.

The city may at any time, by written notice, require the contractor to employ a competent and disinterested person connected with either the Massachusetts Institute of Technology or the Scientific Department of Harvard University, or such other person acceptable to both parties, to examine and test by standard laboratory methods, under conditions which duplicate as nearly as possible the lamps as they burn on the streets, the apparatus employed in furnishing the lighting service herein provided for, to ascertain whether or not the contractor is complying with the terms of this agreement, and for such purpose such person may have access at all reasonable times to the lamps, fixtures and other apparatus of the contractor used in carrying out this agreement. In case two tests of any lamp shall be made, separated by an interval of not less than one hour during any one night, and both of said tests shall prove that the contractor is not furnishing the light required by this agreement, then such lamps shall be deemed to be deficient, and a deduction shall be made from the charge in respect to such lamp as herein provided. If such tests show that the contractor is not furnishing the light required by this agreement, the contractor shall pay the expense of the examination and test provided for herein; otherwise the city shall pay such expense.

For each lamp which shall be shown by the tests above specified to furnish less than 60 candle power for single burner lamps, and 100 candle power for double burner lamps, but more than 30 candle power for single-burner lamps and 50 candle power for double burner lamps, a sum equal to 1-365 of the yearly contract price for such lamp for each night in which such deficiency occurs shall be deducted from the amounts due to the contrac-

tor. For each lamp found to give less than 30 candle power for single-burner lamps and 50 candle power for double-burner lamps, a sum equal to 2-365 of the yearly contract price for each lamp for each night on which such deficiency occurs shall be deducted from the amounts due the contractor. For each lamp reported out by the Police Department at its respective police stations or by the officials of the Public Works Department, a sum equal to 2-365 of the yearly contract price for such lamp for each night such failure occurs shall similarly be deducted from the amounts due the contractor. Such reports shall be made daily in writing, open to the contractor, and shall be regarded as final and binding upon the contractor except for errors proven or admitted.

The standard of candle power to be employed shall be the recognized international candle.

Coun. WATSON—Mr. President, the document referred to is Public Document 74 of 1914, and the contract is a ten-year contract which runs to 1924, unless there is an arbitration, or something like that, between the parties. A very astounding thing was brought to my attention concerning the contract between the Consolidated Gas Company and the City of Boston for the lighting of streets by gas for a term of ten years. I remember at the time when we appropriated the money for that contract—we had but little to do with it—there was a clause, section 7, which had to do with the candle power that was to be supplied by the Boston Consolidated Gas Company to the burners on our streets. When you stop to think that we pay \$21,000 a year for lights, and there are 10,000 of them in Boston, you can appreciate the magnitude of the amount of gas used by the city. The contract provides that on single-burner lights the Consolidated Gas Company, during the life of the contract, for ten years, must supply 60 candle power at the burner for single lights and 100 candle power at the burner for double lights. So if they should desire, as perhaps they do, to keep the candle power of single-burner lights in our city streets, 10,000 of them, down to 40 or 30 candle power, they are taking from the city at least 25 per cent of the volume of illumination that the city is entitled to as per contract. It provides in section 7 that whenever the city desires it—this is in substance—it shall notify the Consolidated Gas Company, and the gas company shall make a test, through experts from Technology or Harvard, it being limited to those institutions, at the city's expense and at a time that is agreeable to the gas light company. Just think, seven years have passed since 1914, and I am astounded, as I said in the beginning, to find that there has never been a test of the candle power furnished at the burner for illuminating our streets with the 10,000 lights furnished by the Boston Consolidated Gas Company. Seven years, 10,000 lights per night, multiplied by 365, then multiply that by 7, and think of the amount of legalized graft that the Consolidated Gas Company—business highwaymen, as I call them,—secure out of the taxpayer's pockets if they only give 75 per cent of the candle power called for as per contract. What a beautiful condition! The criticism does not apply any more to Mayor Peters than to Mayor Curley, and applies no more to Commissioner of Public Works Thomas F. Sullivan than it does to Louis K. Rourke, Commissioner of Public Works under Mayor Curley. But there is something wrong, and I say it is high time that we should get a finding, even from a hostile camp, as to the amount of legalized graft the Boston Consolidated Gas Company has taken out of the pockets of the gas consumers of Boston by giving to the people a less candle power than is called for in the contract. I have studied law for two years, I don't know much about it, I will admit, but as a layman, Mr. President,—I call you a little more than that, as you are a man of considerable legal talent, having studied law one year more than I have, and were admitted when the standard required three years' study, while at the time when I studied it required four years,—I appeal to you as to whether you think that contract is a proper one? I would also appeal to Coun. Ford, another attorney, who ought to know about these matters. It is my guess, as a layman, that the contract is void, that that section that says they will give 60 candle power and 100 candle power for double burners, in order to have a test it must be made at the convenience of the one who supplies the gas and at the expense of the city, is made under conditions that are favorable to only one side. It looks to me as though it were a one-sided contract, and when a contract is one-sided I believe the courts have sometimes upset it. I don't see you nodding assent, but I think I am pretty nearly right, and I think when the great public is being robbed, that the courts will say, in the case of a contract of this kind, which is drawn in a way that is very friendly to the gas company, being evidently

made in their behalf either through their efforts or through accident, that the contract is one-sided, and should not hold. Furthermore, for every candle power less than fifty the city is to be reimbursed for failure of the gas company to give the full quota of candle power as per contract. Let me say further that I am going to continue to have my say on the gas and the electric situation when occasion requires it, from now until the close of my earthly existence, if it takes place while I am a member of this body, or until I close my career here a year from next February, because we are making progress. We brought about a reduction of 5 cents per thousand cubic feet by the Consolidated Gas Company four weeks ago to large users, as set forth in a notice which said that on and after June 10 those users would secure gas at \$1.35 a thousand, provided they used 25,000 cubic feet of gas a month. Why, the price of 25,000 cubic feet of gas at \$1.40 a thousand is almost \$10 a month, if not more. That is quick figuring by one who has no education or training, of course. Forty dollars is almost two thirds of the salary of many able-bodied men in Boston who have to use gas. Therefore, those people who are paying \$5, \$6, \$7, \$2, and \$3 per month for gas, got no reduction. But we got busy, and I am going to give you all credit for it. You are all in it, whether you are sincere or not I don't know, but apparently, as far as votes are concerned, you are, on the proposition to compel the lighting companies to do the right thing. The agitation continues, and I am informed today that on bills going on to consumers on and after June 10, all consumers of gas in Boston will get the 5-cent reduction in price after June 10. Well, if that sort of reduction should continue right on from month to month we would soon get back to a dollar. So we are making progress, and I intend to continue, and I am going to have your support. Every member of this body is going to be with me on the proposition. As I said before, it happens that I am the bell cow. This makes sixteen weeks that you have heard from me on the gas situation, and it is only the beginning. In view of the fact that the order is very plain, our secretary having included in it a provision from Document 74, section 7, setting forth the contract, I ask a suspension of the rule that it may go upon its passage at this time.

The order was passed under suspension of the rule.

CONFIRMATION OF APPOINTMENTS.

Coun. COLLINS called up Nos. 1, 2 and 3, unfinished business, viz.:
Action on appointments submitted by the Mayor, May 9, 1921, viz.:

1. Abraham A. Dockser, to be a Weigher of Coal.
2. Nicholas A. Burekhart, to be a Weigher of Coal and a Measurer of Wood and Bark.
3. Daniel T. Flynn, to be a Weigher of Boilers and Heavy Machinery.

The question came on confirmation. Committee—Coun. Ford and Watson. Whole number of ballots cast 6, yeas 6, and the appointments were confirmed.

RECESS TAKEN.

The Council voted at 4.50 p. m., on motion of Coun. FORD, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 5.16 p. m.

Coun. HAGAN in the chair.

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following, viz.:

1. Reports on petitions (referred today) for permits for children under fifteen years of age to appear at various places of amusement—that permits be granted, viz.:

Amelia Burnham, Jordan Hall, May 20.

Mary Rita Kirby, Whiton Hall, May 23.

J. J. Richards, Mechanics Hall, May 24.

J. J. Richards, Copley-Plaza Hall, June 2.

Reports severally accepted; permits granted on the usual conditions.

2. Report on petition of Marion E. Bray (referred May 9) for annuity on account of death of her husband, a patrolman of the Police Department—recommending the passage of the following, viz.:

Ordered, That there be allowed and paid to Marion E. Bray, widow of Ward M. Bray, formerly a patrolman of the City of Boston, who was killed while in the performance of his duty April 14, 1921, an annuity of six

hundred dollars, as long as she remains unmarried, under the provisions of chapter 178, Acts of 1887, as amended by chapter 68, Acts of 1920.

Report accepted; order passed.

3. Report on message of Mayor and order (referred today) transferring \$658.33 from the Reserve Fund to Budget Department—that the order ought to pass.

Report accepted; order passed, yeas 8, nays 0.

4. Report on order (referred today) accepting chapter 355 of the Acts of 1921—that the order ought to pass.

Report accepted; order passed.

5. Report on order (referred today) for transfer of \$1,000 for care of graves of Boston soldiers in Europe—that the order ought to pass.

Report accepted; order passed.

WILLIAM FRANCIS DONOVAN SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Cottage and Webster streets, East Boston, be named William Francis Donovan square, in memory of Private Donovan, who died from wounds received at La Polce, France, while in the service of his country during the World War, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

JOHN CHARLES HOLMES CIRCLE.

Coun. BRICKLEY offered an order—That the Park Commissioners be requested, through his Honor the Mayor, to name the circle in front of the Westland avenue entrance to the Fenway John Charles Holmes Circle, in honor of said Holmes, who died in the service of his country during the World War, and to designate said space with suitable signs.

Passed under a suspension of the rule.

PUBLIC HEARING IN GERMANTOWN.

Coun. DONOGHUE offered an order—That the Executive Committee give a public hearing to the members of the Germantown Citizens' Association in Germantown, at the convenience of the members of said association.

Coun. DONOGHUE—Mr. President, I ask a suspension of the rule that the order may be put upon its passage. I do not want to burden the Council with remarks of mine. We have listened to a lot of oratory today. I would simply say in connection with this order that I feel, as a public servant, a servant of the people, that the Boston City Council, when requested to grant a public hearing to any body of citizens, ought to have courtesy enough to extend to them the privilege of going out to their section and meeting with them on their own ground to discuss questions they are interested in with them. I feel that it would be a great inconvenience and hardship to many residents of Germantown to have to come in here on Monday afternoon to attend a public hearing on matters that they are interested in. Most of the people of the district are working people, and for them to take a day off necessitates their losing a day's wages. Furthermore, if they were to come down here and run into such a session as we have had here today, we might be here for hours before we could even attempt to listen to their story as to conditions in their district. I feel that we owe it to the citizens of Germantown to give them the same privilege that we have extended to citizens of South Boston, Brighton and other sections of the city, and that we ought to hold a meeting of the Executive Committee in their locality so that we may discuss with them the municipal needs of their district. I don't feel that the citizens of Germantown are asking any too much in asking us to devote one night out of the year to listening to their needs, and I hope the order will be passed.

The rule was suspended, yeas 8, nays 0, and the question came on the passage of the order.

Coun. WATSON—Mr. President, I am glad to see that my enemies have taken wisdom from my lips concerning this proposition. I am satisfied that it should and will pass unanimously.

The order was passed.

GENERAL RECONSIDERATION.

Coun. LANE moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 5.25 p. m., on motion of Coun. DONOGHUE, to meet on Monday, May 23, at two o'clock p. m.

SUPPLY DEPARTMENT.

Steam Roller.

On May 13 to Buffalo Steam Roller Company as per following communication and bid.

BOSTON 9, April 28, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing one Buffalo Pitts 2½-ton steam roller to the Park Department, which were publicly opened and read at this office under date of April 25, 1921.

Permission is respectfully requested to award a contract to the Buffalo Steam Roller Company, the only bidder, at a price of \$2,350, f.o.b. Boston.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Bids on one Buffalo Pitts 2½-ton steam roller for the Park Department, opened April 25, 1921:

Buffalo Steam Roller Company, \$2,350, f.o.b. Boston. Contract approved May 25.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

SUPPLY DEPARTMENT.

Henrici Washers.

On May 12 to the Troy Laundry Machinery Company, as per following communication. Contract approved May 25.

BOSTON 9, May 7, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly advertising for same, to the Troy Laundry Machinery Company, Ltd., for furnishing to the Boston City Hospital one 42-inch by 72-inch B.J.-2 Henrici bronze washer for \$2,750, as per specifications submitted by the chairman of the Boston City Hospital Trustees.

The Boston City Hospital is standardizing on the Henrici washers, having had several installed within the past five or six years, and as they feel that this particular type of machine is adapted to their use, I respectfully request that the permission asked for be granted. I am attaching letter from the president of the Board of Trustees regarding the desirability of this particular type of machine.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Tree-Moving Machine.

On May 13 to Hick's Nurseries, as per following communication. Contract approved May 25.

BOSTON 9, April 28, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—No bids were received for the tree-moving machine advertised to be opened on the 25th instant.

The Park Department has forwarded to this office two proposals received on this machine, one from the Hick's Nurseries, Westbury, Long Island, for \$1,500, f.o.b. Westbury, and the other from Lewis & Valentine Company of New York City for \$1,800. These proposals were received in December, when the Park Department was making up its budget.

I respectfully request that authority be granted me to enter into contract and purchase from the Hick's Nurseries, without advertising, one tree-moving machine to carry trees from 12 to 15 inches in diameter at \$1,500, f.o.b. Westbury, Long Island.

Both of the concerns named above were included in the list of prospective bidders for the opening on the 25th instant, but no formal bid was received from any concern.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PARK DEPARTMENT.

BOSTON, May 12, 1921.

MR. CARMINE ANTONELLIS, 11 Snow Street, Brighton:

DEAR SIR,—You are herewith authorized to add to your contract for erecting the masonry work, etc., in the outside cages of the lion house at Franklin Park, the sum of nine hundred and ninety six dollars (\$996) for building a rustic stone background, laid in cement mortar, at the rear of the outside cages, with material on the ground, in accordance with the drawing prepared in this office and dated May 10, 1921.

WILLIAM D. AUSTIN, Architect.

Assented to:

CARMINE ANTONELLIS, Contractor.

Contract sum, \$12,684; extra as per this order, \$996; total contract price to date, \$13,680.

PARK DEPARTMENT,
May 23, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—At a meeting of this Board held Monday, May 16, 1921, it was voted to recommend for your approval an extension of the contract of Carmine Antonellis for erecting outside cages on the lion house, the building of a rustic stone background, laid in cement mortar, for the additional sum of \$996.

The reason that this work was not included in the original contract was that it was a portion of the work intended to be carried out by the department force. This department force consisted of a foreman and twelve men who have been at work during the most of the winter and spring months on excavating and laying cement foundations.

The reason that the Board does not wish to continue this work is that the men are very much needed on ordinary maintenance work. As the contractor is now busy on his portion of the work and has a derrick erected there, the continuation of the building of the rustic stone background would interfere with the contractor's work and would delay this work so much that it is doubtful if the animals could have the benefit of the outdoor cages during the present season.

The contractor, having a derrick erected and working, can naturally complete the job at a lower price than the department force or than another contractor can do, as is shown by the competitive bids received by the Architect, William D. Austin:

A. Piotti & Co., 780 Dudley street,

Roxbury, \$1,312; Archdeacon & Sullivan, 5 East Concord street, city, \$1,271; Carmine Antonellis, 11 Snow street, Brighton, \$996.

Only for the above urgent reasons does this Board request your Honor to approve of the extension.

Very respectfully yours,

JAMES B. SHEA, *Chairman.*

PUBLIC WORKS DEPARTMENT.

BOSTON, May 16, 1921.

WESTINGHOUSE ELECTRIC AND MANUFACTURING COMPANY:

Dear Sir,—You are hereby directed to make the following changes in work under your contract for furnishing and erecting two pumping stations for High Pressure Fire Service, dated October 2, 1920.

Items ordered: Substitute six (6) 16-inch and nine (9) 12-inch standard gate valves for the same number of high pressure gate valves as shown on plans Nos. 904 and 905, deducting for this substitution the sum of \$2,270. Substitute three electrically driven No. 2 Hytor vacuum pumps for three (3) vacuum pumps specified in the contract, deducting for this substitution the sum of \$1,850, from the contract sum. Estimated cost of extra work \$4,120.

I recommend that the above order be issued.

F. A. McINNES,
Division Engineer.

BOSTON, May 17, 1921.

S. J. TOMASELLO, 11 Cushing Terrace, Dorchester, Mass.:

DEAR SIR,—You are hereby directed to perform the following extra work under your contract for paving Dorchester street, from East and West Broadway to East and West Eighth street, South Boston, dated May 9, 1921. Items ordered: Regulate existing edgestone and furnish and lay artificial stone sidewalks. Price to be paid for each linear foot of edgestone reset, the sum of thirty (30) cents; for each square foot of artificial stone sidewalks laid, the sum of twenty-six (26) cents. Estimated cost of extra work, \$10,000. I recommend that the above order be issued.

JAMES H. SULLIVAN,
Division Engineer.

PUBLIC WORKS DEPARTMENT (Sewer Service).

Additions, amounting to \$810, on contract with the C. & R. Construction Company, for building Muddy river conduit in Brookline avenue, between Beacon street and Audubon road, Roxbury, on account of building and maintaining plank run, grading and maintaining surface through vacant lot of Goodyear Tire Company to permit passage of traffic temporarily during sewer construction; building fence along sewer trench from station 8+55 to station 12+59; and relocating engine and cable tower and moving material to permit passage of traffic along Brookline avenue. Original contract, \$280,118; total additions, \$1,060; contract as standing, \$281,178.

PUBLIC WORKS DEPARTMENT (Water Division).

An addition, amounting to \$260.30, on contract with Thomas D. Russo for

laying the high pressure fire pipes in Atlantic avenue, Edison Electric Company alley, Battery street, and the adjoining property of the Boston Elevated Railway Company, on account of furnishing labor for moving and rearranging material of the Edison plant; building and replacing fence required by the Edison Company; and preserving 16-inch pipe against action of salt water. Original contract \$13,745.75; total additions, \$1,159.47; contract as standing \$14,905.22.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

To resurface with asphalt macadam Waumbeck street, Roxbury, from Warren street to Crawford street, the estimated cost for labor and material being \$5,000.

To resurface with bituminous macadam Havre street, East Boston, from Meridian street to Bennington street, the estimated cost for labor and material being \$2,500.

To resurface with bituminous macadam London street, East Boston, from Porter street to Sumner street, the estimated cost for labor and material being \$3,000.

To resurface with bituminous macadam Paris street, East Boston, from Meridian street to Bennington street, the estimated cost for labor and material being \$2,500.

To repair and blanket coat with tar Baker street, West Roxbury, from Centre street to the Newton line, the estimated cost for labor and material being \$3,000.

ARTIFICIAL STONE SIDEWALKS.

PUBLIC WORKS DEPARTMENT.

BOSTON 9, May 17, 1921.

To the Honorable the Mayor:

I return herewith petition signed by all of the property owners on Dorchester street, from Broadway to Eighth street, requesting the installation of granolithic sidewalks between these limits.

When this work was prepared for advertisement, it was our intention to repair the roadways only between the track and the edgestone. Since our work commenced, the Elevated has decided to rebuild its track, which means a reconstruction of the entire street. I therefore agree with the petitioners that the time is opportune for completing the entire street by rebuilding the sidewalks. This will require an additional order of approximately \$10,000, which I am attaching herewith, and recommend your approval. There will be a salvage value of approximately \$2,500 for the brick removed, which material can be used to advantage in other work.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

BOSTON 9, May 25, 1921.

To the Honorable the Mayor:

With further reference to the order for extra work, under the contract with S. J. Tomasello on Dorchester street, from Broadway to Eighth street, South Boston, beg to advise that the price of 30 cents per foot for resetting the edgestone is the unit price provided in the

contract. The price of 26 cents per foot for each square foot of artificial stone sidewalk laid includes excavation, hauling of the old brick to the city yard on Columbia road, and laying the artificial stone sidewalk.

This price is less than any that could be obtained if the work were advertised, and it would create a peculiar situation if two contractors were on the one job at the same time.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

STREET COMMISSIONERS.

The following petitions for garages, etc., were approved by the Mayor:

REJECTED CLAIMS.

On May 23 the Law Department disapproved six claims against the city, in three of which no amounts were specified, and the other three aggregated \$1,053.01, and are classified as follows: Against the Assessing Department, one, amounting to \$182.01; against the

Park and Recreation Department, one, in which no amount was specified; against the Public Works Department, three, in two of which no amounts were specified, and the other one amounted to \$450; against the Supply Department, one, amounting to \$424.

All these claims have been disproved for the reason that there appeared to be no legal liability on the part of the city.

PUBLIC WORKS DEPARTMENT.

The Commissioner of Public Works states that it is his intention:

To construct a sanitary sewer of 12-inch earthen pipe, also two manholes and five catch basins in Imrie road, between Cambridge street and playground, in the Brighton district at an estimated cost of \$1,837.

To construct a sanitary sewer of 10-inch earthen pipe, a surface drain of 15-inch earthen pipe and two catch basins in Townsend street, between Warren street and a point 460 feet northwest, in the Roxbury district, at an estimated cost of \$7,040.

To construct a sanitary sewer of 15-inch earthen pipe in Saunders street, between Guilford street and Cambridge street, in the Brighton district, at an estimated cost of \$2,000.

OFFICIAL COMMUNICATIONS.

FIRE DEPARTMENT.

Rules for the use of street shower bath attachments during the summer months:

1.—Both males and females are permitted to participate in these baths. They must be provided with proper bathing suits or old clothing. Grown people are also permitted to bathe, provided they are garbed properly. Misbehavior on the part of anyone means the shutting down immediately of the shower, or the removal of the guilty parties by policemen who are detailed.

2.—The hours for bathing are either two hours in the morning or two hours in the afternoon on extremely warm days. The time for the operation of these showers is to be governed solely by the degree of temperature and the number of people present at the time.

3.—The Fire Department to have jurisdiction of the operation of these baths which are to be located as near as possible to fire companies, considering, of course, the persons using the system.

REPRESENTATIVE AT NATIONAL TUBERCULOSIS ASSOCIATION.

CONSUMPTIVES' HOSPITAL DEPARTMENT.

Boston, May 18, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

Dear Sir,—The trustees of the Consumptives' Hospital desire to send Dr. Frank H. Hunt, resident medical officer at the hospital, to the annual meeting of the National Tuberculosis Association. This is a medical meeting. They respectfully request permission to do so. The estimated cost is about \$75 to \$100. This meeting will be held in New York City June 14-17, inclusive.

Yours very truly,

JAMES J. MINOT,

Secretary.

EXCERPTS, SIXTY-NINTH ANNUAL REPORT OF THE TRUSTEES OF THE PUBLIC LIBRARY.

ORGANIZATION OF THE BOARD.

The annual meeting of the board was held on Friday, May 7, 1920, when the Rev. Alexander Mann, D. D., was elected president; Mr. Samuel Carr, vice president, and Miss Della Jean Derry, clerk. Rev. Alexander Mann, D. D., was reappointed a trustee for the term ending April 30, 1923.

INCREASE IN CIRCULATION.

The home use of books from the Central Library, branches and reading rooms

during 1920-21 was 2,448,776 volumes, an increase of 148,044 over the previous year. These figures do not include the very large use of books and periodicals in Bates Hall, the Patent Room, the Children's Room, the Fine Arts and other reference departments of the library where the open shelves exist. Thousands of books, of which no record is kept, are called for in these departments during the year.

The accessions of the year numbered 59,731 volumes, of which 46,809 were acquired by purchase. Because of the number of books lost, missing or worn out, the net gain of volumes added to the collections numbered 20,798 at the Central Library and 6,214 at the branches. The following comparative table shows the home circulation for the past five years:

BRANCHES AND READING ROOMS.

At a meeting of the Board of Trustees on April 9, 1920, a representative committee of citizens of West Roxbury, known as the West Roxbury Library Committee, appeared before the Board in reference to the proposed purchase of a site for a new library building in West Roxbury. At a meeting of the Board held on April 23, the trustees formally voted to approve the recommendations made by the West Roxbury Library Committee and so informed his Honor the Mayor. On June 7 the City Council voted an appropriation of \$7,000 for the purchase of the site proposed, and this was approved by his Honor the Mayor on July 6.

In this connection it may be said that the trustees receive a number of requests during the year for the establishment of branches or reading rooms from various parts of the city. The prompt and signal success which crowned the efforts of the citizens of West Roxbury is largely due in our opinion not only to the intrinsic merit of their request but to the fact that the committee which urged it upon the trustees and the City Council was one which represented practically every religious and secular interest in West Roxbury.

The Roxbury Crossing Reading Room was removed to new quarters at 208 Ruggles street on April 1, 1920. The change was neither an improvement nor an enlargement of the old quarters at 1154 Tremont street, but was found necessary as it was impossible to renew the lease.

BUSINESS BRANCH.

The report of the Examining Committee of the library again emphasizes the need and value of a branch of the library in the centre of the business section of the city, to be known as the Business Branch. If, as has been suggested, this Business Branch can be placed in the new building of the Boston Chamber of Commerce, the location would in the judgment of the trustees be an ideal one. The trustees renew the recommendation which has been made for several years past for this much

needed library extension, and earnestly hope that it may receive the early consideration of his Honor the Mayor and the City Council, as a special appropriation will be necessary in order to carry out the undertaking.

ESTIMATES, 1921-22.

The estimates of the trustees for the maintenance of the library for the coming year forwarded to his Honor the Mayor in budget form, as usual, amount to \$786,688, of which \$550,000 is for personal service and \$236,688 for general maintenance.

The estimate for salaries includes \$30,703 to provide for twenty-seven additional assistants to take care of increased work throughout the system. By direction of his Honor the Mayor no allowance for increases in salaries over present rates was included in the estimate. On April 1, 1920, a general salary increase was allowed to employees in the regular library service, and on July 1, 1920, to employees in the printing and binding departments, amounting in all to approximately \$70,000 for the year. Of this amount, practically four fifths was expended in increasing the compensation of the more poorly paid positions. The trustees felt that this should first be done, but they also feel that they would fail in their duty if they did not point out the vital importance of increasing the salaries of the heads of departments, branch librarians, and the better educated and more highly trained members of the staff at the earliest possible moment. If the efficiency of the whole library system is to be not merely maintained but increased we must be able to offer salaries that will attract library workers of education and experience.

The estimate for general maintenance includes a sum necessary to cover the absolutely essential repairs and improvements at the Central Library and branches, based on a careful study of conditions made by Messrs. Fox and Gale, architects, at the request of the board.

The trustees have asked for \$100,000 for the purchase of books, an increase

of \$40,000 over the amount allowed last year. In this connection the trustees call the attention of his Honor the Mayor and the City Council, and through them the attention of the public, to the reiterated statements in the very able report presented this year by the Examining Committee, to the effect that the pressing need of the library today is more books. This need has been emphasized again and again by the trustees in their annual reports, and they are grateful for the strong reinforcement of their request which is given in the report of the Examining Committee. The trustees also call attention to the fact that the appropriation of the library having been less than 3 per cent of the amount available for department expenses from taxes and income of the city, the income of the Benton Fund of \$100,000 for the purchase of children's books was again not available for library purposes.

EXTENSION OF LIBRARY SERVICE.

Under the direction of the librarian the three rooms to the right of the main stairway have been opened to provide accommodation for a general library information office, a current government documents service room, and an open shelf room. The documents room, established during the latter part of 1919, was described in the report of the Librarian of last year, and also in the October-December, 1920, bulletin of the library. The important service daily rendered to the business men of the community well justifies its continuance and development. We believe that it occupies a unique place in forward-looking library work. The information office renders first aid to all who come to the Central Library seeking any kind of information, and from the start has met with unquestioned success. The open shelf room is perhaps the most interesting experiment undertaken for some time. In specially designed cases some 2,500 selected volumes of non-fiction representing over twenty classes of literature have been placed for the convenience of those persons who wish to find with the least trouble something good to read. The service is calling attention to many good books that have either been forgotten or have escaped the notice of the general reader. Two full sections of the shelving are filled with the new purchases of non-fiction. The use of this room is growing steadily and it is to be regretted that more space at the present time cannot be given thus to bring the library and many of its resources in so simple a manner to the attention of the public.

EXAMINING COMMITTEE.

As required by the city ordinance the trustees appointed an Examining Committee for this year, and joined the president of the Library Board with it as chairman. Those who were appointed and who have served as members of the committee are as follows:

Mrs. Patrick H. Batts, Miss Jessica Carr, Mrs. Edward J. Carroll, Miss Frances G. Curtis, Mr. John J. Dailey, Mr. William H. Downes, Mr. James E. Downey, Mrs. David A. Ellis, Rev. Harold L. Hanson, Mr. William V. Kellen, Mr. Joseph E. Kelly, Mr. William A. Leahy, Rev. Henry Lyons, Mrs. H. F. Lougee, Rev. Thomas J. MacCormack, Mr. Francis A. Morse, Mrs. Everett Morss, Rev. Charles E. Park, D. D.,

Mr. F. Nathaniel Perkins, Mr. E. Sohler Welch, Mrs. Robert Woods.

The report of this committee is appended hereto and included as a part of the trustees' report.

In calling the attention of his Honor the Mayor to the report of the Examining Committee, the trustees desire to place on record their own high appreciation of the zealous and painstaking labors of the committee, and the helpful and practical nature of their recommendations. Such constructive criticism is always helpful. The trustees, however, have not been unmindful in the past of the needs which this report points out, but would remind both the Examining Committee and the Mayor that to carry these recommendations into effect involves a considerable increase in the library appropriation.

REPORT OF THE EXAMINING COMMITTEE, 1920-1921.

To the Trustees of the Public Library of the City of Boston:

Gentlemen,—The Examining Committee adopts and presents as its joint report the reports prepared by its various sub-committees substantially in their original form, with one exception. The sub-committee on Branches and Reading Rooms necessarily covered so much ground and offered so many and such various suggestions that it has seemed best in the interests of effectiveness as well as of brevity to combine its principal observations into a more compact statement. Accordingly a summary has been made of the reports drawn up by the several sections of this sub-committee. The detailed reports, however, will be submitted to the Librarian personally, and it is hoped that a number of the practical and definite recommendations which they contain will meet with his approval.

We desire to express our unanimous appreciation of the courtesies we have received from the Chairman of the Board of Trustees, the Librarian and Assistant Librarian, and those members of the staff with whom we have come in contact in the course of our investigation.

Committee on Finance and Administration.—As a result, perhaps, of searching criticisms made some three years ago, the Library today shows gratifying signs of progress. A large number of the staff have taken and are still taking courses in Library Administration and in cultural subjects related to their special duties. A more liberal, though still inadequate, scale of salaries has been made possible through increased appropriations requested by the Trustees and voted by His Honor the Mayor and the City Council. New departments have been created,—the Information Bureau, the Government Document Room and an Open Shelf Collection,—each of which appears already to have justified its existence by the eager response of the public. The reference collection in Bates Hall has been carefully sifted and rejuvenated. The Catalogue Department has published an excellent series of reading lists and has added valuable editorial matter to the Quarterly Bulletin. A leaflet giving directions for the use of the Library may now be had for the asking. The limit of the home use privilege on ordinary cards has been raised from two books to four. Several

thousands of cards have been issued to children under ten years of age. Throughout the established departments one meets evidences of quickened zeal and a finer spirit of service.

It seems to us, however, that there still remain opportunities for growth in certain directions which have not yet been fully realized, partly, no doubt, because of financial limits set by the appropriating power and partly because of the necessarily gradual and unequal development of so many sided an institution. We venture to set down certain observations which we have made, accompanied by constructive suggestions.

The final test of the value of the Library as an operating system is its use by scholars and by the public. The annual reports and other evidence kindly sup-

The figures for a single district, which is not exceptional in character, bring

Central Library	904,016	307,745
3 Dorchester branches	36,204	264,605
All Dorchester	46,997	386,874

In other words the great collection in Copley Square, one of the important libraries of the world, has a much smaller home circulation of its volumes than the seven minor collections in Dorchester. Even when all the obvious allowances are made and the subsidiary uses

	NUMBER	PERCENTAGE

From 10 to 16 years of age	41,526	39.5
Males over 16 years of age	22,596	21.5
Females over 16 years of age	28,620	27.5
Total	104,881	100.0

As the number of males over 16 is only 22,596, the number of men over 20 cannot greatly exceed the number of children under 10. Apparently not more than one man in fifteen in Boston holds a library card, and this small proportion consists largely of members of the student and professional classes. Mechanics, clerks, salesmen and business men do not take books out for home reading to any great extent. Though boys at school generally hold cards, they gradually drop them and depend for their reading on the newspapers and other casual sources.

According to the tables published in the Annual Report for 1917-18, the different districts of the city vary widely in the number of card-holders. The percentage ranges from 6 per cent of the population in East Boston to 20 per cent or more in the Back Bay and Hyde Park.

It seems to us that while the Library is ably and zealously administered according to its present conception, the time has come for a broadening of the conception itself,—in a word for a definite abandonment of the reserved and expectant attitude, in so far as this obtains, and an entrance upon the field of active missionary effort. It is certainly desirable that the treasures of the Central Library should be more widely known; that the resources of the whole system for adult education should be fully utilized; and that the people in certain backward districts should be roused to an appreciation of the opportunities offered them.

For the accomplishment of these ends

plied by the Librarian show three conditions to exist:

Eighty-five per cent. of the home circulation is from the branch libraries. Probably eighty-five per cent. of the card-holders are women and minors. There is a wide variation in the patronage of the branches in different parts of the city.

Or to put the same facts conversely:

The Central Library which contains over 900,000 volumes has a relatively small home circulation. There is comparatively little use of the Library system, taken as a whole, by men. Certain districts remain comparatively indifferent to the advantages of this great institution.

In illustration of the first condition we may cite the following figures of home circulation from the latest annual report:

	VOLUMES	HOME CIRCULATION
Central Library	904,016	307,745
Branches and stations	293,482	1,728,590
Schools and institutions (chiefly through the branches)		264,397

out in striking relief the condition to which attention is directed:

	VOLUMES	HOME CIRCULATION
Central Library	904,016	307,745
3 Dorchester branches	36,204	264,605
All Dorchester	46,997	386,874

of the Central Library duly considered, the comparison discloses what seem to us rare possibilities of development.

The percentage of men (over twenty) who hold cards is not definitely known but may be estimated from the following table of card-holders.

	NUMBER	PERCENTAGE
Under 10 years of age	12,139	11.5
From 10 to 16 years of age	41,526	39.5

Females over 16 years of age	28,620	27.5
Total	104,881	100.0

we suggest a continuous campaign of publicity, making use of all suitable agencies. Display cards in conspicuous places are valuable. Illustrated articles in the Sunday papers would be read by hundreds of thousands. Talks might be given at large stores and factories, evening schools, settlement houses, American legion posts, labor union meetings, Y. M. C. A. buildings, and elsewhere, the speaker on each occasion being provided with facilities for registration. A mail canvass, conducted through the branches, would be of value as an experiment. Leaflets setting forth the advantages of the Library and emphasizing the resources of the Central Library should be widely circulated. Some of the reading lists might be published in large editions and distributed where they would be likely to make a special appeal. Each backward district should receive sympathetic attention, according to its needs.

Among the improvements which would appeal particularly to men the proposed Business Men's Branch holds a foremost place. This should be projected as soon as possible and should be located in the new Chamber of Commerce Building. Under an able Librarian it might render notable service to commerce and industry in this city. Its plan should be as broad as that of the commercial library recently established at Manchester, England, of which the London Times for April 4, 1919, says:

This library will keep up to date with information on customs and excise and the commercial side of means of communication by land and sea and air; will know all that can be known of harbors and ports; will keep

abreast of commercial travel and supply geographical data for assistance of commerce, will give instruction in botany to textile traders on the character of the raw materials which make up their finished goods and in chemistry to describe the processes through which they pass; will keep in touch with banking and finance, bookkeeping, accounting and commercial law; will search the daily press for the latest facts and opinions and probe into technical and scientific works to extract the kernel that will help to feed the commerce of the country; will amass information on business organization and management and show its appreciation of the importance of advertising in the development of business enterprises.

Trade papers, catalogues, consular reports from every quarter of the globe, home and foreign directories, telephonic and telegraphic codes will be daily selected, classified and revised. Large-scale maps and atlases will be a special feature.

Turning from problems of circulation to those of equipment and service, we observe that the Library buildings are not all in good condition or provided with modern accommodations. The Central Library, by far the most beautiful municipal building in Boston, needs a cleansing of the exterior. Its lighting system is defective in certain respects and there is complaint of poor ventilation.

The principal point of contact between the Library system and the public is the delivery desk. Prompt and accurate service here calls for a trained personnel, ramifying through many departments, and an efficient mechanism. It is agreed that the mechanism is no longer adequate. We recommend that in due course an appropriation be requested for repairing and modernizing the existing tube and carriage systems and for the installation of a tube system establishing direct communication between the Bates Hall desk and the stacks. The deterrent effect of even slight delays is an important factor affecting the use of the library. A separation of the two tube systems would relieve the existing tubes of approximately half their burden and sensibly increase the despatch of business. With the present mechanism the average time consumed in the delivery of a book for home use is ten minutes and for hall use in Bates Hall fifteen minutes.

As to the personnel in general we have noted that members of the staff are still underpaid, strikingly so when comparison is made with the wages of artisans and watchmen in the Library itself. In the interest of justice and indirectly of efficiency a pension system has been proposed by the Trustees. We believe such a system is needed to compensate for the deficiencies of emolument which still oblige a large percentage of the employees to work evenings and Sundays in order to round out a moderate livelihood.

Viewed in its primary aspect as a collection of books, the Library is one of the monuments of which Boston is justly proud. It stands as a sort of lay cathedral, built up by successive generations, and expressive of all that is best in the civic and secular life of New England. It serves the scholar by its ample range and its great special collections and the casual reader by its abundance of recreative material. Nevertheless the recent increase in the price of books has caused a corresponding shrinkage in the purchasing value of the annual appropriations, and the Library now needs generous financial support if it is to maintain its own high standard. We believe that the city government should exercise the utmost lib-

erality consistent with its resources and with its other responsibilities in making appropriations. We know that it may do so in full confidence that the funds appropriated will be carefully husbanded. We venture to suggest an advisory committee of scholars, selected perhaps by the presidents of universities in Greater Boston, to present from time to time, lists of works that might profitably be added to the Library. Such a committee by its authority and prestige would bring pressure to bear on public opinion in support of the Library Trustees in their requests for larger appropriations for books, and would emphasize constantly the highest function of the Library, suggested in the legacies of several of its benefactors, as a collection of works "of permanent value and authority."

Our chief recommendation may be summed up as follows:

The Library should undertake and maintain a vigorous campaign of publicity with a view to increasing its use, particularly by men.

A Business Men's Branch should be established as soon as possible in the New Chamber of Commerce Building.

Larger appropriations should be granted for the purchase of books.

A rounded development in the collection at the Central Library should be assured by enlisting the advice and support of a committee of scholars.

The underpaid members of the staff, especially the expert heads of departments, should be rewarded and encouraged by further increases of salary.

A tube system should be installed, connecting the Bates Hall delivery desk directly with the stacks.

Committee on Books.—Since one result of the war has been a distinct increase in the use of the library, it becomes desirable to meet the greater demand not only by the purchase of new books but by the better lighting and ventilation of Bates Hall and by making more easily available the less obvious portions of the library.

New books are needed, adapted (1) to children of the first three grades; (2) to prospective citizens of foreign birth, including books written in their own languages; and (3) to studious and inquiring minds, who seek not only technical knowledge, but a groundwork in general culture, literature, and history.

The library, as at present administered, represents a vast amount of thought and care and devotion. The staff-spirit is of the highest order. This spirit of service, intelligently guided, has produced in the library a machine capable of functioning much better than it does at present. It is suggested that, since the great obstacle to its perfect usefulness is the popular ignorance of its opportunities or indifference to its resources, some method of publicity be adopted by which the people of Boston may be made aware of what they have in the library and what variety and thoroughness of service it offers them.

A brief, tersely phrased, legibly printed statement, published either in the daily press or as a broadside, might serve to inform people of the wealth of advantages at their disposal. This in turn ought to awaken a more general interest and pride in the library, and ought to constitute precisely that background of popular demand which would justify our city government in being more generous.

This suggestion is made on the assumption that the amount of money appropriated for the support of the library is a fairly accurate co-efficient of the

degree of popular pride and interest in the library; and that the only sound way in which to secure the larger appropriation needed is to increase the degree of acquaintance with the library on the part of the people of Boston.

More specifically it is suggested that the stacks should be put under the supervision of a responsible head, as they were at one time.

There is great need of more reference books for use in Bates Hall; not only more in number, but of more recent authorship.

The problem of the theft and mutilation of books is accepted as insoluble. It is suggested that while no adequate remedy appears, the fact is of too serious a nature to be taken permanently for granted, and should be kept well in the fore-front of our attention, in the hope that some solution may appear.

Committee on Fine Arts and Music.—The sub-committee on Fine Arts and Music has the honor to report as follows:

It does not seem to the committee to be of any use to make recommendations that obviously involve considerable extra expenditures at this time, but the matter of the artificial lighting of the Fine Arts Exhibition Room calls for action, and it might be materially improved by provisional measures which would not be costly. The lamps at present are hung in such positions as to bring the light directly in the eyes of the visitor. The lamps should be placed higher and provided with shades so that the light would fall on the walls rather than in the eyes of the visitor. This re-arrangement would not be expensive and would be a much needed improvement.

The general re-arrangement of the exhibition room recommended by last year's sub-committee on Fine Arts is certainly to be desired, but it would doubtless cost a considerable amount, and would better be postponed until it can be effected in a permanent manner, without interfering with the frequent and valuable temporary exhibitions held in this room.

These exhibitions of pictures, prints, etc., and of materials in the special libraries, are highly commended, and are most timely and useful to the public. Their continuance is taken for granted.

We would respectfully suggest to the thoughtful consideration of the trustees the possible improvements to be made in the beautiful Court of the Central Library. The fountain ought to be embellished, whenever it shall be feasible, by the erection of a suitable bronze figure or group; and the grass plats should be more carefully and systematically attended to. This matter demands the study of experts, but it should be kept in view as a future policy. The severe character of the architecture should not, of course, be in any degree diminished by extraneous embellishments, but the details above mentioned are, in the opinion of your committee, worthy of attention and study.

In general, we wish to place on record our judgment that the service rendered to the Boston public by the fine arts and music departments of the library is of incalculable worth, and too much can hardly be said in praise of the unflinching courtesy, consideration, and devotion to the interests of specialists and students shown by the staff.

Committee on Printing and Binding.—

The Printing Department is a small department of 6 employees. The Binding Department has 39 employees.

The question of abandoning these two departments was presented to the library trustees recently by the Finance Commission. At that time an expert was sent to the Public Library for an investigation into these departments. The report of this expert and the comments of the heads of the two departments on this report are on file with the Board of Trustees.

Accordingly it would seem as though much of the investigation ordinarily expected from this sub-committee had already been done.

While, on general principles, the committee feels as though the Printing and Binding departments should be kept under the roof of the Library Building, it realizes that this question is being given most serious consideration by the Finance Commission and the Board of Trustees; and that these two bodies are being aided in their consideration by the advice of technical experts. Apart from this general expression of opinion your committee has no specific recommendation to make.

Committee on Children's Department and Work with Schools.—The report on the Children's Department must repeat practically what was said last year—that the overwhelming need is for more books and more trained assistants—in spite of what the trustees have done for this department in the past year.

As for the work with schools it is evident that the next step should be made by the school end. This committee recommends that the School Board should institute a course of lectures for teachers on library appreciation—or the use of the books—and also organize a mass meeting for teachers, to present the opportunities of the city in the matter of books and pictures, with addresses by library and museum heads.

In the same connection it would be well to advertise such lectures on Boston,—especially those relating to its history, geography and industries,—as the library gives.

Summary of Reports of Sub-Committees on Branch Libraries.—In the brief time allowed since the appointment of the Examining Committee all of the thirty Branch Libraries and Reading Rooms have been visited and considered by members of the committee. The results emphasize recommendations made in the past and the importance of policies outlined in reports of previous years by the librarian. There is a strong feeling that the continuation of the Examining Committee in active service throughout the year would make its work more effective, especially as it might be of help to the branches.

The system of the branches reaches out to serve any home in every quarter of the city. To do this there must be not only more and more books, as each report urges, but books that are adapted to a most varied demand. The branches are not libraries for a fairly uniform service to scholars and students but for the citizen and his children. In view of this fact it is worth while to call attention specifically to some of the ways in which the supply of books most urgently needs reinforcement.

In addition to a considerable increase in the supply of juvenile literature to keep pace with the growing attendance at many stations, the following requirements are of great importance:

The renewal of many of the best standard books which because most read are most worn, and an increase in the number of copies of each.

More copies of new books available when the new library lists are issued and a more rapid increase in the numbers of those found to create a special demand.

More scientific and technical books particularly in districts where they will serve men in the skilled trades.

A carefully chosen selection to meet the very considerable demand of adults of foreign origin who have not enough English to read in it easily. Such a selection would give these foreigners an introduction to a great American institution and could be made to promote a better reading knowledge of English among men. Some translations of standard American literature would offer acquaintance with the best traditions of the country.

More books of attractive appearance for the recreational reading of boys and girls who are passing from juvenile interests but are not yet ready for the reading of grown-ups. This should include much educational material. It should be possible for the librarians to devote a set of shelves to this purpose as is done for the required reading of the High Schools, keeping in mind that some part of the patronage will come from those who are no longer students but have left school to go to work.

Appreciation for the intelligence and devotion of the librarians of the Branches and Reading Rooms is expressed in the reports of the committees. The handicap of lack of books and the often inconvenient arrangement of their buildings and equipment has but served to stimulate their efforts to make the service as effective as possible but means too heavy a burden for continued endurance. An increase in the amount of assistance is a matter of first importance.

One half of the quarters occupied are reported as being in good condition; a third requires so much done that a change seems to be necessary in most cases. In a number of cases the lighting arrangements can be readjusted to give better results and greater economy. The promise of new accommodations in conjunction with new municipal buildings to be erected this year in at least two districts is a source of satisfaction.

Adopted as the Report of the Examining Committee, February 10, 1921.

ARCHITECTS FOR WAYFARERS' LODGE RECONSTRUCTION.

Boston, May 17, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Subject to your approval, I will appoint Messrs. Newhall & Blevins, 9 Park street, Boston, as architects for the reconstruction and improvement of the Wayfarers' Lodge, Hawkins street, for which an appropriation in the sum of \$45,000 was approved by your Honor on May 4, 1921.

Messrs. Newhall & Blevins' commission will be 10 per cent, in accordance with the rates established for work of this nature by the Architectural Society.

Respectfully yours,

FRED J. KNEELAND,
Superintendent of Public Buildings.

Approved May 24, 1921.

ANDREW J. PETERS, *Mayor.*

RESIGNATION OF CITY TREASURER.

Boston, May 25, 1921.

MR. THOMAS W. MURRAY,
City Treasurer, City Hall, Boston:

MY DEAR MR. MURRAY,—In accepting your resignation as treasurer for the City of Boston I wish to thank you in behalf of the city for the splendid public service which you have rendered in the past three years.

You have been alert and devoted to your work. You have met the problems of financial administration during the war with admirable judgment. Even in the time of financial failures you so successfully served the interest of the city's deposits that nothing was lost to the taxpayers. The innovations introduced by you into the office of the treasurer have simplified the work and have placed the office on a more businesslike and efficient basis.

You will take with you the respect of us all with whom you have worked, and our best wishes for your success.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

INVESTIGATING HIGH PRESSURE SYSTEMS IN NEW YORK, PHILADELPHIA AND BALTIMORE.

Boston, May 24, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I request your Honor's permission to send Chief of Department Peter E. Walsh and Capt. Charles A. Donohoe, executive officer of the Fire College of the Boston Fire Department, to New York, Philadelphia and Baltimore to make a study of the operation of the high pressure systems in those cities. Our high pressure system is nearing completion and this visit will give responsible officials of the department an opportunity to familiarize themselves with the methods adopted in other cities for using high pressure systems (after years of experience), so that the city will be able to get the best possible results when our system is installed.

Yours very truly,

JOHN R. MURPHY,
Fire Commissioner.

Approved May 25, 1921.

THE PUBLIC LIBRARY OF THE CITY OF BOSTON TRAVEL POSTER EXHIBIT.

During the next two weeks there will be on view in the exhibition room on the third floor of the Public Library thirty-seven foreign travel posters recently acquired by the library. About two thirds of these are British work of unusual merit and originality. In their vivid coloring one hardly recognizes the soft English landscape but it is well known that the fields and gardens of posterland have a flora all their own. There are several striking posters devoted to London characters. The rest of the exhibit, mainly Swiss and Italian, is more conventional but very good of its kind.

CIVIL SERVICE EXAMINATIONS.

STATIONARY ENGINEERS, STATIONARY FIREMEN, AND MARINE ENGINEERS, JUNE 3, 1921.

The examination will be held for the service of the state and all cities and such towns in the state as are classified under civil service.

FIRE SERVICE, JUNE 10, 1921, BOSTON AND CITIES AND TOWNS IN THE METROPOLITAN DISTRICT.

Applicants for the service of Boston must be not less than twenty-two nor over thirty years of age at the time of filing their applications. Applicants for the service of all other cities and towns in the metropolitan district must be not less than twenty-two nor over thirty-five years of age at the time of filing their applications.

WATCHMEN, JUNE 16, 1921.

This examination will be held for the service of the state and all cities and such towns in the state as are classified under civil service. This service in-

cludes watchmen and guards in public parks, grounds, institutions and departments; gatemen for ferries; turnkeys and guards in prisons, houses of detention and reformatories.

GENERAL INFORMATION.

In certifying from the eligible lists established as a result of the examinations named above, preference will be given to veterans as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to applicants who, at the time of filing application, are residents of the city or town from which requisition is received.

As far as practicable, these examinations will be held in various centrally located cities throughout the state.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston.

On motion of the Superintendent, it was

ORDERED, That the Superintendent is hereby authorized to suspend

school sessions of the Boston Clerical and Boston Trade Schools on Wednesday, June 15, 1921, at 1 o'clock P. M., in order to afford pupils of these schools opportunity to attend the athletic meet to be held at the Stadium on that day.

On motion of the Superintendent, it was

ORDERED, That the Superintendent is hereby authorized to dismiss the pupils of the ninth grade classes in the Abraham Lincoln and Lewis Intermediate Districts for the morning session of Friday, June 10, 1921, on which day will be held the annual parade of the Boston School Cadets.

On motion of the Superintendent, it was

ORDERED, That during the financial year 1921-22 those pupils in the commercial course in the day high schools and in the Boston Clerical School who may be assigned by the Superintendent, in accordance with the terms of the order of even date, to perform clerical service for officers, directors, supervisors and principals of schools or districts, and for the assistant in charge of speech improvement classes, shall be allowed compensation therefor at the rate of sixty cents (60c) for each two-hour afternoon period of such service.

On motion of the Superintendent, it was

ORDERED, That the Business Agent is hereby authorized to furnish street car tickets to pupils in the commercial course in day high schools, and in the Boston Clerical School, who may be assigned by the Superintendent, in accordance with the terms of the order of even date, to perform clerical service for officers, directors, supervisors and principals of schools or districts, and for the assistant in charge of speech improvement classes, and whose services in this respect are duly certified to him by the head master of the school which such pupils attend; the expense therefor not to exceed four hundred and fifty dollars (\$450) during the financial year 1921-22.

CERTIFICATION OF A JANITOR.

A communication was received from the Secretary, under date of May 9, 1921, reporting that, pursuant to the action of the Board at its meeting on May 2, 1921, the Division of Civil Service has certified the following-named persons as eligible for appointment to the position of janitor: Thomas J. Foley, Charles V. Gillis and Neil J. Toland.

Placed on file.

LEAVE OF ABSENCE TO A JANITOR

A communication was received from the Schoolhouse Custodian, under date of May 16, 1921, recommending that Patrick F. Manning, janitor of the George T. Angell School-house, be granted leave of absence on one-half his net compensation for the period Mar. 17 to May 14, 1921, inclusive, because of personal illness.

Placed on file, and leave of absence on one-half net compensation granted for the period specified.

APPOINTMENT TO A PORTABLE.

A communication was received from the Schoolhouse Custodian, under date of May 16, 1921, recommending that Patrick J. Downey, janitor of the Boston Trade School, be also appointed janitor of the Portable located in the yard of that school, to take effect Apr. 1, 1921.

Placed on file, and the appointment approved, to take effect on the date stated.

TRANSFER OF A JANITOR

A communication was received from the Schoolhouse Custodian, under date of May 16, 1921, recommending that Joseph T. Keenan, janitor of the Joseph Tuckerman School-house, be transferred back to the janitorship of the

Benjamin Pope School-house, to take effect May 8, 1921.

Placed on file, and the transfer of Joseph T. Keenan approved, to take effect on the date stated.

REQUISITION FOR CERTIFICATION OF A JANITOR

A communication was received from the Schoolhouse Custodian, under date of May 16, 1921, recommending that requisition be made upon the Division of Civil Service for the names of candidates eligible for appointment to the janitorship of the Oak Square School-house.

Placed on file, and the Secretary directed to make requisition upon the Division of Civil Service accordingly.

ADDITIONAL COMPENSATION TO ACTING JANITOR

A communication was received from the Schoolhouse Custodian, under date of May 16, 1921, recommending that Charles D. Gallagher, acting janitor of the Winchell School-house, be allowed additional compensation for washing the windows in that school-house.

Placed on file.

On motion, it was ORDERED, That there be paid to Charles D. Gallagher, acting janitor of the Winchell School-house, the sum of thirty-one dollars and thirty-eight cents (\$31.38) for washing the windows of the Winchell School-house while he was acting janitor of the building, this sum being in accordance with the regular schedule for this kind of work.

REPORT OF TRIAL BOARD

A communication was received from the Trial Board, under date of May 12, 1921, stating that at the meeting of the Board on Apr. 18, 1921, there was referred to the Trial Board a report from the Schoolhouse Custodian of damage to the boiler in the North Harvard Street School-house, Brighton, which necessitated the dismissal of school on Apr. 7, 1921. The Trial Board gave a hearing in the matter on May 6, 1921, which was attended by the janitor concerned, Charles McLaughlin, and the Schoolhouse Custodian. A second hearing was held on May 11, 1921, which was also attended by the janitor, the Schoolhouse Custodian, a representative of the Schoolhouse Department, Charles F. Merrick, Master of the district, and the three teachers serving in the North Harvard Street School.

It appears that Mr. McLaughlin, the janitor, is in charge of two buildings—the North Harvard Street School-house, a four-room building, and the Washington Allston School-house, which is a large elementary school building. He employs an assistant, who devotes most of his attention to the North Harvard Street Building.

Tuesday, April 5, was an unusually warm day and the assistant to the janitor had a brisk fire which made the building uncomfortably warm, so that in the course of the morning the teachers turned off the radiators in their respective rooms. In one of the rooms only one valve of a radiator was closed, either because the teacher forgot to turn off both valves or else the valve was so stiff that she thought it was entirely closed, whereas it was really partially opened. As a result the water left the boiler, accumulating in various radiators throughout the building, a fusible plug blew out, and several sections of the boiler were cracked, causing damage which cost approximately \$335 to repair.

The weather was so warm that it was not necessary to dismiss the school except on the second day following the accident.

Who was responsible for this damage?

At the second hearing Mr. Merrick, Master of the district, stated that he had instructed the teachers to shut off the radiators in their respective rooms when they found it desirable to do so to lower the temperature, but had explained to them carefully that both valves to each radiator should be closed or opened, as the

case might be. The teachers concerned severally stated that they had been so instructed and clearly understood that both valves must be opened or closed, and that they were careful to act accordingly. The teacher having charge of the room in which was located the radiator which caused the damage stated that she always opened or closed both valves and was reasonably sure that she did so on the day in question, although she had no definite and specific recollection as to what she did on that particular day. It is, of course, possible that she forgot to close one valve, and on the other hand it is equally possible that the valve was so stiff that she thought she had closed it, whereas it was really left partly open.

Mr. Merrick admitted that he knew that the instructions given by him to the teachers were in direct violation of the regulations bearing on the subject, with which he was fully acquainted, and assumed full responsibility for the giving of such instructions.

Mr. McLaughlin, the janitor, knew of the instructions which Mr. Merrick had given; knew also that they were in violation of the regulations, but had not made any protest or objection thereto. The teachers acted under the direct and positive instructions of the master.

Some question arose as to the competency of the assistant employed by the janitor. One member of the Trial Board is of the opinion that he showed incompetency in the management of the apparatus on a warm day. The other members of the Trial Board are of the opinion that at most the assistant erred in judgment in carrying too heavy a fire on a warm day, and failed to appreciate at the time he started the fire early in the morning that the day would prove to be as warm as it actually was.

The Schoolhouse Custodian stated that he had for some time been of the opinion that it was inadvisable to have Mr. McLaughlin continue in charge of both the North Harvard Street and the Washington Allston School-houses, and proposed to arrange for his giving up the care of one of these buildings.

FINDING—That the accident was due primarily to instructions given by Charles F. Merrick, master of the district, in violation of the regulations, and the failure of the janitor to see that the regulations governing the operation of the heating apparatus were strictly observed, notwithstanding the instructions of the master to the contrary.

RECOMMENDATIONS—The Trial Board unanimously recommends that in view of the long and faithful service of Mr. McLaughlin, who has been employed as a school-house janitor for almost forty-two years, and the instructions given by the master of the district, no penalty be imposed upon him.

A. One member of the Trial Board recommends that Mr. McLaughlin be relieved of the care of one of the two buildings now under his charge at once.

B. Another member of the Trial Board recommends that Mr. McLaughlin be relieved of the care of one of the two buildings under his charge not later than Sept. 1, 1921.

The third member of the Trial Board calls attention to the fact that no testimony was offered at the hearings to indicate that he has not been doing the work in both of these buildings in a satisfactory manner, except on the particular day on which the accident occurred and that the responsibility for the accident rests very largely upon the master of the district. He also desires to point out that the statement of the Schoolhouse Custodian that he proposes to recommend that Mr. McLaughlin be relieved of the care of one of these buildings was not made in Mr. McLaughlin's presence, who was given no opportunity to be heard on the question, and it should therefore be given no weight by the Trial Board as having any bearing on the case; furthermore, he is of the opinion that if the School-

house Custodian desires to recommend such action he should do so directly to the Board on his own responsibility.

The Trial Board does not consider that it comes within the scope of its duty to make any recommendation with regard to the master of the district and confines itself to reporting the facts, so far as he is concerned, to the Board for such action as it may choose to take.

The Trial Board does not believe that in the circumstances any responsibility attaches to the teachers in the North Harvard Street School-house.

The report was accepted, and the recommendations contained therein were adopted with the exception of the recommendations designated "A" and "B", which were not adopted.

BOY SCOUT MEETING IN BLACKINTON SCHOOL-HOUSE

On motion, it was:

ORDERED, That the charge for light, heat and janitor service in connection with the occupancy of a room in the Blackinton School-house by boy scouts on Thursday evening, Apr. 7, 1921, is hereby abated and the cost thereof is assumed by this Board.

AMENDMENTS TO SCHEDULE OF EXTRA COMPENSATION FOR JANITOR SERVICE

On motion, it was:

ORDERED, That the Schedule of Extra Compensation for Janitor Service, School Document No. 17, 1920, be amended as follows:

Section 2. Strike out paragraph 22, and substitute in place thereof the following:

22. For afternoon social or business meetings held by or with the co-operation of principals of schools or districts, not oftener than twice in each school year in any one school or district, and held on a regular school day, no compensation will be allowed for janitor service performed not later than 5 o'clock P. M.

23. Janitors shall be allowed no compensation for cleaning school premises on account of afternoon occupancy for the purposes set forth in paragraphs 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21 and 22.

On motion, it was

ORDERED, That Section 2 of the Schedule of Charges for Light, Heat, Janitor and Other Service, School Document No. 17, 1920, be amended as follows:

Paragraph 17. Re-number as paragraph 18.

Insert the following as paragraph 17:

17. Social or business meetings held by or with the co-operation of principals of schools or districts, not oftener than twice in each school year in any one school or district, minimum attendance required, 25 persons; no charge for janitor service.

PENSION TO RETIRED TEACHER.

On motion, it was

ORDERED, That Sarah E. Lake-man is hereby granted a pension at the rate of one hundred eighty dollars (\$180) per annum, to take effect Apr. 1, 1921, in accordance with the provisions of Section 4 of Chapter 617 of the Acts of 1910, as amended by Chapter 569 of the Acts of 1912.

ADJOURNMENT.

The Board adjourned at 6.58 o'clock P.M.

Attest:

THORNTON D. APOLLONIO,

Secretary.

VETO—LEAVE OF ABSENCE FOR CITY EMPLOYEES.

The following was received:

City of Boston,
Office of the Mayor, May 20, 1921.
To the City Council:

Gentlemen,—I am herewith returning without my signature the order passed by the City Council on May 9 authorizing department heads to allow leaves of absence without loss of pay to employees of the City of Boston, to attend the annual tours of duty and service schools.

Upon the receipt of this order I requested the Corporation Counsel to advise me as to its validity. In his reply the Corporation Counsel called my attention to section 8, chapter 486, of the Acts of 1909, and made the following comment:

"It is quite apparent that this order of the City Council as drafted deals with the administration of the various city departments as well as with the executive power vested in you as Mayor, and is a matter which the City Council is prohibited from taking part in by the city charter."

It is because of the Corporation Counsel's opinion that I am vetoing the order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

SOLDIERS' RELIEF.

Coun. BRICKLEY, for the Committee on Soldiers' Relief, submitted a report recommending the passage of an order for the payment of aid to soldiers and sailors and their families in the City of Boston for the month of May, 1921.

Report accepted; order passed.

WILLIAM H. HOLLOWAY SQUARE.

Coun. BRICKLEY offered an order—That the open space at the junction of Curtis, Pope and Chaucer streets, East Boston, be named William H. Holloway square, in honor of said Holloway, who died while in the naval service of the United States during the World War, and that said space be suitably designated by signs.

Passed under a suspension of the rule.

GILBERT-DUNPHY SQUARE.

Coun. WATSON offered an order—That the space at the junction of Hamilton and Bowdoin streets, Dorchester, be named Gilbert-Dunphy square, in honor of Albert Gilbert and William Dunphy, comrades, who died in the service of the United States during the World War, and that said space be suitably designated by signs.

Passed under a suspension of the rule.

PROTECTION OF CITY DOCUMENTS.

Coun. WATSON offered an order—That the Superintendent of Public Buildings be directed, through his Honor the Mayor, to furnish Room 49, City Hall, with fireproof cases for the protection of city documents in charge of the City Messenger, and to equip said room properly for the storage of city documents.

Referred to the Executive Committee.

LEGAL EXPENSES OF POLICE DEPARTMENT.

Coun. WATSON offered an order—That the Police Commissioner be requested to inform the City Council as to the total sum expended by the commissioner during the fiscal year 1920 for attorney's fees in matters that had to do with the Police Department, and why the services of the Law Department of the city was not utilized instead of outside counsel.

Passed under a suspension of the rule.

ELIMINATION OF COAL CLAUSE.

Coun. WATSON offered an order—That His Honor the Mayor be requested to join with the City Council in petitioning the present General Court for the enactment of legislation that will compel the Edison Electric Illuminating Company to eliminate the so-called fuel charges under the coal clause, or to place in the jurisdiction of some accredited commission the power to order said company to charge for fuel under the coal clause only with its approval.

Coun. WATSON—Mr. President, I am satisfied that there are just two agencies that will be responsible for a reduction in the charges for lighting and the elimination of the fuel charge from the bills of the consumers of electricity in Boston. One is this body and the other is publication that is giving great space to the efforts of this body to bring about a reform. That latter agency is the Boston American, which is giving heroic support to the public cause in the matter of compelling the lighting interests to do the fair thing by the electric light and gas consuming public of our city. If benefit should accrue to the citizens of Boston, it will automatically follow that the benefit will spread to the entire Commonwealth, because the two major lighting companies of the

Commonwealth are the Boston Consolidated Gas Company, which distributes gas to the consumers of Boston, and the Edison Electric Illuminating Company of Boston, which supplies electricity to Boston and the nearby suburbs, the adjoining cities and towns. If the city can secure the elimination of the fuel charge there will automatically follow the elimination of this charge from the consumers bills throughout the city. This is a large sum that is dishonestly and brutally taken out of the peoples' pockets. It has been suggested that the Public Utilities Commission on Beacon Hill is helpless in the matter because of the lack of power over this corporation. If this is true we should know it. Then we can do something, or at least try to do something to secure legislation that will put teeth in the law and compel this arrogant combination of selfish and profiteering men to deal fair with the public that are entitled to this sort of treatment by virtue of the law that has to do with public utilities or of corporations granted charters such as this corporation has. It is a fundamental principle connected with the granting of charters such as the Edison Company has that it is given with the distinct understanding that the company has two functions to perform—to serve the public properly and charge a fair price for its commodity and therefrom receive a fair return to the investing interests. These are not the methods used by the Edison Company. Its plan is to return large dividends to those who own stock and to pay large salaries to its employees, such as Mr. Edgar and those who are in right, to use the vernacular of the street. I have introduced this order here today because I am sure that it is a step in the right direction. It may be said that it is too late to attempt to secure legislation. I reply to that suggestion, if it is made or thought of, that the members of the Legislature and the chief executive of the Commonwealth are paid to sit on Beacon Hill to serve the public regardless of their own desires. They are public servants presumed to have the interests of their constituents in mind and to serve them at all times. When they fail to do this they are no longer public servants but sitting there as the public's bosses and not their servants. There is a day of reckoning coming to all faithless servants who sit in places of responsibility and trust, and I am of the firm opinion that many who have failed in their duty to those who sent them to the State House last year are beginning to feel that it is about time to put up their umbrellas and keep out of the rain, and that they will show a different front from now on. The public are in no such a condition of mind to be fooled with any longer. The recent farce relative to the investigation of the Boston Elevated Railway has woke them up, and I am of the opinion that the Legislature will be only too willing to save their faces and sit on Beacon Hill until a bill is passed that will place in the hands of some body the power that will curb the profiteering and legalized criminal conduct of these cold-blooded commercial bandits and bring them to their knees and again show these corporations that they are the servants of the public rather than their over-lords. The gas situation is equally as bad. I note that they have reduced the price of gas to all consumers 5 cents per thousand. This is a small reduction, but nevertheless, it is progress and better reductions are to follow. What a difference between this city and the City of New York. There the price of gas has been voluntarily reduced 25 cents per thousand cubic feet. The reason given by the Consolidated Gas Light Company of New York for the reduction is specifically mentioned in a statement quoted in the New York Times on the eighteenth day of this month. Among other things referred to in their quoted statement, they say that the reason for this reduction of 25 cents per thousand cubic feet is because of their being able to secure their illuminating oil at one half the price they formerly paid. They state that the illuminating oil they use amounts to about four gallons per thousand cubic feet; that at 12 cents per gallon that meant four times, 12, or 48 cents, and that the reduction from 12 cents to 6 cents per gallon for the oil knocks off 50 per cent of the oil charge, making the oil charge, at 4 gallons of illuminating oil to the thousand cubic feet, 24 cents. And the Consolidated Company of New York added a cent more to that, reducing the price 25 cents per thousand cubic feet. The Consolidated Gas Company of Boston knocked off 5 cents from their \$1.40 per thousand cubic feet, giving no reason. We have heard at one time and another of \$10,000 beauties and \$100,000 beauties. There is this little report of the A. D. Little Company, that I might refer to as a \$24,000 beauty, the report to this body and to his Honor the Mayor relative to the operations of the Consolidated Gas Company in Boston and the

possibility of reduction in price of gas to the users. On page 147, while I will not quote it in detail, it says in substance that the Consolidated Gas Company has one of the most favorable gas oil contracts in existence in the country today, and that the low price at which it obtains this oil is the greatest single factor influencing the price of gas in Boston. They speak in that way of this wonderfully advantageous contract made by the Consolidated Gas Company with an oil company for the supply of illuminating oil used in connection with the manufacture of gas for lighting purposes, stating that a fair price for illuminating oil is 15 cents a gallon, but that the company has made an advantageous deal with a company called the Beacon Oil Company at the price of 12 cents per gallon. Let me simply say that the New York company is paying 6 cents per gallon. They probably buy it from some independent oil concern. The Consolidated Gas Company in Boston buys it from the Beacon Oil Company and pays 12 cents per gallon, and probably Mr. Wrightington, the treasurer of the Consolidated Gas Company, who pays the bills for that company to the Beacon Oil Company, will not seek any reduction from the Beacon Oil Company, because he would have to talk with the treasurer of the Beacon Oil Company concerning the reduction, and the treasurer of the Beacon Oil Company in this case happens to be the self-same gentleman, Mr. Wrightington, who is the treasurer of the Consolidated Gas Company. What a difference in price between the City of Boston and the City of New York. They are to reduce the price in New York 25 cents a thousand feet, and the reason stated for it is because of their being able to purchase oil at one half the price that they have hitherto paid for it. It is laughable to recall the suggestion made in the report of the A. D. Little Company, Incorporated, a report which cost the city \$24,000, that the reason why the price of gas was kept down to \$1.40 was because of the advantageous contract that was made between the Consolidated Gas Company and the Beacon Oil Company, or, to speak plainly, that the contract that was made by the Boston Consolidated Gas Company with itself was an advantageous one. But that price is referred to here in the report at 12 cents per gallon as against 6 cents in New York. I want to call to your attention this fact, too, Mr. President and fellow members, that while the Consolidated Gas Company in Boston proposes to reduce the price of gas to the consumers 5 cents per thousand cubic feet, which is a little less than 3½ per cent, at the same time the company has reduced the salaries of those drawing a small wage 10 per cent. The girls in the office, the bookkeepers, the laborers—I won't say the laborers, but many of the employees—have had their salaries reduced 10 per cent of their total weekly amounts. This is another way of bleeding the public, using a 3½ per cent reduction in the price of gas as a pretext for reducing the salaries of these people drawing a small wage 10 per cent, and the reduction is not in the salaries of the higher paid ones, but those of the smaller paid employees. In my opinion, it is the intent of the gas company to attempt to have a disorganized lobby in the shape of dissatisfied employees, who will use their influence on members of this body so that we will discontinue our attempts to secure fair treatment for the public from this outfit. I have heard from a few of them myself, personally, and by anonymous letters. One in particular accused me of doing dirty work, and suggesting that I keep up my dirty work, his salary having been decreased 10 per cent while the public had been benefited only 3½ per cent—"Keep up your dirty work, Jerry Watson, and by and by we won't have anything left as a result of a day's work, by reason of what you and others such as you do." That is the sort of thing I received from one party. Others are more gentlemanly, and do not blame me for my attempts to cut down the price of gas in Boston, but say it is unfortunate that they must be the target and that they must be the ones who are to suffer by this agitation. Most of them have been very reasonable with me. But that simply shows how hard it is for me and for my colleagues to go ahead and attempt to do anything here for the people when we are dealing with a heartless corporation which will act in these insidious ways, which will try to strike at us through these small wage-earners, having them act in a way like a lobby, in order to prevail on me and my colleagues to stop our efforts to get reduced prices of gas for the citizens of Boston. That gives an idea of what is done by these two cruel, heartless corporations, representing aggregations of wealth, represented by cunning and mean individuals whose only thought is for themselves, who will thus impose upon our good nature and try to negate our efforts in behalf of the people. But I have no fear of my col-

leagues. It is unfortunate that we are without power to do something radical, something of a strong nature; but I believe that the day is not far distant when the wise men on Beacon Hill will be wise for the public rather than for themselves; that they will see the need, the fairness and the justice of giving to this body some powers, so that we may be responsible to the demands and the pleas of the people who send us here. At the present time we are without that power, due to the efforts of some of the so-called better class in the community, who are continually harping at this body because of our lack of balance or the lack of balance of some of the individual members, or because of the radical statements made by myself or my colleagues, or because of our inactivities in certain directions when we do not act, as we are powerless. They want to take away from us the power we have, so that we may not be able to be responsive to the demands and appeals of our constituents. Because we have open hearts and sometimes become perhaps a little too liberal, they step in, going to Beacon Hill and securing a charter devised in the interest of those who framed it, so that we could not act as we wish to act in the interests of the citizens of our community. We have heard a good deal of comment recently about the segregated budget, devised by the sponsors of the charter. I might say much more. But it is my intent to continue this contest to the end. We are going to secure results because of our agitation. I am assured by men high in authority that the Boston American proposes to back up this body without any qualifications in every move it makes towards compelling the lighting interests and other corporations who are heartless to be responsive to the demands and pleas of the consuming public of Boston. The American will, to use the vernacular of the street, "go through" with this proposition, and without that publicity we would not step one foot forward in this agitation. But with a solid front, from the acting president down to myself, from alpha to omega, with a continued contest on this floor, led by me, and with the support, I trust, in the future, that I have had in the past from my colleagues, we will get results. It calls for a lot of labor and a lot of energy to continue this contest. There are others in this body far better fitted than I to join in this movement, and I believe that they will assist me. They have loaned their moral support and their votes, which are of tremendous assistance, to the cause. But they must continue in touch with the situation to some extent, at least sufficiently to add their voice to the protest and not make the matter look to be a one-man affair. I am not opposed to praise. I am human. I am not opposed to receiving credit for any effort of mine, and I am receiving it without stint all along the line, because I don't know of a more popular move that has ever been made by this body or any legislative body, in any city or town in any state of the Union, one that has met with a more favorable response than we have met with, in connection with this gas and electric lighting matter. That response has not come alone from those who have to stretch their pennies to pull them through the week, but it has been an interesting thing to note that men of means in the Back Bay, men who can afford to pay high prices for anything they need, nevertheless believe in fair play and are joining us in this movement. I am not one of those—and I do not want any utterance of mine to convey the idea—who has any quarrel with a rich man. I am with any man who has accumulated his riches by honest endeavor and honest investment, without oppressing those from whom he has received them, any man who has acted in a human and Christianlike way with his neighbor and with his fellow men. Such a man, even if he has acquired wealth up into the billions, is entitled to use it, and I will certainly direct no criticism at him, provided he conducts himself as a Christian man—and there are many, many, many of those men in this town. It is my belief that 85 per cent of the men in this city whom I consider men of wealth are good citizens and as responsive to the pleas and demands of their neighbors as any member of this body is to the pleas and demands of his constituents, provided they know the circumstances and know about the particular things in question. So I want to be put plainly on record as saying that no word of mine uttered on this floor or elsewhere, where I have referred to the privileged class, refers to the men of wealth who have acquired it honestly and who treat their fellow men in a Christianlike, brotherly, human manner. I will doff my hat to such gentlemen, and I believe that 85 per cent of the men of wealth in this city and elsewhere are of that kind. When I refer to the privileged classes and the interests I refer to the small coterie of gentlemen who debauch Beacon Hill and other

legislative bodies with their ill-gotten gains and secure therefrom the right to rob the people by special privileged legislation, and they are confined to a very small percentage of our citizenship in this city, state and union. They do not amount to more than one half of one per cent, and that is why the thing is so cruel; that is why it is so base, so criminal, that they are permitted to continue to control the affairs of the other 99½ per cent of the citizenship of our country. It has been said truthfully many times, "Would that more Roosevelts lived; would that more La Follettes lived; would that more sterling men of that character were in positions of high influence." Would that those in public life would follow the dictates of their consciences and their hearts rather than the dictates of their pocketbooks and their pleasures. I believe the day is not far distant, fellow members, when the people who sent you and me here, the people who elect presidents, congressmen, senators, governors, members of the legislature and other public officials, will begin to scrutinize the characters, both private and political, of those whom they send to represent them in places of influence and power. They are going to be more careful in their selection of public officials. Thank God, I have not arrived at the stage in my life where I am obsessed with the idea that the country has gone to the dogs and is going to stay there. I have not arrived and believe I never will arrive at that stage. I love my country, as you do, as every good American does, as, more than 90 per cent of the people do. One day we may be in the dumps concerning public affairs, because of some trifle or because of some big matter, which, however, may simply be of passing moment. The next day we think over our feelings of the day before and we regret them, and we see that we were mistaken. As one who believes in our institutions, as one who believes that right will prevail over might, I am satisfied that in the very near future—perhaps during the administration of our present President or during the administration of Governor Cox, or during the administration of Mayor Peters and during our office-holding here—there will be more diligent work, more honest work, more sincere thought for the people and their interests than there has been in the past few years. Mr. President and fellow members, I will conclude by saying that I know the public are demanding that we seek legislation on Beacon Hill to eliminate the coal clause from the bills of our citizens. That is the only way we can secure it, and I believe if we make that demand on the Legislature, the Legislature will respond, or else the Edison Company will voluntarily respond and cut its prices before official action is taken. Therefore I move a suspension of the rule that the order may go on its passage this time.

The chairman put the question on suspending the rule.

Chairman HAGAN—The rule is not suspended. The order will be referred to the Executive Committee.

Coun. WATSON—Mr. President, I doubt the vote and ask for the yeas and nays.

The roll was called, and the Council voted to suspend the rule, yeas 6, nays 1.

Yeas—Coun. Brickley, Donoghue, Ford, Lane, Moriarty, Watson—6.

Nays—Coun. Hagan—1.

The order was passed.

JOHN T. CONNORS SQUARE.

Coun. DONOGHUE offered an order—That the space at the junction of Park and Adams streets, Dorchester, be named John T. Connors square, in memory of Sergeant Connors, who fell in action near Fleville in the department of the Ardennes during the World War, and that said place be suitably marked with signs.

Passed under a suspension of the rule.

CHARLES O'LEARY SQUARE.

Coun. MORIARTY offered an order—That the space at the junction of K street and Columbia Road, South Boston, be named Charles O'Leary square, in memory of said O'Leary, who died while in the naval service of the United States during the World War, and that said space be suitably marked with signs.

Ordered—That the order passed by the City Council on April 4, 1921, naming the space at the junction of K street and Marine road, South Boston, Charles O'Leary square, be rescinded.

Passed under a suspension of the rule.

J. HORACE FARNHAM SQUARE.

Coun. LANE offered an order—That the open space at the junction of Elm and Newbern streets, Jamaica Plain, be named J. Horace Farnham square, in memory of J. Horace Farnham, who gave up his life in the World War.

Passed under a suspension of the rule.

GRAVES FOR SPANISH WAR VETERANS.

Coun. LANE offered an order—That the Park Commissioners, through his Honor the Mayor, be requested to extend the burial lot in Mount Hope Cemetery set apart for graves of the Spanish War Veterans, so as to provide such additional graves as the commissioners may consider necessary.

Passed under a suspension of the rule.

SIDEWALK ORDERS.

Coun. LANE offered an order—That the Commissioner of Public Works make a sidewalk along both sides of Evans street, from Morton street to Milton avenue, Ward 21, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestone, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under a suspension of the rule.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along Park street, east side, between Adams and Beach streets, Ward 20, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestone, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under a suspension of the rule.

RECESS TAKEN.

The Council voted at 3.19 p. m., on motion of Coun. Moriarty, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 4.11 p. m.

EXECUTIVE COMMITTEE REPORTS.

Coun. WATSON, for the Executive Committee, submitted the following, viz.:

1. Reports on petitions (referred today) for permits for children under fifteen years of age to appear at various places of amusement—that permits be granted, viz.:

Moses Caplan, Tremont Theatre, May 22.
Marie MacLaughlin, Mechanics Hall, May 25.

Hazel Boone, Copley-Plaza, May 27 and 28.
John P. Manning, Mechanics Building, May 30.

Gertrude A. Goodman, South Boston Municipal Building, June 1.

Reports severally accepted; permits granted on the usual conditions.

2. Reports on petition of William Read & Sons, Inc. (referred today), for permit to sell, rent or lease firearms at 364 Washington street, Ward 5—that permit be granted.

Report accepted; permit granted on the usual conditions.

3. Report on order (referred today) that Room 49, City Hall, be equipped for storage and keeping of city documents—that the order ought to pass.

Report accepted; order passed.

4. Report on order (referred May 9) to accept chapter 321 of the Acts of 1921, relative to salary of court officer of the Dorchester Court—that the order ought to pass.

Report accepted; order passed.

FINANCE.

Coun. DONOGHUE, for the Committee on Finance, submitted the following, viz.:

1. Report on message of Mayor, communication and order (referred April 11) for loan of \$50,000 for plumbing system at the Charles Street Jail—that the order ought to pass.

The report was accepted, and the order given its first reading and passed, yeas 7, nays 1, Coun. HAGAN voting nay.

The order will take its final reading not less than fourteen days from date.

2. Report on message of Mayor, communication and order (referred April 18) for loan

of \$20,000 for Hyde Park Avenue Bridge over Mother brook—that the order ought to pass.

The report was accepted, and the order was given its first reading and passed, yeas 8, nays 0.

The order will take its final reading not less than fourteen days from date.

HERBERT J. WOLF SQUARE.

Coun. WATSON offered an order—That the space at the junction of Crawford, Harold and Abbotsford streets, now known as Wolf square, be named Herbert J. Wolf square, and that signs be placed there accordingly, and that his Honor the Mayor be requested to have said square placed in a presentable condition.

Coun. WATSON—Mr. President, my purpose in introducing this order is that the square at present is named after the same Wolf, but the full name has not been given. The boy's parents request that the full name be given, and I would ask the City Clerk, when the order, if passed, is forwarded to the Mayor, to explain that this is not a change of name, but merely means giving the full name of the one for whom the square is named to the square.

The order was passed.

JOSEPH VINCENT DOHERTY SQUARE.

Coun. FORD offered an order—That the space at the junction of Dorchester, West Second and Emerson streets, South Boston, be named Joseph Vincent Doherty square, in honor of said Doherty, who died while in the service of the United States during the World War, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

WILLIAM J. MCKAY SQUARE.

Coun. FORD offered an order—That the space at the junction of H street and Broadway, South Boston, be named William J. McKay square, in honor of said McKay, who lost his life while in the service of the United States during the World War, and that said space be suitably designated by signs.

Passed under a suspension of the rule.

CONFIRMATION OF APPOINTMENTS.

Coun. COLLINS called up unfinished business, Nos. 1, 3, 4 and 5, viz.:

Action on appointments submitted by the Mayor, May 16, 1921, viz.:

1. William J. Kelley, to be a Constable.
3. Frank Shaw, to be a Constable.
4. J. A. Mascis and F. W. A. Merz, to be Weighers of Coal.
5. William L. Ten Eyck, to be a Weigher of Boilers and Heavy Machinery.

The question came on confirmation. Committee—Coun. Collins and Ford. Whole number of ballots cast 6, yeas 6, and the appointments were confirmed.

PRINTING OF CITY DOCUMENTS.

Coun. DONOGHUE offered an order—That the Committee on Printing study and report on the matter of having an arbitrary number of city documents printed and a revision of said number, with a view to printing more of documents which are valuable and the cutting down of the number of documents which are but seldom called for.

Coun. DONOGHUE—Mr. President, I move a suspension of the rule and a passage of the order.

Coun. FORD—Mr. President, I would move that the matter go to the Committee on Printing, and that they study the order and the subject-matter involved, with a view to suggesting appropriate action.

Coun. DONOGHUE—Mr. President, the order so reads that the Committee on Printing study the question of an arbitrary number of city documents being published every year, that number being applied to all documents, whether so many are necessary or not. The matter was brought to my attention through the order that came before us today to provide some suitable quarters for the documents. I think it is about time that the printing and binding of some of the useless documents that we see around here year in and year out be stopped. It seems to me only a waste of the city's money to publish a lot of documents that nobody calls for or reads. I feel that especially in these times of so much depression we ought not to spend the city's money on such things, unless there is some call for them. I think that there

should be some study made of the proposition. This is a thing that has been allowed to run wild, and it should be stopped. Nobody has paid any attention to it, and we have had an arbitrary figure of 300 copies of each document printed from year to year, whether that number was necessary or not. We find that there is a call for the street books, for example, which are valuable. We sometimes print 1,500 copies, and then another order has to be introduced to provide a larger number. The same is true of the city payroll book. That also is a book for which there is a great demand, and we have had 1,500 or more of those printed. I feel that that is the way in which the matter should be handled—that documents for which there is a demand should be printed in greater numbers and that there should be a smaller number of those for which there is not such a demand. The number printed should have reference to the demand that is apt to be made for the particular document, and then citizens interested in any particular document may receive them by calling at the City Messenger's office. Since I have been a member of the Council I have found that it is practically impossible to get a copy of these two reports that I have particularly referred to, the demand for them is so great; but in the meantime the other documents, for which there is no demand, go on piling up. They are taking up a continually increasing amount of room, and certainly something must be done. According to the testimony this afternoon, they are piled up in an old fire trap down in the cellar, and are really a menace. Of course, they are valueless. Not only that, but they are a fire menace, and they represent a great waste of the city's money. I feel that the time has come when such reports ought to be done away with, and that of the comparatively few reports of which a large number is necessary a proper number should be furnished. I hope that the order will pass.

Chairman HAGAN—The Chair would suggest that the gentleman's object will be accomplished if this is referred to the Committee on Printing for study. I understand that that is what he wants done.

Coun. DONOGHUE—That is what I asked for.

Chairman HAGAN—You asked for a suspension of the rule. It seems to me you mean that you want the matter referred to the Committee on Printing.

Coun. DONOGHUE—Yes.

Chairman HAGAN—The order is so referred.

The order was referred to the Committee on Printing.

GENERAL RECONSIDERATION.

Coun. COLLINS moved a general reconsideration on all business transacted at the meeting, hoping that the same would not prevail. Lost.

Adjourned at 4.23 p. m., on motion of Coun. Moriarty to meet on Monday, June 6, at two o'clock p. m.

NEW INCOME TAX (STATE) ON INTANGIBLE PROPERTY.

In accordance with Chap. 269, ss. 2 and 11, General Acts of 1916, intangible personal property (except bank stock) ceased to be subject to assessment and taxation in 1917 and thereafter. In place of that tax an income tax was established, amounting to six per cent per year on income derived from such tangibles, subject to various specified exemptions.

Owing to the exemption from tax of intangible personal property, the total valuation of personality in Boston decreased from \$328,929,679 in 1916 to \$162,545,343 in 1917, a loss representing \$2,945,000 in taxes. By sec. 23 of said Chapter 269, it was provided that the State Treasurer should pay to each city or town an amount equal to the difference between the personal property levy in 1915 and that of 1917 computed at the 1915 tax rate. If the income tax collections exceeded the amount required for such distribution, the excess was also to be distributed, this in proportion to the State tax imposed on each city or town in 1917. The amount of income taxes paid by the State to the City of Boston under said statute in 1918 was \$4,180,710 or \$475,855 more than in 1917.

Leading hose, 126,586 feet and suction hose, 1,967 feet; horses, 185; 2-ton fuel wagons, 41; fire alarm boxes, 1,205. In reserve are 13 steamers (6 motor) and 4 chemical engines; 10 hose wagons (3 motor); 10 ladder trucks (5 motor); 1 water tower (motor) and 8 officials' cars. Total alarms in calendar year 1919, 5,423, or 361 more than in 1918, of which total 575 were needless and 382 were false alarms. Total fires, 4,353 (*i. e.*, 180 more than in 1918), of which 2,763 were in buildings, 1,555 outside buildings and 35 out of city limits.

Cost of maintenance for 1919, \$2,864,040 (including pensions), or \$642,659 more than in 1918. Value of land and buildings, \$2,218,600; of equipment, \$1,200,000.

The Boston Protective Department (not a City department) reported the total fire losses in 1919 on buildings as \$1,033,314 and on contents as \$1,40,970 or total of \$2,435,284, which is \$386,225 less than in 1918 and \$1,545,944 less than in 1917. Of total loss, the amount not covered by insurance was \$204,664.

Annual salaries: Commissioner, \$7,500; Chief, \$5,000; deputy chiefs, \$4,000; district chiefs, \$3,500; captains, \$2,500; lieutenants, \$2,300; engineers, \$1,900; assistant engineers, \$1,800; 1st-year privates, \$1,400, with \$100 yearly increase until maximum of \$1,800 is reached.

By Chap. 4, City Ordinances of 1917, the firemen have one day off in three, dating from Feb. 1, 1918, instead of one in five, as before, which called for an addition of about 170 men to the force.

By Ordinances of 1919, Chap. 2, the Wire Dept. became the Wire Division of the Fire Dept.

New motor apparatus added in 1919, costing \$189,000, makes the department 61 per cent motorized. Appropriation of \$150,000 for more of same in 1920.

POLICE DEPARTMENT OF BOSTON.

Number of police force, December 1, 1919, was 1,568 (195 less than in 1918), viz., the Superintendent, Deputy Superintendent, 27 captains, 30 inspectors, 41 lieutenants, 125 sergeants, and 1,343 patrolmen distributed in 19 divisions. Signal service men, 18, and clerks, janitors, etc., 93. Cost of maintenance for 1919-20, \$2,206,267 or \$333,534 more than in 1918. Total number of arrests in calendar year 1919, 64,370 or 26,010 less than in 1918, this remarkable decrease being due mostly to the widespread prevention of drunkenness because of the

scarcity of intoxicants; of those arrested, 2,815 were discharged and all others held for trial; foreignborn persons arrested, 23,116; boys under 15 years of age, 2,200 or 591 less than in 1918; women and girls all ages, 5,234 or 3,044 less than in 1918; non-residents, 39.7 per cent of all arrested; drunkenness the cause of 50.89 per cent of all arrests, the total for this offence being 32,756 or 22,089 less than in 1918. The arrests for homicide numbered 108 or 18 less than in 1918. In year ending November 30, 1919, persons imprisoned, 3,714 or 1,068 less than in 1918; persons fined, 12,225, the fines amounting to \$107,325; stolen property recovered, \$1,238,206 or \$659,315 more than in 1918; licenses granted, 20,128 (including 8,292 for dogs and 8,828 for vehicles and drivers), for which \$60,399 was received. Accidents from all causes in the streets caused death of 144 persons and injury to 3,156.

Annual salaries: Commissioner, \$8,000; Superintendent, \$7,000; Deputy Superintendent, \$4,000; Chief Inspector, \$3,800; captains, \$3,500; inspectors and lieutenants, \$2,500; sergeants, \$2,300; patrolmen, \$1,400 the 1st year, with \$100 yearly increase until maximum of \$1,800 is reached.

In February, 1919, the reserve police force was abolished by Chapter 23, Special Acts, the 95 members becoming a part of the regular force.

UNDERGROUND RAPID TRANSIT IN BOSTON.

The Boston Transit Commission, consisting of five members, two appointed by the Governor and three by the Mayor, began its official existence July 1, 1894, and ended it July 1, 1918, after seven extensions of the original term. It has constructed, under the authority of Acts of the Legislature, the following subways and tunnels, the ownership of which is vested in the City of Boston, and all costs to be covered by revenue from same, not by taxation: Tremont Street Subway, opened September 1, 1897, costing with subsequent alterations, \$4,416,000, the first municipal subway in the United States; East Boston Tunnel, under Boston Harbor and State street, opened December 30, 1904, costing \$3,336,000; Washington Street Tunnel, opened November 30, 1903, costing \$8,496,700 (including \$2,850,000 land damages); Cambridge Connection Subway, opened March 23, 1912, costing \$1,465,000; Boylston Street Subway, opened October 3, 1914, costing \$5,327,000; East Boston Tunnel Extension, opened March 18, 1916, approximate cost, \$2,450,000; Dorchester Tunnel, opened December 4, 1916, as far as South Station, on December 15, 1917, to Broadway, South Boston, and on June 29, 1918, to the Andrew Square terminal; amount borrowed to 1920 for the Dorchester tunnel, \$10,750,000. Total cost, approximately, for all subways and tunnels, \$36,000,000 (against which a sinking fund of about \$5,600,000 has been accumulated from the revenue), payable mostly in 40 years from date of each loan (loans since 1911 payable in 45 years), annual interest averaging 3.8 per cent. These underground ways (about 8.9 miles in all) were leased to the Boston Elevated Railway Company (which furnished the equipment) for term of 25 years (except Tremont street 20 years) at annual rental of $4\frac{1}{4}$ to $4\frac{3}{4}$ per cent of net cost (except East Boston Tunnel which was at $\frac{3}{4}$ of one per cent of all annual gross receipts of said company). In accordance with Chapter 741, Acts of

1911, the various leases were extended to July 1, 1936, the rental to be $4\frac{1}{4}$ per cent of net cost after expiration of the first-term leases.

By Chap. 185, Special Acts of 1918, the powers of the Transit Commission, whose term expired that year, were transferred to the Mayor, Commissioner of Public Works and City Treasurer, or such person or persons, not exceeding three, as the Mayor might appoint. By Chap. 3, Ordinances of 1918, the Transit Dept. was established as a regular City department, to be in charge of three commissioners.

REAL ESTATE AND BUILDING STATISTICS FOR 1919.

Total transfers in 1919 of real estate in Boston, 8,796 (*i. e.*, 1,227 more than in 1918, but 454 less than in 1917), Dorchester leading with 2,768; Boston Proper next, with 1,586; Roxbury, third, 1,056; West Roxbury, fourth, 1,038; East Boston, fifth, 696; South Boston, sixth, 593; Brighton, seventh, 541; Hyde Park, eighth, 282; Charlestown, ninth, 236. Total mortgages 8,692 (2,752 more than in 1918), representing in value \$81,638,867 or 146 per cent more than in 1918.

Applications filed with Building Department in calendar year 1919, 16,061 or 4,932 more than in 1918, as follows: for new brick buildings, 273; concrete, etc., 218; stone 6; steel frame 11; other fire resisting, 22; total 1st and 2nd class, 530; new wooden buildings (*i. e.*, 3rd class), 707; alterations, 4,805; plumbing and gas-fitting operations, 8,712; installation of engines, boilers, etc., 485; elevators 205; erection of signs and fire escapes, 152. Estimated cost of the new buildings alterations, etc., undertaken in 1919, \$26,426,084, or \$16,692,232 (*i. e.*, 165 per cent) more than in 1918, divided thus: new 1st and 2nd class buildings, \$14,749,472; 3rd class, \$1,186,734; alterations of buildings, \$7,584,649; alterations of fixtures, equipments, etc., \$2,905,229. Vacant and dangerous structures taken down in 1919 465. Total number of buildings in Boston, January 1 1920, 107,051 or 31,603 brick, concrete, etc. (*i. e.*, 1st and 2nd class), and 75,448 wood (*i. e.*, 3rd class). Largest building in Boston, South Terminal R. R. Station, covering 33.46 acres of ground. By Chapter 782, sec. 3, Acts of 1914, all new buildings in Boston must have fireproof roofing. Asphalt shingles are now allowed for roofs of third class buildings, under restrictions stated in Chap. 104, Special Acts of 1918.

The value of building contracts let in 1919 for Boston Metropolitan District (reported by F. W. Dodge Co.) amounted to \$57,508,000 or \$20,159,000 (*i. e.*, 53.9 per cent) more than in 1918.

ABSENTEE VOTING AT STATE ELECTIONS BEGINNING IN 1920.

By chapter 289, General Acts of 1919, any registered voter absent from home at election time may vote by mailing an "official absent voting ballot" previously applied for and obtained from the Election Commissioners, to the latter so as to be received before the polls close. Said ballot must be marked by the voter privately but within the observation of an official authorized to administer oaths, and of no other person, in a municipality which is separated by at least two municipalities from that in which he is registered. The voter must make affidavit before said official, enclose ballot in official envelope and mail same on or before day of election.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

To THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets, the naming of public streets, the planting and removal of trees in public ways, the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds, the use of the public ways for any permanent or tem-

porary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

To THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

To THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

To THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

To THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

To THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

To THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

To THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

MUNICIPAL CALENDAR.

CIRCULAR FROM THE MAYOR.

BOSTON 9, May 25, 1921.

To Department Heads:

GENTLEMEN,—You are herewith directed, until otherwise ordered, to grant leave of absence without loss of pay, to those employees in your department who are regularly elected delegates to the annual encampment or convention of the Grand Army of the Republic, the United Spanish War Veterans, the Veterans of Foreign Wars and the American Legion, in order that such delegates may attend the encampments or conventions.

Very truly yours,

ANDREW J. PETERS, Mayor.

STATEMENT OF MAYOR PETERS ON ENGLISH HIGH SCHOOL CENTENARY.

On June 14, 15 and 16, this year, will occur the centenary celebration of the English High School. The English High School was the first school established as a part of any public school system to give to boys not intending to enter college a broader education than was afforded by the elementary or grammar schools. The one hundredth anniversary of this most important development in the educational system of our country should be recognized by all the citizens of Boston, and I urge that they co-operate in every way possible, particularly in the decoration of their places of business during the days of the celebration. The City of Boston has officially recognized the centennial of the school by the appropriation of funds to aid in defraying the expenses attendant on it, and I hope that all the citizens will do their share in making this most noteworthy occasion the success it deserves to be.

MARKET DEPARTMENT OFFICE HOURS.

BOSTON, May 25, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—For a period of six months during 1920, with your approval, I opened the superintendent's office at 4 a. m. and closed at 5 p. m. I most respectfully desire your approval to continue same for the year 1921, beginning June 1.

Respectfully yours,

PATRICK J. MCGOURTHY,
Superintendent.

Approved June 1, 1921.

ANDREW J. PETERS, Mayor.

RE OUTSTANDING LIABILITIES AT BEGINNING OF FISCAL YEAR.

BOSTON, May 27, 1921.

To the Honorable the Mayor and City Council:

Gentlemen,—The commission recently sent two reports to the Mayor, one dated April 26 and the other May 3, dealing with certain outstanding liabilities of the city at the beginning of the present fiscal year and not included by the Mayor in the financial statement submitted by him to the City Council on February 7, 1921.

These liabilities do not appear to have been considered by either the Mayor or the City Council when preparing and approving the segregated budget for this year.

The present auditing system of the city at the beginning of the fiscal year ignores the fact that obligations included in the previous year remain unpaid. When a bill is received at the auditor's office no inquiry is made as to when it was incurred. Any department that spends in excess of its appropriations has only to hold back the bills for such excess until the beginning of the new fiscal year, when they will be approved in the auditor's office and paid out of the appropriations for the new fiscal year. It is therefore impossible to find out under this practice whether the following section (16) of the charter amendments is violated.

"SECTION 16. No official of said city, except in case of extreme emergency involving the health or safety of the people or their property, shall expend intentionally in any fiscal year any sum in excess of the appropriations duly made in accordance with law, nor involve the city in any contract for the future payment of money in excess of such appropriation, except as provided in section six of this act. Any official who shall violate the provisions of this section shall be punished by imprisonment for not more than one year, or by a fine of not more than one thousand dollars, or both."

Unless the city's auditing system furnishes the necessary information to determine whether the unpaid bills of any department at the end of the fiscal year are in excess of the balance of the appropriations which that department returns to the treasury, this section of the charter amendments above quoted is nullified.

The segregated budget system was used for the first time in the fiscal year of 1916-17. The special commission appointed by the Mayor that recommended the adoption of the segregated budget system was authorized by the City Council and Mayor in June, 1915. The chairman of that special commission was former Mayor Nathan Matthews. This special commission recommended the present segregated budget system because, among other things, it would tend "to a greater economy in appropriation and a greater efficiency and accountability in expenditure."

The Finance Commission believes that the segregated budget system has not accomplished as much as it should, because the practice has continued of approving and paying obligations of the city regardless of the fiscal year in which they were incurred. For example, last year there was appropriated for one department the sum of \$38,000 for fuel. The sum of \$45,000, however, was actually paid, the additional \$7,000 having been transferred from other items in the department's budget to the item for fuel. When the budget for this year was being made up, this department estimated \$59,000 for fuel for the present year. The Finance Commission challenged this estimate on the ground that the estimated fuel needed at the then going prices would not exceed \$43,500, and would probably be less, as the price of fuel was then falling. It now appears that this department had purchased fuel last year to the amount of \$14,000 over and above the \$45,000 actually paid for, and thus at the beginning of the present fiscal year carried over a liability for fuel in the sum of \$14,000. This item of \$14,000 did not appear in the budget and, so far as can

be learned, was not known outside of the department that incurred it, but under the present auditing system it has been approved and paid out of this year's appropriation. If it was necessary for this department to expend \$59,000 last year in the purchase of fuel, with an appropriation of only \$38,000, this fact should have been disclosed this year to the Mayor and City Council. Not only was this debt not disclosed, but this department was reported by the auditor as having an unexpended balance of several thousand dollars at the end of the year.

The very fact that a department shows a balance to its credit at the end of the year implies that all its bills for the year have been paid. This, however, is not true. Another department showed a balance at the end of the year of \$6,544.05, but did not show obligations of over \$300,000 carried over to this year. This practice extends in the same way to each item of the budget in every department. A small unexpended balance is shown on a particular item, while large obligations against the same item are outstanding but undisclosed. For example:

The auditor reported one department last year as having an unexpended balance in its budget under the item of "Tools and Instruments" of 26 cents, while the department had undisclosed obligations against this item of \$4,295.61. Another item showed a cash balance last year of 35 cents, but did not disclose obligations of \$4,064.62. These instances could be multiplied and are typical of most of the departments of the city.

Under this system hundreds of thousands of dollars are expended by the departments between one budget and the next and escape consideration by either the Mayor or the City Council. There is now no practical means by which the appropriating officials may know whether a department has either exceeded its appropriation or has bills to be paid out of the appropriation for the following year. Of course the bills incurred in any fiscal year for the purposes of that year cannot all be paid before the end of that fiscal year. Payment of some bills must necessarily be made in the new fiscal year, but these bills in any department should not exceed the unexpended balance returned to the treasury by that department.

The Finance Commission recommends:

1. That the Mayor by an executive order to the heads of departments call attention to section 16 of the charter amendments, and instruct them to comply with the provisions of this section during the present fiscal year.

2. That the City Council withhold its approval of any supplementary budget proposed for the present fiscal year for any department without a full disclosure of the liabilities carried over from last year by that department in excess of the balance of appropriations to its credit at the end of the last fiscal year.

Respectfully submitted,

MICHAEL H. SULLIVAN,
Chairman,

COURTENAY GUILD,
JOHN F. MOORS,
JAMES M. MORRISON,
J. WALDO POND,

The Finance Commission.

REPRESENTATIVE AT NATIONAL TUBERCULOSIS ASSOCIATION ANNUAL MEETING.

CONSUMPTIVES' HOSPITAL DEPARTMENT,
May 28, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—The trustees sent Zepha M. Gardner, superintendent of nurses at the Out-Patient Department, to the annual meeting of the National Tuberculosis Association, to be held in New York City from June 14-17, inclusive.

A special request by the chairman of one of the nurse sections of the meeting has been made that Miss Gardner go to this meeting and speak. The trustees believe it would be of great value to the hospital to have her attend the meeting and see other nurses engaged in similar work. It is thought the cost would not be over \$50, probably. The cost of sending Miss Gardner will be less than that for sending Doctor Hunt, resident medical officer, permission for whom you have already given, because she can go presumably to the Nurses' Club in New York, the charge for which is only \$1 a day for her room.

The trustees respectfully request permission to send Miss Gardner to this meeting.

Yours very truly,
JAMES J. MINOT, *Secretary.*

Approved June 1, 1921.

ANDREW J. PETERS, *Mayor.*

CIRCULAR FROM THE MAYOR.

Boston 9, May 25, 1921.

To Department Heads:

GENTLEMEN,—You are hereby directed to grant leave of absence, without loss of pay, to those employees in your department who are members of all branches of the Army Reserve Corps, the Naval Reserve Force, the National Guard and the United States Citizens' Training Camp, to attend the annual tour of duty or service school.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

RE QUARANTINE STATION.

On June 1 Mayor Peters sent the following telegram to Senators Lodge and Walsh:

"I am amazed at press report that appropriation item of one hundred fifty thousand dollars for the quarantine station at Boston is to be eliminated. It is unnecessary for me to detail the natural advantages of the port of Boston. The facts which form the basis of the request for the appropriation were carefully collected by the National Public Health Officials, the Department of

Labor and the Boston Chamber of Commerce. I trust that you and your colleague will take immediate and appropriate action to have restored the item above referred to so that New England business will not continue to suffer because of the Federal Government's failure to appropriate adequate quarantine facilities.

ANDREW J. PETERS, *Mayor.*"

CIVIL SERVICE EXAMINATIONS.

FIRE SERVICE, JUNE 10, 1921, BOSTON AND CITIES AND TOWNS IN THE METROPOLITAN DISTRICT.

Applicants for the service of Boston must be not less than twenty-two nor over thirty years of age at the time of filing their applications. Applicants for the service of all other cities and towns in the metropolitan district must be not less than twenty-two nor over thirty-five years of age at the time of filing their applications.

WATCHMEN, JUNE 16, 1921.

This examination will be held for the service of the state and all cities and such towns in the state as are classified under civil service. This service includes watchmen and guards in public parks, grounds, institutions and departments; gatemen for ferries; turnkeys and guards in prisons, houses of detention and reformatories.

GENERAL INFORMATION.

In certifying from the eligible lists established as a result of the examinations named above, preference will be given to veterans as provided for in chapter 150 of the General Acts of 1919.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Preference in certification will be given to applicants who, at the time of filing application, are residents of the city or town from which requisition is received.

As far as practicable, these examinations will be held in various centrally located cities throughout the state.

Application blanks may be obtained by applying in person or by letter at the office of the Department of Civil Service and Registration, Division of Civil Service, Rooms 148-152, State House, Boston.

PROPOSED SEWER WORK.

The Commissioner of Public Works states that it is his intention:

To construct a sanitary sewer of 12-inch earthen pipe in Hull street, between a point 177 feet southeast from Snow Hill street and 155 feet northwest in the city proper district, at an estimated cost of \$1,862.

BOSTON'S ONE-WAY STREETS.

Between 7 a. m. and 6 p. m. daily (Sundays and legal holidays excepted), to prevent congestion of traffic, vehicles must go in one direction only in the streets named alphabetically below, by order of the Street Commissioners: Ashburton place, westerly from Somerset street; Asylum street, westerly from Harrison avenue; Avery street, easterly from Tremont; Avon street, easterly from Washington; Beacon street, easterly from Bowdoin street to Somerset; Bedford street, westerly from Chauncy; Blackstone street, northwesterly from North street to Hanover on Saturdays and on the day just before a holiday; Bromfield street, westerly from Washington; Chauncy street, southwesterly from Summer street to Essex; Cornhill, easterly from Court street; Court square, entering on westerly side leaving on easterly side; Devonshire street, northerly from Summer street to Winthrop square; Exchange street, northerly from State; Friend street, southeasterly from Causeway; Hanover avenue, westerly from North street; Harris street, easterly from Hanover; Hawley street, southerly from Franklin; Howard street, easterly from Bulfinch; Kingston street, northerly from Essex street to Bedford; Lovering street, easterly from Washington; Mason street, easterly and northeasterly from Avery and from Tremont; Merchants row, northerly from North Market street; Morton street, easterly from Endicott street; North street, easterly from Union to Blackstone; Otis street, southerly from Winthrop square to Summer street; Pemberton square, westerly from south corner of Courthouse to Somerset street; Province street, northerly from Bromfield; Salutation street, easterly from Hanover; School street, easterly from Tremont; Somerset street, northerly from Beacon street to Ashburton place; State street, westerly from Devonshire on north of Old State House; State street, easterly from Washington to Devonshire, on south of Old State House; Stillman street, westerly from Salem; Temple place, easterly from Tremont; Tileston street, northwesterly from Hanover; Wall street, southeasterly from Minot; West street, westerly from Washington; Winter street, westerly from Washington. This list is revised to March 1, 1920.

TAX RATES, 1919, IN MASSACHUSETTS CITIES.

Of the 38 cities in the State, 21 had a higher tax rate than Boston's, those situated in the Metropolitan District being also subjected to increased rates because of assessment for Elevated Railway deficit. The highest of these was Malden's (*i. e.*, \$30.50 or \$6.10 more than in 1918); (2) Medford's (\$29.40 or \$6.80 more); (3) Cambridge's (\$28.30 or \$3.30 more); (4) Quincy's (\$28 or \$3.80 more); Everett's (\$27.60 or \$5 more); (6) Melrose's (\$26.20 or \$2.80 more); (7) Somerville's (\$25.80 or \$2.60 more); (8) Chelsea's (\$25.60 or \$1.80 more) and Revere's the same or \$1.20 less than in 1918; (9) Woburn's (\$24.30 or \$3.50 more): The lowest rate of any city was Peabody's (\$18.70 or \$2.70 increase). Only two cities besides Revere had a decrease rate. Net average increase for all the cities, \$2.23.

BOSTON'S TRUST FUNDS AND BEQUESTS.

Number of permanent funds and bequests held by the City, Feb. 1, 1920, for various purposes, 127, representing a total value of \$9,686,171. The earliest dates back to 1674, viz., Gibson School Fund. The largest fund is the bequest of the late George F. Parkman, consisting of various parcels of real estate (now mostly sold) valued at \$5,000,000 to \$6,000,000 the income from which (about \$197,500 annually) is used for the upkeep and improvement of the older parks. Total amount of Parkman Fund in custody of City Treasurer, \$5,214,277; next in amount, \$898,502, made up of 17 funds in charge of the Overseers of the Poor; (3) the Franklin and Franklin Union, amounting to \$758,917; (4) Public Schools Teachers' Retirement \$617,135; (5) 41 Public Library Funds, \$673,749; (6) 8 Cemetery funds, \$536,381; (7) Permanent School Pension, \$355,898; (8) Police Charitable, \$207,550; (9) 19 School funds, \$170,860; (10) 19 Hospital funds, \$92,750; 17 others, \$160,152. Average annual income from all invested funds, nearly 4 per cent.

Another fund, viz., Firemen's Relief Fund, amounting in 1919 to \$248,238, is not held by the City but by an incorporated body of 13 members of the Fire Dept.

The Thorndike Memorial Building Fund, viz., \$200,000 (bequest of George L. Thorndike) received by City Treasurer in 1919, is to be used for a ward building for clinical research purposes by the City Hospital Trustees as soon as a sufficient addition thereto can be raised.

MEN NATURALIZED IN MASSACHUSETTS, 1910-1919.

In the ten years ending 1919, inclusive, 68,498 aliens were naturalized in the State, 43,351 by the Federal Court and 25,147 by State courts. Largest number in any year, 16,390 in 1919; next to largest, 12,941 in 1918, the notable increase in these two over previous years being due to naturalization of soldiers and sailors. BOSTON NOTES.**PORT OF BOSTON.**

Best of natural harbors, sheltered, spacious for anchorage, main ship channel 35 feet in depth at low tide, near open sea, area about 6,300 acres; waterfront (*i. e.*, lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water. A 45-foot channel from entrance of harbor to President Roads, and 40-foot from there to wharves will be dredged in the near future. New Commonwealth Pier No. 5, South Boston, 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space; total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. New Commonwealth Pier No. 1, East Boston, 900 feet long, costing State \$764,000; for site and about \$300,000 for construction. New dry dock at South Boston (probably the largest in world), completed in 1919, 1,200 feet long and 120 wide, costing over \$3,000,000 and taken by U. S. Government at total cost of same to State. Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 146, of which 8 are owned by the City. There are 22 foreign steamship lines with regular sailings to and from Boston and 10 coastwise lines. In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, East Boston, will be filled in and used for extensive commercial development under State control.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the State, the price being \$1,317,510, quickly followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was about \$26,000,000.

Total Federal expenditure for improvement of Boston Harbor from 1790 to June 30, 1918, \$12,487,842; total expended and provided for by State, \$15,986,832 since 1870.

PUBLIC RECREATION IN BOSTON.

Number of large parks, 24; separate playgrounds, 42, with total of 327 acres, also 14 playgrounds in parks, with area of 155 acres; small parks and squares, 75; total areas, 2,688.5 acres. Cost of Main Park System, *i. e.*, 1,386 acres, land and construction (since 1877 when begun), \$11,788,065; of Marine Park System, *i. e.*, 457.9 acres (since 1883), \$4,436,697; of all other parks and public grounds, \$2,357,009 of separate playgrounds, \$4,416,315. Total cost, \$22,998,086.

The leading attraction of the Main Park System is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1920

being \$4,408,244. There are also within the city limits 958 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; 9 beach baths and 7 floating baths open during summer; indoor gymnasias, 11; total number of indoor baths taken in year 1919, 1,549,480, of which 75 per cent were by men and boys.

Park and Recreation Department maintenance for 1919-20, \$1,075,287 or 121,179 more than in 1918. Outlay for playground improvements, \$105,342; for park improvements, \$257,081, of which \$79,067 was from Parkman Fund income. Gross debt for parks outstanding February 1, 1920, \$10,896,550; for playgrounds, \$2,397,300; total, \$13,293,850 or \$960,311 less than in 1919.

Including the State assessments of \$886,211 for Metropolitan parks, boulevards, etc. and \$232,968 for Charles River Basin improvements, the total expended for public recreation purposes in 1919 was \$2,556,889 or \$14,757 less than in 1918.

Total valuation of city properties devoted to recreation, \$69,072,400 (including \$55,112,400 for Boston Common and Public Garden), which far exceeds that of any other American city except New York. The L Street seaside bath, opened in 1866, was the first municipal bath established in the United States, so far as known.

BOSTON BANK STATISTICS, 1919-20.

Bank clearings or exchanges in year 1919 show the largest total on record in Boston, *viz.*, \$17,902,682,762, an increase over 1918 of \$2,401,597,454 or 15.49 per cent, and over 1917 of 41.36 per cent. On same date, the 30 trust companies showed aggregate capital of \$26,901,100; surplus and undivided profits, \$34,440,284; deposits, \$371,395,851; loans and discounts, \$326,767,150; 26 trust companies each have a savings department with total deposits of \$69,380,933. Total resources of the national banks, \$601,284,213 or \$37,511,275 more than in March, 1919; of the trust companies, \$513,939,691; grand total of the 45 banks, \$1,115,223,904 or \$106,070,844 more than in 1919. Savings banks, 24 with \$341,215,952 deposits (as of October 31, 1919); cooperative banks, 39, with total assets of \$36,369,400 (as of October 31).

Among the twelve Federal Reserve Banks, that of Boston on April 9, 1920, ranked fourth in these respects, *viz.*, total resources, total reserves, gross deposits and F. R. notes in circulation; fifth as to capital paid in and surplus, while as to total earning assets and total discounts (bills on hand) it stood sixth.

On September 12, 1919, the resources of the 7,785 national banks, which are all members of the Federal Reserve System, established in 1914, amounted to \$21,615,000,000; total deposits, \$15,924,-

865,000. The number of State banks and trust companies belonging to the Federal Reserve System increased from 250 to 936 during the year 1918. All the trust companies in Boston are now members.

The First National Bank of Boston has next to the largest foreign business among the national banks in the United States, having a branch bank in Buenos Aires, Argentina, and active bank accounts in the principal foreign cities.

The Boston Clearing House, established in 1856, ranks second to that of New York in number of checks cleared, *viz.*, 35,300 daily average.

FOREIGN TRADE OF UNITED STATES, CALENDAR YEAR, 1919, WITH RANK OF TEN LEADING PORTS.

Exports \$7,922,150,592 or \$1,773,063,047 more than in 1918 and the highest total on record.

Imports, \$3,904,406,327 or \$873,193,617 more than in 1918 and the highest for imports. Total foreign commerce in 1919, \$11,826,556,919 or \$2,646,256,664 (*i. e.*, 28.82 per cent) more than in 1918. Excess of exports over imports, \$4,017,744,265.

New York, ranking first among United States ports, handled 46.69 per cent of total commerce, or 4.69 per cent more than in 1918; New Orleans (2nd) 6.26 per cent; Philadelphia (3rd) 5.72 per cent; Boston (4th) 5.36 per cent; Seattle (5th) 4.13 per cent; Galveston (6th) 4.10 per cent; San Francisco (7th) 4.04 per cent; Baltimore (8th) 3.32 per cent; Detroit (9th) 3.14 per cent; Buffalo (10th) 2.50 per cent. Of value of all imports, 69.14 per cent free of duty. Total duties collected, \$249,774,758 or 44.62 per cent more than in 1918. Of total export value, 70.30 per cent applied to manufactured and partly manufactured materials, 20.78 per cent to crude materials for use in manufacturing and 8.75 per cent to foodstuffs (crude) and food animals.

Boston's rank for many years as the second importing port changed to fourth place in 1917, Seattle taking second place and San Francisco third, probably due to war conditions. In 1918 Boston advanced to third place and was but slightly behind Seattle. In 1919 it regained its former rank of second.

ANNEXATIONS TO BOSTON.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions
regarding the work of municipal depart-
ments should be made in writing to the
officials directly in charge. The failure
of such officials to make reply within a
reasonable length of time should be
brought to the attention of the Mayor.
Communications should be directed as
follows:

TO THE BOARD OF STREET COM-
MISSIONERS, Room 401, City Hall Annex,
for information relative to the laying
out, relocation, widening and the discon-
tinuance of highways; the taking of real
property for municipal purposes; the
assessments of betterments for streets
and sewers; the plotting of undeveloped
areas for streets and the opening of
private ways; the granting of licenses
for the storage or sale of merchandise
in public streets; the regulation of street
traffic; the making of specific repairs
in public streets, the naming of public
streets, the planting and removal of
trees in public ways, the issuing of
licenses for the storage of gasoline, oil
and other inflammable substances or ex-
plosive compounds, the use of the pub-
lic ways for any permanent or tem-

porary obstruction or projection in,
under or over the same, including the
location of conduits, poles and posts for
telephone, telegraph, street railway or
illuminating purposes, signs, marquises,
bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC
WORKS, Room 511, City Hall Annex, for
information as to the watering, cleaning,
lighting and repairing of streets, the con-
struction and care of sewers and catch-
basins, the operation of the ferries, the
maintenance of bridges and drawbridges
and the removal of ashes and offal.

To Room 604, City Hall Annex, for in-
formation relative to the supplying or
metering of water and the water charges
of the city.

TO THE HEALTH DEPARTMENT, Room
1107, City Hall Annex, for information
relative to the inspection of milk, vin-
egar, meat, fish and vegetables, the issu-
ance of permits for stables, slaughter
houses, etc., smoke nuisances, the exist-
ence of contagious diseases or public
health nuisances.

TO THE BOARD OF PARK COM-
MISSIONERS, 33 Beacon street, for infor-
mation as to the care of the Common,
Public Garden, Franklin Park, Franklin
Field, Commonwealth avenue, Back Bay
Fens, Marine Park and the small parks
and playgrounds in general throughout
the city, and as to the extermination
of gypsy moths and the charges made
for such service. Application may be
made to this department for infor-
mation regarding the public baths and
gymnasiums maintained by the city,
and with regard to municipal indoor
concerts and band concerts; also infor-
mation relative to Mount Hope, Ever-
green, Fairview and other public cem-
eteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 26 Mason
street, for information relative to the
operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS,
Room 1007, City Hall Annex, for infor-
mation as to the construction and re-
pair of school buildings.

TO THE BOARD OF EXAMINERS, Room
1001, City Hall Annex, for information
regarding the licensing of persons having
charge or control of the work of con-
struction, alteration, removal or tearing
down of buildings.

TO THE WIRE DIVISION OF THE FIRE
DEPARTMENT, Room 905, City Hall
Annex, for all information relative to
the erection of poles, the building of
conduits, the installation of wires and
electrical apparatus. Also to the same
office for permits for the installing of
wires and electrical apparatus within
buildings in the City of Boston, and
for the payment of fees incident to the
granting of the privileges above named,
and which must invariably be paid in
advance.

Portable Air Compressor.

On May 20 to Ingersoll-Rand Company, as per following communication:

Boston 9, May 16, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—The following bid was received at the opening today on one portable air compressor for the Transit Department: Ingersoll-Rand Company, \$3,827.50.

Both bids were submitted to this office instead of one bid to this office and one bid to the auditor. It is requested that this informality be waived and that I may be permitted to place the order with the Ingersoll-Rand Company. To readvertise this compressor would cause a delay of ten days, and as this compressor would relieve the Transit Department of a charge of \$15 per day which is now being paid to the Boston Elevated Railway Company, it is believed that the bid should be accepted.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Bids on one portable air compressor for the Transit Department, opened May 16, 1921:

Ingersoll-Rand Company, \$3,827.50 each. (Both bids at Supply Department.)

Paving Blocks.

On June 2 to H. E. Fletcher Company as per following communication and bids:

BOSTON 9, May 31, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing 1,000,000 paving blocks, as per specifications, to the Paving Service, Public Works Department, which were publicly opened and read at this office under date of May 31, 1921.

I respectfully request that permission be granted me to award this contract to H. E. Fletcher Company, the lowest bidder, at \$115 per thousand.

Yours very truly,

G. J. CRONIN,
Superintendent of Supplies.

Bids opened May 31:

Rockport Granite Company, \$123 per thousand; Cape Ann Granite Corporation, \$123 per thousand; H. E. Fletcher Company, \$115 per thousand; William J. Barry, \$122 per thousand.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

PRINTING DEPARTMENT.

Paper.

On May 24 to Carter, Rice & Co. as per following communication:

BOSTON, May 23, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I respectfully request permission to be allowed to buy, without advertising, 500 reams of 23 by 40-50 pounds of M. F. book paper at 7½ cents a pound, \$3.75 a ream, total, \$1,875, from Carter, Rice & Co. This lot of stock is now standing at the paper house and they desire to turn it into cash as soon as possible, and we must buy this immediately before some one else takes it. If we were to advertise for this lot of paper on competitive bids, we would at least pay 12 cents a pound for same.

I have explained the matter to Mr. Dowling of the Finance Commission and he is agreeable.

Respectfully yours,

CHARLES S. LAWLER,
Superintendent.

PUBLIC WORKS DEPARTMENT.

BOSTON, June 1, 1921.

To the Mayor of Boston:

Authority is requested to authorize the Boston Elevated Railway Company to remove locker room and toilet facilities from space in Lincoln Power Station, leased to city for High Pressure Fire Pumping Station, and to prepare said leased space for installation of pumping equipment without inviting proposals therefor by advertisement, the estimated cost for labor and material being \$12,000.

Recommended by F. A. McInnes,
Division Engineer.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

June 3, 1921.

The authority requested is hereby given.

ANDREW J. PETERS, Mayor.

BOSTON, June 1, 1921.

To the Mayor of Boston:

Authority is requested to authorize the Transit Department, City of Boston, to waterproof and complete floor and walls (to Grade 15) of High Pressure Fire Pumping Station in Third Station property of Edison Electric Illuminating Company on Atlantic avenue, Boston, without inviting proposals therefor by advertisement, the estimated cost for labor and material being \$5,500.

Recommended by F. A. McInnes,
Division Engineer.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

June 3, 1921.

The authority requested is hereby given.

ANDREW J. PETERS, Mayor.

SUPPLY DEPARTMENT

Fire Department Apparatus.

On May 24 to the American La France Fire Engine Company as per following communication:

BOSTON, May 10, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Authority is respectively requested to enter into contract and purchase, without advertising, the following apparatus to comply with City of Boston specifications, the purchase to be made from the American La France Fire Engine Company, Inc.:

Six combination 750-gallon pumper and hose cars, with the privilege of purchasing one or more at the same price, making seven in all, 6-cylinder at \$12,072 each.

For each pump purchased, the American LaFrance Fire Engine Company, Inc., will take in exchange a steamer or a double tank chemical engine, for which they will allow the sum of \$397 each.

Two 6-cylinder, 1,000-gallon pumper and hose car combination, with the privilege of purchasing one or more at

the same price, making three in all, at \$12,822 each.

For each 1,000-gallon pump and hose car combination purchased, the American LaFrance Fire Engine Company, Inc., will take in exchange a steamer or a double tank chemical engine, for which they will allow the sum of \$397 each.

One four-wheel tractor to be installed and used on a Seagrave 85-foot four-wheel drive aerial ladder truck, including work of whatever kind, such as dismantling, at \$8,700 each, plus cost of dismantling, etc., \$300, total for each four-wheel tractor, \$9,000, with the privilege of purchasing an 85-foot aerial truck with a four-wheel tractor which will cost \$15,656.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Castings.

On June 8 to the Mechanics Iron Foundry Company, as per following communication:

BOSTON 9, May 11, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Under date of August 13, 1920, your Honor approved an award of a contract to the Mechanics Iron Foundry Company for 70,050 pounds of No. 2 castings at 6½ cents per pound, this concern being the only bidder.

The contract contained the provision that the quantity was approximate only and the city had the right to increase or diminish same not less than 10 per cent. It has been found that the contract has been exceeded by 35,530 pounds. I therefore request authority to enter into a contract, without advertising, with the Mechanics Iron Foundry Company for 35,530 pounds of No. 2 castings at 3 7-10 cents per pound, which is the price on the current contract, and which is a very reasonable price considering that the castings were delivered in December, 1920, and January, 1921. The total amount of this new contract is approximately \$1,314.61.

I attach hereto letters from the Commissioner of Public Works and the engineer in charge of the division concerned, which will explain why the contract was exceeded.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

PUBLIC WORKS DEPARTMENT (Sewer Service).

An addition, amounting to \$7, on contract with Antony Cefalo for building sewerage works in Stark street, Charlestown, on account of cutting out old sheeting. Original contract, \$1,495; total addition, \$7; contract as standing \$1,502.00.

PUBLIC WORKS DEPARTMENT (Water Division).

An addition, amounting to \$31.65, on contract with the General Construction Company for laying and relaying water pipes in Middlesex, East Dedham and Stoughton streets, city proper, on account of rebuilding catch-basin; repairing broken services and cutting out and repairing concrete tunnel. Original contract, \$2,685; total addition, \$31.65; contract as standing, \$2,716.65.

An addition, amounting to \$30, on contract with P. De Christoforo for laying and relaying water pipes in Doone avenue and Morton street, Dorchester; Cowing, Mendelssohn and Rockland streets, West Roxbury; Brackett and Mechanic streets, Brighton, on account of fitting up hose line between Dedham water supply to Boston system to supply twenty-five houses in an isolated area during main pipe work in Rockland street. Original contract, \$3,399.75; total addition, \$30; contract as standing, \$3,429.75.

An addition, amounting to \$187.35, on contract with the C. & R. Construction Company for laying high pressure fire pipes in North, Commercial, Portland,

Medford and Friend streets, Exeter place, Essex, Chauncy, Milk and Brookline streets, city proper, on account of furnishing labor for cutting out and replacing 12-inch water pipe in Commercial street, at Richmond street, 8-inch water pipes in Essex street, at Kingston street, and in Harrison avenue, etc. Original contract, \$111,859; total additions, \$2,757.47; contract as standing, \$114,616.47.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

To furnish and lay artificial stone sidewalks in Bynner street, from Creighton street to Day street, Jamaica Plain, the estimated cost for labor and material being \$1,500.

ARTIFICIAL STONE SIDEWALKS.

BOSTON, June 7, 1921.

To the Mayor of Boston:

Permission to award contracts for the construction of artificial stone sidewalks in the public streets, without advertising, to John C. Cole, 31 Barrett street; Kelly Brothers, 357 Neponset avenue; D. M. Biggs & Co, 60 March street; C. W. Dolloff & Co., 12 Pear street, and M. McGinnis & Co., 68 Rossmore road, is hereby requested on the ground that this contractor is not selected by the city in the first instance but by the abutters; and secondly, the expense of construction being divided by the city and abutters; also because such contracts vary greatly in amounts and seldom involve one thousand (1,000) dollars.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

June 8, 1921.

The authority requested is hereby given.

ANDREW J. PETERS, Mayor.

TESTING CRUSHED STONE.

BOSTON, June 3, 1921.

HON. ANDREW J. PETERS, Mayor:

SIR.—The Finance Commission sent a report to your Honor on March 5, 1921, on the method used by the Public Works Department in purchasing crushed stone for constructing and resurfacing city streets.

One of the recommendations in that report was that the specifications should provide certain definite tests for hardness, toughness and abrasion, to which all the stone purchased for street construction should be submitted. The specification prepared by the Public Works Department under which crushed stone is being furnished this year provides for "Hard, tough, dense, broken stone, trap or Roxbury conglomerate of these qualities, free from round or ill shaped stones, dirt or other objectionable materials," but does not specify the degree of these qualities or any definite tests to determine these qualities.

Whether any crushed stone furnished the city is in accordance with this specification is left to the judgment of the Commissioner of Public Works. It is difficult to see how the commissioner can exercise his discretion under the above specification except in the most arbitrary way, resulting either in loss to the city or unfairness to the contractors.

Although there is sufficient apparatus available to make the necessary tests of the wearing quality and toughness of crushed stone, the Public Works Department has not supplied itself with this apparatus and, as far as can be learned, is making no effort to test the wearing quality and toughness of crushed stone purchased.

The Finance Commission has had samples from each of eleven stone quarries within the City of Boston, from which is taken most of the stone used by the city, tested in the laboratory of the Bureau of Public Roads of the Department of Agriculture, Washington, D. C. These tests show that the quality of stone from some of these quarries is below the minimum standard recommended by the National Government for bituminous macadam and bituminous concrete roads.

Much of the crushed stone that has been furnished the City of Boston under its contracts for this year's supply was taken from those quarries that are below the minimum standard of quality set by the National Government. This inferior quality of stone has been used in city work apparently with the assent of responsible officials of the Public Works Department, and in some cases after a protest by subordinate officials that the stone was unsuitable for street construction.

The crushed stone purchased under the specifications and methods described above is used for the most part by the employees of the Public Works Department in repairing and resurfacing city streets. Miles of city streets are repaired and remade each year by this force. This work furnishes an excellent opportunity for the Public Works Department to set a high standard of street repair and street construction. This department has direct and entire control of the work. The quality of materials and workmanship is wholly and solely in the hands of the department. There can be no reason for not giving the city the

very best street construction obtainable. Yet unfortunately most of the repairing and resurfacing done by the Public Works Department directly not only are not of the best quality or the highest standard, but are generally inferior to that done under contract.

The Finance Commission recommends:

1. That the Public Works Department establish a definite standard for crushed stone to be used in bituminous macadam and bituminous concrete street surfaces.

2. That the Public Works Department provide in its laboratory the necessary apparatus to make proper tests of crushed stone to determine its hardness, toughness and abrasion.

Respectfully submitted,

MICHAEL H. SULLIVAN,
Chairman,

TEAMING CONTRACT FOR PARK DEPARTMENT.

BOSTON, June 4, 1921.

HON. ANDREW J. PETERS, *Mayor:*

SIR,—The Park Department received bids on April 15, 1921, for furnishing single and double teams for the present year. The specifications called for furnishing for a period of one year approximately twelve double teams with dump carts and five single team express wagons each day. Bids were received as follows:

	<i>Per Day.</i>	
	<i>Teams.</i>	
	<i>Double.</i>	<i>Single.</i>
P. O'Riorden Company.....	\$7 30	\$3 20
M. McGinnis & Co.....	7 00	2 00
John Kelly Company.....	6 75	3 00
Fred H. Webster.....	6 65	3 35

The method followed by the Park Commission in determining the lowest bidder was to multiply the number of each class of teams by the price bid per day and to compare the bids on the basis of this total, as follows:

M. McGinnis & Co.:		
12 double teams at \$7.....	\$84 00	
5 single teams at \$2.....	10 00	
		\$94 00
John Kelly Company:		
12 double teams at \$6 75.....	\$81 00	
5 single teams at \$3 00.....	15 00	
		96 00
Fred H. Webster:		
12 double teams at \$6 65.....	\$79 80	
5 single teams at \$3 35.....	16 75	
		96 55
P. O'Riorden Company:		
12 double teams at \$7 30.....	\$87 60	
5 single teams at \$3 20.....	16 00	
		103 60

By this method it was determined that M. McGinnis & Co. was the lowest bidder. There is no objection to this method. But the bid of M. McGinnis & Co. of \$2 a day for furnishing a horse and express wagon with a driver obviously would involve a loss to the contractor. No plainer example of unbalanced bidding has been brought to the attention of the Finance Commission. In fact all of the bidders seem in this respect to have submitted unbalanced bids. The fact that it is more marked in the case of M. McGinnis & Co. may be due to the knowledge which that company had that it would not be called

upon to furnish the number of single teams called for by the Park Commission in the advertisement.

This company has had teaming contracts with the Park Department since February 1, 1918, and its knowledge of the number of single teams required no doubt gave it an advantage in making its bid. The bills of M. McGinnis & Co. on file in the City Auditor's office for the fiscal year 1920-21 show double teams employed for a total of 4,190½ days and single teams for 590 days, a ratio of 1 to 7.1, instead of 1 to 2.4, as estimated by the Park Commission in requesting the bids under discussion. If the Park Commission took as a basis the total number of teams actually used last year the bid of Fred H. Webster is lower than the bid of M. McGinnis & Co. by the sum of 2,529.92. If twelve double teams are to be furnished not more than two single teams should be required, according to the experience of last year. In any event it is clear that the bid of M. McGinnis & Co. is so unbalanced that it should be rejected, even if it were the lowest bid.

The commission desires to call your Honor's attention at this time also to the fact that last year M. McGinnis & Co. was awarded the contract for furnishing teams and in addition was allowed without competition to furnish trucks for a whole year, the bills for which in the summer months ranged from \$500 to \$900 per month. There appears to be no reason why the furnishing of these trucks should not also be open to competition.

Furthermore, it appears from an examination of bills in the auditor's office that M. McGinnis & Co. furnished two driving horses to the Park Department last year at \$1 per day each, the Park Department boarding and maintaining the horses. The total paid for these two horses for one year was sufficient to have purchased two horses suitable for driving purposes.

An examination of the bills also discloses that M. McGinnis & Co. without competition furnished the Park Department last year with large quantities of structural material, cinders and manure.

The Finance Commission recommends:

1. As regards bids already received, one of the following alternative courses of procedure:

(a.) That the contract for the fiscal year 1921-22 be awarded to Fred H. Webster, or

(b.) That all bids be rejected and new bids advertised for on the basis of single and double teams used last year, or

(c.) That the award be divided, awarding the contract for single teams to M. McGinnis & Co. at \$2 per day and the double teams to Fred H. Webster at \$6.65 per day, the lowest bidders, respectively.

2. That competitive bids be secured for furnishing auto trucks.

3. That driving horses for the needs of the department be purchased and not hired.

Respectfully submitted,

MICHAEL H. SULLIVAN,
Chairman,

COURTENAY GUILD,
JOHN F. MOORS,
JAMES M. MORRISON,
J. WALDO POND,

ADVERTISING IN CITY RECORD.

BOSTON, June 6, 1921.

HON. ANDREW J. PETERS, *Mayor:*

SIR,—The *City Record* is published under the authority contained in section 29 of the charter amendments of 1909, for the purpose of giving more effective publicity to such notices as the city departments are required to publish and to put an end to the practice of advertising all sorts of city business, whether required by law or not, in the daily and weekly papers at great expense to the city.

This section of the charter amendments also provides that,

"All advertising, whether required by law or not, with reference to the purchase or taking of land, contracts for work, materials or supplies, the sale of bonds, or the sale of property for non-payment of taxes shall appear *exclusively* in said paper."

It is difficult for the Finance Commission to believe that any department head of the city is unaware of this provision of the city charter, yet the Schoolhouse Commission, in violation of the provisions of this section of the charter, has published notices in the press of the city within the past two months. The City Auditor has approved bills for such publications and they have been paid.

It appears that after some of these bills had been paid the City Auditor requested an opinion from the Corporation Counsel on the legality of the matter and was informed that such advertising was illegal.

The auditor thereupon notified the Schoolhouse Department that the practice of advertising for bids in the newspapers of Boston was illegal, but that he would approve all bills already incurred. Why the City Auditor should approve for payment an illegal bill, because it has been actually incurred, is not clear.

The Finance Commission recommends:

1. That your Honor issue an executive order to the heads of departments, requesting them to comply strictly with section 29 of the charter amendments.

2. That the City Auditor be ordered not to approve for payment any bill for such advertising.

Respectfully submitted,

MICHAEL H. SULLIVAN,
Chairman,

COURTENAY GUILD,
JOHN F. MOORS,
JAMES M. MORRISON,
J. WALDO POND,
The Finance Commission.

ASSESSING DEPARTMENT.

BOSTON 9, June 3, 1921.

EDWARD T. KELLY,
Chairman, Board of Assessors:

MY DEAR MR. KELLY,—Let me extend to you today, the thirty-sixth anniversary of your entrance into the service of the city, my heartiest congratulations. From the day you became attached to the Assessing Department your record has been one which has won the admiration of every one who knew you. Your unswerving loyalty, your integrity and your ability were fittingly rewarded by your appointment as head of your department.

It is my hope that the city may for many years have the benefit of your judgment and services.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

BUILDING DEPARTMENT.

BOSTON 9, June 7, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—Subject to your approval, I will be absent from the city from June 9 to June 13, inclusive, and I will appoint John H. Mahoney, Supervisor of Construction, as Acting Building Commissioner during my absence.

Yours very truly,

HERBERT A. WILSON,
Building Commissioner.

APPROPRIATION FOR QUARANTINE SERVICE IN BOSTON.

On June 1 Mayor Peters telegraphed to Senators Lodge and Walsh urging their co-operation in having restored to the Deficiencies Appropriations Bill the

item of \$150,000 for the improvement of the quarantine service in Boston, an item which had been cut from the bill. On June 3 Mayor Peters received the two following telegrams from Washington:

"Senator Walsh and I succeeded in having the appropriation of one hundred and fifty thousand dollars for the Boston Quarantine Station restored in the Senate today and there will be no further difficulty about it. Senator Walsh was greatly interested and effective in bringing about this result."

H. C. LODGE.

"Telegram received. Senator Lodge presented very fully and ably the Boston emigration case today and the item of one hundred fifty thousand dollars was restored."

DAVID I. WALSH.

CIRCULAR FROM THE MAYOR.

BOSTON 9, June 1, 1921.

PROPOSALS FOR FURNISHING AND INSTALLING BARRIERS AND GATES ON FERRYBOAT "HUGH O'BRIEN."

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for furnishing and installing roadway barriers and sidewalk gates on the ferryboat "Hugh O'Brien," and giving bond therefor of a surety company approved by the Commissioner in the sum of one thousand (1,000) dollars, to secure the due performance of the contract and the full protection of the city. Specifications and forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked, "Proposal for Barriers and Gates, Ferryboat 'Hugh O'Brien,'" and left at Room 508, City Hall Annex, before 12 m. Wednesday, June 15, 1921, with a certified check for four hundred (400) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price appears to the Commissioner to be abnormally high or low, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSALS FOR REPAIRING BENNINGTON STREET BRIDGE, EAST BOSTON, OVER THE BOSTON, REVERE BEACH & LYNN RAILROAD.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals for repairing Bennington Street Bridge, East Boston, over the Boston, Revere Beach & Lynn Railroad. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of fifteen hundred (1,500) dollars to secure the due performance of the contract and the full protection of the city. Specifications and forms of proposals may be obtained at Room 508, City Hall Annex, after Monday, June 13, 1921. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Repairing Bennington Street Bridge," and left at Room 508, City Hall Annex, before 12 m., Monday, June 20, 1921, with a certified check for five hundred (500) dollars, payable to and to become the property of the City of Boston if the proposal after acceptance is not carried out. The proposal will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

THOMAS F. SULLIVAN,
Commissioner of Public Works.

(3) Frank Leo Kane, 54 Highland street, Roxbury, to the position of Constable of the City of Boston.

Severally laid over under the law.

RESIGNATION OF CITY TREASURER.

The following was received:

Office of the Mayor,
Boston 9, May 26, 1921.

To the City Council:

Gentlemen,—This is to notify you that I have accepted the resignation of Thomas W. Murray, City Treasurer, to take effect May 25, 1921.

Respectfully,
ANDREW J. PETERS, Mayor.

Placed on file.

READING ROOM, JEFFRIES POINT.

The following was received:

Office of the Mayor,
Boston 9, June 6, 1921.

To the City Council:

Gentlemen,—I am herewith transmitting a copy of a communication today received from the president of the trustees of the Boston Public Library relative to an appropriation for the equipment and maintenance of a library reading room to be established in the Jeffries Point section of East Boston.

This new reading room is urgently needed. It is desirable that the trustees immediately have at their command the funds necessary to equip the reading room, and I therefore recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

The Public Library of the City of Boston.
June 3, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Mr. Mayor,—May I recall to your mind your letter of December 14 last in which you called the attention of the Board of Trustees to a visit from Mr. Frank W. Tulley, chairman of the Committee on Americanization of the Boston Chamber of Commerce, and a group of representative citizens of East Boston, in reference to the establishment of a library reading room in the so-called Jeffries Point section of East Boston. At this time a petition signed by a large number of representative citizens of the district was presented to you, also letters written by the children of the various schools.

The Board has had the helpful assistance of the Americanization Committee of the Chamber of Commerce since that time, and the members of the Board and the librarian have considered no less than seven different locations in the Jeffries Point section. We are now all agreed on a suitable location at 195 Webster street. The proposed location is opposite the small park of the district, with good light and air, and most important, is within easy access of the high school and grammar and parochial schools. The premises will be remodeled to meet in every way the needs of a library reading room, and the Board is willing to undertake the establishment of the same, if you and the City Council will appropriate a sum of \$4,000 for equipment and maintenance for the period September 1, 1921, to February 1, 1922.

Very truly yours,
ALEXANDER MANN,
President.

Ordered, That under authority of chapter 261 of the Acts of 1893, the City Auditor be and hereby is authorized to transfer the sum of \$4,000 from the Reserve Fund to an appropriation, to be expended by the trustees of the Public Library, for the equipment and maintenance of a library reading room, Jeffries Point section of East Boston.

Referred to the Executive Committee.

BATHING BEACH, JEFFRIES POINT.

The following was received:

City of Boston,

Office of the Mayor, June 2, 1921.

To the City Council:

Gentlemen,—I am herewith transmitting a copy of a communication from the Park Department relative to the appropriation of the sum of \$5,000 to provide a bathing beach in the Jeffries Point section of East Boston.

At the present time East Boston has only one bathing beach, that at Wood Island. This beach is not as readily accessible as might be desired to those who live in the Jeffries Point and Harbor Front sections of the district. The proposed beach is really a necessity, and as it can be provided at very reasonable terms, I recommended the passage of the accompanying order, which will provide the money stated by the Park Commissioners to be necessary to carry out their project.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Park Department,
Boston 9, June 2, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—This Board recommends that the City Council be requested to appropriate \$5,000 for bathing purposes in the first section of East Boston.

The first section of East Boston has been without bathing facilities for a number of years. Each year sites are inspected, but by reason of the fact that the bathers could not be properly safeguarded from danger, nothing has been done in the matter. Such a site can now be had on the shore bordering land reclaimed by the Public Works Department of the state at or near the foot of Maverick street, close to Jeffries street.

The State Board of Public Works have been consulted in the matter and offer no objection.

MONEY FOR ELECTRIC LIGHT INVESTIGATION.

The following was received:

City of Boston,

Office of the Mayor, May 24, 1921.

To the City Council:

Gentlemen,—In accordance with the request of Coun. Watson, chairman of the Executive Committee of the City Council, I am herewith transmitting an order for the appropriation of the sum of \$3,000 to cover the expenses of a report on the advisability of establishing a municipal gas and electric light plant, under statutory provisions.

REBUILDING OF BEACON STREET BRIDGE.

The following was received:

City of Boston,

Office of the Mayor, June 2, 1921.

To the Honorable the City Council:

Gentlemen,—On May 24 I received a letter from the Commissioner of Public Works in which he states that he is of the opinion that the Beacon Street Bridge of the Boston & Albany Railroad, west of Commonwealth avenue, Ward 8, should be rebuilt within a short time and that owing to the necessity of relocating the water pipes and putting them under the railroad tracks, which will take more than a year, this work should commence as soon as possible. The Commissioner of Public Works also recommended that a petition be presented by the City Council to the Public Utilities Department for a decision as to the necessity of rebuilding the bridge and that in the event of the Public Utilities Department deciding that rebuilding is necessary, that a petition be presented to the Superior Court for the appointment of a commission to decide who shall rebuild the bridge and to apportion the cost. The estimated cost of rebuilding this structure, which includes the cost of removing the water pipes from the bridge and laying them under the tracks, is in the opinion of the Commissioner of Public Works about \$200,000.

I agree with the opinion of the Commissioner of Public Works that the work should be started immediately, and I therefore present for your favorable consideration the accompanying order.

Very truly yours,
ANDREW J. PETERS, Mayor.

Whereas, Beacon street, a public way in the City of Boston, crosses the tracks of the Boston & Albany Railroad, west of Commonwealth avenue, Ward 8, by an overhead bridge; and

Whereas, We are of the opinion that it is necessary for the security and convenience of the public that an alteration which does not involve the abolition of the crossing at grade should be made in said overhead bridge and its approaches;

Ordered, That the Corporation Counsel, in the name of the City Council of Boston, apply to the Public Utilities Department for its decision upon the necessity of such alteration, and for prescribing the manner and limits within which it shall be made; and if the decision of the Public Utilities Department is that an alteration is necessary, that the Corporation Counsel take such legal proceedings as are necessary to have such decision carried into effect in compliance with sections 59 to 64, inclusive, of chapter 169 of the General Laws.

Referred to the Executive Committee.

SALE OF CITY PROPERTY, SOUTH BOSTON.

The following was received:

City of Boston,

Office of the Mayor, May 27, 1921.

To the City Council:

Gentlemen,—At the present time the City of Boston owns property at the corner of Dorchester and Jenkins street, South Boston. The building located on this plot was formerly used as a fire station, but as it was no longer needed, it was turned over several years ago to the Superintendent of Public Buildings, and is now in his custody.

There are several parties interested in the purchase of this land and building from the city. Bids have been received from those interested, but in view of the fact that the bids are very close, and one of the bidders is not satisfied with the manner in which the whole transaction has been conducted, I believe it would be advisable to have the City Council grant authority for the city to sell this land and building at public auction.

I therefore recommend the passage of the accompanying order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

City of Boston,

Office of Public Buildings Department,
May 24, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—I respectfully submit to you for your consideration a list of bids received for the sale of the Old Fire Station, located at the corner of Dorchester and Jenkins streets, South Boston, from James F. Cooper, 25 G

street, \$2,205, and Morris W. Nelligan, 348 Dorchester street, \$2,201.

I would add for your information that the assessed valuation of this property is \$2,100 and inasmuch as said property has not been used for city purposes for some time, I feel that it would be good policy on the part of the city to dispose of same to the highest bidder, who is Mr. James F. Cooper, in the sum of \$2,205.

Respectfully yours,

FRED J. KNEELAND,
Superintendent of Public Buildings.

Ordered, That the Board of Street Commissioners be authorized to sell at public auction, the estate corner of Dorchester and Jenkins streets, South Boston, formerly used as a fire station.

Referred to the Executive Committee.

APPROPRIATION FOR TRAVELING EXPENSES.

The following was received:

City of Boston,

Office of the Mayor, June 2, 1921.
To the City Council:

Gentlemen,—I am herewith attaching a copy of chapter 54 of the Acts of 1921 which authorizes the Mayor and City Council of the City of Boston to appropriate a sum not exceeding \$5,000 to defray the traveling and other necessary expenses of city officials representing the municipality at conventions and other meetings.

At the present time the city is limited to an appropriation of \$2,500 for this purpose.

This sum was fixed when traveling expenses were much lower than they are at present, and although we may find it possible this year to keep within the \$2,500 already appropriated, I believe it would be wise to accept the act which will make it possible, in case the need arises, to provide additional money for traveling expenses.

I therefore recommend the passage of the accompanying order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That chapter 54 of the Acts of 1921, entitled "An Act Increasing the Amount That May Be Expended by the City of Boston to Obtain Information on Municipal Affairs," be and the same hereby is accepted.

Referred to the Executive Committee.

WIDENING OF NORTH BEACON STREET.

The following was received:

City of Boston,

Office of the Mayor, June 6, 1921.

To the City Council:

Gentlemen,—I am herewith attaching a copy of a memorandum just submitted to me jointly by the Commissioner of Public Works and the chairman of the Board of Street Commissioners relative to the widening and construction of that portion of North Beacon street, Brighton, lying between Market street and the Watertown line. This memorandum was prepared in reply to my request for an estimate of the cost of doing this work.

Several years ago North Beacon street was widened and paved from Brighton avenue to Market street. The portion now under discussion is very narrow and in very bad condition, and, constituting as it does, an important link for through travel from Boston to Watertown and points beyond, it is most essential that the street be widened to a width of 60 feet, on which the estimate is based, and that it be repaved.

I desire to have this improvement completed before winter sets in and as it is one which should properly be done under a loan account I recommend and urge the immediate passage of the accompanying order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

City of Boston,

Public Works Department,

June 4, 1921.

Hon. Andrew J. Peters,

Mayor of Boston:

It is estimated that it will cost \$125,000 to complete the widening and construction of North Beacon street, Brighton, between Market street and the Metropolitan Parkway Reservation, bordering on the Charles river. Of this sum \$90,000 is required for construction and \$35,000 for land, grade and building damages.

North Beacon street, between Union square and Market street, was widened and constructed in 1918. The complete widening and construction of this street could not be made at that time because of lack of sufficient money.

The Commonwealth has erected a new bridge over the Charles river, meeting North Beacon street on the Boston side. The town of Watertown has completed the approach to the bridge on its side of the river.

The City of Boston ought to give a fitting approach to the bridge on the Boston side by completing the widening and construction of North Beacon street, but the money required is not available in either the Public Works Department or the Street Laying-Out Department.

We would respectfully suggest that a special loan of \$125,000 be immediately authorized so that this improvement can be undertaken this year.

Respectfully submitted,

T. F. SULLIVAN,

Commissioner of Public Works.

JOHN J. O'CALLAGHAN,

Chairman, Board of Street Commissioners.

Ordered, That the sum of \$125,000 be appropriated, to be expended for the widening and construction of that portion of North Beacon street, Brighton, between Market street and the Watertown line, and that to meet said appropriation, the City Treasurer be authorized to issue, from time to time, upon the request of the Mayor, bonds or certificates of indebtedness of the city to said amount.

Referred to the Committee on Finance.

OUTSTANDING LIABILITIES OF THE CITY.

The following was received:

Boston, May 27, 1921.

To the Honorable the Mayor and City Council:

Gentlemen,—The commission recently sent two reports to the Mayor, one dated April 26 and the other May 3, dealing with certain outstanding liabilities of the city at the beginning of the present fiscal year and not included by the Mayor in the financial statement submitted by him to the City Council on February 7, 1921.

These liabilities do not appear to have been considered by either the Mayor or the City Council when preparing and approving the segregated budget for this year.

The present auditing system of the city at the beginning of the fiscal year ignores the fact that obligations included in the previous year remain unpaid. When a bill is received at the auditor's office no inquiry is made as to when it was incurred. Any department that spends in excess of its appropriations has only to hold back the bills for such excess until the beginning of the new fiscal year, when they will be approved in the auditor's office and paid out of the appropriations for the new fiscal year. It is therefore impossible to find out under this practice whether the following section (16) of the charter amendments is violated.

"Section 16. No official of said city, except in case of extreme emergency involving the health or safety of the people or their property, shall expend intentionally in any fiscal year any sum in excess of the appropriations duly made in accordance with law, nor involve the city in any contract for the future payment of money in excess of such appropriation, except as provided in section six of this act. Any official who shall violate the provisions of this section shall be punished by imprisonment for not more than one year, or by a fine of not more than one thousand dollars, or both."

Unless the city's auditing system furnishes the necessary information to determine whether the unpaid bills of any department at the end of the fiscal year are in excess of the balance of the appropriations which that department returns to the treasury, this section of the charter amendments above quoted is nullified.

The segregated budget system was used for the first time in the fiscal year of 1916-17. The special commission appointed by the Mayor that recommended the adoption of the segregated budget system was authorized by the City Council and Mayor in June, 1915. The chairman of that special commission was former Mayor Nathan Matthews. This special commission recommended the present segregated budget system because, among other things, it would tend "to a greater economy in appropriation and a greater efficiency and accountability in expenditure."

The Finance Commission believes that the segregated budget system has not accomplished as much as it should, because the practice has continued of approving and paying obligations of the city regardless of the fiscal year in which they were incurred. For example, last year there was appropriated for one department the sum of \$38,000 for fuel. The sum of \$45,000, however, was actually paid, the additional \$7,000 having been transferred from other items in the department's budget to the item for fuel. When the budget for this year was being made up, this department estimated \$59,000 for fuel for the present year. The Finance Commission challenged this estimate on the ground that the estimated fuel needed at the then going prices would not exceed \$43,500, and would probably be less, as the price of fuel was then falling. It now appears that this department had purchased fuel last year to the amount of \$14,000 over and above the \$45,000 actually paid for, and thus at the beginning of the present fiscal year carried over a liability for fuel in the sum of \$14,000. This item of \$14,000 did not appear in the budget and, so far as can be learned, was not known outside of the department that incurred it, but under the present auditing system it has been approved and paid out of this year's appropriation. If it was necessary for this department to expend \$59,000 last year in the purchase of fuel, with an appropriation of only \$38,000, this fact should have been disclosed this year to the Mayor and City Council. Not only was this debt not disclosed, but this department was reported by the auditor as having an unexpended balance of several thousand dollars at the end of the year.

The very fact that a department shows a balance to its credit at the end of the year implies that all its bills for the year have been paid. This, however, is not true. Another department showed a balance at the end of

the year of \$6,544.05, but did not show obligations of over \$300,000 carried over to this year. This practice extends in the same way to each item of the budget in every department. A small unexpended balance is shown on a particular item, while large obligations against the same item are outstanding but undisclosed. For example:

The auditor reported one department last year as having an unexpended balance in its budget under the item of "Tools and Instruments" of 26 cents, while the department had undisclosed obligations against this item of \$4,295.61. Another item showed a cash balance last year of 35 cents, but did not disclose obligations of \$4,064.62. These instances could be multiplied and are typical of most of the departments of the city.

Under this system hundreds of thousands of dollars are expended by the departments between one budget and the next and escape consideration by either the Mayor or the City Council. There is now no practical means by which the appropriating officials may know whether a department has either exceeded its appropriation or has bills to be paid out of the appropriation for the following year. Of course the bills incurred in any fiscal year for the purposes of that year cannot all be paid before the end of that fiscal year. Payment of some bills must necessarily be made in the new fiscal year, but these bills in any department should not exceed the unexpended balance returned to the treasury by that department.

The Finance Commission recommends:

1. That the Mayor by an executive order to the heads of departments call attention to section 1f of the charter amendments, and instruct them to comply with the provisions of this section during the present fiscal year.

2. That the City Council withhold its approval of any supplementary budget proposed for the present fiscal year for any department without a full disclosure of the liabilities carried over from last year by that department in excess of the balance of appropriations to its credit at the end of the last fiscal year.

Respectfully submitted,

MICHAEL H. SULLIVAN, Chairman,
COURTENAY GUILD,
JOHN F. MOORS,
JAMES M. MORRISON,
J. WALDO POND.

EMPLOYMENT OF COUNSEL BY THE POLICE COMMISSIONER.

The following was received:

City of Boston,
Police Department, May 31, 1921.
To the Honorable the City Council:
Gentlemen,—Replying to your order of May 23, 1921, by arrangement made since I assumed this office, the Law Department of the City of Boston defends action brought against police officers in the civil courts; also brings suit, when necessary, on claims of the Police Department against persons or corporations other than the City of Boston.

The secretary of the Police Department, appointed under section 7, chapter 291, Acts of 1906, as amended by chapter 8, Acts of 1920, is not required to be a lawyer, but as a matter of fact the present incumbent is one. He appears for the department in many matters in all the courts, as far as his other duties permit, although this service is not required of him by the terms of his appointment. He also takes care of all matters in the civil courts that have to do with the disposition of property coming into the possession of the Police Department, where there are adverse claimants, and advises the department on all questions of law when it is not deemed necessary to ask opinions of the Attorney General.

Acting under section 9, chapter 291, Acts of 1906, as amended by chapter 13, Acts of 1920, I have employed outside counsel when, in my judgment, it was necessary so to do. The amount so paid to outside counsel in the financial year 1919-1920 was \$5,994.99.

In answer to your question as to why I do not employ the City Law Department, I reply that I use the City Law Department in all matters as before stated. When, in my judgment, it is expedient to avail myself of the authority vested in me under the statute last above quoted, I do so.

Very respectfully,

E. U. CURTIS,

Police Commissioner for the City of Boston.

Placed on file.

SIDEWALK SCHEDULES.

Communications were received from the Commissioner of Public Works submitting the

cost of constructing sidewalks and setting edgestones, Ashfield street, Ward 23, and Cedar street, Ward 21, amounting to \$4,372.78 and \$3,206.76, respectively,—and recommending the passage of the following:

Ordered, That the persons named in the foregoing schedules be and the same are hereby assessed the sums set against their respective names as their proportional part of the cost of constructing sidewalk in front of estates bordering on the above named streets, and the same is ordered to be certified and notices given to the parties as aforesaid.

The orders were passed.

MINORS' LICENSES.

Coun. WATSON submitted reports on petitions for minors' licenses for nine newsboys and 18 vendors—recommending that licenses be granted.

Reports severally accepted; licenses granted on the usual conditions.

UNCLAIMED BAGGAGE.

Coun. BRICKLEY, for Coun. COLLINS, for the Committee on Unclaimed Baggage, submitted a report on petition of Boston & Maine Railroad (referred May 9) for leave to sell unclaimed baggage—recommending the passage of the following, viz.:

Ordered, That the Boston & Maine Railroad be and hereby is authorized to sell at public auction on or before July 15, 1921, and after publication of the time and place of sale according to law, the articles left and remaining unclaimed in the possession of said railroad in the city of Boston.

Report accepted; order passed.

SIDEWALK, SOUTH STREET.

Coun. BRICKLEY offered an order—That the Commissioner of Public Works make a sidewalk along both sides of South street, from Archdale road to Washington street, Ward 23, in front of the estates bordering thereon; said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone, with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under a suspension of the rule.

LOUIS S. BANGS SQUARE.

Coun. BRICKLEY offered an order—That the square now named "Louis Bangs" square, in Charlestown, be named "Louis S. Bangs" square.

Passed under a suspension of the rule.

JOSEPH A. MARTIN SQUARE.

Coun. BRICKLEY offered an order—That the space at the junction of Adams street and Dorchester avenue, Dorchester, be named and known as Joseph A. Martin square, in honor of said Martin, who died while in the service of the United States during the World War, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

JOHN F. MCCARTIN SQUARE.

Coun. FORD offered an order—That the space at the junction of Call and Everett streets, Jamaica Plain, be named John F. McCartin square in honor of Private McCartin of Company D, Fourth Engineers, who died from wounds received in action, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

PAYMENT TO EDWIN B. BARNES.

Coun. FORD offered an order—That chapter 123 of the Acts of 1921, entitled "An Act Authorizing the City of Boston to Pay a Sum of Money to Edwin B. Barnes," be and the same hereby is accepted.

Referred to the Executive Committee.

PENSION FOR WILLIAM S. FOSTER.

Coun. FORD offered an order—That chapter 192 of the Acts of 1921, entitled "An Act Authorizing the County of Suffolk to Retire and Pension William S. Foster," be and the same hereby is accepted.

Referred to the Executive Committee.

Coun. FORD offered an order—That under the provisions of chapter 192 of the Acts of 1921, William S. Foster, employed by the County of Suffolk as a janitor in the courthouse, be and hereby is retired at an annual pension equal to one half his present annual salary.

Referred to the Executive Committee.

Coun. DONOGHUE in the chair.

INTERPRETERS, MUNICIPAL COURT.

Coun. FORD offered an order—That chapter 109, Acts of 1916, providing for permissive appointment of interpreters for the Civil Sessions of the Municipal Court of the City of Boston be and the same hereby is accepted.

Referred to the Executive Committee.

HENRY J. LUND SQUARE.

Coun. FORD offered an order—That the space at the corner of M street and Columbia road, South Boston, be named and known as Henry J. Lund square, in honor of the memory of said Henry J. Lund, who lost his life in the World War, and that suitable signs be placed thereon to designate the same.

Passed under a suspension of the rule.

SAILORS TO PARADE JUNE 17.

Coun. FORD offered an order—That his Honor the Mayor be requested to ask the Secretary of the Navy to allow the fleet now stationed at the Navy Yard in Charlestown, Mass., to remain at said location until after June 17 of this year, to enable the men thereof to parade in the public celebration of that day.

Passed under a suspension of the rule.

THOMAS J. BURKE SQUARE.

Coun. WATSON offered an order—That the space at the junction of Massachusetts avenue and Tremont street be named and known as Thomas J. Burke square, in honor of said Burke, who lost his life during the World War in the service of the United States, and that said square be suitably marked with signs.

Passed under a suspension of the rule.

THOMAS J. GIBLIN SQUARE.

Coun. WATSON offered an order—That the space at the junction of Ford, Boardman and Saratoga streets, East Boston, be named Thomas J. Giblin square in honor of said Giblin, who died while in the United States service during the World War, and that said space be suitably marked with signs.

Passed under a suspension of the rule.

ELIMINATION OF FUEL CLAUSE.

Coun. WATSON offered the following: Whereas, The Edison Electric Illuminating Company of Boston, which supplies the City of Boston with electricity for lighting purposes in its several departments and public buildings, other than street lighting which is done under a ten-year contract, imposes an extra charge under the so-called "fuel clause," irrespective of the fact that the price of the coal used by them has been reduced to a very large extent over what it was twelve months ago, and as it appears that there is no probability of this "fuel clause" being eliminated; be it

Resolved, That the City Council of Boston requests the Public Utilities Commission to inform the Council whether or not it has the power under the statutes to compel the elimination of this unreasonable excess clause, and if there is any method that it may know of whereby action may be resorted to compel said company to immediately take steps towards the elimination of this unfair excess charge.

Ordered, That a copy of this resolution be sent to the Public Utilities Commission with a request that an immediate answer be submitted.

The rule was suspended and the question came on passage.

Coun. WATSON—Mr. President, I am attempting to keep up the contest on the part of the City Council with the lighting interests. I admit that it is rather hard work to find new matter with which to keep the old matter alive, but I am making the effort, nevertheless. I have said several times on the floor of this body that it seems as though the only great public service corporation in Massachusetts that is bold enough to profiteer upon the public regardless of the sentiment that exists in the Edison Company. It seems that this arrogant organization intends to continue to make its excess charge under the fuel clause. Everyone who is acquainted with the coal situation knows that the New River coal that is used by the Edison Company for energy to make its electricity has been reduced almost 60 per cent in twelve months, and they also know—or if they don't, they should—that the reason why the Edison Company added the charge for fuel was because of the increased cost of coal that it was obliged to purchase in the open market during war times. Therefore any reasonable person will admit that if they were justified in increasing the cost of their product because of the increased cost of the materials that went into the making of the product, the opposite must be true—that when the cost of

materials used in the manufacture of that product is reduced, the price of the products should be reduced accordingly. But not so with the Edison Company. With their arrogant attitude, which in my opinion is not equaled by that of any public service corporation in the world, they continue to heap upon the shoulders of the taxpayers of Boston a tax that is not warranted by reason, fairness or decent management. You may consider that the Edison Company's total gross receipts for a given year are \$10,000,000; then you can consider, for the sake of illustration, that at least one and one half million of those gross receipts is plain profiteering, which cannot be denied. Today I saw two bills to a consumer of electricity, one bill that I think amounted to somewhere around \$375 for the month, and the other \$200. The extra charge for fuel on the smaller bill was 24 per cent of the total bill, and the additional charge under the fuel clause on the larger bill was 15 per cent. There we have illustrations of pure grafting and profiteering upon one individual consumer. The company are not even respecters of the city. Our city burns electricity in the several departments, and other than that which is bought from the Edison Company under the contract for street lighting they are charging the City of Boston under the fuel clause. Therefore this body has every right, acting for the department, over which we have some control, to demand, at least so far as those departments are concerned, that some step be taken toward the elimination of this mean and contemptible profiteering clause. But we received no help from the late-lamented Legislature; and no one who knows the make-up of the Legislature for the past year and this year—and it will be the same for the coming year—need be surprised. I am not talking of the members collectively; I am referring to certain individuals who control the destinies of that body. I mean, as I have said here before, that probably today 80 per cent of the members of the Legislature are absolutely honest. I stated that today to a member of the Legislature and he said that a larger percentage were absolutely honest, and I will grant that. Nevertheless, the great majority of the members follow the bell cow, the leader. I have not the slightest doubt that 80 per cent of the House and the Senate are absolutely honest, but they do not investigate into public affairs or look as they might into important matters affecting the interests of the people. They let George do it, taking the word of interested people or concerns—the Edison Company, the Consolidated Gas Company, or others. It is scandalous, Mr. President. In my opinion, if the Legislature decided to investigate into the electric lighting and gas lighting situation in this Commonwealth today, it would unearth a worse condition than the Elevated, which has never really come to anything, as I suggested would be the case. That has amounted to nothing at all. The public has known for years what was shown by that investigation. Those members of the Legislature who lead the other members are well taken care of by the interests, and by "the interests" I do not mean the average rich man, but a handful of men who get their wealth by questionable methods and who continue to add to it by means that are not considered honest by the average gentleman. As I say, the great majority of the members of the Legislature are honest, but they show a lack of interest in matters that come before them. Take the last day of their session, when they were prorogued on Beacon Hill, it was the desire of a great number of the members, absolutely honest members, and perhaps a natural desire on their part, to have the body prorogued so that they could get the balance of the salaries due them from the state, which they could not receive until they adjourned for all time, or for this year. That was one of the reasons which actuated them. They had a mock session on Beacon Hill, which was not really a mock session but a serious session and in which some of the leaders were shown up in their true light. There were things suggested in the way of a joke that were really not a joke. It is certainly no joke the way the interests of the public in many respects are not protected. The few who control on Beacon Hill have dominated and controlled affairs there, and have made the people of the entire Commonwealth suffer, day in and day out, not only this year but for many, many years. It is not a new condition. The good have to suffer with the bad, and many a man on Beacon Hill whom I know is of pure character in politics and in public and home life, nevertheless carries into his immediate home locality, as viewed by his neighbors or constituents, an atmosphere which leads them to think he is dishonest and corrupt, when he is not dishonest. It is because he is inactive; it is because he allows the leaders, scoundrels, to conduct affairs and talk for him. As far as this Edison Company is concerned, I don't know whether or not we can do anything, but I do

know this, that the Mayor of the City of Lawrence and a majority of the City Council have come down here today to consult with me concerning what might be done to remove the Edison Company's shackles from the ankles and hands of the people of Lawrence. They are going back there, my friends, with reinforced confidence that if one body like ours can create the interest we have created in this great subject and can make the progress we have made, and are going to make, legislative bodies in other cities can do likewise, because conditions in Boston are identical with conditions in every nook and corner of the Commonwealth of Massachusetts, except where municipally owned plants are operated. The situation here is an exact duplicate of that elsewhere. If the bill to capitalize premiums had passed the Legislature, it would have taken money from the pockets of light consumers in the city of Lawrence, almost a million dollars, the same as it would have taken money from the pockets of people all over the state; because what affects us here in Boston affects people in Pittsfield, Haverhill, New Bedford, and all over the Commonwealth. I say that we should be proud of our action here. We have done wonderful work in the matter of arousing public sentiment concerning the conduct of this arrogant, overbearing, un-American institution, comprising the lighting companies, both gas and electric. I do not desire to burden the members further with any words of mine, because you have been awfully good in listening to me Monday after Monday on this subject. Many of the other members of the Board are just as conversant with the facts and conditions as I am. I believe I am merely speaking for them, because I know they would say "Amen" to all I say, knowing conditions as well as I do. The fact is, as we all know, that the conditions are bad. The Edison Company claims to believe or feel that the people are satisfied with conditions, when I know that ninety-nine out of every one hundred individuals in the Commonwealth are dissatisfied. But they have got into a frame of mind where they say "What is the use? What can we do?" Probably we cannot do anything except to keep the matter alive, and some day we will have a Legislature on Beacon Hill that will be responsive to the needs of their constituents, to the needs of the different communities, and who will stand up man-fashion in the interests of the people. I believe some one is responsible for permitting the Edison Company to continue in business in Boston and the nearby cities and towns without some supervision or power of control over it. It is amazing, when you stop to think of it, that these things are being done by a company that could not exist without using our streets for its conduits and poles. It could not exist, could not do a dollar's worth of business, its stock would not be worth a nickel, if it did not have the privileges granted to it by the different municipalities. It could not sell its stock for anything, and its bonds would be worthless. The important thing it has is the franchise to use our streets for its wires and poles, to conduct current to the homes of our citizens, thereby enabling them to consume the product of the company. Without such a franchise the company would be nowhere, and yet this Edison Company is absolutely without any supervision so far as any over-power is concerned. The Public Utilities Commission are helpless. They cannot regulate rates. And the strange thing is that the reason why the company has not charged more than 12 cents per kilowatt hour for electricity in Boston is that it filed voluntarily, for shame's sake, a few years ago, with the old commission, a tariff stating that it would never charge more than 12 cents per kilowatt hour for its electricity. A fine concession! Twelve cents per kilowatt hour here, when in Cleveland the price is 5 cents, when it is being obtained in New York for 7 cents; when, in fact, in cities and towns all over the country the price is 50 per cent less than it is in Boston. But we cannot compel them to reduce their rates. The Public Utilities Commission is helpless in that matter, and the reason why we are being heard on behalf of the city in the matter of a possible reduction of prices is merely because it has been agreed in a contract made between the City of Boston and the Edison Company, under the old lighting commission, both parties may at certain times appeal to the Public Utilities Commission as arbiters to determine the question. It is not because there is any real power over them at all in the matter of rates. It is true that the department may have power over them concerning the erection of poles, the stretching of wires, or the issuing of bonds, but that is something that they can get any way. They do about as they please. That is the situation that confronts us as far as this company is concerned, and I say, For shame! Boston, the city of culture, the hub of the universe, the enlightened city, the modern Athens, today is under the control and domination, so far as one of our greatest necessities is con-

cerned, of a handful of arrogant, unfair, un-American men, who make up the Edison Company of Boston. I trust that the rules will be suspended and that the order will go upon its passage at this time, so that we may at least make another step in the direction of doing something for the consumers of electricity in the City of Boston.

The preamble, resolution and order were passed.

BOXING IN GYMNASIUM.

Coun. DONOGHUE offered an order—That the Board of Park Commissioners be requested, through his Honor the Mayor, to cause the municipal gymnasiums under their control to be thrown open for boxing by the patrons of said gymnasiums.

INSTITUTIONS DEPARTMENT.

Repairs on Steamer "George A. Hibbard."

On June 15 to George Lawley Sons Corporation as per following communication:

BOSTON 9, June 14, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—On June 2, the steamer "George A. Hibbard" put into the yard of the George Lawley Sons Corporation for some repairs to sea cocks, stop valves, guards and numerous other minor repairs. During the progress of the work it was discovered that the propeller shaft was badly corroded (approximately 25 per cent corrosion being found).

It has been estimated that the cost of the repairs, which were originally to have been made, will be around seven hundred (700) dollars. To weld the propeller shaft will cost approximately three hundred fifty (350) dollars.

I respectfully ask your permission to authorize the Lawley Company to do the additional work, which will bring the cost to approximately eleven hundred (1,100) dollars.

Yours respectfully,
THOMAS C. O'BRIEN,
Commissioner.

PRINTING DEPARTMENT.

3 Model 14 three-magazine linotype machines at \$4,500 each.....	\$13,500 00
3 electric heaters at \$250 each.....	750 00
3 motors at \$115 each.....	345 00
	\$14,595 00
5 per cent cash discount on \$14,250....	712 50
	\$13,882 50

(No cash discount allowed on motors)

The Mergenthaler Linotype Company is the sole owner and manufacturer of the linotype machines. These linotype machines have been installed in the Printing Department and have proven very satisfactory.

Respectfully yours,
CHARLES S. LAWLER,
Superintendent.

SUPPLY DEPARTMENT. Steam Roller Parts.

On June 13 to Buffalo Steam Roller Company, as per following communication:

BOSTON 9, June 8, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Under date of February 15, 1921, this department placed an order with the Buffalo Steam Roller Company, Buffalo, N. Y., for various parts for the steam roller made by this company, to be delivered to the Paving Service, Public Works Department. Upon receipt of the bill at this office, it was discovered that the total of same amounted to \$1,253.40.

I would respectfully request permission to award a contract, without publicly advertising for same, to the Buffalo Steam Roller Company, for furnishing two rear rolls at \$575 each and freight prepaid amounting to \$103.40, the total amount of the contract being \$1,253.40.

This office has publicly advertised for these rolls and has been unable to secure bids on same from any other company but the Buffalo Steam Roller Company.

Respectfully yours,
G. J. CRONIN,
Superintendent of Supplies.

June 6, 1921.

Whereas, by orders dated June 6, 1913, and June 6, 1918, the Board of Street Commissioners in accordance with the provisions of chapter 359 of the Acts of the year 1896, ordered suspension of the collection of the following described assessments for sewerage works

in River street, Dorchester, levied under date of September 23, 1909:

	Amount.
Horatio N. Glover <i>et al.</i> , trustees.....	\$1,100
Horatio N. Glover <i>et al.</i> , trustees.....	1,935

Whereas, the Board of Street Commissioners deem it just and proper that the collection of said assessments should be further postponed;

Ordered, That the collection of the aforesaid assessments be and the same hereby is suspended for three years from date hereof.

Ordered, That due notice be given that this Board is of the opinion that, in said city, a public improvement should be made, consisting of the laying out and construction of a highway in the West Roxbury district, from Forest Hills street to Morton street, with the name of Arborway, substantially as shown on a plan in the office of this Board, that it intends to pass an order for making said improvement, and that it appoints eleven o'clock a. m., of May 18, 1921, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH F. SULLIVAN, *Secretary.*

June 8, 1921.

Ordered, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the laying out and construction of Arborway, West Roxbury District, as a highway, from Forest Hills street to Morton street, under the order of the Board of even date herewith, and awards no damages therefor.

Ordered, That due notice be given, that this Board is of the opinion that, in said city, a public improvement should be made, consisting of the widening and construction of Morton street, West Roxbury district, as a highway, from Forest Hills avenue easterly for a distance of about twelve hundred feet, substantially as shown on a plan in the office of this Board, that it intends to pass an order for making said improvement, and that it appoints eleven o'clock a. m., of May 18, 1921, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH F. SULLIVAN, *Secretary.*

Ordered, That this Board determines that no person sustains damages in his estate by the making of the public improvement consisting of the widening and construction of Morton street, West Roxbury District, as a highway, from Forest Hills avenue easterly for a distance of about twelve hundred feet, under the order of the Board of even date herewith, and awards no damages therefor.

Ordered, That due notice be given that this Board is of the opinion that public necessity requires the taking of land at the junction of Arborway and Morton street, West Roxbury district, for municipal building purposes, substantially as shown on a plan on file in the office of this Board, that it intends to pass an order to make said taking, and

that it appoints eleven o'clock a. m., of June 1, 1921, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH F. SULLIVAN, *Secretary.*

June 10, 1921.

Ordered, That this Board estimates that the undermentioned estate sustains damages by the taking of land at the junction of Arborway and Morton street, West Roxbury district, for municipal building purposes, under an order of this Board of even date herewith, in the amount hereinafter set against it, and awards said amount therefor.

Walter L. Van Kleek and J. Mercer Seaver, trustees of the Forest Hills Real Estate Trust, 50,000 square feet\$12,500

June 6, 1921.

In the matter of the application for revision of assessments levied on account of the construction of sewerage works, the Board of Street Commissioners acting under the provisions of chapter 359 of the Acts of the year 1896, and deeming it just and proper that such action should be taken upon said applications,

Orders, That the amounts hereinafter specified, being the annual apportionments of said assessments for the years specified below, be, and the same are, hereby abated.

Mary V. McAleer, 1919 apportionment,	39 Cufflin street.....	\$20.26
Mary V. McAleer, 1920 apportionment,	39 Cufflin street.....	\$17.63

CLAIMS.

The Mayor has approved the following claims with the indorsement of the Corporation Counsel:

Joseph McDonald, 5 Faneuil Chambers, Brighton, for the death of Pauline M. McDonald, four years of age, who was run over by a Public Works Department wagon, November 1, 1920, on Market street, Brighton, by payment of \$200.

REJECTED CLAIMS.

On June 10 the Law Department disapproved fifty-nine claims against the Police Department for loss and damage during the police riots in 1919, the total amount of these claims being \$12,560.47.

All these claims have been disapproved for the reason that the City of Boston is not legally liable for these losses. Under the recent decision of the Supreme Court in the case of Yalenezian in which the decision was rendered May 31, 1921, this is only the first installment of the cases governed by this decision.

EXPENDITURES FOR EDUCATION PER CAPITA IN 1917 (BY RANK).

Boston \$8.70; Pittsburgh, \$8.16; Detroit, \$7.69; New York, \$7.61; Cincinnati, \$7.48; Cleveland, \$7.08; Chicago, \$6.44; St. Louis, \$6.31; San Francisco, \$5.47; Philadelphia, \$4.97. (See U. S. Census Bureau's Financial Statistics of Cities, 1918, p. 209.)

BOSTON NOTES.

PUBLIC DEBT OF BOSTON IN 1920.

Gross funded debt, February 1, 1920, \$124,410,101 (including \$380,000 issued by State for enlargement of Court House); sinking funds, \$41,934,033.41; other redemption means, \$1,567,670.12; net debt \$80,908,397.47 (*i. e.*, \$1,558,505.28 less than in 1919 and \$3,661,779.57 less than in 1918), of which total \$48,329,646.98 or 59.73 per cent was City debt; \$30,757,415.36 or 38.01 per cent Rapid Transit debt (representing $4\frac{1}{2}$ per cent investment); \$1,485,335.13 or 1.84 per cent County debt and \$336,000 or 0.42 per cent Water debt. Net debt per capita \$102.41; net debt exclusive of Rapid Transit debt, \$50,150,982.11, or \$63.48 per capita, which is \$11 less per capita than in 1915. Loans authorized but not issued (within debt limit) \$1,467,500.

In the fiscal year 1919-20, the net City debt was reduced by \$1,448,392.23; the net Rapid Transit debt by \$104,698.59 and the net Water debt by \$16,000. The net County debt was increased by \$10,585.54. Total debt contracted, \$3,210,500; total debt paid, \$5,924,616.69; total decrease of gross debt, \$2,714,116.69; of net debt, \$1,558,505.28.

Total debt incurred in the ten years 1909-1919, \$51,460,433, of which \$19,320,000,000 or 37.5 per cent was Rapid Transit debt.

Total amount of debt incurred by the city in the 97 years since its incorporation (in 1822), \$259,324,437, of which 58 per cent belongs to the last 25 years, 20.1 per cent to the last 10 years.

EXPORTS AND IMPORTS, MASSACHUSETTS CUSTOMS DISTRICT, 1919.

Dating from July 1, 1913, the district includes Boston and the eight minor ports of the State. Value of exports in calendar year, 1919, \$334,554,031, or \$113,076,736 (*i. e.*, 51 per cent) more than in 1918; of imports, \$299,364,999 or \$3,457,952 (*i. e.*, 1.17 per cent) more than in 1918; total foreign trade, \$633,919,030, an increase of \$116,534,688 or 22.52 per cent over the same in 1918. Boston's total foreign trade for year 1919, the largest on record, ranks fourth among American ports, New York, New Orleans, and Philadelphia leading. In 1918 Boston ranked fifth. As to imports alone Boston ranked second, and as to exports alone, sixth in 1919. Tonnage of vessels in foreign trade (entered and cleared) in year, 3051,898 or 624,126 more than in 1918; number of vessels, 1,837 or 151 more than in 1918.

TAX RATES, 1919, IN MASSACHUSETTS CITIES.

Of the 38 cities in the State, 21 had a higher tax rate than Boston's, those situated in the Metropolitan District being also subjected to increased rates because of assessment for Elevated Railway deficit. The highest of these was Malden's (*i. e.*, \$30.50 or \$6.10 more than in 1918); (2) Medford's (\$29.40 or \$6.80 more); (3) Cambridge's (\$28.30 or \$3.30 more); (4) Quincy's (\$28 or \$3.80 more); Everett's (\$27.60 or \$5 more); (6) Melrose's (\$26.20 or \$2.80 more); (7) Somerville's (\$25.80 or \$2.60 more); (8) Chelsea's (\$25.60 or \$1.80 more) and Revere's the same or \$1.20 less than in 1918; (9) Woburn's (\$24.30 or \$3.50 more); The lowest rate of any city was Peabody's (\$18.70 or \$2.70 increase). Only two cities besides Revere had a decrease rate. Net average increase for all the cities, \$2.23.

SALE OF AUTO.

BOSTON, May 18, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Authority is respectfully requested to sell to Burnett & Sherman one Buick runabout, 1917, for \$300. This car to be given in part payment for one Ford delivery wagon at \$682, less \$300 for Buick runabout, making net cost of Ford car \$382.

Respectfully,

WM. C. WOODWARD,
Health Commissioner.

Approved June 15, 1921.

ANDREW J. PETERS, *Mayor.*

RETIREMENT OF POLICEMEN.

On June 11 the Mayor approved the retirement of Patrolman Edward J. White of Police Division No. 14, with a pension equal to one half his salary,

\$900, to take effect June 15, 1921. Patrolman White is sixty and one-twelfth years of age and has been on the police force for thirty-two years and eleven months. Also the retirement of Patrolman Edward W. Sprague of Division No. 7, with a pension equal to one half his salary, \$900, to take effect June 15. Patrolman Sprague is sixty and one-twelfth years of age and has been on the police force for thirty years and eleven months.

REPRESENTATIVE AT NATIONAL TUBERCULOSIS ASSOCIATION.

BOSTON, June 10, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I respectfully recommend that Dr. John A. Ceconi, medical inspector in the service of the Health Department, be authorized to go to New York at the expense of the City of Boston to attend the meeting of the Na-

tional Tuberculosis Association, from June 14 to June 17, to ascertain the present status in New York City of the use of the Schick test and the toxin-antitoxin treatment of diphtheria, and to make such other inquiries concerning health administration as time and opportunity may permit.

The trip contemplated in the above paragraph will last approximately five days and will cost, it is estimated, about sixty dollars (\$60).

Respectfully,

WM. C. WOODWARD,
Health Commissioner.

HEALTH DEPARTMENT.

BOSTON, June 13, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Subject to your approval, I hereby designate Dr. M. Victor Sanford, epidemiologist in the service of the Health Department, to perform the duties required of the Health Commissioner during my absence from the city on official business, inspecting dairies, such absence to be from June 14 to 18, inclusive, 1921, under authority of section 22, chapter 3, Revised Ordinances.

I respectfully request that this designation be approved by you.

Respectfully,

WM. C. WOODWARD,
Health Commissioner.

COLLECTING DEPARTMENT.

BOSTON, June 9, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22, of the Revised Ordinances of 1914, John J. McCarthy to serve as Acting City Collector at such times as I may be absent during the four weeks commencing June 9, 1921.

Respectfully,

E. V. B. PARKE,
City Collector.

READING OF DECLARATION OF INDEPENDENCE.

On June 15 Mayor Peters announced the selection of Saul B. Levitan, 10 Paxton street, Dorchester, a student of the English High School, to read the Declaration of Independence from the balcony of the Old State House at ten o'clock on Independence Day. Mr. Levitan will also recite the Declaration later in the morning at the exercises in Faneuil Hall. It will be recalled that it has been customary for the School Committee to pick either the Boston Latin or the English High School graduating class a student who they believe is best qualified to read the Declaration.

LAUNCHING OF FERRYBOAT "RALPH J. PALUMBO."

On June 15 Mayor Peters announced that the new ferryboat "Ralph J. Palumbo," which is being constructed at the Winnisimmet ship yards in Chelsea, will be launched on Wednesday, June 22, at 1.30 p. m. The sponsor will be Miss Camille Palumbo, the daughter of the soldier in whose honor the ferryboat is named.

DELINQUENT TAX SALES.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

The owners and occupants of the following described parcels of real estate situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public, are hereby notified that the taxes and assessments thereon severally assessed for the years hereinafter specified, according to the lists committed by the assessors of taxes of said City to me as collector of taxes for said City, including assessments for the suppression of gypsy and brown-tail moths, remain unpaid, and that the smallest undivided part of said land sufficient to satisfy said taxes and assessments, with interests and all legal costs and charges, or the whole of said land if no person offers to take an undivided part thereof, will be offered for sale by public auction at the City Collector's office, on the second floor of the City Hall Annex on Court street, in said City of Boston, on Wednesday, July 6, 1921, at 9.30 o'clock a. m., for the payment of said taxes and assessments, with interests, costs and charges thereon, unless the same shall be previously discharged.

The sums set against the following descriptions of the several parcels of land show the amounts due thereon respectively for the taxes and assessments for the nonpayment of which each of said parcels of lands is to be sold, but not including the cost and interests thereon and costs and charges incident to this sale:

SUPPLY DEPARTMENT.

PROPOSALS FOR ANTHRACITE SCREENINGS.

Sealed proposals will be received at the office of the Superintendent of Supplies, Room 801, City Hall Annex, until twelve o'clock noon, Friday, June 24, 1921, at which time and place they will be publicly opened and read, for furnishing 500 tons of wharf made anthracite screenings, to be delivered from time to time as ordered to City Hall Annex. The coal shall be passed through standard yard screen and shall not contain an excessive per cent of dust. The bidder shall use the form of proposal to be obtained at the Supply Department, Room 801, City Hall Annex, and shall furnish a certified check for \$100, payable to and to become the property of the City of Boston if the proposal is not carried out. A duplicate bid, without check, must be deposited with the City Auditor prior to the time named for opening bids. The bidder must state the price per ton of 2,000 pounds. The successful bidder must furnish a bond for one quarter the amount of the contract with a surety company authorized to do business in Massachusetts. The Superintendent reserves the right to accept or reject any or all proposals or any part of a proposal and to award the contract as he deems for the best interests of the city.

BOSTON NOTES.**PORT OF BOSTON.**

Best of natural harbors, sheltered, spacious for anchorage, main ship channel 35 feet in depth at low tide, near open sea, area about 6,300 acres; waterfront (*i. e.*, lineal pier space) 40 miles, 6 miles fronting on 30 feet depth at low water. A 45-foot channel from entrance of harbor to President Roads, and 40-foot from there to wharves will be dredged in the near future. New Commonwealth Pier No. 5, South Boston, 1,200 feet long, 400 feet wide, accommodating five 600-foot ships at one time, 40 feet depth at mean low water on both sides, with three 2-story fireproof buildings of steel and concrete construction, containing 900,000 square feet of floor space; total cost of this enterprise to State, \$4,500,000. Commonwealth Pier No. 6, South Boston (Fish Pier), buildings on same erected by lessee, Boston Fish Market Corporation, cost to State, \$1,487,361. New Commonwealth Pier No. 1, East Boston, 900 feet long, costing State \$764,000 for site and about \$300,000 for construction. New dry dock at South Boston (probably the largest in world), completed in 1919, 1,200 feet long and 120 wide, costing over \$3,000,000 and taken by U. S. Government at total cost of same to State. Islands in Boston Harbor over 3 acres in area, 17, with total area of 965 acres; Long Island the largest, or 215.5 acres. Owned by United States, 392 acres; by City of Boston, 334 acres. Number of wharves, 146, of which 8 are owned by the City. There are 22 foreign steamship lines with regular sailings to and from Boston and 10 coastwise lines. In 1915 a revision of the harbor lines was made and the project undertaken whereby 600 acres of flats between Governor's Island and Jeffries Point, East Boston, will be filled in and used for extensive commercial development under State control.

In April, 1918, the Government decided to establish its Army Supply Base on a portion of the Commonwealth lands in South Boston. About 57.6 acres were purchased of the State, the price being \$1,317,510, quickly followed by the construction of two pier sheds, each 920 feet long, a wharf shed and other buildings, including one of the largest storehouses in the world, built of reinforced concrete, eight stories high, 1,638 feet long, 126 feet wide and with floor space of over 1,650,000 square feet. The total outlay for the plant was about \$26,000,000.

Total Federal expenditure for improvement of Boston Harbor from 1790 to June 30, 1918, \$12,487,842; total expended and provided for by State, \$15,986,832 since 1870.

PUBLIC RECREATION IN BOSTON.

Number of large parks, 24; separate playgrounds, 42, with total of 327 acres, also 14 playgrounds in parks, with area of 155 acres; small parks and squares, 75; total areas, 2,688.5 acres. Cost of Main Park System, *i. e.*, 1,386 acres, land and construction (since 1877 when begun), \$11,788,065; of Marine Park System, *i. e.*, 457.9 acres (since 1883), \$4,436,697; of all other parks and public grounds, \$2,357,009 of separate playgrounds, \$4,416,315. Total cost, \$22,998,086.

The leading attraction of the Main Park System is Franklin Park (named for Benjamin Franklin), acquired in 1883-84, and containing 527 acres, about 80 of which are occupied by the Zoological Gardens, 15 miles of walks, 8 miles of driveways, etc., the entire cost up to 1920

being \$4,408,244. There are also within the city limits 958 acres of Metropolitan parks and parkways under State control, chief of which is Stony Brook Reservation in West Roxbury, containing 464 acres of wild forested hill and dale with many rocky knolls and an extensive view of the Charles River valley and beyond.

Number of public indoor baths open all the year, 14; 9 beach baths and 7 floating baths open during summer; indoor gymnasium, 11; total number of indoor baths taken in year 1919, 1,549,480, of which 75 per cent were by men and boys.

Park and Recreation Department maintenance for 1919-20, \$1,075,287 or 121,179 more than in 1918. Outlay for playground improvements, \$257,081, of which \$79,067 was from Parkman Fund income. Gross debt for parks outstanding February 1, 1920, \$10,896,550; for playgrounds, \$2,397,300; total, \$13,293,850 or \$960,311 less than in 1919.

Including the State assessments of \$886,211 for Metropolitan parks, boulevards, etc. and \$232,968 for Charles River Basin improvements, the total expended for public recreation purposes in 1919 was \$2,556,889 or \$14,757 less than in 1918.

Total valuation of city properties devoted to recreation, \$69,072,400 (including \$55,112,400 for Boston Common and Public Garden), which far exceeds that of any other American city except New York. The L Street seaside bath, opened in 1866, was the first municipal bath established in the United States, so far as known.

BOSTON BANK STATISTICS, 1919-20.

Bank clearings or exchanges in year 1919 show the largest total on record in Boston, *viz.*, \$17,902,682,762, an increase over 1918 of \$2,401,597,454 or 15.49 per cent, and over 1917 of 41.36 per cent. Highest single day's clearings on record, \$112,803,738, *i. e.*, on December 16, 1919. Highest on record for a single month, \$1,927,686,674, *viz.*, December, 1919. Total clearings for first three months of 1920, \$4,814,181,761 or 24.55 per cent more than in 1919. On February 28, 1920, the 15 national banks showed aggregate capital of \$28,950,000; surplus and undivided profits, \$48,655,103; deposits, \$439,142,341; loans and discounts, \$359,501,955. On same date, the 30 trust companies showed aggregate capital of \$26,901,100; surplus and undivided profits, \$34,440,284; deposits, \$371,351,851; loans and discounts, \$326,767,150; 26 trust companies each have a savings department with total deposits of \$69,350,933. Total resources of the national banks, \$601,284,213 or \$37,511,275 more than in March, 1919; of the trust companies, \$513,939,691; grand total of the 45 banks, \$1,115,223,904 or \$106,070,844 more than in 1919. Savings banks, 24 with \$341,215,952 deposits (as of October 31, 1919); cooperative banks, 39, with total assets of \$36,369,400 (as of October 31).

Among the twelve Federal Reserve Banks, that of Boston on April 9, 1920, ranked fourth in these respects, *viz.*, total resources, total reserves, gross deposits and F. R. notes in circulation; fifth as to capital paid in and surplus, while as to total earning assets and total discounts (bills on hand) it stood sixth.

On September 12, 1919, the resources of the 7,785 national banks, which are all members of the Federal Reserve System, established in 1914, amounted to \$21,615,000,000; total deposits, \$15,924,-

865,000. The number of State banks and trust companies belonging to the Federal Reserve System increased from 250 to 936 during the year 1918. All the trust companies in Boston are now members.

The First National Bank of Boston has next to the largest foreign business among the national banks in the United States, having a branch bank in Buenos Aires, Argentina, and active bank accounts in the principal foreign cities.

The Boston Clearing House, established in 1856, ranks second to that of New York in number of checks cleared, *viz.*, 35,300 daily average.

FOREIGN TRADE OF UNITED STATES, CALENDAR YEAR, 1919, WITH RANK OF TEN LEADING PORTS.

Exports \$7,922,150,592 or \$1,773,063,047 more than in 1918 and the highest total on record.

Imports, \$3,904,406,327 or \$873,193,617 more than in 1918 and the highest for imports. Total foreign commerce in 1919, \$11,826,556,919 or \$2,646,256,664 (*i. e.*, 28.82 per cent) more than in 1918. Excess of exports over imports, \$4,017,744,265.

New York, ranking first among United States ports, handled 46.69 per cent of total commerce, or 4.69 per cent more than in 1918; New Orleans (2nd) 6.26 per cent; Philadelphia (3rd) 5.72 per cent; Boston (4th) 5.36 per cent; Seattle (5th) 4.13 per cent; Galveston (6th) 4.10 per cent; San Francisco (7th) 4.04 per cent; Baltimore (8th) 3.32 per cent; Detroit (9th) 3.14 per cent; Buffalo (10th) 2.50 per cent. Of value of all imports, 69.14 per cent free of duty. Total duties collected, \$249,774,758 or 44.62 per cent more than in 1918. Of total export value, 70.30 per cent applied to manufactured and partly manufactured materials, 20.78 per cent to crude materials for use in manufacturing and 8.75 per cent to foodstuffs (crude) and food animals.

Boston's rank for many years as the second importing port changed to fourth place in 1917, Seattle taking second place and San Francisco third, probably due to war conditions. In 1918 Boston advanced to third place and was but slightly behind Seattle. In 1919 it regained its former rank of second.

ANNEXATIONS TO BOSTON.

East Boston in 1637; South Boston in 1804, being set off from Dorchester; Roxbury in 1868, a city of Norfolk County since March, 1846; Dorchester in 1870, a town since September, 1630; Charlestown in 1874, a city of Middlesex County since February, 1847; Brighton in 1874, set off from Cambridge and incorporated as a town of Middlesex County in February, 1807; West Roxbury in 1874, set off from Roxbury and incorporated as a town of Norfolk County in May, 1851; Hyde Park in 1912, a town of Norfolk County since April, 1868.

These annexations, which added 24,312 acres of land to the original land of Boston, were by area as follows: East Boston, 1,435 acres; South Boston, 795; Roxbury, 2,450; Dorchester, 5,600; West Roxbury, 8,075; Brighton, 2,664; Charlestown, 424; Hyde Park, 2,869. Filled land increased the area later by 1,396 acres. In 1875 the annexed territory had a population of 201,250, or 58.86 per cent of city's total; in 1910 its population had increased to 477,311, or 71.18 per cent, Hyde Park not included.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets, the naming of public streets, the planting and removal of trees in public ways, the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds, the use of the public ways for any permanent or temporary

obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

TO ROOM 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

Ferryboat Gates.

On June 21 to R. Minton Company, as per following communication:

Boston, June 16, 1921.

To the Mayor of Boston:

I respectfully request your permission to award a contract for gates and barriers on ferryboat "Hugh O'Brien" to the R. Minton Company, the only bidder, at an estimated cost of \$2,000. The work to be done under this contract is to be completed on or before July 14, 1921.

Respectfully yours,

T. F. SULLIVAN,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

Blue Printing Machine.

On June 22 to Revolute Machine Company as per following communication:

Boston 9, June 10, 1921.

HON. ANDREW J. PETERS,

Mayor of Boston:

DEAR SIR,—Under date of May 23, 1921, this office opened bids on a blue printing machine for the Public Works Department.

The following bids were received: C. F. Pease Company, \$825, no cash discount; Revolute Machine Company, \$1,050, 3 per cent cash discount.

The bids were referred to the Commissioner of Public Works, who had the Division Engineer of the Bridge and Ferry Service and a mechanical engineer study the machines offered by the two bidders, and they recommend that the highest bid be accepted, in which recommendation the Commissioner of Public Works concurs.

I have studied the report made by the engineers and believe that the city should accept the highest bid, that of the Revolute Machine Company. I therefore request authority to enter into contract with the Revolute Machine Company for one blue printing machine at \$1,050, less 3 per cent for cash in 10 days. This price includes the removal of the machine, which is now being used by the Sewer Service of the Public Works Department, which machine is to become the property of the bidder. The price also includes complete installation of the new machine, testing and all installation work and materials.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

RE STUART STREET.

Boston 9, June 15, 1921.

JAMES A. MCKIBBEN, *Secretary*,
Boston Chamber of Commerce,
177 Milk street, Boston.

DEAR SIR,—I am in receipt of your letter of June 14 notifying me of the vote of the Board of Directors of the Chamber, urging me to proceed with the construction of Stuart street.

You will be glad to learn that orders for the construction of Stuart street were given by me in January of this year, and the preliminary work is progressing as rapidly as possible.

In a matter such as this where the street is being cut through buildings, the surveys incident to the drawing of plans for the street take considerable time. They have now been practically completed, and the hearings on the takings will probably be held the first week in July. Preparations have been made with the Commissioner of Public Works so that as soon as the hearings have been held, the awards made, and the takings ordered, he will be in a position to enter immediately and start the work of demolition, and as soon thereafter as possible the work of construction.

Very truly yours,

ANDREW J. PETERS, *Mayor*.

STREET COMMISSIONERS.

June 16, 1921.

Ordered, That this Board, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published March 25, 26, 1921, and March 28, 29, 1921, in the *Boston Globe* and the *Boston Transcript*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience so requires, does hereby order the making, in said city, of the public improvements, shown on a plan, marked "City of Boston, Parkwood terrace, West Roxbury, March 25, 1921, F. O. Whitney, Chief Engineer Street Laying-Out Department," deposited in the office of the Street Laying-Out Department of said city, a highway named Parkwood terrace is hereby laid out, from Parkton road to Jamaica-way, and order constructed.

Ordered, That this Board estimates that the land abutting on both sides of

Parkwood terrace as hereby laid out, will receive benefit or advantage, other than the general advantage to the community, from the improvement herein ordered, each of the particular lots within said limits to the amount respectively set against it herein; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Parkwood terrace, West Roxbury, Assessment Plan, March 25, 1921, F. O. Whitney, Chief Engineer Street Laying-Out Department," and on file in the office of said department.

FENCE AROUND BALL FIELD,
BOSTON COMMON.

BOSTON, June 8, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—On April 8, 1921, the Park Department awarded a contract for building a fence around the ball field on Boston Common to the W. A. Snow Iron Works, Inc., the second lowest bidder. The lowest bidder was the firm of B. Krivitsky & Co. The chairman of the Park Department stated that the award was not made to the lowest bidder because of the delay experienced by the department with that firm last year under a contract for building a fence around the Randolph Street Playground, and because "the contract for the fence on Boston Common Playground was too important to be delayed."

This contract for the Boston Common Playground fence called for:

1. Concrete foundation piers at least 18 inches in diameter and 4 feet deep, to be finished off smoothly 2 inches above the ground, and with steel rings 12 inches in diameter and $\frac{1}{2}$ inch thick set 2 inches below the top of the concrete foundation.

2. Posts to be of wrought-iron pipe, $9\frac{1}{2}$ feet in length, set $3\frac{1}{2}$ feet in the concrete piers.

3. Wire fabric to be fastened to the posts with galvanized bolts.

4. The fence to be given three coats of paint.

5. The tops of the posts to be finished with caps of malleable iron.

None of these specifications have been fully complied with.

1. The concrete piers for the posts—a very important part of the structure—are only 12 inches in diameter, instead of 18 inches as required, and are set in the ground $2\frac{1}{2}$ feet instead of 4 feet as required. The steel rings for reinforcing the concrete piers to be set 2 inches from the top of the piers were not furnished at all. Nor are the piers finished smoothly 2 inches above the grade of the ground at the posts and sloped to the ground level. The neglect to finish the top of the piers as required will subject the posts to corrosion on account of water and ground acids and thus shorten the life of the fence.

2. The posts are steel and not wrought iron as specified. They are $8\frac{1}{2}$ feet in length instead of $9\frac{1}{2}$, as required by the contract, and are 2 to $2\frac{1}{2}$ feet into the concrete piers instead of $3\frac{1}{2}$ feet as specified. The wrought iron specified costs about 40 per cent more than the steel actually furnished.

3. Ordinary bolts, untreated to resist weather conditions, have been used to fasten the fence to the posts, instead of the galvanized bolts called for by the contract.

4. Only two coats of paint have been applied to the fence instead of three as required by the contract.

5. The contract called for finishing the tops of the posts with caps of malleable iron. The contractor used cast iron, which costs about one half as much as the malleable iron called for by the contract.

There was an inspector of the Park Department assigned to this work, the work of concreting the bed of the pond on the Common, and the building of some sidewalks, also on the Common, all three contracts being carried on at

the same time. Mr. T. A. Snow of the contracting company stated that the engineer of the Park Department, who prepared the specifications, and Mr. Long, deputy commissioner, visited the work practically every day. He also stated that the chairman of the Park Commission was about the work frequently.

The consulting engineer of the Finance Commission estimates that the contractor saved at least 25 per cent of the entire contract price of \$4,000 by not complying with the specifications. This saving, however, does not measure the damage to the city, for the reason that the departures from the specifications are of such a serious nature that the durability and life of the fence are probably reduced by a very much greater proportion of the entire contract price than was saved by the contractor.

The important point to emphasize in this matter is the gross neglect of the engineer and inspector of the Park Department in permitting such vital departures from the specifications. In view of the testimony of the engineer of the Park Department that the inspector assigned to the work was on the ground every day the Finance Commission cannot escape the conviction that the inspector deliberately approved the improper construction of this fence.

This is a good example of how the greatest care of a city department in preparing plans, specifications and the accompanying contract to protect the interests of the city can be wholly nullified by inefficient inspection. It would seem that a contractor would, on honor alone, more nearly comply with the specifications and plans of a contract of this kind than has proved to be the fact in this case under city inspection.

The Finance Commission recommends:

1. That payment under this contract be withheld until the damage to the city is ascertained and that the ascertained damage be deducted from the amount of the contract.

2. That the inspector assigned to this work by the Park Department be discharged.

Respectfully submitted,

MICHAEL H. SULLIVAN,
Chairman,

COURTENAY GUILD,
JOHN F. MOORS,
JAMES M. MORRISON,
J. WALDO POND,
The Finance Commission.

AUDITING DEPARTMENT.

BOSTON NOTES.

PUBLIC STREETS IN BOSTON, 1920.

Total length of the 2,443 paved streets, February 1, 1920, 603.71 miles; total area, 11,391,742 square yards, or 8.45 per cent of the City's total land area. This is exclusive of the private streets (not accepted), numbering about 2,840. 369.90 miles, or 62.93 per cent, are paved with macadam (including 113.22 miles bituminous macadam); 104.69 miles with granite blocks; 41.40 miles with asphalt; 32.13 miles with gravel; 23.65 miles with bitulithic; 10.66 miles with wood block; 5.46 miles with brick. Old macadam pavement is gradually being replaced with more satisfactory and durable kinds, such as bitulithic, concrete, granite block, etc. Granolithic sidewalks laid in 1919, 117,311 square yards or 22 miles, averaging about 8 feet wide, 50 per cent of cost assessed on estates benefited.

The 18 principal thoroughfares and traffic routes selected by the Mayor's committee of citizens in 1918 as in urgent need of repair have mostly been resurfaced with granite block, original estimate of cost being \$1,506,200.

New highway construction ordered for 1917-19 and mostly completed includes 29 streets in Dorchester; 25 in West Roxbury; 12 in Roxbury; 14 in Brighton; 6 in East Boston; 2 in Hyde Park and 2 in South Boston, roadway pavement bitulithic or asphalt surface on concrete, and bituminous macadam. Gross debt outstanding February 1, 1920, for all street construction, including damages, \$21,608,521 or \$369,990 less than in 1919.

MEN IN BOSTON, AS LISTED BY

SALARIES OF EMPLOYEES IN ADMINISTRATIVE OFFICES AND SUPPLY ROOM, SCHOOL COMMITTEE.

A report was received from the Salary Board, under date of May 16, 1921, transmitting and recommending the adoption of a plan for the establishment of salaries of the employees in the administrative offices and in the supply room of the School Committee, a classification of the persons so employed, and an order establishing their compensation at various rates for the year beginning Jan. 1, 1921. Placed on file.

A communication was received from the Salary Board, under date of June 1, 1921, transmitting a plan for the establishment of salaries of the employees in the administrative offices and in the supply room of the Board, the classifying of the employees into groups in accordance with that plan, and an order establishing the salaries of such employees for the year beginning Jan. 1, 1921, all prepared in compliance with the instructions of the Board.

Appended thereto were the following plan and order:

Plan for the Establishment of the Salaries of the Employees in the Administrative Offices and the Supply Room of the School Committee.

CLASSIFICATION:

Section 1. 1. Employees in the administrative offices and supply room of the School Committee shall be classified as follows:

2. Group 1. Those acting primarily in an executive capacity.

3. Group 2. Those acting in a secretarial capacity or occupying positions of particular responsibility.

4. Group 3. Other clerical assistants.

5. Group 4. Employees not otherwise classified.

6. Employees now in the service shall be placed in groups by the Board upon recommendation by the Salary Board.

7. All new appointments shall be made either to Group 3 or to Group 4.

8. Promotions from one group to another shall be made only by the Board upon recommendation by the Salary Board.

SALARIES:

Section 2. 1. The salaries of employees in Group 1 shall be annually established by the Board as of January 1 after recommendation by the Salary Board.

2. The salaries of employees in Group 2 are established at a minimum of \$28 per week and a maximum of \$32 per week.

3. The salaries of employees in Group 3 are established at a minimum of \$20 per week and a maximum of \$26 per week.

4. The salaries of employees in Group 4 shall be annually established as of January 1 by the Board after recommendation by the Salary Board.

5. The salaries of persons appointed to groups for which a minimum and a maximum salary are established shall begin on the minimum salary of their respective groups and may be advanced thereafter annually as of January 1 at such rates as the Board may determine upon recommendation of the Salary Board, but not exceeding the maximum salary of the respective groups; provided, that persons who enter the service by transfer from other municipal or State departments may be placed upon an advanced salary not exceeding the maximum salary of their respective groups by the Board upon recommendation of the Salary Board.

Section 3. 1. The adoption of this plan shall not operate to reduce the

salary of any person classified thereunder and now in the service of the Board.

ORDERED. That the persons now employed in the administrative offices of the School Committee and in the supply room are hereby classified as indicated below, and their compensation is hereby established at the rates hereinafter set forth for the year beginning January 1, 1921, except as otherwise specified:—

ANNUAL APPROPRIATION ORDER

The Board took up for consideration the annual estimates and appropriation order, prepared and submitted by the Business Agent, in accordance with the rules, as follows:

BUDGET.

APPROPRIATIONS, 1921-22.

Office of the Business Agent of the School Committee,
Room 51, 15 Beacon Street,
June 6, 1921.

To the School Committee:

In compliance with paragraph 2 of section 99 of the Rules, I submit herewith the estimates and itemized appropriation order to cover the expenses of the public schools for the financial year February 1, 1921, to January 31, 1922, both included.

These estimates show the cost of maintenance of the public schools on the basis existing December 1, 1920, and the costs of any provisions for growth or expansion of any kind are set forth separately.

The cost of increasing the salaries of teachers, members of the supervising staff, janitors, attendance officers, and other employees has been estimated and is shown separately.

The average valuation of the city for the three years 1918, 1919 and 1920, with all abatements allowed up to December 31, 1920, as certified to His Honor the Mayor by the Board of Assessors, is \$1,536,365,954.67. This is the sum upon which all appropriations by the City Council and the School Committee for the financial year 1921-22 are based.

The School Committee is authorized by law to appropriate the following sums:

(a) Six dollars and thirty cents upon each one thousand dollars of the valuation of the city for general school purposes (Chapter 206 of the Special Acts of 1919, chapter 249 of the Special Acts of 1919, and chapter 641 of the Acts of 1920.)

(b) One dollar and sixty-three cents upon each one thousand dollars of the valuation of the city for the construction and furnishing of new school buildings, both temporary and permanent, including the taking of land therefor, and for school yards and the preparing of school yards for use, and for the rent of hired school accommodations. (Chapter 206 of the Special Acts of 1919 and chapter 524 of the Acts of 1920.)

(c) Eighty-four cents upon each one thousand dollars of the valuation of the city for the alteration and repair of school buildings, and for furniture, fixtures, and means of escape in case of fire, and for fire protection for existing buildings, and for improving existing school yards. (Chapter 206 of the Special Acts of 1919 and chapter 524 of the Acts of 1920.)

(d) Eleven cents upon each one thousand dollars of the valuation of the city for organizing and conducting physical training and exercises, athletics, sports, games and play, and for providing apparatus, equipment and facilities for the same in buildings, yards and playgrounds under the control of the School Committee, or upon any other land which the committee may have the right to use for this purpose, under the provisions of chapter 295 of the Acts of 1907. (Chapter 206 of the Special Acts of 1919, Chapter 249 of the Special Acts of 1919, and Chapter 641 of the Acts of 1920.)

(e) Nine cents upon each one thousand dollars of the valuation of the city for the employment of one supervising female nurse and so many district female nurses as, in the opinion of said committee, are necessary in accordance with the provisions of chapter 357 of the Acts of 1907, and for the employment of such number of school physicians as in the opinion of the School Committee, may be necessary, and for the care of teeth of school children. (Chapter 206 of the Special Acts of 1919, chapter 249 of the Special Acts of 1919, and chapter 641 of the Acts of 1920.)

(f) Three cents upon each one thousand dollars of the valuation of the city for the purpose of conducting educational and recreative activities in or

upon school property under the control of the School Committee, and the use thereof by individuals and associations in accordance with the provisions of chapter 195 of the Acts of 1912 and chapter 86 of the Special Acts of 1916. (Chapter 206 of the Special Acts of 1919, and Chapter 641 of the Acts of 1920.)

(g) Seven cents upon each one thousand dollars of the valuation of the city for the payment of pensions to members of the teaching or supervising staff of the public schools of the city, and to persons who were annuitants of the Boston Teachers' Retirement Fund at the time when chapter 589 of the Acts of 1908 took effect, and other teachers who had retired prior to said time, in accordance with the provisions of said chapter 589, chapter 537 of the Acts of 1909, chapter 617 of the Acts of 1910, chapter 563 of the Acts of 1912, and acts in amendment thereof, and of the provisions of chapter 206 of the Special Acts of 1919. (Chapter 206 of the Special Acts of 1919.)

(h) Two cents upon each one thousand dollars of the valuation of the city for promoting the Americanization and better training for citizenship of foreign-born persons. (Chapter 206 of the Special Acts of 1919.)

(i) Two cents upon each one thousand dollars of the valuation of the city for vocational guidance. (Chapter 206 of the Special Acts of 1919.)

(j) The unexpended balance for the financial year 1920-21.

(k) The excess of income, if any, for the financial year 1920-21 over that estimated.

(l) The estimated income for the financial year 1921-22.

(m) Estimated allotment, Smith-Hughes Fund, 1921-22.

TOTAL MONEY AVAILABLE.

Exclusive of the money available for new school buildings, lands, yards and furnishings, viz., one dollar and sixty-three cents on each one thousand dollars of the valuation and amounting to \$2,487,976.50, the sums available for the financial year 1921-22 are as follows:

Total increase in eleven years

The estimated increase in the salaries of instructors for the current year over that of 1920-21 is \$1,279,218.19.

On April 18, 1921, the School Committee passed an order appropriating certain sums on account. The balance of the amounts as set forth in the following estimates should therefore be

appropriated, and I recommend the passage of the accompanying order, which carries this intention into effect.

William T. Keough,
Business Agent.

On May 16, 1921, the School Committee, in accordance with the provisions of Chapter 206 of the Special Acts of 1919, as amended by Chapter 524 of the Acts of 1920, appropriated the sum of \$2,660,395.57 "for the purpose of meeting the administration expenses of the Schoolhouse Department, for the additional cost of accommodations previously authorized, for the rent of hired school accommodations, for the grading of school yards, and for additional permanent and portable school accommodations * * "

Of this amount the sum of \$2,487,976.50 was available under item (b) of the above act, while the balance, \$172,419.07, was from the money available under item (c) of said act, for repairs and alterations to school buildings, etc., and which, under the provisions of the latter act, if unappropriated for repairs and alterations, may be appropriated for new buildings, land therefor, etc.

On this date (June 6, 1921) the School Committee made a second appropriation of \$132,854.12 for new buildings from the money available under item (c) of the above act.

These two appropriations for lands and new buildings made from the money available for repairs and alterations, [item (c)] leave a balance of \$216,874.21 which it is necessary to appropriate and which the following order does appropriate for repairs and alterations.

It is also necessary to appropriate the balances for the other items as set forth in the foregoing estimates, and the following order carries this intention into effect.

ORDERED, That to meet the current expenses of the School Committee and to provide funds for repairs and alterations to school buildings, pensions to teachers, etc., during the financial year February 1, 1921, to January 31, 1922, the following sums are hereby appropriated for the purposes stated, in addition to those appropriated on April 18, 1921, on account:—

For general school purposes, including Americanization and Vocational Guidance:	
Salaries of instructors.....	\$3,121,549.81
Salaries of officers.....	91,633.71
Salaries of janitors.....	227,339.51

SALARY SCHEDULE FOR TEACHERS AND MEMBERS OF SUPERVISING STAFF, YEAR ENDING AUG. 31, 1922.

The following eighteen orders, establishing a salary schedule for teachers, members of the supervising staff and others, for the year ending Aug. 31, 1922, were submitted:

1. ORDERED, That the salaries of teachers, members of the supervising staff, and others in the public schools are hereby established for the year September 1, 1921, to August 31, 1922, inclusive, in accordance with the following schedules and subject to the following restrictions:

1A. ORDERED, That the salaries of teachers, members of the supervising staff, and others who receive annual salaries which have been fixed by Order 1A of the salary schedule for the period February 1 to August 31, 1921, shall, during the year September 1, 1921, to August 31, 1922, inclusive, be fixed and advanced in accordance with the provisions of said order.

1B. ORDERED, That the salaries of teachers, members of the supervising staff, and others who receive annual salaries which have been fixed by Order 1A or Order 1B of the salary schedule for the period February 1 to August 31, 1921, shall, during the year September 1, 1921, to August 31, 1922, inclusive, be fixed and advanced in accordance with the provisions of said order; provided, that the salaries of such persons in those ranks in which the minimum and maximum salaries have been increased over the minimum and maximum provided in the existing schedules by unequal amounts, shall on September 1, 1921, be advanced by the amount of the increase in the minimum of their respective schedules, and the salaries of such persons shall thereafter be advanced upon their respective anniversaries by the annual increment provided in the following schedules until the new maxima of their ranks are reached; provided, that the final increment shall be such amount as shall place the teacher upon the maximum salary of the rank.

1C. ORDERED, That the salaries of masters of day elementary and day intermediate schools which have been fixed by Order 1C of the salary schedule for the period Feb. 1 to Aug. 31, 1921, inclusive, shall, for the year Sept. 1, 1921, to Aug. 31, 1922, inclusive, be fixed and advanced in accordance with the provisions of said order.

1D. ORDERED, That in the application of the following schedule to teachers and members of the supervising staff whose appointments to enter or re-enter the service take effect on or after Sept. 1, 1919, and whose compensation is paid under the ten-payment plan, the annual compensation as specified for teachers and members of the supervising staff appointed to permanent positions in the day school service shall be for such service rendered between Sept. 1, 1921, and June 30, 1922, both inclusive.

1E. ORDERED, That subject to the provisions of Order 1A, the salaries of assistants elementary schools, assistants kindergarten, assistants Horace Mann School for the Deaf, instructors special classes, assistants speech improvement classes and classes for conservation of eyesight, teachers of cookery, teachers of sewing, and assistant instructors in manual training, appointed before Feb. 1, 1921, which have been fixed by Order 1E of the schedule for the period Feb. 1 to Aug. 31, 1921, shall for the year Sept. 1, 1921, to Aug. 31, 1922, be fixed and advanced in accordance with the provisions of said order.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 13, 1921.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., Coun. WATSON, senior member, presiding. Absent—Coun. Hagan, McLaughlin and Moriarty.

APPOINTMENTS BY THE MAYOR.

The following were received:

City of Boston,
Office of the Mayor, June 13, 1921.
To the City Council:
Gentlemen,—Subject to confirmation by your honorable body, I hereby appoint Richard O. Rouse, 62 Lonsdale street, Dorchester, to be a Weigher of Goods for the term ending April 30, 1922.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Laid over under the law.

City of Boston,
Office of the Mayor, June 13, 1921.
To the City Council:
Gentlemen,—Subject to confirmation by your honorable body, I hereby appoint Mr. L. M. Smith, 289 Medford street, Charlestown, to be a Weigher of Coal for the term ending April 30, 1922.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Laid over under the law.

SALE OF PROPERTY, ARCH STREET.

The following was received:

City of Boston,
Office of the Mayor, June 7, 1921.
To the City Council:
Gentlemen,—On March 28 I sent a message to the City Council requesting the passage of an order which would give me authority to sell, at a price not less than the 1920 assessed valuation, the property at the corner of Arch street and Hawley place, originally purchased as a site for Police Station 2.

It has been repeatedly brought to the attention of the City Council, not only that the site was unfit for the purpose for which it was originally purchased, but that there was not the slightest likelihood that the Police Commissioner would consent to its being used for a police station site. There is every reason to believe that the city could dispose of this property on very favorable terms. For the city, under the circumstances, to continue to hold this property, involves the city in a substantial loss. Not only is the city prevented from receiving a large sum of money which is needed for other public improvements, but in addition, the city is also deprived of the income from taxes on this property. Therefore the failure of the City Council to act upon my request for authority to sell this property is involving the city in a financial loss which cannot be justified.

I am again sending to the City Council for its favorable action, the order originally sent with my message of March 28.

Respectfully yours,
ANDREW J. PETERS, Mayor.

Ordered, That the Board of Street Commissioners be authorized to sell the estate corner of Arch street and Hawley place, at public auction, at a price not less than the assessed valuation, the proceeds of such sale to be used toward the purchase of a site and

the erection and furnishing of a police station for Police Division 2.

Referred to the Executive Committee.

REST ROOM, COURTHOUSE.

The following was received:

City of Boston,

Office of the Mayor, June 13, 1921.

To the City Council:

Gentlemen,—In reply to the order passed by the City Council on May 9, I am herewith transmitting a copy of a communication just received from the Superintendent of Public Buildings, together with a copy of the letter from the superintendent of the courthouse, to which he refers.

Respectfully yours,

ANDREW J. PETERS, Mayor.

City of Boston,

Public Buildings Department, June 10, 1921.
Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—Replying to the inclosed order of the City Council which has been referred to me, that the Superintendent of Public Buildings be requested through his Honor the Mayor to submit to the City Council an estimate of the cost of providing and equipping a rest room for women in the courthouse, Pemberton square, for attaches of the building, I wish to say that I have taken the subject-matter up with Mr. Alexander, superintendent of the building, who represents the chief justices, and he informs me that there is no available space in the building to establish this room.

I inclose to you Mr. Alexander's letter to me, in which he states that Chief Justice Rugg substantiates his story.

Respectfully yours,

FRED J. KNEELAND,

Superintendent of Public Buildings.

Suffolk County Courthouse,

Boston, June 3, 1921.

Mr. Fred J. Kneeland,

Superintendent of Public Buildings,

Dear Sir,—I inclose herewith papers relating to a rest room in the courthouse, which you left with me recently, and which have just been returned to me by Chief Justice Rugg. He states that as far as we are concerned the conversation which I had with you on May 31 seems to cover the question.

Yours very truly,

WINTHROP ALEXANDER,

Superintendent.

Referred to the Executive Committee.

Passed under a suspension of the rule.

FLAGS FOR COUNCIL CHAMBER.

Coun. LANE offered an order—That the City Messenger be requested to furnish the Council Chamber with an American flag and a municipal flag, the same to be placed permanently in the chamber.

Passed under a suspension of the rule.

TENNIS COURTS, ALLSTON PLAYGROUND.

Coun. DONOGHUE offered an order—That the Board of Park Commissioners be requested, through his Honor the Mayor, to cause tennis courts to be constructed and equipped on the Allston Playground, Brighton.

Passed under a suspension of the rule.

STREET CARS, ROXBURY CROSSING.

Coun. DONOGHUE offered an order—That the trustees of the Boston Elevated Railway Company be requested, through his Honor the Mayor, to run cars at a five-cent rate of fare from Roxbury Crossing to Boylston street and return on Tremont street.

The order was declared referred to the Executive Committee.

Coun. DONOGHUE—Mr. President, I ask a suspension of the rule for the passage of the order, dealing with this question of a five-cent fare for the people who patronize the Elevated service between Roxbury Crossing and Boylston street. I feel, in view of the fact that the Elevated is now establishing the policy of five-cent fare districts, it certainly ought to give the people of the central district, within a radius of a mile and a half of this hall, the benefit of a five-cent fare, and I believe it would be a paying proposition for the trustees of the Elevated to follow that policy. I hope when the matter is referred to them that they will take it up seriously. I hope, instead of sending back a communication saying they will further investigate it, but that it does not seem advisable at this time—which seems to be a stock phrase of theirs—they will make a serious investigation as to the possibilities of a five-cent fare with adequate service, with an adequate number of cars, say on Tremont street. They will find that it would be to the financial advantage of the Elevated road to pay some attention to the great riding public in this way, particularly in the central district of Boston. I don't want to be one of those who are continually trying to step on the public trustees of the Elevated road, but when I look around and see that they are spending so much money for new rolling stock, for depreciation, for fitting up with new rails, and that sort of thing, spending the people's money and spending it in the most lavish way, it seems to me that the people who are here today ought not to be compelled to bear the entire burden of rehabilitating that road, which was on the verge of bankruptcy until it was saved by a Legislature whose action has since, through the recent investigation, been shown to be absolutely contrary to the wishes of the people of Boston and the outlying sections. I feel that when the trustees put aside ten times as much in one year as the old officials of the Boston Elevated put aside in ten years for such purposes, there is something radically wrong. I feel that the people who are here today ought not to be compelled to pay the entire cost of rehabilitating that road inside of two or three years. I think the least the trustees might do is to stretch it over the ten-year term for which they were appointed. But it is rather a peculiar thing to me to find that there has never been a minority report from any decision of the Elevated trustees, or, if there has, I have yet failed to see it. When that Board was appointed, ordinary people were supposed to be given some representation on the Board, but it seems that they have not been given any representation, and those now conducting the affairs of the Elevated do not seem to respond to the wishes of the people, which certainly are in the direction of an attempt to establish a five-cent fare, at least in the city proper. When they establish five-cent fares in East Boston, Medford, Somerville, and all through those outlying sections, while I have no fault to find with that policy, I think, with the great income derived from the people who live within a two-mile radius of City Hall, those people surely are entitled to the same consideration as those in the outlying districts. The service here is something frightful. The service between here and Roxbury is abominable. You wait fifteen or twenty minutes for a car after you leave the Elevated. I ride myself from Boylston street to Dover street on the Elevated and then walk downstairs to the street and I have to wait ten or fifteen minutes for a car almost any time in the day. That does not seem to me right when I can go into the subway and find cars shooting out to Newton, Watertown and Brighton every minute or two. I think the people have been very patient with the trustees, and I think they ought to make some effort to meet the wishes of the people by establishing a five-cent fare in the central district. I hope the rule will be suspended and that the order will go on its passage.

The rule was suspended and the order was passed.

SIDEWALK, PARK STREET, DORCHES- TER.

Coun. COLLINS offered an order—That the Commissioner of Public Works make a sidewalk along both sides of Park street, from Adams street to Dorchester avenue, Ward 20, in front of the estates bordering thereon, said sidewalk to be from 3 to 10 inches above the gutter adjoining, to be from 5 to 12 feet in width, and to be built of artificial stone with granite edgestones, under the provisions of chapter 196 of the Special Acts of 1917.

Passed under a suspension of the rule.

PENSION FOR FLORA M. PARRISH.

Coun. FORD offered an order—That chapter 88 of the Acts of 1921, entitled "An Act Authorizing the County of Suffolk to Pension Flora M. Parrish," be and the same hereby is accepted.

Referred to the Executive Committee.

RECESS TAKEN.

The Council voted at 2.54 p. m., on motion of Coun. COLLINS, to take a recess subject to the call of the President.

The members of the Council reassembled in the chamber and were called to order by the President at 4.39 p. m.

Office of the Mayor, June 16, 1921.

To the Members of the City Council:

Gentlemen,—You are hereby requested to assemble in the City Council Chamber on Monday, June 20, at two o'clock, to take action on a special appropriation of \$5,000 toward the expenses of the YD reunion to be held in Boston on July 2, 3 and 4.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Placed on file.

REUNION OF YANKEE DIVISION.

The following was received:

City of Boston,

Office of the Mayor, June 16, 1921.

To the City Council:

Gentlemen,—The first reunion of the Yankee Division will be held in Boston this year on July 2, 3 and 4. I am sure you will agree that this is an event which should be officially recognized by the City of Boston.

A meeting of this kind necessarily involves considerable expense, and I believe that the city should make a substantial contribution toward defraying such expense. I have conferred with Col. William J. Keville, who was authorized to talk with me on the general subject of the meeting, and he agrees that an appropriation of \$5,000 will go a long way toward making the meeting a success. I am sure we are all desirous of its being a real success, and I therefore recommend the immediate passage of the accompanying order, so that those in charge of the reunion may proceed with their plans.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Ordered, That the sum of \$5,000 be and hereby is appropriated, to be expended under the direction of his Honor the Mayor, toward defraying the expenses of the reunion of the Yankee Division to be held in Boston, July 2, 3 and 4, said sum to be charged to the appropriation for Reserve Fund.

The rule was suspended on motion of Coun. BRICKLEY, and the order was passed, yeas 6, nays 0.

CITY OF BOSTON.

CITY COLLECTOR'S NOTICE.

The owners and occupants of the following described parcels of real estate situated in the City of Boston, in the County of Suffolk and Commonwealth of Massachusetts, and the public, are hereby notified that the taxes and assessments thereon severally assessed for the years hereinafter specified, according to the lists committed by the assessors of taxes of said City to me as collector of taxes for said City, including assessments for the suppression of gypsy and brown-tail moths, remain unpaid, and that the smallest undivided part of said land sufficient to satisfy said taxes and assessments, with interests and all legal costs and charges, or the whole of said land if no person offers to take an undivided part thereof, will be offered for sale by public auction at the City Collector's office, on the second floor of the City Hall Annex on Court street, in said City of Boston, on Wednesday, July 13, 1921, at 9.30 o'clock a. m., for the payment of said taxes and assessments, with interests, costs and charges thereon, unless the same shall be previously discharged.

The sums set against the following descriptions of the several parcels of land show the amounts due thereon respectively for the taxes and assessments for the nonpayment of which each of said parcels of lands is to be sold, but not including the cost and interests thereon and costs and charges incident to this sale:

TAX RATES, 1919, IN MASSACHUSETTS CITIES.

Of the 38 cities in the State, 21 had a higher tax rate than Boston's, those situated in the Metropolitan District being also subjected to increased rates because of assessment for Elevated Railway deficit. The highest of these was Malden's (i. e., \$39.50 or \$6.10 more than in 1918); (2) Medford's (\$29.40 or \$6.80 more); (3) Cambridge's (\$28.30 or \$3.30 more); (4) Quincy's (\$28 or \$3.80 more); Everett's (\$27.60 or \$5 more); (6) Melrose's (\$26.20 or \$2.80 more); (7) Somerville's (\$25.80 or \$2.60 more); (8) Chelsea's (\$25.60 or \$1.80 more) and Revere's the same or \$1.20 less than in 1918; (9) Woburn's (\$24.30 or \$3.50 more): The lowest rate of any city was Peabody's (\$18.70 or \$2.70 increase). Only two cities besides Revere had a decrease rate. Net average increase for all the cities, \$2.23.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets, the naming of public streets, the planting and removal of trees in public ways, the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds, the use of the public ways for any permanent or tem-

porary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquees, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

SUPPLY DEPARTMENT.

Anthracite Screenings.

On June 29 to Batchelder Brothers as per following communication and bids:

BOSTON 9, June 27, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Attached please find list of bids on proposals for furnishing 500 tons of wharf-made anthracite screenings to be delivered to City Hall Annex, which were publicly opened and read at this office under date of June 24, 1921. I respectfully request that permission be granted me to award this contract to Batchelder Brothers, the lowest bidder, at a price of \$2.95 per ton.

In connection with the price quoted above, would state that under date of April 13, 1921, this office received a price of \$4.50 on these screenings in conjunction with the yearly bids for anthracite and semibituminous coal for the Public Buildings Department, and this latter price of \$2.95 shows a saving of \$1.55 per ton from the original price quoted.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

Bids on 500 tons wharf-made anthracite screenings, to be delivered to City Hall Annex, opened June 24, 1921:

Per Ton of 2,000 Pounds.—Massachusetts Wharf Coal Company, \$3.85; D. Doherty Company, \$4.50; Metropolitan Coal Company, \$3.75 to September 1, 1921—\$4.25 after September 1, 1921; Batchelder Brothers, \$2.95.*

* Lowest bidder.

TRANSIT DEPARTMENT.

On June 27 to George A. Craffey Company for plastering ceiling over car tracks in Arlington Station. Bids opened June 21:

Nathan Beigelman, \$20,122.50; Patrick Coffey, \$6,181.25; A. V. Day & Co., \$4,815.25; George A. Craffey Company, \$4,148.50.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

SCHOOLHOUSE DEPARTMENT.

Heating and Ventilating Henry L. Pierce School.

On June 29 to W. H. Welch Company, as per following communication:

BOSTON 9, June 28, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—The bids on furnishing and installing new heating and ventilating apparatus in the Henry L. Pierce School, submitted to the Schoolhouse Commissioners and opened on June 22, were as follows:

W. H. Welch Company, \$22,000*; F. W. Zemeir & Co., \$22,866; Massachusetts Sprinkler, Power and Sanitary Engineering Company, \$22,874; J. L. Hern Engineering Company, \$23,200; T. A. Ridder Company, Inc., \$24,350; Lynch & Woodward, \$25,426; J. P. Dwyer Company, \$26,000; J. J. Hurley & Co., \$26,723.

* Cashier's check furnished.

As noted, W. H. Welch Company was the lowest bidder, in the sum of \$22,000. The check accompanying this bid, however, was a cashier's check, and did not comply with the requirements of this department, which stipulate a certified check. For that reason the Board could not legally award the contract to the Welch Company under this bid.

Inasmuch, however, as this was the lowest price obtainable, the Board requests the approval of your Honor to awarding the contract, without advertising, to the W. H. Welch Company, in the sum of \$22,000, under the provisions of chapter 486, section 30, of the Acts of 1909.

Respectfully yours,

J. P. LOMASNEY, Chairman.

SUPPLY DEPARTMENT

X-Ray Machine.

On May 24 to K. & B. Electrical Equipment Company, as per following communication:

BOSTON 9, May 21, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—Permission is respectfully requested to award a contract, without publicly asking for bids, to the K. & B. Electrical Equipment Company, Inc., for one Kelley-Koett X-ray machine as per attached specifications at a price of \$1,831.50, which includes delivery of the machine and installation of same at the Boston City Hospital.

Doctor Ellsworth of the Boston City Hospital staff has made a personal investigation of the various types of X-ray machines and finds that the machine named above best meets his requirements. In view of the facts outlined above, I respectfully request that the permission asked for be granted.

Respectfully yours,

G. J. CRONIN,
Superintendent of Supplies.

ADDITIONS TO AND DEDUCTIONS FROM CONTRACTS.

The following additions to and deductions from contracts have been approved:

PUBLIC WORKS DEPARTMENT (Ferry Service).

An addition, amounting to \$893, on contract with the Atlantic Works for repairing main engines, etc., on ferry-boat "John H. Sullivan," on account of removing machine and replacing 4 valve stems on main engine; placing new metallic packing for same; fitting 16 horseshoe liners; removing, slotting and replacing 8 slides, main engine; renewing 28 brass thrust bolts with nuts; making and fitting new crank pin in crank shaft; removing crossheads and turnpins; machining and refitting brasses on main engines; furnishing new piston rings for steam steering engines; and furnishing new combined crosshead and piston in electric engine. Original contract, \$3,974; total additions, \$1,643; contract as standing, \$5,617.

PUBLIC WORKS DEPARTMENT (Paving Service).

An addition, amounting to \$150, on contract with S. J. Tomasello for laying bitulithic pavement and relaying granite block pavement in Dorchester street, from East and West Broadway to East and West Eighth street, South Boston, on account of recutting old paving blocks

to be used for repaving brow of car tracks. Price to be paid for each square yard recut, the sum of \$0.65. Original contract, \$29,117.20; total additions, \$10,575; contract as standing, \$39,692.20.

PUBLIC WORKS DEPARTMENT (High Pressure Fire Service).

BOSTON, June 27, 1921.

To the Mayor of Boston:

I respectfully request your approval of the attached order for additional work, on the contract with the C. & R. Construction Company, to lay 300 linear feet of 20-inch pipe in Pearl street, from Purchase street to High street, and establish three hydrants thereon, and to lay 100 linear feet of 12-inch pipe in Harrison avenue, at Beach street—at an estimated cost of \$3,500.

These two pieces of additional work will use up all the available main pipe now on hand for the high pressure fire service and will greatly improve the fire protection in the high pressure fire area, by affording additional hydrants, in the territory bounded by Purchase, Congress, Franklin and Oliver streets in which there is now no protection.

This company was the lowest bidder on the contract let last year, which is now being completed. They have been doing excellent work under this contract, and their force is now so well trained that we have not had any leakage during the present summer at the required pressure test of 400 pounds; and I am satisfied that the proposed necessary work can be done to better advantage by the C. & R. Construction Company than any other contractor that might bid on this work.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

PUBLIC WORKS DEPARTMENT.

June 27, 1921.

C. & R. CONSTRUCTION COMPANY, 262 Washington street, Boston:

DEAR SIR,—You are hereby directed to perform the following additional work under your contract for laying high pressure fire pipes in North street, Commercial street, etc., dated July 16, 1920.

Items ordered: Lay 300 linear feet 20-inch pipe in Pearl street, from Purchase street to High street, and establish three hydrants thereon, at the prices quoted on the above contract. Estimated cost, \$3,000. Lay 100 feet 12-inch pipe in Harrison avenue at Beach street. Estimated cost, \$500. Total estimated cost of additional work, \$3,500.

I recommend that the above order be issued.

F. A. McINNES,
Division Engineer, Engineer in charge.

Respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Approved, June 30, 1921.

ANDREW J. PETERS, Mayor.

PERMISSION TO DO WORK WITH DEPARTMENT FORCE.

The Mayor has granted to the Commissioner of Public Works authority to do the following work with the department force without advertising for competitive bids:

To reset edgestone, repair gutter and repair sidewalks in Newburg street, West

Roxbury, from Beach street to Belgrade avenue, the estimated cost for labor and material being \$2,000.

To resurface with bituminous macadam Penubroke street, from Tremont street to Columbus avenue, the estimated cost for labor and material being \$2,500.

To resurface with bituminous macadam and regulate Judson street, from West Cottage street to Brookford street, the estimated cost for labor and material being \$2,500.

To build twenty catch-basins, one manhole, 40 linear feet 10-inch pipe sanitary sewer, 70 linear feet 12-inch pipe surface drain, and 184 linear feet catch-basin drain in Washington street, between Corinth and Auburn streets, West Roxbury, the estimated cost for labor and materials being \$8,044.

To resurface with bituminous macadam Park street, West Roxbury, from Centre street to Oriole street, the estimated cost for labor and material being \$5,000.

FIRE DEPARTMENT ORDERS.

General Order No. 42.

FIRE PROTECTION, LONG ISLAND AND DEER ISLAND.

Hereafter, for the purpose of fire protection, Deer Island will be under the jurisdiction of the district chief of District No. 1 and Long Island will be under the jurisdiction of the district chief of District No. 3.

Inspection.

Each of the above district chiefs will detail an officer (a captain preferred) to inspect once a month, and will himself inspect once in every six months the island within his jurisdiction. Inspections will be made of all buildings and premises adjacent thereto, fire appliances, fire escapes, fire doors and the observance of fire drills by employees.

On each monthly inspection of Deer Island, weather permitting, a steam fire engineer will be detailed with the officer to test the 500-gallon steam fire engine installed on the island. The engineer will "fire up" the engine, connect same to hydrant and pass water through two 100-foot lengths of hose.

On both islands at each inspection, as part of the fire drill, the auxiliary fire pumps in engine rooms will be tested by the local engineers.

Aside from giving advice and instructions as to the proper manner of handling of hose, ladders, tools, appliances, etc., the inspecting officer will not participate in the fire drills.

Immediately following each inspection, a report, with recommendations, if necessary, will be forwarded to the Fire Commissioner covering the conditions of buildings, premises, fire appliances, fire drills, etc.

Fire Duty.

On arrival at either island in response to an alarm of fire, the first officer of this department shall assume command until the arrival of a superior. The officer in charge shall have authority to require the assistance of any person present in extinguishing the fire.

On receipt of an alarm from Deer Island, the district chief will ascertain whether a steam fire engineer has responded with Engine Company 11. If an engineer has not responded with this company, he will pick up a spare engine from a nearby company and proceed in his automobile via Winthrop to Shirley Gut, leave the engineer to cross over to the island in the boat and he will then return to his district; the engineer will have charge of the steam fire engine on the island during the fire. Before leaving his district, the district chief will notify the next subordinate ranking officer to assume command of the district during his absence.

By order of the Fire Commissioner.

PETER E. WALSH,
Chief of Department.

STREET SHOWERS.

BOSTON 9, June 24, 1921.

JOHN R. MURPHY, Fire Commissioner,
Bristol street, Boston:

DEAR SIR,—I am in receipt of your letter of June 22 stating that you now have six showers which may be attached to hydrants on hot days for bathing by those who desire it. I also note that the Health Department has approved of the use of these showers.

I would suggest that on days when the temperature is 80 degrees or more that the shower baths be used in the streets in such sections of the city as you believe need them most, and that the hours of their use be from ten to twelve in the morning, and from 4.30 to 5.30 in the afternoon.

Weather permitting, I shall be glad to open these shower baths on Tuesday morning, June 28, at nine o'clock, at whatever place you suggest.

Very truly yours,

ANDREW J. PETERS, Mayor.

USE OF GRASSED LAND, BOSTON COMMON.

PUBLIC ANNOUNCEMENT AND ORDER,
JUNE 24, 1921.

I, Andrew J. Peters, Mayor of the City of Boston, acting under authority conferred upon me as Mayor, by section 80 of chapter 40 of the Revised Ordinances of 1914, give notice and order that between the hours of sunset and sun-up, beginning June 24, 1921, and until further notice, the public shall be permitted to walk, stand or lie upon the grassed land of Boston Common adjoining the Parade Ground.

ANDREW J. PETERS, Mayor.

SCHEDULE OF COMPENSATION.

BOSTON 9, June 29, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—At a meeting of the Board of Assessors, held this day, it was Voted, That the following schedule of compensation of the clerks employed upon a piece-work basis be adopted, effective June 1, 1921:

Transferring valuations to tax book, 4 cents per item; proving of the tax books, 1½ cents per item; extending rate and proving including entering of statements, "sends," gypsy moth and special assessments, 2½ cents per item; writing and calling back tax bills, 3 cents per item; writing collector's manuscript, 4 cents per item; total, 15 cents per item.

In addition to the above specifications, the foregoing schedule rate include, and are in full compensation for interruptions, preparation and use of the addressograph plates, podding of tax bills, and also for such office service as the chief clerk may, from time to time, require. In case of failure of a clerk to perform and complete any of the work assigned to him, a corresponding reduction of his compensation will be made.

The above action was taken subject to your approval.

Respectfully,

BOARD OF ASSESSORS,
By FREDERICK H. TEMPLE,
Secretary.

Approved June 30, 1921.

ANDREW J. PETERS, Mayor.

OFFICIAL COMMUNICATIONS.

RE STREET OPENINGS.

BOSTON, June 28, 1921.

HON. ANDREW J. PETERS,

Mayor of Boston:

SIR.—From time to time complaints have been received by the Finance Commission from citizens that many of the street openings made annually by public service corporations and others, under permits from the Public Works Department, are not properly repaired when the purpose of the openings has been accomplished, and that as a result many well built streets are rough and uneven. Recently the Finance Commission granted a hearing to the officers of the United Improvement Association on this matter and thereafter investigated the whole question of street openings and restoration.

It appears from a letter of your Honor to the secretary of the United Improvement Association, under date of May 4, 1921, that the matter of restoring street openings to the condition obtaining when they were made is the duty of the persons or public service corporations making the openings. The following paragraph is taken from your Honor's letter above mentioned:

While I understand perfectly your purpose in calling these openings to my attention, I think I should again state that the public service corporations making openings are alone responsible for their repavement. We are doing everything possible to secure the co-operation of such corporations, and I think it would be a good plan if the United Improvement Association aided us by communicating on such matters direct with the corporations making the openings.

The matter of requiring more adequate financial returns and better security from corporations and others making openings in the public streets was considered by the Finance Commission in 1909. See Finance Commission's Reports, volume V, pages 23 and 29. The study made at that time resulted in the passage of chapter 553 of the Acts of 1910. This act provides the conditions under which parties may receive permits for opening public highways. The essential portions relating to the matters now under consideration are as follows:

SECTION 1. The superintendent of streets of the City of Boston may require any person or corporation applying for a permit to open streets or sidewalks in said city to deposit with the city treasurer, in addition to a bond to protect the city against suits for damages to persons or property, cash, or if the applicant prefers, such securities as savings banks in Massachusetts are permitted by law to invest in, and may withhold such permit, except an emergency permit, until the deposit is made. Such deposit shall be for an amount which the Superintendent of Streets, subject to the approval of the mayor, determines to be sufficient to restore the street or sidewalk to an order and condition as good as obtained prior to the opening, but the total amount on deposit by any person or corporation at any time shall not be in excess of five thousand dollars, and if the deposit of any person or corporation at any time amounts to five thousand dollars no further deposit shall be required as a condition of the granting of a permit until the lawful deduction from said deposit shall be made by the city as herein-after provided.

SECTION 2. If within two years from the date of the restoration of the street or sidewalk which has been opened by a person or corporation under a permit granted as provided in the preceding section, the superintendent of streets, by written notice, orders such person or corporation to make further repairs, and said person or corporation neglects for a period exceeding thirty days to comply with such order, the city may remedy the defects due to the manner in which said street or sidewalk was opened and restored, and the superintendent of streets may, after giving said person or corporation seven days'

notice in writing of his intended action, deduct the reasonable cost thereof from the amount of the deposit of such person or corporation, and the city treasurer shall place the amount so deducted to the credit of the appropriation for the street department for the current year.

Chapter 28 of the Revised Ordinances of 1914 contains the procedure for operations under this law. Section 9 of said chapter is as follows:

SECTION 9. The commissioner may issue permits to persons having authority in the premises to open, occupy, obstruct and use portions of the street. Such permits shall specify the time, place, size and use of such opening, occupation or obstruction, and shall be granted upon condition

1. That the restoration of the paving or other surface of such streets shall be effected by the city as directed by the commissioner, the work to be done by city employees or by contract or otherwise at his discretion, the standard, type and extent of the repairs necessary to effect such restoration to be determined by him and to be paid for by the person receiving the permit, such payment to be made in advance on the basis of the commissioner's estimate or during the progress or after the completion of the restoration as the commissioner may elect.

3. That the commissioner may detail an inspector, at the expense of the person receiving the permit, to supervise said opening, occupation and use, and to see that the backfilling is properly done.

Under the foregoing law and ordinance the present practice is to require a person or corporation who is permitted to make an opening in a public street to file a bond with the city authorities for the protection of the city, in the sum of \$1,000. These bonds run for a period of one year and are renewable each year. In addition to the bond, all parties—with the exception of certain public service corporations—are required to make cash deposits sufficient to cover the estimated cost of the repair work, as provided in the statute.

The street surface is restored temporarily by the parties making the opening and maintained in a safe condition until such time as the disturbed underlying soil has become properly compacted by settlement. The final resurfacing is made either by employees of the city or by some contractor designated by the Public Works Department, except in certain instances where extensive work has been performed by public service corporations the resurfacing is done directly by contractors employed by the corporations, and also excepting the Boston Consolidated Gas Company, which does a large part of its restoring the city's pavements with its own day labor force.

The charges made by the city for work done by its day labor force and by contractors designated by the city to restore street pavements are according to certain established rates and sufficiently generous.

Inspectors are detailed by the Public Works Department for the specific purpose of watching the openings and seeing that the resurfacing is performed in a satisfactory and workmanlike manner. As regards public service corporations, special inspectors are detailed and their salaries are charged to the corporations and paid by them.

From the foregoing it seems clear that the responsibility for restoring and repairing such openings belongs fully and solely to the city, with ample provision for reimbursement by the party or corporation permitted to make such openings. There appears to be no reason under the law, the ordinance and the practice of the Public Works Department why any opening made in a pub-

lic street should remain improperly restored for public use immediately after the purpose of the opening is accomplished, nor does there appear to be any reason for not restoring such an opening at the proper time to its normal and permanent condition.

In the large area of street surface that has been paved in recent years with granite block, many openings have been made by public service corporations or by departments of the city, particularly in the streets along the water front. The surface of these openings, however, has not been restored to such condition as it should have been. In order to do a neat and workmanlike job and prevent disturbed areas of pavement of this sort being noticeable as compared with surrounding areas, it is necessary that all the broken blocks be removed, that the pavement be grouted in the same manner as when originally laid and that the cement grout be allowed to harden for a sufficient time, so that it will not be removed by the impact of horses' feet and wheels with iron tires.

As a matter of fact there appears to be no attempt by the city authorities to secure such work, except in particular cases. As an example of such an exception, a large number of openings have been made in School and Sudbury streets and the surface so restored that the openings are not perceptible at the present time. On the other hand, in such streets as Atlantic avenue, where upwards of 150 permits for openings have been granted since repaving in 1919, little attempt has been made to remove the old and broken pavement, with the result that a so-called straight joint extends around the edges of many openings and no support is furnished to the restored pavement from the surrounding pavement. This joint is rapidly worn away by iron tires and causes a hole in the street. Traffic is allowed almost immediately over the opening after the blocks have been grouted, whereas a minimum of seven days is required for new pavement, and more if possible.

Until the department charged with this work requires parties restoring pavements to do it in a workmanlike manner, whatever may be the expense, there will still be uneven patches on our granite-blocked paved streets.

There are many cases where street openings have apparently been neglected and require immediate repairs. By far the greater part of such openings are apparently due to the operation of the Water Service of the City of Boston, either in repairing the general service pipes, or on account of the work of the high pressure fire service.

The Finance Commission recommends:

1. That the Commissioner of Public Works make an examination of all streets where permits have been granted to any person or corporation to make openings,

2. That after such examination, all openings found not to have been restored to their original condition as regards street surface be so restored as soon as possible.

MOTOR SERVICE FOR CITY DEPARTMENTS.

BOSTON 9, June 29, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—Your Honor on April 28, 1921, requested the Finance Commission to report on the needs of the city departments for motor service, both passenger and truck, and the advisability of adopting a standard vehicle for each service. After making a study of the needs of the city departments for passenger car service and the defects of the present system, the Finance Commission makes the following report:

Two reports on the subject of city motor service have been heretofore made by the Finance Commission. The first was made in 1912 (see Finance Commission's reports, Volume VIII, page 104) and dealt with the purchase of motor fire apparatus for the Fire Department.

The second report was made in 1915 (see Finance Commission's reports, Volume XI, page 353) and dealt with the use of passenger automobiles by the city departments, and recommended the adoption of a taxicab or livery system, based on the city's ownership of the automobiles.

At the present time the city owns seventy-four passenger cars which are used by the departments other than the Police, Fire and Hospital services. This list does not include motor trucks. These passenger automobiles cost the city when purchased the sum of \$77,929.63. New passenger cars each year cost the city on an average of \$15,000.

Of these passenger cars twenty-four are touring cars, four are limousines or sedans, and forty-six are runabouts or roadsters. Of the twenty-four touring cars, twenty-one are assigned either to the heads of the city departments or to the heads of divisions. These cars are used exclusively by the persons to whom they are assigned, although on rare occasions they may be used by other members of the staff of the department. The other three touring cars are used by employees supervising the work of the subordinates of the department and are not assigned to the head of the office. Two of the four closed cars are used continuously, either for inspection purposes by division chiefs or by the office force. One other closed car is used by the Institutions Department, and the fourth, a Buick sedan, is assigned to the chairman of the Park Department and is kept at the city buildings in Franklin Park. The Park Department chairman has, in addition to this closed car, a Stearns-Knight touring car.

The forty-six runabouts and roadsters are used daily by the inspection force of the city and by engineers for inspection work.

During the present year (1921-22) twenty-six chauffeurs are employed and assigned to heads of departments or heads of divisions to operate passenger cars. The salaries of these chauffeurs amount to approximately \$33,000.

It is impossible to state exactly the total cost of passenger motor service to the city, because the city's auditing system is so arranged that the total cost for motor vehicle transportation of all kinds is shown in one sum by departments. No separation is made of the cost by car or type of car, or by truck service or passenger service. The total

cost to the city last year for automobile service, exclusive of the Fire, Police and Hospital services, was approximately \$209,000. This figure includes trucks, as well as passenger automobiles.

This large expenditure is not warranted by the service rendered. It is mainly due to three causes:

1. The assignment of cars to individuals, with the result that for long periods at a time the cars are standing idle outside of City Hall or elsewhere, while officials in other departments needing motor service are obliged to hire it at the city's expense.

2. The too frequent replacement of old cars with new cars.

3. The purchase of touring cars to serve where runabouts only are necessary.

It is a common custom for heads of departments to have chauffeurs call for them at their homes in the morning and take them to City Hall, where the cars remain on the call of the head of the department. While the head of the department is in his office the chauffeur and the car are idle, regardless of the need for automobile service in any other department. In the evening many of these cars are used to carry home not only the officials to whom they are assigned, but others.

The city of Chicago a few years ago investigated the use of city automobiles and, as a result, Chicago sold its passenger car equipment and contracted for automobile service with a private company at a per hour rate. At the present time Chicago is paying \$3 an hour for such service, and its automobile cost for passenger service for the year 1920 was about \$30,000. The City of Boston, although less than one half the size of Chicago, pays more than that sum annually for chauffeur's salaries alone.

It seems clear to the Finance Commission that the city will save many thousands of dollars annually if the contract system of hiring its passenger motor service is adopted.

Taxicab and automobile companies now operating in Boston have informed the commission that they are equipped to furnish all the passenger automobile services needed in the city departments and are prepared to bid for this work.

The Finance Commission recognizes that there are certain divisions of the city service in which a runabout motor car may be necessary. For such service the city probably should maintain a few such cars, but these cars should not be larger than a runabout type and should be operated by the officials using them.

It is entirely possible, and very desirable, that whatever departments of the city have automobiles should keep a detailed account of the expense. At the present time, although the city has been using automobiles for fifteen or more years, there are no records that aid in the distribution of cost and maintenance, outside of the School Committee department. The following record of a roadster automobile used by the Schoolhouse Custodian is given to show the desirability of such records, not only as a monthly and yearly check for the head of a department, but as a cumulative record for application to types of cars and comparison of service by departments. The following record can be found on page 46 of the annual report of the Business Agent of the School Committee for the fiscal year ending January 31, 1919:

COST OF SCHOOLHOUSE CUSTODIAN'S AUTOMOBILE.

An automobile (roadster) was purchased in December, 1914, and was in use three years, nine months and nine days. It has recently been exchanged for a new machine. The following statement shows the total cost, the average yearly cost, including depreciation, the depreciation per year and the cost per mile:

Original cost, equipped complete	\$1,085 00
Tires and tire repairs (including inner tubes)	532 91
Gasoline	488 97
Lubricants	29 00
Miscellaneous parts and repairs (including overhauling, etc.)	641 84
Oxygen	22 62
Washing and polishing	27 25
Registration fees	30 00
Licenses	2 50
Incidentals	33 56
Garage charges	3 75
Electric light for garage	36 75

Total cost for three years, nine months, nine days

Allowance for old machine

Net cost, including depreciation

Length of time in service, three years, nine months, nine days.

Total miles run, 31,000.

Average cost per year, including depreciation, \$711.03.

Depreciation per year, 20.3 per cent.

Cost per mile, \$0.87.

The commission requests further time for its report on motor trucks for the use of the city.

The Finance Commission recommends:

1. That the Superintendent of Supplies advertise for passenger car service for the city on both an hourly and a monthly basis, for both open and closed cars.

2. That such rental service as may be obtained as a result of bids received be applied as far as possible to every passenger motor service required by the city.

3. That no more passenger cars be purchased by the city for any department until the result of advertising for rental bids is known.

4. That, if and when the passenger motor service of the city departments is put upon a rental basis, the Superintendent of Supplies be authorized to maintain a service through which all orders for hire of automobiles shall pass and be filed.

Respectfully submitted,

TREASURY DEPARTMENT.

BOSTON 9, June 23, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22, of the Revised Ordinances of 1914, Benjamin S. Turner to act as Acting City Treasurer at such times as I may be absent during the four weeks commencing June 23, 1921.

Yours respectfully,

FRANK S. DELAND,
City Treasurer.

STATEMENT BY MAYOR PETERS ON PAYMENT OF POLL TAXES.

I am informed by the City Collector that all poll tax bills will be delivered within several days, and I desire to impress upon all the importance of immediate payment of these bills to the collector.

Every facility has been provided by the collector to enable the payment of taxes with the least possible inconvenience, sub-stations for collections having been established in every ward in the city. At certain stated times deputy collectors will be on duty at these stations to receive payments of poll taxes.

This year, as last year, the poll tax is \$5. Of each \$5 tax assessed, the city must pay \$3 to the state, whether or not the tax is collected. It is particularly important this year that everyone who is assessed for a poll tax pay it promptly, and no legal steps will be neglected by myself or the City Collector to enforce the payment of all poll taxes.

All males over twenty years of age who were residents of the city on April 1, 1921, are liable for the poll tax. While the law requires that a bill be issued for a poll tax, the failure of the person taxed to receive the bill in no way relieves him of his liability for payment. In referring to the sending of bills, the law on this point says:

"An omission to send such notice shall not affect either the validity of a tax or of the proceedings for collecting it."

Under the law, the persons taxed are given two weeks in which to pay their poll taxes. The payment of all poll taxes remaining unpaid at that time will be enforced by every legal means which the City Collector can command.

RE LOOSE PLANKING ON HARVARD BRIDGE.

Mayor Peters has sent the following letter to Police Commissioner Curtis and Mayor Quinn of Cambridge.

Boston, June 27, 1921.

DEAR SIR,—In the past few weeks we have had a great deal of complaint regarding the noise made by automobiles crossing Harvard Bridge, some of the planking being loose. I have gone over the whole matter most carefully with the Commissioner of Public Works, and to-day I received a report. The pertinent portions of this report, I quote for your information:

Replying to your memo of June 22 regarding the planking on Harvard Bridge, beg to advise that we have been working for two or three weeks on this matter with the Cambridge and Boston Commission forces renewing some broken stringers which the contractor has nothing to do with. With Mr. Smith, the Cambridge Bridge Commissioner, I went over the whole situation today, and the contractor, the Rowe Contracting Company has agreed to assume the expense which the commissions' forces are to do in repairing this planking.

Mr. Rowe of the Rowe Contracting Company stated today that he had no desire to split hairs in any way on the matter, although his attorney had assured him that he was not liable for the existing situation because the nails which were properly driven through the planking, which he laid, have become loosened from the sub structure, which he did not lay.

I respectfully suggest that the best way to eliminate this noise, which is due principally to the frightful speed of automobiles, is to have Police Commissioner Curtis and Chief McBride of the Cambridge Police each station an officer on this bridge and enforce the speed laws. The Boston and Cambridge Bridge Commissioners, at the meeting in my office today, voted to erect signs at each end of the bridge fixing a speed limit of fifteen miles

an hour. If the police of both cities enforce this rule, there will be little cause for complaint on account of noise.

I am writing to you to particularly direct your attention to the last paragraph quoted above relative to the regulation of speed on the bridge. I am sending a similar letter to (Police Commissioner Curtis, or Mayor Quinn of Cambridge) in the hope that it may be possible for some reciprocal arrangement to be worked out between the two cities to bring about the desired result.

Very truly yours,

ANDREW J. PETERS, Mayor.

LAND TAKING—JOHN MARSHALL DISTRICT.

Boston 9, June 24, 1921.

To the Honorable Mayor of Boston:

SIR,—At a meeting of the Board held this day, and in compliance with chapter 473 of the Acts of 1901, it was voted, subject to your approval, to take, for a special class center, a certain parcel of land, with building thereon, in the John Marshall District, Dorchester, bounded and described as follows:

Beginning at a point at the northeasterly corner of Melville avenue and Washington street, thence running northeasterly by line of Washington street 160 feet to land of Bruce thence turning and running southeasterly by land of Bruce 117 feet to land of Power; thence turning and running southerly by land of Power 118 feet to line of Melville avenue; thence turning and running westerly by line of Melville avenue 155 feet to the point of beginning; and containing 20,208 square feet. Be all said measurements more or less.

We submit herewith the written opinion of the Superintendent of Schools thereon, and respectfully request your approval of an expenditure, not exceeding—eminent domain—for carrying out the same.

Respectfully,

J. P. LOMASNEY,

Chairman Schoolhouse Commission.

Boston 9, June 15, 1921.

MR. FRANK V. THOMPSON, Superintendent of Public Schools, Boston:

DEAR SIR,—The Board of Schoolhouse Commissioners thinks it advisable to take, for a special class center, a certain parcel of land, with building thereon, in the John Marshall District, Dorchester, bounded and described as follows:

Beginning at a point at the northeasterly corner of Melville avenue and Washington street, thence running northeasterly by line of Washington street 160 feet to land of Bruce; thence turning and running southeasterly by land of Bruce 117 feet to land of Power; thence turning and running southerly by land of Power 118 feet to line of Melville avenue; thence turning and running westerly by line of Melville avenue 155 feet to the point of beginning; and containing 20,208 square feet. Be all said measurements more or less.

In accordance with chapter 473 of the Acts of 1901, and acts in amendment of, or in addition thereto, we most respectfully ask your written opinion of the above.

J. P. LOMASNEY,

Chairman Schoolhouse Commission.

FRANK V. THOMPSON,

Superintendent of Public Schools.

MASSACHUSETTS CIVIL SERVICE EXAMINATIONS.

GASFITTING INSPECTOR, BOSTON BUILDING DEPARTMENT, JULY 19, 1921.

The salary is \$1,600 a year to a maximum of \$2,000. According to section 5, chapter 265, Acts of 1897, inspectors shall be practical gas fitters of at least five years' continued practical experience. Applicants should possess a gas fitter's license.

PLUMBING INSPECTOR, BOSTON BUILDING DEPARTMENT, JULY 20, 1921.

The salary is \$2,000 per year. Under chapter 142, section 11, of the General Laws, inspectors of plumbing shall be practical plumbers, and shall also have had practical experience, either as masters or as journeymen continuously, during the five years last preceding the date of appointment. According to section 12, chapter 142, of the General Laws, no person can be employed in this position who at the time of said employment engages in or works at the business of plumbing. Applicants should possess a journeyman's or master plumber's license.

INSTRUCTOR IN FURNITURE MAKING, DEPARTMENT OF CORRECTION, MASSACHUSETTS REFORMATORY, JULY 20, 1921.

The salary is \$1,440 per year. Applicants should have a general knowledge of cabinet making and operating wood working machinery used therein, and should be able to handle and instruct prisoners.

INSTRUCTOR IN SHOEMAKING, DEPARTMENT OF CORRECTION, STATE PRISON, JULY 21, 1921.

The salary is \$1,560 per year. Applicants should have a practical knowledge of shoe finishing and treeing, and be able to handle men.

NEW BOTTOM OF FROG POND.

Mayor Peters officially opened the rehabilitated Frog Pond on the Common Friday afternoon at 2 p. m. With him at the opening were the three members of the Park Commission, James B. Shea, Charles A. Cooldige and James E. McConnell. The old mud bottom, which has for a long time made bathing very unpleasant for the youngsters who use the Frog Pond, has been replaced by a concrete flooring and side walls, at a cost of \$13,121. This improvement makes it possible to keep the water perfectly clean, and will make bathing for the youngsters who are allowed to swim there much safer.

AMENDMENTS TO RULES AND REGULATIONS

The following was offered:

ORDERED, That the rules be amended as follows:

Section 89. Paragraph III. Insert the following to immediately follow the paragraph describing the requirements for the certificate:

Candidates for the High School Head Master's certificate must have had four years' service in a Boston high school, a satisfactory portion of which shall have been in executive work, or in a similar position elsewhere.

Paragraph VI. Strike out the three paragraphs describing the eligibility requirements for the elementary school master's certificate and substitute in place thereof the following:

The requirements for this certificate are: Graduation from a college or university approved by the board of superintendents or from an institution of as high a grade; evidence of five years' successful experience in teaching and governing regular graded day schools; evidence of good administrative ability.

Men candidates for the Elementary School Master's certificate must have served four years as sub-master in a Boston elementary school, or in a position of similar rank elsewhere.

Paragraph XI.—Under "Supervising Staff", strike out the words, "For first assistant director of manual arts", and substitute in place thereof the following,—For associate director of manual arts—so that the paragraph will read as follows:

For associate director of manual arts: A diploma from an art school or from a manual training school approved by the board of superintendents, or evidence of an equivalent academic education; and evidence of five years' successful supervisory experience in teaching drawing or manual training.

Under "Certificates Valid in Day High Schools" in the paragraph describing the requirements for the special certificate in physical training: Strike out the words, "and evidence of two years' successful experience in teaching and governing schools of such grade or grades as the board of superintendents may determine" and substitute in place thereof the following,—and evidence of two years' successful experience in teaching physical training in day schools, approved by the board of superintendents—so that the paragraph will read:—

For the special certificate in physical training: A diploma from a high school approved by the board of superintendents, or evidence of an equivalent academic education; graduation from a school offering a course in physical training at least two years in length, approved by the board of superintendents, and evidence of two years' successful experience in teaching physical training in day schools, approved by the board of superintendents.

Following the paragraph describing the requirements for the vocational assistant in day high schools certificate, strike out the following: "This certificate covers the rank of vocational assistant, Department of Vocational Guidance," and substitute in place thereof the following:

This certificate covers the rank of vocational instructor and vocational assistant, Department of Vocational Guidance.

Under "Certificates Valid in Day Elementary Schools, Intermediate Schools and Classes," strike out the requirements for the sewing certificate, and substitute in place thereof the following:

For the sewing certificate: Graduation from a high school approved by the board of superintendents, or evidence of an equivalent academic education; satisfactory completion of an approved one-year course of instruction in sewing; evidence of one year's successful experience in teaching sewing in regular graded day schools subsequent thereto, which teaching experience requirement may be waived for graduates of the Boston Normal School.

Paragraph XXX.—Add the following at the close of the paragraph describing the certificate inclusions.—XVII. Evening School, Limited, so that the paragraph will read:

This certificate includes certificates designated XI. Special: Instructor—Shop Work; XVII. Evening School, Limited.

Paragraph XXXIII. Strike out the opening paragraph and substitute in place thereof the following:

XXXIII. Intermediate. To assistants in day intermediate schools, and in Grades VII and VIII in day elementary schools.

Section 83. Paragraph 3. Insert the following in the fourth line to immediately follow the words "high school certificate"—a junior assistant certificate or an intermediate certificate—so that the paragraph will read as follows:

3. The name of no person shall appear upon more than one list of persons eligible for appointment to positions of a given rank; provided that the holder of a high school certificate, a junior assistant certificate or an intermediate certificate may, by re-examination, be listed in any group of subjects in which he has passed a major examination.

Section 141, paragraph 1. Strike out the paragraph and substitute in place thereof the following:

1. The salary board shall annually consider the classification and salaries of all persons employed in the administrative offices and in the supply room of the Board, and shall recommend to the Board such changes in said classification and salaries as the salary board shall deem expedient, which shall take effect on the first day of January, or at such later date as the salary board may recommend, and shall continue for a period of one year. Such classification and salaries having once been established for an ensuing year shall not be changed during that year.

Section 142. Strike out the section. Passed, under a suspension of the rules.

The following was offered:

ORDERED. That the regulations are hereby amended as follows:

Section 151, paragraph 7. Strike out the word "agricultural" in the second line and insert after the word "courses" in the same line the words,—"receiving state reimbursement, so that the paragraph will read as follows:

7. The summer term of the co-operative courses receiving state reimbursement shall begin on the day immediately following the close of the day schools in June, and close on the day immediately preceding the opening of the day schools in September of each year, Saturdays, Sundays and legal holidays excepted.

Section 153. Strike out paragraphs 3 and 4, and substitute in place thereof the following:

3. The superintendent may suspend the sessions of the Public Latin school, of any day high school, of the Boston Trade school, and of ninth grade classes in intermediate schools at his discretion on days on which the annual exhibition drills of the Boston school cadets take place.

4. The sessions of the Latin schools, of day high schools, of the Boston Trade school, and of the ninth grades of other schools in which military drill forms a part of the course of instruction, shall be suspended on the day of the annual parade of the Boston school cadets

Section 154. Insert the following new paragraph as paragraph 4:

4. Co-ordinators in co-operative industrial courses in day schools shall be allowed the holidays and vacations specified in section 152, paragraph 1, of the regulations, and in addition thereto, not less than thirty days dur-

ing the summer term, to be taken at such time or times as the Superintendent shall determine.

Renumber paragraph 4 as paragraph 5.

Paragraph 5. Insert the following new paragraph to immediately precede the paragraph describing the holidays and vacations of the director of physical training:—

Assistant director of manual arts, in gardening: Holidays and vacations specified in section 152, paragraph 1, of the regulations, and in addition thereto not more than eight weeks in each calendar year, to be taken at such time or times as the Superintendent shall determine.

Strike out the paragraph describing the holidays and vacations of the supervisor in charge of playgrounds and substitute in place thereof the following:—

Supervisor in charge of playgrounds: Legal holidays unless playgrounds are in session on such days, and in addition thereto, four weeks in each calendar year, to be taken at such time or times as the director of physical training shall determine.

Section 184, paragraph 2. Strike out the words "and, if they prove to be qualified, may be admitted to the senior class," and add the following at the close of the paragraph.—The examinations for college graduates are held by the board of superintendents on the Friday immediately following the reopening of schools in September, so that the paragraph will read as follows:

Men and women graduates of a university or college approved by the board of superintendents, and women graduates of a three-year course in a state normal school so approved, may be admitted to the school, subject to such examination as the board of superintendents may determine. The examinations for college graduates are held by the board of superintendents on the Friday immediately following the reopening of schools in September.

Section 236, paragraph 1. Strike out the words "first assistant director of manual arts" and substitute in place thereof the following,—associate director of manual arts, so that the paragraph will read as follows:

1. The director and associate director of manual arts shall have general supervision and control over the instruction in manual arts in the day schools, except industrial schools.

Section 265, paragraph 2. Insert in the eighth line to immediately follow the words "day high," the words,—day clerical, day intermediate, so that the paragraph will read as follows:

2. Teachers and members of the supervising staff who are on tenure and who are promoted to a higher position, may, on the completion of one year of satisfactory service in the higher position, be appointed on tenure in the new position; provided, that any teacher serving on tenure who may be promoted to the position of principal of a Normal, Latin, day high, day clerical, day intermediate, day elementary, continuation, or day industrial school, may be annually reappointed to such position for two years, and may then be appointed on tenure, to take effect on the first day of September next following the completion of the prescribed length of service. The provisions of this paragraph shall not apply to subordinate teachers in state-aided schools.

Section 281, paragraph 2 (d) Strike out the paragraph and substitute in place thereof the following:

(d) One master's assistant in each district. One additional master's assistant in girls' schools where there is no submaster nor a first assistant, grammar school. In districts attended exclusively by girls, an additional master's assistant may be appointed if the number of girls in grades above the third exceeds 800.

Section 281, paragraph 5. Strike out the provision for a quota of thirty-

six pupils to a teacher for open-air classes, so that the item will read as follows:

Open-air classes 30

Section 289, paragraph 1. Insert to immediately follow the words "senior instructors" the words,—division foremen, so that the paragraph will read as follows:

1. Teachers in the Boston Trade School shall consist of a principal holding the rank of master; a vice principal; division heads; senior instructors; division foremen; shop foremen; shop instructors; and instructors.

Section 291, paragraph 3. Strike out the paragraph and substitute in place thereof the following:

3. In computing the number of teachers to which a day intermediate school is entitled, forty pupils shall be taken as a class unit for grades VII. and VIII., and thirty-five pupils for grade IX.

Section 293, paragraph 6. Strike out the entire paragraph and substitute in place thereof the following:

6. The whole number of teachers to which a Latin or day high school is entitled, exclusive of the principal, and the amount of teaching to be allotted to the several teachers, shall be determined by standards stated in terms of teaching units (pupil periods per week of instruction in ordinary academic subjects as follows:

(a) During the first week of October, or on some other date fixed by the superintendent, each head master shall report to the superintendent, in such manner as the superintendent may determine, the number of teaching units of instruction given by each teacher in his school.

(b) All classes in Latin and day high schools, except classes in hygiene, physical training and choral practice, having more than forty-five pupils shall be organized only with the approval of the superintendent.

(c) No classes with fewer than fifteen pupils shall be organized in any Latin or day high school without the approval in advance of the superintendent.

(d) The standard number of teaching units of instruction for men in academic subjects shall be seven hundred sixty-eight pupil hours per week, based on twenty-four periods of teaching per week, with thirty-two pupils in each class.

(e) The standard number of teaching units of instruction for women in academic subjects shall be seven hundred and four pupil hours per week, based on twenty-two periods of teaching per week with thirty-two pupils in each class.

Section 293, paragraph 7. Strike out the entire paragraph and substitute in place thereof the following:

7. Modifications of the above standards shall be made for certain teachers, as follows:

(a) Ordinary academic work is hereafter referred to as "A" work; laboratory instruction in science is called "B" work; instruction in sewing, cookery, millinery, shop-work; and in academic, drawing, or laboratory work, where the expense of instruction is shared by the State is called "C" work.

(b) The number of teaching units to be credited to a school for "B" work is in all cases to be decided by adding to the number of pupil hours eight for every laboratory period in which the class is divided into two sections, and thirteen for every laboratory period in which the class is not so divided.

(c) The number of teaching units to be credited to a school for "C" work is in all cases to be decided by multiplying the number of pupil hours by such a ratio as would change 600 into the standard number of pupil hours for "A" work; that is, in the

case of a man teacher, by 1.280. and in the case of a woman teacher, by 1.173.

(d) Each teacher designated as co-ordinator in cooperative industrial or agricultural courses shall be credited with four pupil hours of "C" work for each pupil pursuing such courses.

(e) Each teacher of salesmanship or of commercial branches who acts as coordinator shall be credited with one and one-half pupil hours of "A" work for each pupil pursuing work outside of school, in school time, under the supervision of such co-ordinator.

(f) For the industrial instructor, head of department, High School of Practical Arts, a deduction of two hundred pupil hours.

Section 293, paragraph 8. Strike out the entire paragraph and substitute in place thereof the following:

8. The number of teachers to which a Latin and day high school is entitled shall be computed as follows:

(a) The number of pupil hours of instruction of each teacher, as shown in the report called for in paragraph 6 (a), shall be entered in the appropriate column. The number of teaching units to be credited to the school shall be entered in the next column. The standard number of pupil hours in "A" work shall be entered in the third column.—704 for a woman, 768 for a man. Deviation from this standard shall be entered in the fourth column and shall be marked X or—, according as the credit for each teacher is greater or less than the standard.

(b) The difference between the totals obtained as footings for the second and third columns; that is, between the totals of credits in teaching units, and the totals of standard numbers of pupil hours, will show whether the teaching force of the school is more or less than adequate.

(c) The number of additional teachers to which a school attended exclusively by girls or by boys and girls is entitled shall be determined by dividing the plus balance by seven hundred four—the standard for women teachers.

(d) The number of additional teachers to which a school attended exclusively by boys is entitled shall be determined by dividing the plus balance by seven hundred sixty-eight—the standard for men teachers.

(e) The number of teachers in excess in a school attended exclusively by girls or by boys and girls shall be determined by dividing the minus balance by seven hundred four—the standard for women teachers.

(f) The number of teachers in excess in a school attended exclusively by boys shall be determined by dividing the minus balance by seven hundred sixty-eight—the standard for men teachers.

Section 293, paragraph 9. Strike out the paragraph and accompanying illustrations.

Renumber paragraphs 10, 11, 12 and 13 as paragraphs 9, 10, 11 and 12.

Section 299, paragraph 5. Strike out the words "first assistant director of manual arts" and substitute in place thereof the following,—associate director of manual arts, so that the paragraph will read as follows:—

5. A director of manual arts, one associate director of manual arts, three assistant directors of manual arts, two first assistants in manual arts, and eight assistants in manual arts.

19. Strike out the paragraph and substitute in place thereof the following:

19. A director of vocational guidance, and as many vocational instructors and vocational assistants as the Board may authorize.

Section 248, paragraph 1. Strike out the paragraph and substitute in place thereof the following:

1. Any pupil who is temporarily unemployed has the option of attending a regular day school or of attending the compulsory continuation school twenty hours per week, during the period of his unemployment. Any pupil who fails to carry out this regulation shall be reported to the chief attendance officer.

Section 352. 2. Strike out the paragraph and substitute in place thereof the following:

2. There shall be one division foreman; shop foreman; shop instructor; trade assistant; helper; instructor, boys' classes; senior instructor; instructor; assistant; vocational assistant; special instructor, or special assistant for each three hundred pupil hours of instruction per week. A teacher serving on part time shall not be counted as equivalent to a teacher serving on full time.

3. Strike out the words "one thousand" in the second and third lines and substitute in place thereof the words,—nine hundred, so that the paragraph shall read as follows:

3. The compulsory continuation school shall be entitled to one clerical assistant for every nine hundred pupils in average membership, and an additional clerical assistant for an excess of five hundred pupils.

Section 357, paragraph 2. Strike out the words "and forty" in the ninth line so that the paragraph will read as follows:

2. Pupils in the compulsory continuation school shall be granted certificates of proficiency after attaining the age of sixteen years; provided, that said pupils have maintained satisfactory standards of conduct and accomplishment both in the school and in employment; and provided further, that said pupils have been in attendance at the compulsory continuation school for at least one hundred hours. These certificates shall be granted each year on dates determined by the principal.

Passed, under a suspension of the rules.

On motion, it was
ORDERED, That the Chairman is hereby authorized to approve, on behalf of this Board, the plans and specifications when prepared and submitted by the Board of Schoolhouse Commissioners for alterations and improvements in the new administration building, No. 15 Beacon Street.

ADDITIONAL EXITS, DEARBORN SCHOOL-HOUSE.

On motion, it was
ORDERED, That the Secretary is hereby authorized and directed to call the attention of the Board of Schoolhouse Commissioners to the advisability of immediately providing additional exits to the Dearborn School-house, and to state that this Board desires that such improvements shall be completed before the opening of the term in September next.

ERECTION OF PORTABLE FENCE ON PLAYSTEAD, BOSTON COMMON.

On motion, it was
ORDERED, That the Secretary is hereby authorized and instructed to suggest to His Honor the Mayor the advisability, if the fence around the Playstead on the Common is to be removed, of having a portable fence erected along the walk leading toward the Public Garden, in order that by being able to move such fence there may be more room for the public maneuvers of the high school cadets at their annual drills, and for other occasions when this part of the Common is being used for similar purposes.

INVESTIGATION OF CARRIAGE AND POSTURE OF SCHOOL PUPILS.

On motion, it was
ORDERED, That the Superintendent, the Director of Medical Inspec-

tion, and the Director of Physical Inspection, make an investigation and report to this Board, at its first meeting in September, as to the advisability of devoting more time to setting-up exercises for the improvement of the carriage and posture of boys who participate in drills and the boys and girls generally in the schools, with such recommendations as they believe the situation may require.

REPORTS ON MINORS LEAVING EMPLOYMENT.

On motion, it was
ORDERED, That the Chief Attendance Officer report to this Board, at its first meeting in September, what steps he deems advisable to take, if any, that an earlier record may be obtained of those boys and girls who, having obtained working certificates, leave their employment without having their absence from employment properly reported.

UNFINISHED BUSINESS.

The following communications from the Boston Elementary Teachers' Club, laid over at the meetings specified, were taken up and placed on file:

Communication requesting restoration of twelve-payment plan for teachers instead of ten-payment, and discontinuance of payment by check, laid over at the meeting of Sept. 13, 1920 (see p. 155).

Communication protesting against the ten-payment plan, laid over at the meeting of Dec. 6, 1920 (see p. 223).

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR LAYING AND RELAYING WATER PIPES IN PERKINS STREET, BETWEEN JAMAICAWAY AND PRINCE STREET, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 503 City Hall Annex, invites proposals for laying and relaying about 2,620 linear feet of 8, 12 and 36-inch water pipe in Perkins street, between Jamaicaaway and Prince street, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of three thousand (3,000) dollars, to secure the due performance of the contract and the full protection of the city. Plans and proposals may be obtained at Room 508, City Hall Annex. Each proposal should be inclosed in an envelope, sealed, marked "Proposal for Laying and Relaying Water Pipes, Perkins Street," and left at Room 508, fifth floor, City Hall Annex, before 12 m. on Thursday, July 14, 1921, with a certified check for seven hundred (700) dollars, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then and there be publicly opened and read. Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the proposals. If the price of any item appears to the Commissioner to be abnormally high or low or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets, the naming of public streets, the planting and removal of trees in public ways, the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds, the use of the public ways for any permanent or temporary

obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquis, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

WITHOUT ADVERTISING.

The Mayor has approved the following contracts awarded without advertising; requests of heads of departments to do work with the department forces without advertising; additions to and deductions from contracts.

INSTITUTIONS DEPARTMENT.

BOSTON 9, June 30, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—On Monday, June 27, the "Monitor" went into the Atlantic Works for annual inspection by the United States inspectors.

It was thought that all of the repairs necessary would be of a minor nature and would not cost more than \$250. Upon examination the boiler inspector found the boiler in very bad condition and has ordered immediate repairs, which will cost not over twelve hundred (1,200) dollars.

I respectfully ask your permission to have this work done without advertising for proposals.

Yours respectfully,

THOMAS C. O'BRIEN,
Commissioner.

Webster Company were low on shorts, and I have awarded the order for the shorts in this district to this concern without entering into formal contract for same as the amount involved is very much under \$1,000.

Respectfully yours,

Ordered, That a 90-foot 15-inch and 175-foot 12-inch earthen pipe surface drain, 446 linear feet, 10-inch pipe catch-basin drain, and nine catch-basins be constructed in Cleveland circle in the Brighton district, at an estimated cost of five thousand six hundred forty (5,640) dollars.

Ordered, That a sanitary sewer be constructed of 10-inch earthen pipe in North Harvard street, between Empire street and Parker avenue in the Brighton district, at an estimated cost of nine hundred and ninety-seven (997) dollars.

June 30, 1921.

Ordered, That in the matter of R. Elmer Townsend, petitioner for damages because of the taking made on Mascoma street, Dorchester, for school purposes, under the order of the Board of Street Commissioners of February 26, 1921, after consultation with the Law Department, and on its advice, the Board assesses the petitioner's damages in the sum of \$2,622.94 flat, and consents that the Corporation Counsel agree to judgment in said case on the terms herein stated.

June 29, 1921.

Ordered, That this Board determines that no person sustains damages in his estate by making of the public improvement consisting of the laying out and construction of an extension of Hastings street, West Roxbury district, as a highway, from Centre street to Corey street, under the order of the Board of even date herewith, and awards no damages therefor.

April 7, 1921.

Ordered, That due notice be given, that this Board is of the opinion that, in said city, a public improvement should be made, consisting of the laying out and construction of an extension

of Hastings street, West Roxbury district, as a highway, from Centre street to Corey street, substantially as shown on a plan in the office of this Board, that it intends to pass an order for making said improvements, and that it appoints 12.30 o'clock p. m. of April 20, 1921, and the office of this Board as the time and place for a public hearing in the matter.

A true copy of an order passed by said Board on said day.

Attest:

JOSEPH F. SULLIVAN, *Secretary*.

June 29, 1921.

Ordered, That this Board, having passed the order of notice relating to the public improvement hereinafter described, and having caused a copy of said order to be published April 8 and 9, 1921, and April 11 and 12, 1921, in the *Boston Globe* and the *Boston Transcript*, two daily newspapers published in the City of Boston, and having given the public hearing, notice of which was given in said order, and being of the opinion that public convenience so requires, does hereby order the making, in said city of the public improvements, shown on a plan, marked "City of Boston, Hastings street, West Roxbury, October 30, 1920, F. O. Whitney, Chief Engineer Street Laying-Out Department, deposited in the office of the Street Laying-Out Department of said city, and named, bounded and described as follows:

An extension of the highway named Hastings street is hereby laid out from Centre street to Corey street, and ordered constructed.

Said highway and the land, exclusive of trees or structures affixed thereto, in which an easement for street purposes is hereby taken, is bounded and described as follows:

Northwest by Centre street, by two measurements, thirty-two and 76/100 feet and seven and 30/100 feet on a curve of three hundred and seventy feet radius; northeast by the northeasterly line of said Hastings street as hereby laid out, three hundred eighty and 8/100 feet; southeast by Corey street, forty and 45/100 feet; and southwest by the southwesterly line of said Hastings street as hereby laid out, three hundred seventy-one and 91/100 feet.

Trees or structures standing upon or affixed to the aforesaid described land shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the land abutting on both sides of Hastings street, from Centre street to Corey street, within a maximum depth of one hundred and ten feet, will receive benefit or advantage, other than the general advantage to the community, from the improvement herein ordered, each of the particular lots within said limits to the amount respectively set against it herein; said lots and the supposed owners thereof being shown on a plan marked "City of Boston, Hastings street, West Roxbury, Assessment Plan, April 8, 1921, F. O. Whitney, Chief Engineer Street Laying-Out Department," and on file in the office of said department.

REPAIRS AFTER STREET OPENINGS—REPLY OF MAYOR TO FINANCE COMMISSION.

BOSTON 9, July 1, 1921.

HON. MICHAEL H. SULLIVAN, *Chairman,*
The Finance Commission,
410 Tremont Building, Boston:

DEAR SIR,—Replying further to your report of June 28 relative to certain street openings and their repair, I am inclosing a copy of a communication just received from the Commissioner of Public Works, commenting on the various statements in your report.

Very truly yours,

ANDREW J. PETERS, *Mayor.*

BOSTON, June 30, 1921.

To the Honorable the Mayor:

I return herewith copy of report from the Finance Commission relative to openings in the streets by public service corporations and others, in which the

commission recommends that an examination be made where permits have been granted to make openings, and that all openings found not to have been restored to their original condition be so restored as soon as possible. I beg to report that this department has been doing this since the openings of the season, and wherever an opening has not turned out satisfactorily, the person making the opening has been required to do the work over again.

As a matter of fact the work on School street which the commission commends so highly was one of the poorest patching jobs in the city, and instructions have been given previously to have this done over again. It has been my policy for some time to insist wherever an opening has been made, that the paving be "toothed" as originally laid, rather than to make a straight joint, which has been the custom heretofore.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

LAW DEPARTMENT.

BOSTON, June 30, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I hereby appoint Joseph P. Lyons Acting Corporation Counsel for four weeks beginning July 5, during such times as I may be absent from the city or away from the office.

Yours respectfully,

ARTHUR D. HILL,
Corporation Counsel.

HOSPITAL DEPARTMENT.

BOSTON, July 1, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston:

DEAR SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22, of the Revised Ordinances of 1914, Dr. Edmund W. Wilson, assistant superintendent, to act as superintendent at such times as I may be absent during the four weeks beginning July 4, 1921.

Yours respectfully,

JOHN J. DOWLING,
Superintendent.

COLLECTING DEPARTMENT.

BOSTON, July 7, 1921.

HON. ANDREW J. PETERS,
Mayor of Boston.

SIR,—I hereby designate, with your approval, under authority of chapter 3, section 22, of the Revised Ordinances of 1914, John J. McCarthy to serve as Acting City Collector at such times as I may be absent during the four weeks commencing July 7, 1921.

Respectfully yours,

E. V. B. PARKE,
City Collector.

REJECTED CLAIMS.

On July 6 the Law Department disapproved seventeen claims against the city, in eleven of which no amounts were specified, and the other six aggregated \$713.25, classified as follows: Against the Collecting Department, one, amounting to \$145; Fire Department, one, in which no amount was specified; Hospital Department, one, in which no

amount was specified; Public Works Department, fourteen, in nine of which no amounts were specified, and the other five amounted to \$568.25. All these claims have been disapproved for the reason that there appeared to be no legal liability on the part of the City.

INCREASE OF PUBLIC DEBT IN LEADING CITIES, 1908-1918 (RANKING FROM HIGHEST).

The net debt in the ten-year period increased as follows: (1) San Francisco, \$31,534,084 or 267.57 per cent; (2) Detroit, \$11,561,738 or 118.10 per cent; (3) Baltimore, \$32,797,853 or 98.40 per cent; (4) Cleveland, \$23,673,565 or 72.59 per cent; (5) Buffalo, \$13,026,177 or 61.14 per cent; (6) Pittsburgh, \$20,912,039 or 58.76 per cent; (7) Philadelphia, \$47,282,300 or 57.62 per cent; (8) New York, \$348,840,074 or 50.97 per cent; (9) Boston, \$12,596,050 or 17.11 per cent.

All of Boston's increase was Rapid Transit debt, representing a 4½ per cent investment. Omitting this, there was a decrease of \$3,849,927 or 5.23 per cent in Boston's net debt during the period stated.

PROCEEDINGS OF CITY COUNCIL.

Monday, June 27, 1921.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at two o'clock p. m., Coun. WATSON, senior member, presiding. Absent—Coun. Hagan.

4. William E. Saunders, 76 St. Andrew road, East Boston, to be a Measurer of Leather.

Severally laid over under the law.

WHARF AND COAL POCKET, LONG ISLAND.

The following was received:

Office of the Mayor,

Boston 9, June 23, 1921.

To the City Council:

Gentlemen,—I am transmitting herewith a communication from the Institutions Commissioner requesting authority to charge to the special appropriation, "Long Island, Wharf and Coal Pocket, Rebuilding, etc," the cost of repairs to the front or northwest wharf, and I respectfully recommend the passage of the accompanying order.

Respectfully,

ANDREW J. PETERS, Mayor.

City of Boston,
Institutions Department, June 15, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—January 7, 1921, the City Council passed an order, on your recommendation, to transfer the sum of \$25,000 to an appropriation for the Long Island wharf and coal pocket, rebuilding, etc.

A contract was let for the work to the George T. Rendle Company, and the repairs on the rear wharf at Long Island are nearing completion.

It is expected that there will be left a balance of about \$7,000 in the appropriation. I respectfully ask that your Honor recommend to the Council that I be authorized to repair the front or northwest wharf, the cost of repairs to be charged to the above-mentioned appropriation.

Yours respectfully,

THOMAS C. O'BRIEN,
Commissioner.

Ordered, That the Institutions Commissioner be authorized to charge the expense for repairing the front or northwest wharf at Long Island to the appropriation for "Long Island, Wharf and Coal Pocket, Rebuilding, etc."

Referred to the Executive Committee.

SPRINKLER PROTECTION, LONG ISLAND.

The following was received:

Office of the Mayor,

Boston 9, June 24, 1921.

To the City Council:

Gentlemen,—I am transmitting herewith a communication from the Institutions Commissioner requesting authority to charge to the special appropriation "Long Island Fire Protection" the expense of installing equipment in the attics of the several buildings on Long Island, so that the sprinkler heads may be protected against freezing, and I respectfully recommend the passage of the accompanying order.

Respectfully,

ANDREW J. PETERS, Mayor.

Institutions Department,

Boston 9, June 22, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—Inspectors Clayton and Wilson, who are supervising the installation of the sprinkler equipment at the Boston Almshouse and Hospital, inform me that it will be necessary, for the protection of the sprinkler heads, to heat the attics of the several buildings so that the temperature will not drop below freezing in the coldest weather.

It will be necessary to run coils of steam piping into these attics since they have never been heated at an estimated cost of not more than \$5,000.

I have consulted with the auditor as to the propriety of incurring expense for the installation of the necessary equipment, under the appropriation order passed by the City Council September 20, 1920, for \$105,000 for Long Island Fire Protection. The City Auditor informs me that it would not be a proper charge under the appropriation order as at present drawn.

I respectfully ask that you recommend to the City Council that I be permitted to advertise for proposals and complete the necessary contracts for the proper heating of the above described attics, the cost to be charged to the appropriation for Long Island Fire Protection.

Very truly yours,

THOMAS C. O'BRIEN,
Commissioner.

Ordered, That the Institutions Commissioner be authorized to charge the expense of installing additional heating apparatus at the Boston Almshouse and Hospital, in order to protect the sprinkler system from freezing, to the appropriation for Long Island Fire Protection.

Referred to the Executive Committee.

REBUILDING OF SPAN, DOVER STREET BRIDGE.

The following was received:

City of Boston,

Office of the Mayor, June 27, 1921.

To the City Council:

Gentlemen,—I am herewith transmitting a copy of a communication just received from the Commissioner of Public Works relative to the appropriation of \$40,000 for rebuilding the middle span of the Boston approach of the Dover Street Bridge. As the work is of an emergency nature, I recommend the immediate passage of the accompanying order.

Respectfully yours,

ANDREW J. PETERS, Mayor.

Public Works Department,

Boston 9, Mass., June 27, 1921.

To the Honorable the Mayor:

I respectfully request that an appropriation of \$40,000 be made for rebuilding a section of Dover Street Bridge, which was destroyed by fire two weeks ago.

I recommend that this sum be made available at once, in order that the work may proceed, as the street is now closed to public travel.

Yours respectfully,

T. F. SULLIVAN,
Commissioner of Public Works.

Ordered, That the sum of \$10,000 be appropriated, to be expended by the Commissioner of Public Works, for rebuilding Dover Street Bridge, and that to meet said appropriation the City Treasurer be authorized, from time to time, on the request of the Mayor, to issue bonds or certificates of indebtedness of the City of Boston to said amount.

Referred to the Executive Committee.

REFECTORY PRIVILEGE, FRANKLIN PARK.

The following was received:

City of Boston,

Office of the Mayor, June 27, 1921.

To the City Council:

Gentlemen,—In accordance with the order passed by the City Council on May 16 relative to the granting of the privilege at the refectory building in Franklin Park, the Park Department has prepared a report, copy of which I am herewith transmitting. I trust this is the information you desire.

Respectfully yours,

ANDREW J. PETERS, Mayor.

City of Boston,

Park Department, June 24, 1921.

Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—I have your memorandum of June 20 relative to the City Council order dated May 16, asking that the Board of Park Commissioners be requested to furnish, through your Honor, more information relative to the granting of the privilege at the refectory building at Franklin Park, and also what the policy of the Board is with relation to the granting of like privileges.

As the concessions let for a number of years back by public advertisements at Franklin Park and Marine Park have been very badly managed, resulting in poor service and poorer material furnished to the public who patronized them, particularly the young children, the Park Commissioners have voted to request the Women's Educational and Industrial Union to take over the refreshment privilege at Franklin Park without remuneration to the city. This privilege, it is understood, is to continue for six months during the present summer. If the results obtained are satisfactory, the commission may vote to continue the privilege for a longer time if the Women's Educational and Industrial Union are in a mind to continue the work.

It is possible that arrangements can be made with the same organization to take over the work at Marine Park headhouse. No arrangements, however, have yet been made to do this.

No other concession has been considered by the Board as yet, for the reason that the present arrangement is considered more as an experiment. The Women's Educational and Industrial Union furnishes the children of the public schools food and refreshments at a low cost and we hope that the public, particularly the children, may in this way get nourishing food and good refreshments and clean, sanitary service.

Very truly yours,

JAMES B. SHEA,
Chairman.

LIGHTING FACILITIES, FANEUIL HALL MARKET.

The following was received:

City of Boston,

Office of the Mayor, June 14, 1921.

To the City Council:

Gentlemen,—A number of weeks ago a committee of the Faneuil Hall Marketmen's Association called on me to request better lighting facilities and other improvements in the market district. Not only was I much impressed by their presentation of their case, but at a later time I visited the market district to see conditions for myself, and was convinced that their request was a fair one.

I am attaching copies of a communication from the Superintendent of Markets outlining the work to be done, and also from the Superintendent of Public Buildings, stating

that he will undertake the work, which it is estimated will cost \$5,350.

I am certain that the installation of the new lights will mean not only improved conditions for the marketmen, but a real benefit to those of our citizens who patronize them, while the other improvements enumerated in the letter from the Superintendent of Markets are absolutely essential for the comfort of patrons. I recommend the immediate passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Market Department, May 31, 1921.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—At a hearing of the Faneuil Hall Marketmen's Association given by you at your office in March of this year, concerning an electric light sign and better lighting around both markets, also two new doors at entrances to the market and a new awning around Faneuil Hall Market, and some other minor repairs. I submit the following figures received by me from the Superintendent of Public Buildings: Electric illuminating sign installed at Merchants row entrance to the market, \$850; installing two 200-watt unit fixtures at each end of the market; installing nine lights with steel reflectors, three on the north side, three on the south side, three on the west side; furnish and install three 200-watt unit fixtures in doorways and entrances of the market house. In connecting whole lighting systems now in use with house lighting, present wiring will be used as far as possible. This estimate covers all additional material to install complete system of wiring markets and furnish all labor, \$950. Two new up-to-date doors, \$1,100. This includes removing of bulkheads now used as entrances, new awning around Faneuil Hall Market of No. 24 gauge galvanized corrugated iron on all four sides, renewing No. 2 by 2 by 3-16 angle irons and circular gutters where necessary, painting with one coat of best red lead and oil after erection, \$1,950. This price includes carting away of old material. For other minor repairs, \$500. Total, \$5,350.

Respectfully yours,
PATRICK J. MCGOURTHY,
Superintendent of Markets.

City of Boston,
Public Buildings Department, June 13, 1921.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—Replying to the inclosed memorandum from your office and letter of the Superintendent of Markets, having reference to certain improvements in the market district, I wish to say that when I furnished these estimates to the Superintendent of Markets I told him that there was no provision in my budget for making these repairs and until such time as the appropriation was provided I would be unable to undertake the work.

I can assure you if said appropriation is forthcoming I will order the work immediately and it will probably take three or four weeks' time to complete same.

Respectfully yours,
FRED J. KNEELAND,
Superintendent of Public Buildings.

Ordered, That the sum of \$5,350 be appropriated, to be expended by the Superintendent of Public Buildings, for electric lighting, awning, doors and other improvements in Faneuil Hall Market, and that to meet said appropriation the City Auditor be and hereby is authorized to transfer this amount from the Reserve Fund to a special appropriation for Faneuil Hall Market, Improvements.

QUALITY OF GAS LIGHT FURNISHED CITY.

The following was received:

Office of the Mayor,
Boston 9, June 14, 1921.

To the City Council:

Gentlemen,—In accordance with the order passed by the City Council on May 16, the Law Department has had a test made of the quality of the light furnished the City of Boston by the Boston Consolidated Gas Company.

I am herewith attaching for your information copies of the report of the Corporation Counsel submitting the results of the tests made.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Law Department, June 10, 1921.
Hon. Andrew J. Peters,
Mayor of Boston:

Dear Sir,—In accordance with your request to enforce Article 7 of the contract of

agreement between the Boston Consolidated Gas Company and the City of Boston (Document 74 of 1914), as requested by the City Council's order of May 16, 1921, which is as follows:

"Ordered, That his Honor the Mayor be requested to direct the proper department to enforce Article 7 of the contract of agreement between the Boston Consolidated Gas Company and the City of Boston for the lighting of the streets and public ways of the city by gas light.

Passed.
Attest: W. J. DOYLE,
Assistant City Clerk."

I selected Charles D. Jenkins, chief gas inspector of the Department of Public Utilities, to make the necessary tests of the street lamps, Cornelius Lee, inspector of the Street Lighting Service, having selected the lamps to be tested, and I herewith inclose their reports of the tests.

Very truly yours,
ARTHUR D. HILL,
Corporation Counsel.

City of Boston,
Public Works Department, June 9, 1921.
Mr. Arthur D. Hill,
Corporation Counsel:

Dear Sir,—At the request of the Assistant Corporation Counsel, Mr. Joseph P. Lyons, twenty gas lamps situated in different parts of the city were selected by me to be tested on the eve of June 3, 1921. The lamps are as follows:

4 out of 11 on Girard street, Roxbury.
4 out of 9 on Pleasant street, Dorchester.
4 out of 12 on Hamilton street, Dorchester.
4 out of 11 on Norfolk street, Dorchester.
4 out of 9 on Burroughs street, Jamaica Plain.

These lamps were tested by Mr. Charles D. Jenkins, chief inspector of the Public Utilities Commission, State House, representing the City of Boston, and also by Mr. F. V. Westermaier, representing the gas company, in the presence of Dr. J. F. Wing, engineer of research of the gas company; Mr. F. M. Goodwin, engineer of distribution of the gas company, and Mr. Cornelius Lee, inspector of the Street Lighting Service, City of Boston.

Results were as follows:

First lamp was tested at 9.40 p. m. on eve of June 3 and the last lamp was tested on the morning of June 4, 2.03 a. m.

Gas Inspection Division,
June 7, 1921.

Arthur D. Hill, Esq.,
Corporation Counsel, City of Boston:
Sir,—This is the report of an examination made during the night of June 3 and 4, 1921, of the candle power of certain incandescent gas street lights in Boston.

By the provisions of section 7, Document 74, 1914, "Contracts with the Boston Consolidated Gas Company . . ." the City may at any time require the contractor to employ a competent person, acceptable to both parties, to examine the apparatus employed in furnishing the lighting service, to ascertain whether or not the contractor is complying with the terms of the agreement. At the request of both parties I examined a number of lights and determined the light given in a horizontal direction as expressed in candle power.

The tests took place during the night of June 3 and 4, 1921, between 9.40 p. m. and 2.05 a. m.

I tested the candle power of five groups of four lights each, the particular lights being designated by the inspector of street lighting, Mr. Cornelius Lee. The streets on which are located the lights are: Girard, off Massachusetts avenue; Pleasant, off Cottage; Hamilton, off Columbia road; Norfolk, off Morton, and Burroughs, off Centre street.

The method used was to reflect the light through a tubular box to the test plate of a Sharp-Millar photometer. The tube and reflector were hung on the lamp-post and the light measured through the globe, thus measuring the light as given under actual service conditions. The system, reflector, tubular box, test plate and photometer were calibrated by me and a value found and used expressed in international candles.

The agreement calls for a light of not less than sixty horizontal candle power. Fifteen of the lights gave a candle power exceeding sixty candles in a horizontal direction; the remaining five fell below sixty candle power on the first test, but exceeded sixty candle power after regulation. The average candle power for the twenty lights as found was 63.9 and ranged from 42.8 to 78.2 horizontal candle power. The details follow:

Girard Street, Roxbury District.

Second light on right from Massachusetts avenue:

53.9 horizontal candle power.
62.6 horizontal candle power, 20 minutes later.

Second light on left:
61.8 horizontal candle power.

Third light on right:

BRANCH LIBRARY CONSTRUCTION, WEST ROXBURY.

The following was received:

City of Boston,
Office of the Mayor, June 25, 1921.
To the City Council:

Gentlemen,—I am herewith transmitting a communication from the Superintendent of Public Buildings relative to bids received for the construction of the branch library in the West Roxbury district.

In accordance with the request of the Superintendent of Public Buildings, I recommend the passage of the accompanying order.

Respectfully yours,
ANDREW J. PETERS, Mayor.

City of Boston,
Public Buildings Department, June 22, 1921.
Hon. Andrew J. Peters,

Mayor of Boston:

Dear Sir,—The Public Buildings Department publicly opened and read bids at 12 m. today for the erection and completion of the Branch Library, West Roxbury, with the following result:

Joseph Rugo	\$53,718
Howard Brothers	58,142
M. Serretto	58,900
Blake & Pope	61,400
Walsh Brothers	62,474
John Bowen Company	63,000
Leighton-Mitchell Company	63,945
Thomas O'Connor & Co.	64,327
C. S. Cunningham & Sons Construction Company	64,688
J. E. Locatelli Company, Inc.	72,975
Archdeacon & Sullivan	72,995

For your further information I wish to say that there is an appropriation in the sum of \$55,000 for this work and the contract could not even be awarded to the lowest bidder and keep within the appropriation on account of the incidentals, such as architectural fees, etc., and I would suggest to you, if it suits your pleasure, that there be an added appropriation in the sum of \$10,000 provided, in order that the work may be carried on to completion.

Respectfully yours,
FRED J. KNEELAND,
Superintendent of Public Buildings.

Ordered, That the sum of \$10,000 additional be appropriated, to be expended by the Superintendent of Public Buildings, for the erection of a building for the West Roxbury Branch Public Library, and that to meet said expenditure, the City Treasurer be authorized to issue, from time to time, on the request of the Mayor, bonds or certificates of the City of Boston to said amount.

Referred to the Executive Committee.

NEWSPAPER COMMENTS ON NAMING SQUARES.

Coun. WATSON—Mr. Chairman, I rise for the purpose of having recorded on the minutes of the Council two editorials pertaining to the action of this body on the naming of squares after those who passed away in the late war. One commends our attitude and the other condemns it, and I think, as a matter of record, we ought to have them both on file and in the record. Therefore I ask that permission be granted to print them in the record.

President FORD—There being no objection, the editorials or excerpts will be printed.

The editorials referred to by Coun. Watson are as follows:

(Editorial from the *Herald* of June 8.)

"OUR NEW CITY SQUARES.

"We have received letters questioning the taste of naming street intersections, mis-called squares, in honor of the boys who died in the great war. Though we lack the space to print these communications, we would like to reassure their writers that no organic results will follow these designations and that in view of the type of statesmanship now dominant in our City Council, they should rejoice that it has not undertaken a more sweeping revision of the nomenclature of our thoroughfares.

"The Mayor has not allowed the City Council to rename any existing street or square. This is important. Other communities have not always adhered to such a rule. In Salt Lake City a generation ago the Mormons and the Gentiles ran a spirited race for a control which carried with it the naming of the streets. Just as we turn out Democratic office holders to put in Republicans, when there is a change in Federal administration, the rival factions in Salt Lake City changed the names of the streets on a corresponding overturn. Why not? Is not honor more than the emoluments of office?

"Our city has wisely decided to adhere to established designations, and to plaster the new names only on places which, not already named have no use for a name. James F. Mahoney square, for example, to the south of us, serves no purpose of designation. The Little Building will still be known as at the corner of Boylston and Tremont streets. The Touraine Hotel has not re-embossed its stationery with the name James F. Mahoney square, or even announced that it is the finest hotel on James F. Mahoney square, which would have the virtue of under-statement. Nor have the Tremont street merchants adopted as designations the number of doors they are north of James F. Mahoney square. It is the same way with Laban S. Beecher square, named in the olden times in Roxbury. Not one in ten of our readers know where it is. Nor is it a square! Under the new baptisms we now have three Kennedy squares in Boston—with different first names, to be sure—but it would be a catch question to ask a class in geography to give their locations.

"In Mexico City the street names often change with each block. Our City Council might have done that here, in addition to renaming our old-time thoroughfares. By giving a new name to each block what a large number of the soldiers of the late war our councilmen could recognize. That they did not do that we may be profoundly thankful. With the precedent of Mexico and Salt Lake City before them, our councilmen might have offended egregiously against community convenience. They have not done so yet.

"Nor need we be deeply moved by the criticism of some of our correspondents that there is not an adequate distribution of racial groups; that the Italians, for example, have not squares enough named for them. Or the Polish boys have been forgotten! That French-Canadian valor seems overlooked! Never mind! When the majority of the city becomes Italian stock it will be time enough to call the crossings of Washington and Winter streets, now modestly known as Shuman's corner, Tetrassini square. Let time work out its own problems. Let us be cheerful over its present dispensations of favor to us!"

(Editorial from the *Boston Telegram* of June 9.)

"THE NAMES OF SOLDIERS.

"It is sorrowing to find that some Boston newspapers are offended because the names

of boys, who gave up their lives in the service of their nation in France, have been bestowed upon the intersection of Boston streets.

"What an affront it must be to these newspapers to find that the name of the son of an immigrant is emblazoned in gold upon a street marker!

"How disconcerting and disturbing it is to those who consider they have a mortgage upon Boston and her streets and her public places, to find that one, who bears a name which grates upon their ears, is honored as a hero.

"It is too bad indeed that the City Council has honored the boys who went out from Boston to serve their country and who gave all they had, even life, for their city and their nation.

"Whose name should be placed in public places?

"Whose name should be substituted for those who died?

"Should the alleged aristocratic critics be given honor simply because in their own petty group they are considered as brahmins and as cultured?

"Do they consider the soldiers and sailors as mercenaries who are to be thrown \$30 a month and who must then thank those who pay, and consider themselves adequately rewarded?

"The same nasty opposition that rears its reptilian head against naming streets and squares for service men, fights the bonus for veterans.

"The opponent of honor and reward and justice to service men are those hand-shakers who thronged the streets as the men went out to war and wildly cheered because they knew the departure of these boys insured their own skins against danger.

"No, Boston's squares should not be named for boys who died in France; they should be named after those shirt fronts who are always in the front rank of every procession except those processions which lead to sacrifice."

RECESS TAKEN.

The Council voted at 2.39 p. m., on motion of Coun. WATSON, to take a recess subject to the call of the President.

The members of the Council reassembled in the Council Chamber and were called to order by the President at 3.03 p. m.

MUNICIPAL SERVICE.

Complaints, inquiries or suggestions regarding the work of municipal departments should be made in writing to the officials directly in charge. The failure of such officials to make reply within a reasonable length of time should be brought to the attention of the Mayor. Communications should be directed as follows:

TO THE BOARD OF STREET COMMISSIONERS, Room 401, City Hall Annex, for information relative to the laying out, relocation, widening and the discontinuance of highways; the taking of real property for municipal purposes; the assessments of betterments for streets and sewers; the plotting of undeveloped areas for streets and the opening of private ways; the granting of licenses for the storage or sale of merchandise in public streets; the regulation of street traffic; the making of specific repairs in public streets, the naming of public streets, the planting and removal of trees in public ways, the issuing of licenses for the storage of gasoline, oil and other inflammable substances or explosive compounds, the use of the public ways for any permanent or tem-

porary obstruction or projection in, under or over the same, including the location of conduits, poles and posts for telephone, telegraph, street railway or illuminating purposes, signs, marquises, bay windows, coal holes and vaults.

TO THE COMMISSIONER OF PUBLIC WORKS, Room 511, City Hall Annex, for information as to the watering, cleaning, lighting and repairing of streets, the construction and care of sewers and catch-basins, the operation of the ferries, the maintenance of bridges and drawbridges and the removal of ashes and offal.

To Room 604, City Hall Annex, for information relative to the supplying or metering of water and the water charges of the city.

TO THE HEALTH DEPARTMENT, Room 1107, City Hall Annex, for information relative to the inspection of milk, vinegar, meat, fish and vegetables, the issuance of permits for stables, slaughter houses, etc., smoke nuisances, the existence of contagious diseases or public health nuisances.

TO THE BOARD OF PARK COMMISSIONERS, 33 Beacon street, for information as to the care of the Common, Public Garden, Franklin Park, Franklin Field, Commonwealth avenue, Back Bay Fens, Marine Park and the small parks and playgrounds in general throughout the city, and as to the extermination of gypsy moths and the charges made for such service. Application may be made to this department for information regarding the public baths and gymnasiums maintained by the city, and with regard to municipal indoor concerts and band concerts; also information relative to Mount Hope, Evergreen, Fairview and other public cemeteries owned by the City of Boston.

TO THE SCHOOL COMMITTEE, 26 Mason street, for information relative to the operation of the schools of the city.

TO THE SCHOOLHOUSE COMMISSIONERS, Room 1007, City Hall Annex, for information as to the construction and repair of school buildings.

TO THE BOARD OF EXAMINERS, Room 1001, City Hall Annex, for information regarding the licensing of persons having charge or control of the work of construction, alteration, removal or tearing down of buildings.

TO THE WIRE DIVISION OF THE FIRE DEPARTMENT, Room 905, City Hall Annex, for all information relative to the erection of poles, the building of conduits, the installation of wires and electrical apparatus. Also to the same office for permits for the installing of wires and electrical apparatus within buildings in the City of Boston, and for the payment of fees incident to the granting of the privileges above named, and which must invariably be paid in advance.

MUNICIPAL CALENDAR.

Meeting of the City Council, Monday, July 25, at 2 p. m.

Meetings of the Transit Department are held Wednesday of each week at 2.30 p. m.
